

NOTICE OF PUBLIC HEARING

ON POTABLE WATER, RECYCLED WATER AND SANITATION SERVICE RATES

Dear Customer,

August 30, 2012

In compliance with Proposition 218, Las Virgenes Municipal Water District (LVMWD) is informing you that a public hearing will be conducted by the Board of Directors at the District Headquarters office, 4232 Las Virgenes Road, Calabasas, CA on Monday, October 22, 2012 at 6 p.m. to hear public comments and to consider proposed potable water, recycled water and sanitation rate increases contained in this notification. The proposed rate structure for sanitation may result in a rate reduction for some customers.

Las Virgenes Municipal Water District is entirely dependent upon potable water supplied by the Metropolitan Water District of Southern California (MWD); there is no local potable water source. Recently, MWD adopted increases in water rates to its member agencies that will become effective January 2013 and January 2014. There is also an undetermined increase expected in January 2015; this notice informs you of LVMWD's intent to "pass through" that increase in conformance with Government Code 53756. The main cause for MWD increasing its rates is the repair and replacement of aging infrastructure. In the next 2 years, 60% of MWD's capital improvement budget will fund maintenance of the State Water Project that conveys water from Northern California to LVMWD and other agencies. In addition to the increased costs from MWD, Las Virgenes Municipal Water District is increasing its rates to cover operation and maintenance expenses which include labor, utilities, supplies, contracted services and administration. Documentation is provided in the FY12/13 Budget and the 2012 LVMWD Utility Rate Study prepared by Raftelis Financial Consultants, Inc. Both documents are available on the District's website for review.

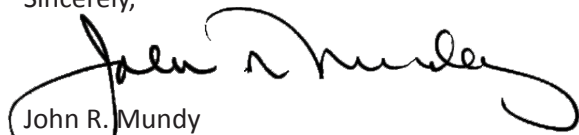

Proceeds from sanitation service charges are used for sewage collection, wastewater treatment and biosolids composting. Under the rate structure proposed to take effect January 2013, single family residential customers will pay for sanitation service based on winter season water use, during typically lower-demand months. Low volume single-family residential water users may see a reduction in their sanitation bill while other customers, including multi-family residential dwellings, will have an increase.

Recycled water revenues are used for the maintenance and operation of the recycled water distribution system. Recycled water is currently priced at about 80% of the potable water rate. To keep in step with rising operation and maintenance costs, an annual consumer price index (CPI) adjustment is proposed.

The LVMWD Board of Directors will evaluate the District's needs annually and if conditions warrant, possibly reduce or forego scheduled rate increases as it did for sanitation in 2007 through 2012. The scheduled rate increases were reduced by 9% over five years.

You will find more detail on the need for rate adjustments under "Frequently Asked Questions". Prior to the public hearing, if you have any questions or comments regarding LVMWD's proposed rate adjustments, please contact the District at generalmanager@lvmwd.com; by telephone at (818) 251-2200 or by mail to General Manager, LVMWD, 4232 Las Virgenes Road, Calabasas, CA 91302.

Sincerely,

John R. Mundy
General Manager

POTABLE WATER

READINESS TO SERVE CHARGE

Cost of meter reading, maintenance, billing and customer service (also known as "fixed meter charge")

Meter Size	Current	Proposed		
		1/1/2013	1/1/2014	1/1/2015
3/4"	\$27.40	\$28.77	\$30.21	\$31.73
3/4" x 1"	\$27.40	\$28.77	\$30.21	\$31.73

ELEVATION CHARGE

Cost of pumping water to higher elevations per hcf¹

Zone	Current	Proposed		
		1/1/2013	1/1/2014	1/1/2015
Zone 1	n/a	n/a	n/a	n/a
Zone 2	\$0.36	\$0.38	\$0.40	\$0.42
Zone 3	\$0.62	\$0.66	\$0.70	\$0.74
Zone 4	\$1.09	\$1.15	\$1.21	\$1.28
Zone 5	\$2.19	\$2.30	\$2.42	\$2.55
Temporary	Elevation charge 1.5 times zone charges above.			

Note:

- The elevation charge is determined by the highest zone the water is pumped to prior to reaching the customer.

RECYCLED WATER

COMMODITY CHARGE

Cost of water per hundred cubic feet (hcf)

Tier	Current ¹		Proposed		
	Las Virgenes Valley	Western System/ Calabasas ²	1/1/2013	1/1/2014	1/1/2015
Tier 1	\$1.04	\$1.27	Increase each year using Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers (CPI-U); Los Angeles, Riverside-Orange Counties, CA; Commodity and Service Group All Items. Use CPI percent change for 12-month period ending in October of the previous year.		
Tier 2	\$1.36	\$1.59			
Tier 3	\$2.16	\$2.39			
Tier 4	\$3.36	\$3.59			
Temporary ³	\$5.04	\$5.39			

Notes:

- "Readiness to serve" charge does not apply to recycled water service.
- These rates include the additional cost for pumping.
- Temporary rates are 1.5 times tier 4 rate.

COMMODITY TIER RANGES FOR POTABLE AND RECYCLED WATER (NO CHANGE)

COMMODITY TIERS

Tiers in hundred cubic feet (hcf)

Tier ¹	Account Type			
	Single Family Residential	Multi-Family Residential ²	Commercial and Irrigation ³	Recycled Water ³
Tier 1	First 16	First 12	First 85	First 85
Tier 2	Next 51	Next 2	Next 270	Next 270
Tier 3	Next 133	Next 10	Next 705	Next 705
Tier 4	Over 200	Over 24	Over 1,060	Over 1,060

Notes:

- To determine the cost of water service, multiply the commodity charge times the water allowance in each tier in this table. For potable water only, add the "readiness to serve" charge.
- For each dwelling unit.
- For 2" meter. Refer to www.LVMWD.com for other meter sizes.

SANITATION

SANITATION SERVICE CHARGE

Cost of sewage collection, wastewater treatment and biosolids composting

For single family residences, the proposed billing method uses the customer's average winter water use from December 1 through March 31. Water use in this period determines the sanitation bill for the full fiscal year that follows. The principle is that there is less outdoor use during those months, which approximates indoor water use that flows as sewage to the treatment plant. This method replaces the existing 10% sanitation rate discount, which applies only when bimonthly usage is 16 hcf or less during a given billing period. Under the proposed plan, customers who use 10 hcf or less bimonthly will see a 24% reduction (refer to example 2 in FAQ). Those who use 11 to 14 hcf will see up to an 18% reduction on a sliding scale. Those who use 15 or 16 hcf will see an increase of 6% and 12%, respectively, due to the elimination of the current 10% discount (refer to example 3 in FAQ). For water usage above 16 hcf, there will be a nominal 1% increase. If the proposed plan is adopted, average winter water use from December 1, 2011 to March 31, 2012 will be used to determine rates scheduled to become effective January 1, 2013.

The 10% sanitation rate discount will be eliminated for all multi-family residences. That discount applied only when usage was 12 hcf or below during a two-month billing period. Those who previously saw this discount will see an increase of up to 12%. However, multi-family residential customers will continue to pay 27% less than the base for single family residential accounts.

No sanitation rate adjustment is proposed for fiscal year (FY) 2013/2014. A 2% increase is scheduled for January 1, 2015, but subject to review by the LVMWD Board of Directors prior to becoming effective.

Current		Proposed			
		Winter Water Use (hcf)	1/1/2013	FY 13/14	FY 14/15
Single-Family	\$108.00 flat rate ¹	10 or less	\$74.31	\$74.31	\$75.80
		11	\$80.02	\$80.02	\$81.63
		12	\$85.73	\$85.73	\$87.45
		13	\$91.44	\$91.44	\$93.27
		14	\$97.15	\$97.15	\$99.10
		15	\$102.86	\$102.86	\$104.92
		16 or more	\$108.56	\$108.56	\$110.74
Multi-Family	\$68.03 flat rate ²	n/a	\$68.59	\$68.59	\$69.97

Notes:

1. A 10% discount applies if potable water usage is 16 hcf or less (\$97.20 bimonthly). There is no discount under the proposed rates.
2. A 10% discount applies if potable water usage is 12 hcf or less (each dwelling unit at \$61.23 bimonthly). There is no discount under the proposed rates.

Charges		Current	Proposed		
			1/1/2013	FY 13/14	FY 14/15
Commercial	Fixed Charges				
	Account Service Charge	\$17.21	\$17.21	\$17.21	\$17.56
	Per ERU ³ Charge	\$90.79	\$91.35	\$91.35	\$93.18
	Variable Charge ⁴				
	Class 1 (in excess of 29.5 hcf)	\$3.08	\$3.10	\$3.10	\$3.16
	Class 2 (in excess of 17.3 hcf)	\$5.25	\$5.29	\$5.29	\$5.39
	Class 3 (in excess of 11.4 hcf)	\$7.96	\$8.02	\$8.02	\$8.18
	Class 4	As determined by the General Manager			
Notes:					
3. ERU is Equivalent Residential Unit or the water use pattern of a typical single family residence.					
4. Sewage class depends on the type of business, please call the District for details.					

All tables present the proposed rate changes for potable water, recycled water and sanitation service based on bimonthly service billing. To see how the proposed rates will affect you, use the on-line calculator at: www.LVMWD.com. You will be asked to enter information found on your most recent bill.

FREQUENTLY ASKED QUESTIONS

Q: What has LVMWD done to control its expenses?

A: Cost cutting measures include a freeze on employee salaries over the last three years, elimination of 10 staffing positions in the last two years, a reduction in pension costs, paying off bonds in 2009 to save \$4M and controlling operating costs. We have also implemented revenue enhancements which include rental income, cell site leases and investments.

Q: With the slow economy, is this the right time to propose rate increases?

A: LVMWD has made every effort to keep the proposed increases to a minimum. Over the last five years, the District has drawn from its cash reserves to keep rates at a lower level. That practice is not sustainable given the upcoming increases in the cost of wholesale water and other supply and material costs.

Q: How does LVMWD's water rate schedule compare to other agencies in the region?

A: LVMWD's rates are the lowest among those of surrounding water agencies and that includes both public and private utilities in Los Angeles and Ventura Counties. If the water rate changes proposed in this notice are adopted as presented, LVMWD's rates will still rank as the lowest. See page 6.

Q: Why is my sanitation bill so high?

A: LVMWD operates the Tapia Water Reclamation Facility where your sewage flow goes. It has very stringent and costly state-mandated operating requirements like avoiding the discharge of treated recycled water to Malibu Creek seven months every year. Neighboring agencies and cities do not have similar requirements. A relatively small number of customers share this cost. However, the newly proposed rate schedule takes into account lower volume water users and some homeowners may see a reduction in their sanitation rates. See page 7.

Q: I used to get a 10% sanitation service discount for bimonthly water use at or below 16 hcf (single family residential) or 12 hcf (multi-family residential per dwelling unit) and I won't under the proposed rate. Why?

A: The new rate structure aligns multi-family with the new single family residential accounts by not providing the discount. The multi-family charge is based on 2.5 people per unit compared to 4 for a single family residence which is the basis for a 27% difference. The proposed rate structure is revenue neutral which means that no extra revenues are generated for the District. The rate change means that all residential

customers pay on the same basis which could amount to a 6% to 12% increase for some.

Q: Do you plan to use funds from these increases to build new facilities?

A: The District's capital improvement program is funded from a reserve account that has been accumulated over time for the purpose of major system improvements. Some of these funds have come from developer's fees, others have been from a portion of water rates intended to pay for maintaining the system. The District's current capital improvement program is adequately funded through 2015. At the end of this proposed rate schedule, some revenue will be needed to rebuild the reserve. The proposed increases are only expected to cover a deficit in operating revenues over operating costs.

Q: Why don't you borrow to fund capital projects? And why build projects now?

A: Borrowing adds unnecessary cost to a project. Instead, the District has a "pay as you go" approach to projects, using funds already in hand. Because of the slower economy, this is a favorable time to build needed facilities. Contractors are eager to get the work and bids have been very competitive.

Q: During the drought, we reduced our water use and now you're proposing higher rates. Aren't we being penalized for being efficient?

A: No. Regardless of the amount of water you use, there are many "fixed" costs in providing water service like water quality testing, backflow prevention, providing customer service, permits, promoting conservation programs, billing and accounting, maintenance of facilities, etc. However, when the wholesale cost of water increases, the District no longer has the ability to absorb the higher costs because water is more than 60% of the total operating budget. As previously explained, LVMWD has implemented cost cutting measures where they make sense.

Q: Would we save money by closing the Compost Facility and trucking the biosolids elsewhere?

A: The portion of your current sanitation bill to operate the composting process is \$2.75 per month. The other processes at the facility, like biosolids digestion and dewatering are necessary whether or not composting continues. Digestion is required by regulations and dewatering reduces the volume of material handled. Without dewatering, there would be an enormous expense to dispose of the biosolids elsewhere. A truck loading facility would need to be built to accommodate the trucking operation. Composting

FREQUENTLY ASKED QUESTIONS *(continued)*

provides a local solution to waste materials generated in our region, with the added feature of creating a product that can be beneficially reused by area residents at no additional cost to them.

Q: Can you negotiate better rates from Metropolitan, LVMWD's wholesale provider?

A: The Metropolitan Water District of Southern California (MWD) is also a public entity and LVMWD is a member agency of that organization, with a seat on its board. MWD sets its rates in order to meet the challenges of providing safe, reliable supplies of water to some 19 million Southern California residents. Like LVMWD, they have reduced staff and made efforts to reduce costs but building, maintaining and securing a sustainable water supply from the State Water Project and the Colorado River have significant costs that cannot be avoided. The aging infrastructure that brings water to our region needs major repairs and in some cases, replacement.

Q: We live near the ocean. Can't we look into desalination as a lower-cost water source?

A: There is a huge capital cost to build and operate a desalination facility. Current cost for desalted water is about \$1,900 per acre-foot (AF) excluding the cost to convey the water to our area. Although the technology is improving, it is still an expensive water supply alternative when compared with the \$794 per AF cost of fully treated water from the Sacramento-San Joaquin Delta supplied by MWD. Beside the considerable financial obstacles, there are concerns with siting, brine disposal, energy use and other environmental issues. Desalted water may eventually become part of MWD's overall supply portfolio but it is not a cost-effective project for small agencies like LVMWD to undertake.

For water conservation information, please visit our website, www.LVMWD.com or www.bewaterwise.com.

Q: How will the proposed rates affect me?

SINGLE FAMILY HOME (average water use)	EXAMPLE 1: District average water use of 55 hcf bimonthly; assume winter use is 44 hcf; ¾" water meter			
	Current	1/1/2013	Difference, %	Difference, \$
Water bill	\$139.73	\$152.88	9% increase	add \$13.15
Sanitation service bill	\$108.00	\$108.56	1% increase	add \$0.56
Total bill	\$247.73	\$261.44	6% increase	add \$13.71
SINGLE FAMILY HOME (low water user)	EXAMPLE 2: Assume winter water use of 10 hcf; ¾" water meter			
Water bill	\$45.20	\$48.57	7% increase	add \$3.37
Sanitation service bill	\$97.20 ¹	\$74.31	24% decrease ²	less \$22.89
Total bill	\$142.40	\$122.88	14% decrease	less \$19.52
SINGLE FAMILY HOME (affected by elimination of 10% sanitation discount)	EXAMPLE 3: Assume winter water use is 16 hcf; ¾" meter			
Water bill	\$55.88	\$60.45	8% increase	add \$4.57
Sanitation service bill	\$97.20 ¹	\$108.56	12% increase	add \$11.36
Total bill	\$153.08	\$169.01	10% increase	add \$15.93
SINGLE FAMILY HOME (high water use)	EXAMPLE 4: Assume winter water use is 200 hcf; ¾" meter			
Water bill	\$567.19	\$618.89	9% increase	add \$51.70
Sanitation service bill	\$108.00	\$108.56	1% increase	add \$0.56
Total bill	\$675.19	\$727.45	8% increase	add \$52.26
MULTI-FAMILY DWELLING AND COMMERCIAL	Due to account differences, the on-line calculator is available at www.LVMWD.com for multi-family accounts. Commercial accounts should call (818) 251-2200 for assistance.			
Note:				
1. 10% discount applies for usage of 16 hcf or below.				
2. 31% decrease if water usage at other times was greater than 16 hcf; i.e. sanitation bill = \$108.00.				

Many factors affect the cost of providing potable water, recycled water and sanitation service. Costs vary among providers because many conditions differ from one area to another. Providers may be private entities operated for profit and regulated by the CPUC or public agencies required to establish rates based on the cost of service. The following tables only provide the cost of service to the customer, not the special conditions that they operate under. In water, some agencies have access to multiple sources of water like groundwater or the Eastern Sierras in the case of the City of Los Angeles, or

proximity to their water supplier. LVMWD relies solely on imported water from MWD and has no alternate source. In sanitation, the cost depends upon the level of treatment required for wastewater, the number of customers sharing the expense and conditions required by operating permits. Unlike other agencies, LVMWD has a unique permit condition that prohibits discharge of fully (tertiary) treated recycled water from the Tapia Water Reclamation Facility to Malibu Creek for seven months every year. The comparison surveys were completed on July 19, 2012 and do not reflect proposed rate increases by other agencies.

WATER RATES COMPARISON

WATER AGENCY	Units of water (hcf ¹) per bimonthly billing			
	28	70	110	250

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF. (L)
2. Pursuant to Decision 13-05-011, a surcharge of \$0.082 per Ccf will be applied to all metered customer bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account. (L)
3. As authorized by the California Public Utilities Commission, an amount of \$0.250 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1513-W, which is March 29, 2013. This surcharge will recover the undercollection in the WRAM/MCBA Balancing Accounts through December 31, 2012. The surcharge will not apply to customers in Morongo Valley and Wrightwood.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1543-W, which is October 24, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
5. As authorized by the California Public Utilities Commission, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1561-W, which is March 31, 2014. This surcharge will recover the under collection in the WRAM&MCBA Balancing Accounts through December 31, 2013. (D)
7. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA, which is July 1, 2014. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (T)
8. Beginning June 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.0329/kWh, an increase in purchased water of \$0.0714/Ccf, and an increase in Pump Tax of \$0.02989/Ccf, relative to the Purchased Power, Purchased Water, and Pump Tax costs adopted by Decision No. 13-05-011, and an associated revenue increase of 2.24%, are being tracked in a reserve account. This surcharge will recover the under-collection recorded in the City of Torrance Balancing Account.
6. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.264 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1542-W, which is October 18, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
7. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA, which is July 1, 2014. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (T)
8. Beginning July 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.04092/kWh, an increase in purchased water of \$0.15457/Ccf, an increase in Pump Tax of \$0.05510/Ccf and a decrease in Leased Water of (\$0.01692)/Ccf, relative to the Purchased Power, Purchased Water, Pump Tax and Lease Water cost adopted by Decision No. 13-05-011, and an associated revenue increase of 2.64%, are being tracked in a reserve account. (N)
(N)
(N)
(N)

(Continued)

The commodity charge is measured in increments of cubic feet. One cubic foot is 7.48 gallons of water. Each unit of water is billed as 100 cubic feet or 748 gallons. One hundred cubic feet is commonly referred to as CCF.

Service Size	Units	Rate (per CCF)
(a) 5/8" - 1" meter	0-12 ccf	\$ 1.007
	Over 12 ccf	\$ 1.953
(b) 1 1/2" - 2" meter	0-100 ccf	\$ 1.007
	Over 100 ccf	\$ 1.953
(c) 3" - 4" meter	0-600 ccf	\$ 1.007
	Over 600 ccf	\$ 1.953
(d) 6" - 12" meter	0-10,000 ccf	\$ 1.007
	Over 10,000 ccf	\$ 1.953
Golf Course		\$ 1.413

Emergency Commodity Rate Schedule

From time to time the water utility may be required to encourage its customers to conserve water. Conservation activities can significantly reduce the water utility's revenue, and in order to meet the water utility's revenue requirements an emergency commodity rate schedule shall be used. If the water utility declares a Phase III water shortage in compliance with Rule 21, the following Emergency Commodity Rate Schedule shall be effective and shall continue in effect until the Phase III water shortage has ended:

Service Size	Units	Rate (per CCF)
(a) 5/8" - 1" meter	0-12 ccf	\$ 1.007
	13-36 ccf	\$ 2.129
	> 36 ccf	\$ 3.031
(b) 1 1/2" - 2" meter	0-100 ccf	\$ 1.007
	101-200 ccf	\$ 2.129
	> 200 ccf	\$ 3.031
(c) 3" - 4" meter	0-600 ccf	\$ 1.007
	601-1200 ccf	\$ 2.129
	> 1200 ccf	\$ 3.031
(d) 6" - 12" meter	0-10,000 ccf	\$ 1.007
	10,001-20,000 ccf	\$ 2.129
	> 20,000 ccf	\$ 3.031
Golf Course		\$ 1.571

Monthly Charges

The basic monthly meter service charge for water supplied to domestic, commercial, industrial, irrigation, agricultural, and municipal customers is as follows:

Service Size	Charge
5/8" Meter	\$17.03
3/4" Meter	\$17.03
1" Meter	\$24.26
1 1/2" Meter	\$42.18
2" Meter	\$63.76
3" Meter	\$132.18
4" Meter	\$222.08
6" Meter	\$455.95
8" Meter	\$653.78
10" Meter	\$1,049.53
12" Meter	\$1,553.10

Schedule No. LA-1
Los Angeles County District Tariff Area
GENERAL METERED SERVICE

APPLICABILITY

Applicable to all metered water service.

GENERAL METERED SERVICE

SPECIAL CONDITIONS:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF
2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: City of San Marino 1.143%; City of San Gabriel 2.0%; City of Rosemead 1.183%; County of Los Angeles 2.417%; City of Duarte 1.966%; and City of Bradbury 1.959%. Franchise taxes in the Baldwin Hills District is 2.00% per customer on a monthly basis.
3. Per Advice Letter 962, a surcharge of \$0.0224 per ccf or \$0.0030 per hundred gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. (N)
4. Per Decision 10-06-038, a Distribution System Infrastructure Charge (DSIC) surcharge is included on each bill to recover cost associated with infrastructure replacement and improvements. Please refer to Schedule No. LA-DSIC for more information.

MEASURED IRRIGATION SERVICE

SPECIAL CONDITIONS (continued):

10. To better manage peak demands, there will be time and day of use restrictions on all measured irrigation services. Customers will be split into two groups who will irrigate on alternate days and only during cooler evening and morning hours. Customers with even numbered addresses will be allowed to irrigate only on even numbered days of the month and customers with odd numbered addresses will be allowed to irrigate only on odd numbered days of the month. (N)

- a. Limits on water hours: Water or irrigating of lawn, landscape or other vegetated area with water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day. (T)

- b. Fines and Flow Restrictors: (N)

- 1) During 2012 California American Water will only issue warnings to customers who violate of the day and time of use restrictions.
- 2) Beginning in 2013, California American Water may impose penalties on customers who violate the day and time of use restrictions if peak use in 2012 continued to necessitate supplementation of the system with potable water.
- 3) Penalties for violation of the day and time of use restrictions will become effective upon California American Water filing a Tier 1 Advice Letter (N)
- 4) If the Utility determines that a customer is in violation, the customer will be subject to the following fine structure.

First Offense: Written warning, including explanation of penalty for subsequent offense.
Second Offense: Written warning, including explanation of penalty for subsequent offense and a \$100 fine.
Third Offense: Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

- 5) Flow Restrictor Removal Charge: The charge for the removal of a flow restrictor shall be:

For each 12-inch connection.....	\$130.98	(l)

SPECIAL CONDITIONS:

1. The fire protection service and connection shall be installed by the Utility or under the Utility's direction. Cost of the entire fire protection installation shall be paid for by the applicant. Such payment shall not be subject to refund.
2. The installation housing, the detector type check valve and meter and appurtenances, thereto, shall be in a location mutually agreeable to the applicant and the Utility. Normally such installation shall be located on the premises of applicant, adjacent to the property line. The expense of maintaining all facilities which are the sole property of the applicant (including the vault, meter detector type check valves, backflow device and appurtenances) shall be paid for by the applicant.
3. All facilities paid for by the applicant, excluding the connection at the main and any service pipe located in a public right-of-way, shall be the sole property of the applicant. The utility and its duly authorized agents shall have the right to ingress to and egress from the premises for all purposes relating to said facilities.

TITLE

RESOLUTION

Schedule No. LA-4 (Continued)
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

4. The minimum diameter will be 1 inch, and the maximum diameter will be the diameter of the main to which the service is connected.
 - a. The minimum diameter of connections for private fire hydrants will be six inches.
5. If distribution main of adequate size to serve a private fire protection system in addition to all other normal services does not exist in the street or alley adjacent to the premises to be served, then a main from the nearest existing main of adequate capacity shall be installed by the Utility, or under the Utility's direction, and the cost paid by the applicant. Such payment shall not be subject to refund.
6. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention device and a standard detector type meter approved by the Insurance Services Office for protection against theft, leakage or waste of water.
7. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities.
8. Subject to the approval of the Utility, any change in the location or construction of fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change.
9. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore at the regular established rate for general metered service, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.
10. All bills are subject to the reimbursement fee set forth on Schedule No. UF.

TITLE

RESOLUTION _____

✓

Schedule No. LA-4 (Continued)
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

11. Per Decision 10-06-038, a Distribution System Infrastructure Charge (DSIC) surcharge is included on each bill to recover cost associated with infrastructure replacement and improvements. Please refer to Schedule No. LA-DSIC for more information

12. Per Advice Letter 962, a surcharge of \$0.0224 per ccf or \$0.0030 per hundred gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. (N)

13. Per Advice Letter 996, the under-collected balance in the Los Angeles County District General Expense Balancing Account will be recovered through a quantity based surcharge, as shown in the below table, over 36 months effective May 9, 2013. The total amount will be recovered from all classes of customers.

Service Area	General Expense Balancing Account Surcharge per ccf	General Expense Balancing Account Surcharge per 100 gal
Baldwin Hills	\$0.2025	\$0.0271
Duarte	\$0.2175	\$0.0291
San Marino	\$0.2561	\$0.0342

(N)

(N)

14. Per Advice Letter 1001, General Office Audit Costs and intervenor compensation paid to Consumer Federation of California and TURN will be recovered through a meter surcharge for one billing cycle effective May 15, 2013. The total amount of \$202,975 will be recovered from all classes of customers.

Meter Size	Surcharge
1-1/2 inch	\$ -
4	\$ 0.04
6	\$ 0.05
8	\$ 0.07
10	\$ 0.09
Hydrants	\$ -

15. Per Advice Letter 1014, a surcharge is applied to each bill to offset increases in purchased water costs effective July 3, 2013. This offset results in a needed revenue increase of \$482,294 or 1.67%. The surcharge listed below is added to the quantity rate beginning the effective date of July 3, 2013.

Service Area	Purchase Water Surcharge per ccf	Purchase Water Surcharge per 100 gal
Baldwin Hills	\$0.3407	\$0.0455

**CITY OF BELLFLOWER
RESOLUTION NO. 14-35**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF
BELLFLOWER ADOPTING THE BELLFLOWER MUNICIPAL WATER
SYSTEM'S OPERATING BUDGET FOR FISCAL YEAR 2014-2015 AND
CAPITAL IMPROVEMENT PROGRAM FOR FISCAL YEAR 2014-2015**

WHEREAS, the City's operating agreement with Bellflower-Somerset Mutual Water Company (BSMWC) requires the adoption of an annual operating budget for the City's Municipal Water System (MWS); and

WHEREAS, a proposed Municipal Water System Operating Budget for Fiscal Year (FY) 2014-2015 and Capital Improvement Program for FY 2014-2015 have been prepared jointly by BSMWC, contract engineer Bucknam & Associates, Inc., and the City and are attached hereto as Exhibits A and B, respectively; and

WHEREAS, the City Council has reviewed and considered the proposed Operating Budget and Capital Improvement Program, and the recommendations of the Municipal Water Commission.

**NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF BELLFLOWER DOES
HEREBY RESOLVE AS FOLLOWS:**

SECTION 1. The City Council hereby adopts the Municipal Water System's Operating Budget for FY 2014-2015 and Capital Improvement Program for FY 2014-2015.

SECTION 2. The Mayor, or presiding officer, is hereby authorized to affix his signature to this Resolution signifying its adoption by the City Council of the City of Bellflower and the City Clerk, or her duly appointed deputy, is directed to attest thereto.

**PASSED, APPROVED, AND ADOPTED BY THE CITY COUNCIL OF THE CITY OF
BELLFLOWER ON THIS 9th DAY OF JUNE 2014.**

Sonny R. Santa Ines, Mayor

ATTEST:

Debra D. Bauchop, City Clerk

ACCOUNT DESCRIPTIONS

Income:

Water Sales
Water Service Charge
Reclaimed Water
Sale of Excess Groundwater
Late Fees, NSF Fees, & Misc.
Water Rights Lease
Sale of Property
Prior Year Balance

Water revenue based on consumption
Water revenue based on fixed charges on meter sizes
Sale of reclaimed water for the city parks
Revenue from sale of groundwater to BSMWC
Late payment charges, NSF fees, interest earnings, and others
Revenue from lease of excess water rights owned by MWS
Sale of property at 13412 Regentview Ave
Cash available from prior year

Operator's Operating Expenses:

Alarm & Security
Communication
General Maintenance

Office alarms/security system
After hours answering services and the cells/phones for the field techs
Service to maintain the office building, pest control, lawn services, cleaning services

Maintenance Equipment & Rentals

Purchase of tools or equipment needed to repair service lines and renting of any heavy equipment needed for a job site

Pumps and Wells

Purchase of parts needed for the pumps or any maintenance/repairs needed at the well sites

Supplies & Uniforms

Uniforms for the water operators and other various miscellaneous supplies

Energy

Electricity for the pump and well sites

Hydrants

Minor repairs and parts for the hydrants

Insurance General

General liability insurance costs

Operating Cash Reserve

Budgeting of operating cash needed by the Operator

Licenses & Fees

Dig Alerts and California Department of Public Health fees

Office Supplies & Postage

Purchase of paper supplies, general office materials, postage, renting of copy machine

Professional Fees

Computer services or repairs and QuickBooks consulting

Service Maintenance

Repairs & maintenance on service lines

Telephone

Office phone and Internet charges

Treatment & Testing

Purchase of chemicals and supplies to treat and maintain the well sites

Utilities

Gas and electric for the office

Water Atlas

Preparation of electronic maps that show water main sizes/locations, valves and fire hydrant locations. Currently there are no electronic maps nor construction drawings for the BMWS water system to locate water mains in the field other than hand sketched schematics on paper. The electronic version will provide City with secure records of water facilities locations and not depend on paper sketches which can be lost or deteriorated.

Vehicle Exp Fuel & Repairs

Fuel and maintenance on trucks such as tires oil changes and registration fees

Distribution

Purchase of new service lines, large job sites or new hydrant lines

BSMWC Wheeling Charge

\$70/af service charge for groundwater distributed through BSMWC lines

Labor:

Salaries & P/R Taxes
Operating Staff Expense & Adm Support

Salaries and taxes for two full-time field and one office personnel
BSMWC's allocated staff charges, board stipends, supervisor support, ADP charges

Benefits Health Insurance

Medical, dental and vision coverage for two full-time field and one office personnel

Benefits Other Life Insurance & Pension

Pension and life insurance for two full-time field and one office personnel

Water Purchases & WRD Surcharge:

Reclaimed Water
MWD Meter Charge and CRC
WRD Charges

Purchase of reclaimed water for the city parks
Meter charge and capacity reservation charge assessed by MWD
Per a.f. charge assessed by WRD for pumping groundwater

City's Operating Expenses:

ACCOUNT DESCRIPTIONS

Water Consultant (Bucknam & Associates)	Water manager services including system operations support, program management, grants and financial consulting
Direct Staff	20% of the City's Management Analyst working on MWS
Municipal Water Commission	Commission stipends
City Administrative Cost Component (excl. B&A)	Legal, audit, supplies and other costs
<u>Debt Service:</u>	
2008 Water System COPS (P&I)	Annual debt service on 2008 Water System Certificates of Participation
City Loan Repayment	Repayment of the City's General Fund loan
<u>Capital Improvements/Reserve:</u>	
Bellflower Boulevard - 12 Services	See Proposed FY 20014-15 Capital Improvement Program
Well Improvements - Phosphate Treatment	See Proposed FY 20014-15 Capital Improvement Program
Glandon Ave Main Replacement	See Proposed FY 20014-15 Capital Improvement Program
New Meters and Services	See Proposed FY 20014-15 Capital Improvement Program
Interconnection at Felson and Carpintero	See Proposed FY 20014-15 Capital Improvement Program
HCW Chlorine Analyzer	See Proposed FY 20014-15 Capital Improvement Program
Decommission Well No. 17	Well no. 17 has been out of commission since 2009 and must be properly decommissioned for public safety reasons. This will also clear the way for vacation of the surplus easement. Demolition of the well was completed in November 2013, and General Pump Company has been contracted to decommission it this year.
Somerset/Leahy Main Extension	Miramontes replaced an existing 6" pipe in Somerset Blvd. from Bellflower Blvd. easterly to Leahy Avenue with 390 feet of new 8" PVC pipe. In Leahy, the new 8" line will continue south to a new point of connection with existing 4" steel line. A new fire hydrant was installed near the corner of Leahy and Somerset.
Dunbar Intertie	This project consisted of the installation of a new 6-inch DIP waterline that is to provide a 6-inch metered inter-tie with the Bellflower Somerset Mutual Water Company's (BSMWC) water distribution system. The alignment begins at connection near Dunbar Street and Pitts Ave and runs west to Castana Ave. and the south on Castana Ave to connention at southwest corner of Castana Ave. and Dunbar Street. Miramontes Construction completed this work in Nov. 2012.
System Reconstruction	See Proposed FY 20014-15 Capital Improvement Program
Consulting, Engineering, Etc. - Projects	Consulting and engineering for general/unbudgeted capital projects and improvement programs
Contingency, set-aside	Funds set-aside for contingencies
HCW Repair	Funds expended for the repair of the HCW
HCW Capital Repairs/Replacement Reserve	Annual reserve funding for the HCW replacement and/or repairs

(A) Charge is based on each inch of diameter				
	Per inch rate:		\$ 15.67	no change

Proposed FY 2014-15 Capital Improvement Program

SMALL PROJECT NEEDS IN PRIORITY ORDER

1. **DESCRIPTION: BELLFLOWER BOULEVARD MAIN SERVICES** – Install 12 metered water services on BSMWC's existing water main in Bellflower Blvd. southerly of Somerset and no fire hydrants, as BSMWC has fire hydrants along Bellflower Blvd. Abandon 800 feet BMWS's existing 4 inch steel main.

Note: City Attorney has confirmed there is no legal barrier to this project. However, BSMWC Board approval and an amendment to the operating agreement with BSMWC are required to move forward.

ESTIMATED COST:

Construction (abandonment of existing 4 inch steel main and install 12 services): **\$35,000**
(Note: PSE \$13,000 were included in FY 2013-14 budget)

TOTAL: \$35,000

2. **DESCRIPTION: INSTALL PHOSPHATE TREATMENT AT HI-CAP WELL.** BSMWC will purchase the system directly and oversee installation.

NEED: Keep iron and manganese in solution to mitigate colored water conditions.

ESTIMATED COST: Construction: **\$30,000**; PS&E/Inspection and shop drawing review: **\$3,000**

TOTAL: \$33,000

3. **DESCRIPTION: GLANDON AVENUE MAIN REPLACEMENT** – Replace existing 4 inch main with 220 feet of 6 inch main on Glandon from Blaine to Prichard. No services or fire hydrants.

NEED: Improve low pressure conditions.

ESTIMATED COST: Construction: **\$60,000**; PS&E: **\$ 9,000**; Construction support and part time inspection: **\$5,000**

TOTAL: \$74,000

4. **DESCRIPTION: REMOTE RADIO READ METER INSTALLATIONS** – Install remote radio read meters in back yard easements. This is Phase 2, for the remaining meters. If this project is completed, 25% of the system would be equipped with these meters.

NEED: Eliminate the difficulty in getting meter reads manually in back yard easements.

ESTIMATED COST: Systems 1, 2 AND 3: **\$83,700** or 279 METERS at \$300 each, (PS&E and construction support are not needed.)

TOTAL: \$83,700

5. **DESCRIPTION: INTERCONNECTION FELSON & CARPINTERO** – Install metered interconnection with BSMWC at Felson and Carpintero as a back-up supply for System 8.

NEED: There is only one supply connection to System 8 and a secondary connection is needed. We are considering creating a connection at Lakewood's 12" transmission line along Allington, which may have a turnout and/or vault. Tom, Eldon and Steve will discuss further with Lakewood.

ESTIMATED COST: Construction: **\$70,000**, PS&E: **\$9,500**, Construction support and p/t inspection: **\$7,000**

TOTAL: \$86,500

6. **DESCRIPTION: HI-CAP WELL CHLORINE ANALYZER INSTALLATION** – Purchase and install new chlorine analyzer at HCW.

NEED: Increase efficiency and reliability of the analyzer unit.

ESTIMATED COST: PS&E: **\$3,000**; Installation: **\$9,000**

TOTAL : \$12,000

-----**Projects for which Funding is not Available**-----

7. **DESCRIPTION: FIRE HYDRANT REPAIR PROGRAM** – Conduct fire hydrant repairs; no plans needed.

NEED: Maintenance and repair of existing fire hydrants.

ESTIMATED COST: Materials and labor: **\$51,364**

TOTAL: \$51,364

8. **DESCRIPTION: WELL DECOMMISSIONING** – Decommission Wells No. 2, 3, 8

NEED: These wells are currently on stand-by operation per CDPH; as they exceed the mCL for iron and manganese and treatment is not economical for the age and condition of the wells. The City has the discretion to choose the timing for decommissioning the wells and filling with CDPH.

ESTIMATED COST: Construction cost: **\$120,000** (Incl. site demo for the 3 wells); Plot plan and specifications: **\$6,000**

TOTAL: \$126,000

LARGE PROJECT NEEDS:

1. **DESCRIPTION: SYSTEM 1 WATER MAIN REPLACEMENT PROGRAM – PHASE 2 –**
Install 6,614 feet of new 8 inch water main in the remaining streets in System 1. Abandon steel mains in backyard easements (Laurel, Flower, Maple, Walnut, Pimenta, portion of Lakewood from Walnut to Flower, and portion of Hayter near Walnut). 229 services and 16 fire hydrants.

NEED: Old steel mains in backyards are in poor condition with numerous leaks and need to be replaced by new mains in city streets.

ESTIMATED COST: Construction: **\$1,500,000**; PS&E: **\$75,000**; Construction, Management/inspection: **\$75,000**.

TOTAL: \$1,650,000

2. **DESCRIPTION: ALTERNATIVE TO SYSTEM 1 WATER MAIN REPLACEMENT PROGRAM –** Replace lines in streets in different phases, beginning with Hayter.

TOTAL: TBD

BASIS FOR ESTIMATES

- 8 inch mains at \$140-150/ft, based upon length of project.
- Water services at \$1,500 each
- Fire hydrants at \$7,500 each
- Tie ins at \$7,000 each
- 10% contingency

TITLE

RESOLUTION _____

Schedule No. LA-1 (Continued)
Los Angeles County District Tariff Area
GENERAL METERED SERVICE

SPECIAL CONDITIONS:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF
2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: City of San Marino 1.143%; City of San Gabriel 2.0%; City of Rosemead 1.183%; County of Los Angeles 2.417%; City of Duarte 1.966%; and City of Bradbury 1.959%. Franchise taxes in the Baldwin Hills District is 2.00% per customer on a monthly basis.
3. Per Advice Letter 962, a surcharge of \$0.0224 per ccf or \$0.0030 per hundred gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. (N)
4. Per Decision 10-06-038, a Distribution System Infrastructure Charge (DSIC) surcharge is included on each bill to recover cost associated with infrastructure replacement and improvements. Please refer to Schedule No. LA-DSIC for more information.

 Surcharges:

a. **Baldwin Hills**

- i. For the Baldwin Hills service area, a surcharge is included on each bill to recover the net under-collection in the WRAM and MCBA of \$478,688, including interest, as of December 31, 2012. The surcharge is \$0.1687 per ccf or \$0.0226 per 100 gallons and will remain effective for 24 months beginning May 9, 2013 (C)

b. **Duarte**

- i. For the Duarte service area, a surcharge is included on each bill to recover the net under-collection in the WRAM and MCBA of \$1,333,903, including interest, as of December 31, 2012. The surcharge is \$0.1989 per ccf or \$0.0266 per 100 gallons and will remain effective for 36 months beginning May 9, 2013. (C)

TITLE

RESOLUTION

Schedule No. LA-1 (Continued)
Los Angeles County District Tariff Area
GENERAL METERED SERVICE

SPECIAL CONDITIONS (continued):

(D)

6. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes will be allowed to have their monthly service charge modified in accordance with the monthly costs for Residential Fire Sprinkler System service charges as shown in the attached RFSS tariff. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

GENERAL METERED SERVICE

SPECIAL CONDITIONS (continued):

8. Per Advice Letter 905, a volumetric surcharge will be applied to each customer's bill to collect \$1,146,054 to fund the undercollected balance in the Water Litigation Memorandum Account for the Los Angeles County District. This surcharge is applicable to all customers in the Los Angeles County District and will remain in effect 12 months from the effective date of Advice Letter 905.

Service Area	Purchase Water Surcharge per ccf
Baldwin Hills	\$0.1156
Duarte	\$0.1156
San Marino	\$0.1156

9. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes will be allowed to have their monthly service charge modified in accordance with the monthly costs for Residential Fire Sprinkler System service charges as shown in the attached RFSS tariff. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

10. Per Advice Letter 960, the balance of \$2,081,865 in the Temporary Interest Rate Balancing Account (TIRBA) will be recovered through a meter surcharge for a 12-month period effective July 17, 2012.

GENERAL METERED SERVICE

SPECIAL CONDITIONS:

11. Per Advice Letter 996, the under-collected balance in the Los Angeles County District General Expense Balancing Account will be recovered through a quantity based surcharge, as shown in the below table, over 36 months effective May 9, 2013. The total amount will be recovered from all classes of customers.

Service Area	General Expense Balancing Account Surcharge per ccf	General Expense Balance Account Surcharge per 100 gallon
Baldwin Hills	\$0.2025	\$0.0271
Duarte	\$0.2175	\$0.0291
San Marino	\$0.2561	\$0.0342

(N)

(N)

12. Per Advice Letter 1001, General Office Audit Costs and intervenor compensation paid to Consumer Federation of California and TURN will be recovered through a meter surcharge for one billing cycle effective May 15, 2013. The total amount of \$202,975 will be recovered from all classes of customers.

Meter Size	Meter Surcharge
5/8 x 3/4	\$0.78
3/4	\$1.17
1	\$1.95
1 1/2	\$3.91
2	\$6.25
3	\$11.73
4	\$19.54
6	\$39.08
8	\$62.53
10	\$89.89
12	\$128.98

13. Per Advice Letter 1014, a surcharge is applied to each bill to offset increases in purchased water costs effective July 3, 2013. This offset results in a needed revenue increase of \$482,294 or 1.67%. The surcharge listed below is added to the quantity rate beginning July 3, 2013.

Service Area	Purchase Water Surcharge per ccf	Purchase Water Surcharge per 100 gallon

TITLE

Schedule No. LA-3M
Los Angeles County District Tariff Area
MEASURED IRRIGATION SERVICE

APPLICABILITY

Applicable to all measured service for irrigation purposes as defined in the special conditions below.
Applicable only to premises serviced under Schedule No. LA-3M on a continued basis on and after January 1, 1969.

TERRITORY

Bradbury, Duarte, portions of Irwindale, Monrovia, and vicinity, Los Angeles County.

RATES

Quantity Rates:

	Base Rate Per ccf	Base Rate Per 100 Gal	(N)
A. Pressure service all water, per 100 cu. ft or 748 gal.....	\$1.6085	\$0.2150	(N)
B. Gravity service all water, per 100 cu. ft or 748 gal.....	\$1.4217	\$0.1901	(N)

Service Charge: General Metered

	Per Meter Per Month
For 1-inch meter.....	\$5.52
For 1-1/2-inch meter	\$11.07
For 2-inch meter.....	\$17.69
For 3-inch meter.....	\$33.17
For 4-inch meter.....	\$55.21

The Service Charge is a readiness-to-serve charge which is applicable to all metered service and to which is to be added the charge for water used computed at the Quantity Rates.

MEASURED IRRIGATION SERVICE

SPECIAL CONDITIONS (continued):

10. To better manage peak demands, there will be time and day of use restrictions on all measured irrigation services. Customers will be split into two groups who will irrigate on alternate days and only during cooler evening and morning hours. Customers with even numbered addresses will be allowed to irrigate only on even numbered days of the month and customers with odd numbered addresses will be allowed to irrigate only on odd numbered days of the month. (N)

- a. Limits on water hours: Water or irrigating of lawn, landscape or other vegetated area with water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day. (T)

- b. Fines and Flow Restrictors: (N)

- 1) During 2012 California American Water will only issue warnings to customers who violate of the day and time of use restrictions.
- 2) Beginning in 2013, California American Water may impose penalties on customers who violate the day and time of use restrictions if peak use in 2012 continued to necessitate supplementation of the system with potable water.
- 3) Penalties for violation of the day and time of use restrictions will become effective upon California American Water filing a Tier 1 Advice Letter (N)
- 4) If the Utility determines that a customer is in violation, the customer will be subject to the following fine structure.

First Offense: Written warning, including explanation of penalty for subsequent offense.
Second Offense: Written warning, including explanation of penalty for subsequent offense and a \$100 fine.
Third Offense: Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

- 5) Flow Restrictor Removal Charge: The charge for the removal of a flow restrictor shall be:

<u>Connection Sizes</u>	<u>Removal Charges</u>
5/8" to 1"	\$150.00
1 1/2" to 2"	\$200.00

Schedule No. LA-4
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

Baldwin Hills Service Area consisting of Baldwin Hills, Windsor Hills, View Park, Ladera Heights, and vicinity, Duarte Service Area consisting of Bradbury, Duarte, portions of Irwindale, Monrovia, and vicinity, and San Marino Service Area consisting of San Marino, Rosemead, portions of San Gabriel, Temple City and vicinity, Los Angeles County.

RATE

	<u>Per Month</u>	
For each 4-inch connection or smaller.....	\$43.66	(l)
For each 6-inch connection.....	\$65.49	(l)
For each 8-inch connection.....	\$87.32	(l)
For each 10-inch connection.....	\$109.15	(l)
For each 12-inch connection.....	\$130.98	(l)

SPECIAL CONDITIONS:

1. The fire protection service and connection shall be installed by the Utility or under the Utility's direction. Cost of the entire fire protection installation shall be paid for by the applicant. Such payment shall not be subject to refund.
2. The installation housing, the detector type check valve and meter and appurtenances, thereto, shall be in a location mutually agreeable to the applicant and the Utility. Normally such installation shall be located on the premises of applicant, adjacent to the property line. The expense of maintaining all facilities which are the sole property of the applicant (including the vault, meter detector type check valves, backflow device and appurtenances) shall be paid for by the applicant.
3. All facilities paid for by the applicant, excluding the connection at the main and any service pipe located in a public right-of-way, shall be the sole property of the applicant. The utility and its duly authorized agents shall have the right to ingress to and egress from the premises for all purposes relating to said facilities.

TITLE

RESOLUTION

Schedule No. LA-4 (Continued)
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

4. The minimum diameter will be 1 inch, and the maximum diameter will be the diameter of the main to which the service is connected.
 - a. The minimum diameter of connections for private fire hydrants will be six inches.
5. If distribution main of adequate size to serve a private fire protection system in addition to all other normal services does not exist in the street or alley adjacent to the premises to be served, then a main from the nearest existing main of adequate capacity shall be installed by the Utility, or under the Utility's direction, and the cost paid by the applicant. Such payment shall not be subject to refund.
6. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention device and a standard detector type meter approved by the Insurance Services Office for protection against theft, leakage or waste of water.
7. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities.
8. Subject to the approval of the Utility, any change in the location or construction of fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change.
9. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore at the regular established rate for general metered service, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.
10. All bills are subject to the reimbursement fee set forth on Schedule No. UF.

SECTION 2. TRANSIENT PARKING TAX

(Ordinance No. 3426, passed 12/12/95)

(Ordinance No. 3434, passed 1/30/96)

(Added as Section 2 on 6/25/96, Resolution 24,771)

(Last Update 5/24/05, Resolution 26,978)

Each individual paying for short-term parking (less than 1 calendar month) shall pay a "Transient" parking tax of twelve percent (12%) of the total amount charged by the parking facility operator.

SECTION 3. MATERIALS REPRODUCED BY THE CITY OF BURBANK

(Added as Section 2 on 7/30/85, Resolution 21,368)

(Moved to Section 3 on 6/25/96, Resolution 24,771)

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Public Records		
(1) Paper (non-electronic) Records		
Except as specifically listed in this Fee Schedule, the copying cost to reproduce a non-exempt paper public record shall be the following:		
(a) 1st Page	\$1.00	Each
(b) Additional Pages	\$0.05	Each
(c) For all requests where the actual physical copying of the record takes more than fifteen (15) minutes, the department may charge for time spent by an employee actually making the copies. This charge shall be based on the employee's compensation multiplied by the amount of time spent making copies. Time shall be billed in fifteen (15) minute increments.		
(d) Where the total cost of copies is \$2.00 or less, there shall be no charge collected.		
(2) Electronically Stored Records or Data		
Except as specifically listed in this Fee Schedule, the department may charge duplication costs of producing an electronic copy of a non-exempt public record including:		
(a) All programming and computer services costs where production of the record requires data compilation, extraction or programming.		
(b) For all such productions, the charge shall be based on the compensation for the actual employee performing the production multiplied by the amount of time spent programming, etc. Time shall be billed in fifteen (15) minute increments with no minimum grace period.		
(3) Police Report		
(a) Crime Report	\$5.00	Each
(b) Computer Aided Dispatch (CAD) Report	\$10.00	Each
(c) Traffic Accident Report	\$15.00	Each
(d) Clearance Letter	\$20.00	Each

Description	Amount	Unit/Time
(e) Local Arrest Records	\$25.00	Each
(f) Civil Subpoenas	as provided by State Law	
(i) Basic	\$15.00	Each
(ii) Officer	\$150.00	Each
(4) Fire Report		
(a) Basic Fee	\$15.00	Each
(b) Civil Subpoenas		
(i) Firefighters	as provided by State Law	
(c) EMS Report	\$15.00	Each
(d) Fire Investigation Report	\$25.00	Each
(5) Public Works Parking Design Set	\$1.00	Set
(6) (a) 11" x 17" Copies (+.10 each additional copy)	\$0.75	Page

(G) Film Permit "No Parking" Signs	\$1.00	Each
(H) Facility Usage Fee		
(1) DeBell Golf Course and Par 3	\$1,000.00	Per Day
(2) Starlight Bowl	\$5,000.00	Per 4 Hours

Description	Amount	Unit/Time
(3) Roller Hockey Rink	\$100.00	Per Hour (2-Hour Minimum)
(4) Swimming Pool	\$200.00	Per Hour (2-Hour Minimum)
(5) Activity Pool	\$100.00	Per Hour (2-Hour Minimum)
(6) Theatre	\$100.00	Per Hour (2-Hour Minimum)
(7) Tennis Center	\$100.00	Per Hour (2-Hour Minimum)
(8) Art Gallery	\$100.00	Per Hour (2-Hour Minimum)
(9) Skate Park	\$100.00	Per Hour (2-Hour Minimum)
(10) Gym	\$100.00	Per Hour (2-Hour Minimum)
(11) Senior Center Auditorium	\$100.00	Per Hour (2-Hour Minimum)
(12) Other Park Facilities	\$200.00	Per Hour (2-Hour Minimum)

Staffing Costs:

Administrative Costs	\$200.00
Site Preparation	100% of staff hourly rate

The basic facility usage fee will be a minimum of \$200. Each facility will be treated separately (i.e. parking, ball diamond, classroom, etc.). Parking will be assessed at \$3 per parking space used up to an 8 hour period. If required by the Department Director, 100% of staff supervision with a 2 hour minimum will be assigned and will be compensated based on the applicable hourly rate.

Notice: The Park, Recreation and Community Services Department will be given a minimum of 72 hours to determine availability, feasibility and staffing necessary to accommodate each request. For requests submitted after the stated notification period, all costs will be doubled.

Cancellations: Administrative Costs will not be refunded.

- (I) Additional fees may apply if various City departments are required to process a film permit.

SECTION 6. CITY CLERK SERVICES

(Added to Section 5 on 6/9/92, Resolution 23,624)

(Moved to Section 6 on 6/25/96, Resolution 24,771)

(Last Update 6/9/09, Resolution 27,921)

Description	Amount	Unit/Time
(A) Municipal Code Charges		
(1) Burbank Municipal Code	\$300.00	Set
(2) Copies of Printed BMC Pages	\$0.20	Page
(3) Subscription Service for Revisions	\$50.00	Annually

(Added to Section 10 on 10/8/91, Resolution 23,446)
(Moved to Section 9 on 11/19/91, Resolution 23,473)

Description	Amount	Unit/Time
(A) Initial Cost Including Delivery, Maintenance and Pick-Up		
(1) Day Time Delivery	\$65.00	Per Incident
(2) Night Time Delivery	\$85.00	Per Incident
(B) Rental Rates for Delivered Devices *		
(1) Lighted Barricades	\$7.00	Each Per Day
(2) Barricades	\$5.00	Each Per Day
(3) Delineator	\$4.00	Each Per Day
(4) Small Traffic Control Sign	\$8.00	Each Per Day
(5) Large Traffic Control Sign	\$10.00	Each Per Day

* Additionally, property owner/contractor shall be billed for damaged or destroyed safety devices.

SECTION 10. NEWSRACK REGISTRATION FEES

(Added 9/5/95, Resolution 24,573)

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Initial Registration Fee	\$50.00	Each Individual Newsrack
(B) Annual Registration Renewal Fee	\$20.00	Each Individual Newsrack
(C) Code Violation or Unsafe Condition which Constitutes the Removal of the Newsrack	\$100.00	Each Individual Newsrack Container, Plus Sidewalk Restoration Fees per Excavation Permit Fee and Deposit (BMC Title 7-1-206) if Required
(D) Release of Impounded Newsrack Fee	\$85.00	Each Individual Newsrack (BMC Title 5-3-1009)

SECTION 11. TRAFFIC PLAN CHECK AND STUDY FEES

(Added 6/22/04, Resolution 26,737)

(Last Update 6/20/06, Resolution 27,258)

Description	Amount	Unit/Time
(A) Building Permit Review	\$130.00	Per Project Base Fee
	\$45.00	Each 1,000 Square Feet
(B) Traffic Control Plan Review	\$100.00 or \$65/hr whichever is more	Each - Short Term (up to 3 days)
	\$475.00 or \$70/hr whichever is more	Each - Long Term (more than 3 days)
(C) Sign/Signing Plan Review	\$425.00 or \$105/hr whichever is more	Each
(D) Traffic Signal Plan Review	\$530.00 or \$120/hr whichever is more	Each

SECTION 12. SUBDIVISION FEES

(Added 6/20/06, Resolution 27,258)

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Release of Subdivision Map Deposit per BMC Title 11-1-607	\$500.00	Per Map
(B) Deposit Processing Fee	\$50.00	Per Map

SECTION 13. GRAFFITI REMOVAL FEES

(Added 6/22/10, Resolution 28,138)

Description	Amount	Unit/Time
(A) Graffiti Removal - Paint & Additional Color	\$12.00	Per Square Foot
(B) Graffiti Removal - Chemical	\$8.00	Per Square Foot
(C) Graffiti Removal - Water Blast	\$12.00	Per Square Foot
(D) Graffiti Removal - Private Trash Bins	\$11.00	Per Trash Bin

ARTICLE III LAND USE AND ZONING
--

SECTION 1. ZONING PROCEDURES AND AMENDMENTS

(Added 10/18/83, Resolution 20,760)
 (Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Conditional Use Permits (CUP)		
(1) Basic	\$1,892.00	Application
(2) Single Family Residential	\$1,068.00	Application
(3) Alcohol	\$1,907.00	Application
(B) General Plan Amendments	\$3,051.00	Application
(C) (1) Development Review	\$1,922.00	Application
(2) Second Dwelling Unit	\$1,236.00	Application
(D) Variance		
(1) Basic	\$1,734.00	Application
(2) Single Family Residential	\$990.00	Application
(3) Major Fence Exception	\$397.00	Application
(E) Planned Development	\$8,151.00	Application
(F) Development Agreement	\$8,924.00	Application
(G) Zone Map Amendment	\$3,153.00	Application
(H) Zone Text Amendment	\$3,051.00	Application
(I) Administrative Use Permits (AUP) and Other Administrative Permits		
(1) Condominium Conversion Maps	\$1,305.00	Application
(2) Large Family Child Care	\$557.00	Application
(3) Home Occupation Music Lessons	\$203.00	Application
(4) Single Family Hillside Development Permit	\$875.00	Application
(5) Other Single Family Permits	\$639.00	Application
(6) Minor Fence Exception - Citywide	\$239.00	Application
(7) Minor Fence Exception - Hillside Area	\$102.00	Application
(8) All Other AUPs (includes commercial child care facility, residential adjacent night operations, schools-public or private, post-production parking, etc.)	\$1,078.00	Application

Description	Amount	Unit/Time
(J) Appeal		
(1) By Applicant	\$254.00	Filing
(2) By Others	\$127.00	Filing
(K) Request For Time Extension or amendment of conditions of approval	100% of Fee	Request
(L) Preparation of Covenants (includes accessory structure, off-site shared parking, reversals, etc.)	\$407.00	Request
(M) Plan Check	\$51.00	Permit
(N) Inclusionary Housing Fee		

PROJECT SIZE	OWNERSHIP PROJECTS (per square foot)	RENTAL PROJECTS (per square foot)
14+ units	\$20.07	\$10.27
10 - 14 units	\$16.46	\$8.42
5 - 9 units	\$11.24	\$5.75

(O) Minor Setback Exception \$51.00 Permit

SECTION 2. ENVIRONMENTAL ASSESSMENTS

(Added 10/18/83, Resolution 20,760)

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Environmental Assessments (Initial Study)	\$1,220.00	Application
(B) Environmental Review	Cost*	Prior to Hearing
(C) Deposit	100% of Estimated Cost	Application

(b) 1,001 - 5,000 lbs.	\$339.00	Year
(c) 5,001 - 10,000 lbs.	\$512.00	Year
(d) 10,001 -25,000 lbs.	\$850.00	Year
(e) 25,001 - 50,000 lbs.	\$1,188.00	Year
(f) 50,000 lbs. and over	\$1,695.00	Year
(2) Liquids		
(a) 55 - 250 gallons	\$173.00	Year
(b) 251 - 500 gallons	\$339.00	Year
(c) 501 - 1,000 gallons	\$512.00	Year
(d) 1,001 - 5,000 gallons	\$850.00	Year
(e) 5,001 - 10,000 gallons	\$1,188.00	Year
(f) 10,000 gallons and over	\$1,695.00	Year
(3) Gases		
(a) 200 - 500 cubic feet	\$173.00	Year
(b) 501 - 2,000 cubic feet	\$339.00	Year
(c) 2,001 - 5,000 cubic feet	\$512.00	Year
(d) 5,001 - 10,000 cubic feet	\$850.00	Year
(e) 10,001 - 25,000 cubic feet	\$1,188.00	Year
(f) 25,000 cubic feet and over	\$1,695.00	Year
(4) Underground Storage Tanks	\$176.00	Year
(5) Acutely Hazardous Materials (AHM) Fee	\$91.00	Per Each AHM
* This fee applies to quantities of Hazardous Materials stored in underground storage tanks, in lieu of Subsections 5(B)(1)(2)(3). In accordance with H&SC Section 25503.5(c), materials that are stored for resale may be exempt from these fees.		
(C) Additional Charges, Surcharges and Penalties		
(1) Number of Reported Hazardous Materials		
(a) Less than 50 (Pure of mixture)	\$0.00	Amount of Fee
(b) More than 50 (Pure of mixture)	\$0.56	Per Material
(2) Hazard Classification Fee		
The Hazard Classification fee is to be calculated by adding each hazard category that equals or exceeds 1 and each special hazard category. The maximum hazard category fee is not to exceed \$76.00		
(a) Fire Hazard Rating (1-4)	\$19.00	Category
(b) Health Hazard Rating (1-4)	\$19.00	Category
(c) Reactivity Hazard Rating (1-4)	\$19.00	Category
(d) Special Hazard Rating (multiple categories)	\$19.00	Category

Description	Amount	Unit/Time
(3) Delinquent Payment of Fee	40%	Amount of Fee
(4) Review of Phase II Environmental Site Assessment Report	\$181.00	Per Submittal
(5) Reimbursement of expenses incurred by City in mitigating or cleaning up any threatened or unauthorized release of any hazardous material.	100%	Actual Cost

SECTION 6. POLICE SERVICES AT PARTIES, GATHERINGS OR EVENTS ON PRIVATE PROPERTY

(Added 5/30/89, Resolution 22,680)

(Last Update 6/20/06, Resolution 27,258)

Description	Amount	Unit/Time
(A) Rates for Police personnel will be based on the current top step of the overtime salary range. For time less than an hour, the charge will be based on the next highest 15 minute period or portion thereof.		
(B) Helicopter (to be billed in addition to staff time)	\$425.00	Hour

SECTION 7. UNDERGROUND TANKS/HAZARDOUS SUBSTANCES, HAZARDOUS WASTE

(Added 12/19/89, Resolution 22,845)

(Last Update 6/17/08, Resolution 27,712)

Description	Amount	Unit/Time
(A) Administrative Fees		
(1) Permit fee per tank	\$362.00	Year
(2) Tank removal/closure/installation abandonment (includes 1 hour inspection)	\$136.00	Per Tank
(3) Review and Evaluation of State and Federal - required Leak Detection and Tank Monitoring Program and Proposal	\$136.00	Per Tank
(4) Inspection of new/removal or abandonment after 1 hour	\$91.00	Hour
(5) Plan check review of new and existing underground tank system modifications, alterations, and charges.	\$181.00	Per Facility
	\$91.00	Resubmittal
(6) Review of Phase II Environmental Site Assessment Report	\$181.00	Per Submittal
(7) Review Corrective Action Work Plan Proposal	\$91.00	Hour or Portion Thereof
(8) Transfer Permit to New Owner	\$362.00	Per Permit
(9) Delinquent Payment of Fee	40%	Amount of Fee

SECTION 8. FIRE PERMIT AND LIFE SAFETY PLAN CHECK FEES
 (Added 12/18/90, Resolution 23,149)
 (Last Update 6/11/13, Resolution 28,619)

Fire Permit Fees

Description	Amount	Unit/Time
Aboveground Storage Tanks (Installation)	\$450.00	Installation
Aboveground Storage Tanks (Annual)	\$230.00	Tank/Year
Aerosol Products	\$230.00	Year
Aircraft Refueling Vehicles	\$230.00	Year
Aircraft Repair Hangar	\$230.00	Year
Battery System	\$230.00	Year
Candles and Open Flames in Assembly Areas	\$100.00	Year/Event
Carnivals and Fairs	\$230.00	Event
Cellulose Nitrate Film	\$230.00	Year
Cellulose Nitrate Storage	\$230.00	Year
Combustible Fiber Storage	\$230.00	Year
Combustible Material Storage	\$230.00	Year
Compressed Gases	\$230.00	Year/Event
Commercial Rubbish – Handling Operation	\$230.00	Year
Cryogenics	\$230.00	Year/Event
Dry Cleaning Plants	\$230.00	Year
Dust-Producing Operations	\$230.00	Year
Explosives or Blasting Agents	\$230.00	Year
Fireworks	\$400.00	Each
Flammable or Combustible Liquids and Tanks not covered by Hazardous Material	\$230.00	Year
Hazardous Materials - See Hazardous Material Fee Schedule	\$100.00	-
High-Piled Combustible Storage	\$230.00	Year
Helicopter Operations	\$230.00	Each
Hot Works Operations	\$100.00	Year/Event
Liquefied Petroleum Gases	\$230.00	Year/Event
Liquid-or-Gas-Fueled Vehicles or Equipment in Assembly Buildings	\$153.00	Event
Lumber Yards	\$230.00	Year
Magnesium Working	\$230.00	Year
Mall Covered - (as Place of Assembly)	\$362.00	Each

Description	Amount	Unit/Time
Mall Covered (Special Use)	\$100.00	Year
Motor Vehicle Fuel Dispensing Station	\$230.00	Year
Open Burning	\$100.00	Event
Organic Coatings	\$230.00	Year
Ovens, Industrial Baking or Drying	\$230.00	Year
Places of Assembly Occupant Load 50-300	\$100.00	Year/Event
Places of Assembly Occupant Load 301-1,000	\$230.00	Year/Event
Places of Assembly Occupant Load 1,001- 5,000	\$300.00	Year/Event
Places of Assembly Occupant load over 5,000	\$400.00	Year/Event
Pyrotechnical Special Effects Material	\$230.00	Each
Refrigeration Equipment	\$100.00	Year
Repair Garage	\$230.00	Year
Spraying and Dipping	\$100.00	Year
Temporary Membrane Structures, Tents & Canopies	\$100.00	Event
Tire Storage	\$230.00	Year
Wood Products Storage	\$100.00	Year
Other (any permit required by the Chief, and not otherwise covered above, based on actual time expended)	\$91.00	Hour

* Note: Any permit requiring additional inspection time shall be billed at \$91.00 per hour or portion thereof.

Periodic Inspection Fees

Inspection fees are charged at \$91.00 per hour and shall be charged for the following:

Fire/Life Safety Inspection (Health & Safety Code Sect. 13217)

Code Violation Inspection (BMC 15-1-103.4.3.1.1).

Investigation for work, operation, or action without permit (BMC 15-1-105.7.1).

Note: Schools and non-profit organizations are exempt from this fee.

Plan Check/Field Inspection Fees

TOTAL FEE = BASE AMOUNT + NUMBER OF UNITS + INSPECTION FEE

Description	Base Amount	Unit/Each	No. of Devices	Amount
Fire Alarm System/Fire Alarm Monitoring	\$184.00			
Plus: Per Alarm Device		\$1.00		
			1-25	\$93.00
			26-50	\$184.00
			51-75	\$277.00
			76-100	\$369.00
			101+	See Life Safety
Life Safety System for High Rise and Mid-Rise Buildings	\$277.00			
Plus: Per Alarm Device		\$1.00		
			101-125	\$462.00
			126-150	\$553.00
			151-175	\$646.00
			176-200	\$738.00
			201-225	\$829.00

			951-1000	\$1,843.00
			1,000+	\$1,936.00
R-3 Single Family Home Fire Sprinkler System (Plan Check and Two Inspections)	\$93.00			
Fire Extinguishing System (other than sprinkler system)	\$184.00			
Plus per outlet or nozzle each (Plan Check and Two Inspections)		\$5.00		
Private Yard Hydrant Installation (Plan Check and Inspection) up to five hydrants	\$184.00			
Dry Standpipes per Riser (Plan Check and Two Inspections)	\$93.00			
Plus per Outlet		\$16.00		
Wet Standpipes per riser (Plan Check and Two Inspections)	\$93.00			
Plus per Outlet		\$16.00		
Architectural Plan Check	\$93.00			
Any Plan Check not covered above (Plan Check and Two Inspections)	\$184.00			
Plus per Device		\$5.00		

* Note: Base amount for plan review includes one re-submittal. Each additional re-submittal is \$91.00.

SECTION 9. MISCELLANEOUS POLICE SERVICES

(Added 6/9/92, Resolution 23,624)

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Vehicle Impound Fee		
(1) Cars	\$85.00	Each
(2) Commercial Vehicles	\$85.00	Each
(B) Drug Registrants	\$20.00	Each
(C) Jail Weekend Program	\$100.00	Day
(D) Firearm Storage Fee		
Note: All firearm storage fees are due prior to the release of the firearm(s).		
(1) Origination/Release Fee	\$45.00	One time/ First Firearm
(2) Origination/Release Fee	\$5.00	One time/For Each Additional Firearm
(3) Monthly Storage	\$5.00	Month/Per Firearm
(E) Concealed Weapons Permit	\$100.00	Per Application
(F) Police Shooting Range		
(1) Law Enforcement Use During Normal Range Hours	\$20.00	Per Day, Per Officer
Maximum three attempts to complete the course. If the officer is not able to complete the course in three attempts they may continue shooting for an additional \$15 per each three attempts.		
(2) Range Use Outside Normal Range Hours (Anytime that the Range is closed)	\$500.00	First Four Hours or Any Portion Thereof
	\$65.00	Each Additional Hour
(G) Vehicle Repossession Fee	\$15.00	Each

Penalties:

Failure to pay fees within 30 days of billing - ten percent (10%).

Failure to pay fees within each additional 30 days of billing - ten percent (10%) additional.

SECTION 10. PARKING VIOLATIONS

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Reinspection Fees	\$37.85	After 2nd Inspection
(B) Land Use Entitlement Inspection Fees	\$35.80	Per Inspection

ARTICLE VIII ELECTRICAL AND BUILDING PERMITS

SECTION 1. ELECTRICAL PERMITS

(Last Update 6/11/13, Resolution 28,619)

The electrical permit fee shall consist of the filing fee plus the inspection fees listed for repair, service, or installation for each fixture, device, or piece of equipment.

Description	Amount	Unit/Time
(A) Electrical Permit		
(1) Issuing Fee	\$24.95	Application
(2) Plan Check Fee	\$126.75	Per Hour (1 Hour Minimum)
(B) Outlets/Fixtures		
(1) Commercial	\$23.40	Each 20 Outlets/ Fixtures or Fraction Thereof
(2) Residential	\$23.40	Each 20 Outlets/ Fixtures or Fraction Thereof
(3) Online Permits (no plan check)	\$30.30	Per Permit
(C) Branch Circuits		
(1) Commercial	\$10.70	Each
(2) Residential	\$10.70	Each
(3) Online Permits (no plan check)	\$30.30	Per Permit
(D) Miscellaneous Electrical Equipment		
(1) Commercial	\$12.75	Each
(2) Residential	\$12.70	Each
(E) Motors, Transformers, Heaters		
(1) Commercial	\$45.30	Each
(2) Residential	\$45.30	Each
(F) Switchboards		
(1) Commercial 600 volts or less	\$52.45	Each
(2) Commercial over 600 volts	\$102.80	Each
(G) Photo Voltaic System		
(1) Plan Check Fee	\$126.75	Per Hour
(H) Service Installation		
(1) Commercial		
(a) 600 volts or less	\$101.80	Each
(b) Over 600 volts	\$154.75	Each
(2) Residential	\$76.85	Each
(3) Temporary Power Pole	\$133.85	Each

Description	Amount	Unit/Time
(I) Residential Construction		
(1) Single Family		
(a) New Dwelling	\$14.75	Per 100 SF of GFA
(b) Addition to Dwelling	\$9.15	Per 100 SF of GFA
(2) Multi-Family		
(a) New Dwellings	\$301.85	Per Dwelling Unit
(b) Online Permits - Addition/Remodel (no plan check)	\$9.15	Per 100 SF of GFA

SECTION 2. BUILDING PERMITS

(Added 5/15/84, Resolution 20,973)

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
The Building Permit fee shall be based on the total valuation of improvement. The minimum valuation shall be determined by the "Building Valuation Data" published by the International Code Council (ICC).		
(A) Building Permit		
(1) Building Permit Fee		
(a) \$0 - \$500	\$33.10	Per Permit
(b) \$501 - \$2,000	\$35.10 plus \$3.55/\$100 over \$500, or portion thereof	Per \$100 or Portion Thereof
(c) \$2,001 - \$25,000	\$83.50 plus \$11.70/\$1,000 over \$2,000, or portion thereof	Per \$1,000 or Portion Thereof
(d) \$25,001 - \$50,000	\$346.65 plus \$10.20/\$1,000 over \$25,000, or portion thereof	Per \$1,000 or Portion Thereof
(e) \$50,001 - \$100,000	\$595.00 plus \$7.15/\$1,000 over \$50,000, or portion thereof	Per \$1,000 or Portion Thereof
(f) \$100,001 +	\$924.35 plus \$4.60/\$1,000 over \$10,000, or portion	Per \$1,000 or Portion Thereof
(2) Roofing Permit Fee		
(a) Residential Roofs	\$7.15	Per 100 SF or Portion Thereof
(b) Commercial Roofs	\$7.15	Per 100 SF or Portion Thereof
(3) Pool Permit Fee	\$274.35	Per Pool
(4) Sandblast Permit Fee	\$28.00	Per Structure
(B) Plan Check Fee and Other Permit Fees		
(1) Building Permit Plan Check	65%	Of Basic Permit Fee
(2) Strong Motion Fee		
(a) Residential	\$0.10	Per \$1,000 valuation
(b) Commercial	\$0.21	Per \$1,000 valuation

Description	Amount	Unit/Time
(3) State Green Building Fee	\$1.00	Per \$25,000 valuation or portion thereof

(C) Special Permit and Processing Fees

Services requested by applicant or as may be required by Building Official shall be over and above regular permit fees and plan checking fees.

(1) Relocation/Moving of Buildings		
(a) Relocation Permit		
(i) Special Inspection Fee	100%	Special Inspection Fee (1-Hour Minimum)
(ii) Plan Check Fee	100%	Plan Check Fee
(iii) Building Permit Fee	100%	Building Permit Fee
(b) Security Bond	Determined by Building Official	
(2) Temporary Certificate of Occupancy		
(a) Certificate	\$101.80	Certificate
(b) Bond	2% of Building Permit Valuation	

SECTION 3. DEVELOPMENT IMPACT FEES

(Added 5/15/84, Resolution 20,973)

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Development Impact Fees Updated each calendar year		
(1) Development Administration Surcharge	5% of Fees Collected	% of Development Impact Fee
(2) Transportation Fees - Residential (Citywide)	Not Applicable	
(3) Transportation Fees - Non-Residential (Citywide)		
(a) Office Transportation Fee		
(i) 0 to 40,000 GFA	\$5.77	Sq. Ft.
(ii) 40,000 to 100,000 GFA	\$5.77	Sq. Ft.
(iii) 100,000 to 500,000 GFA	\$5.77	Sq. Ft.
(iv) over 500,000 GFA	\$4.73	Sq. Ft.
(b) Medical Office Transportation Fee	\$5.77	Sq. Ft.
(c) Retail Transportation Fee		
(i) 0 to 26,000 GFA	\$5.77	Sq. Ft.
(ii) 26,000 to 40,000 GFA	\$5.77	Sq. Ft.
(iii) 40,000 to 250,000 GFA	\$5.77	Sq. Ft.
(iv) over 250,000 GFA	\$5.77	Sq. Ft.
(d) Manufacturing Transportation Fee	\$3.17	Sq. Ft.
(e) Warehouse Transportation Fee	\$3.14	Sq. Ft.

Description	Amount	Unit/Time
(f) Institutional Transportation Fee	\$5.77	Sq. Ft.
(g) Studio Uses		
(i) Office Transportation Fee	\$4.93	Sq. Ft.
(ii) Technical Transportation Fee	\$3.31	Sq. Ft.
(iii) Stage Transportation Fee	\$1.63	Sq. Ft.
Note: (GFA) Gross Floor Area		
(4) Community Facilities Fees - Non-Residential (Citywide)		
(a) Office	\$1.50	Sq. Ft.
(b) Retail	\$0.76	Sq. Ft.
(c) Industrial	\$0.71	Sq. Ft.
(d) Institutional	\$0.37	Sq. Ft.
(5) Community Facilities Fees - Residential (Citywide)		
(a) Single Family	\$2,402.18	Per Dwelling Unit
(b) Multiple Family	\$1,777.23	Per Dwelling Unit

SECTION 4. MECHANICAL PERMITS

(Added 7/26/88, Resolution 22,411)

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
The mechanical permit fee shall consist of the plan check fee, the filling fee plus the inspection fees listed for repair, service, or installation for each fixture, device, or installation for each fixture, device, or piece of equipment.		
(A) Mechanical Permit		
(1) Issuing Fee	\$24.95	Application
(2) Plan Check Fee	\$126.75	Per Hour
(B) Mechanical Equipment		
➤ Heating appliances		
➤ Comfort cooling		
➤ Absorption unit		
➤ Ventilation system		
➤ Commercial hood		
➤ Separative cooling		
(1) Commercial	\$126.75	Each
(2) Residential	\$28.00	Each
(C) HVAC Units, Boilers, Compressors, Condensers, and Furnaces		
(1) Commercial	\$126.75	Each
(2) Residential	\$121.15	Each
(D) Miscellaneous Mechanical Equipment	\$38.70	Each 5 or Portion Thereof
➤ Evaporative Cooler		
➤ Air Handling Unit		
➤ Air inlet, air outlet and return air		
➤ Separate hot or chilled water on steam coil		
➤ Exhaust Fan		

Description	Amount	Unit/Time
(E) Gas Systems		
(1) Commercial System		
(a) Standard	\$6.10	Each 5 Outlets or Portion Thereof
(b) Medium Pressure with Regulator	\$17.30	Each 5 Outlets or Portion Thereof
(2) Residential System	\$5.60	Each 5 Outlets or Portion Thereof
(F) Commercial HVAC Unit & TI		
(1) New System (Units & Ducts)		
(a) First 500 SF	\$55.50	First 500 SF or Portion
(b) Additional SF	\$5.60	Per 100 SF of GFA
(c) Online Permits - Equipment Changeout(no plan check)	\$30.30	Per Permit
(2) Duct Loops Only	\$301.85	Per Floor
(3) Alternation to Existing Duct System		
(a) First 500 SF	\$28.00	First 500 SF
(b) Additional SF	\$3.05	Per 100 SF of GFA
(G) Residential HVAC Unit		
(1) Single Family		
(a) New Unit	\$121.15	Each HVAC Unit
(b) Replacement Unit	\$66.15	Each HVAC Unit
(c) Duct Extension		
(i) First 500 SF	\$28.00	First 500 SF or Portion of GFA
(ii) Additional SF	\$5.60	Per 100 SF or Portion of Additional GFA
(2) Multi-Family		
(a) New Unit	\$121.15	Per Dwelling Unit
(b) Replacement Unit	\$66.15	Per Dwelling Unit
(H) Garage Ventilation		
(1) First 5,000 SF	\$137.45	First 5,000 SF or Portion of GFA
(2) Additional SF	\$28.00	Per 1,000 SF or Portion of Additional GFA

SECTION 5. PLUMBING PERMITS

(Added 7/26/88, Resolution 22,411)

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
The plumbing permit fee shall consist of the plan check fee, the filing fee plus the inspection fees listed for repair, service, or installation for each fixture, device, or installation for each fixture, device, or piece of equipment.		
(A) Plumbing Permit		
(1) Issuing Fee	\$24.95	Each

Description	Amount	Unit/Time
(2) Plan Check Fee	\$126.75	Per Hour
(B) Building Sewers and Sewer Disposal Systems	\$33.10	Each
(C) Gas Systems		
(1) Commercial System		
(a) Standard	\$6.10	Each 5 Outlets or Portion Thereof
(b) Medium Pressure with Regulator	\$17.30	Each 5 Outlets or Portion Thereof
(2) Residential System	\$5.60	Each 5 Outlets or Portion Thereof
(D) Miscellaneous Plumbing Fixtures		
> Industrial waste pretreatment interceptor		
> Water piping and/or water treating equipment		
> Drainage or vent piping		
> Each plumbing fixture or set fixtures on trap		
> Water heater and/or vent		
> Lawn sprinkler system on any one meter		
> Each vacuum breaker or backflow protective device		
> Rainwater systems, drains		
(1) Commercial System	\$11.20	Each
(2) Residential	\$10.70	Each
(3) Online Permits (no plan check)	\$30.25	Per Permit
(E) Water Distribution		
(1) Water Service	\$11.20	Each
(2) Water Distribution and Repipe	\$11.20	Each
(F) Residential		
(1) Single Family		
(a) New Dwelling	\$9.65	Per 100 SF of GFA
(b) Additions & Remodels		
(i) Bathroom	\$44.30	Each
(ii) Powder Room	\$22.40	Each
(iii) Laundry	\$22.40	Each
(iv) Kitchen	\$33.60	Each
(2) Multi-Family		
(a) New Dwellings	\$162.90	Per Dwelling Unit
(b) Additions & Remodels		
(i) Bathroom	\$44.30	Each
(ii) Powder Room	\$22.40	Each
(iii) Laundry	\$22.40	Each
(iv) Kitchen	\$33.60	Each

SECTION 6. GRADING PERMITS

(Added 11/19/91, Resolution 23,473)

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
-------------	--------	-----------

The grading permit fee shall consist of the plan check fee, the bond administration fee, plus the permit fee based on the total cubic yards of both cut and fill.

Description	Amount	Unit/Time
(A) Grading Permit		
(1) Grading Bond		
(a) Grading Bond Administration Fee	\$50.90	Per Application
(b) Grading Bond	Determined by Building Official	Per Application
(2) Grading Permit Plan Check Fee	70%	Of Basic Permit Fee
(B) Permit Fee for Grading		
0 - 1,000 Cu. Yds.	\$180.20	First 100 Cu. Yds
	\$81.95	Each Additional 100 Cu. Yds. Or Fraction Thereof
1,001 - 10,000 Cu. Yds.	\$934.00	First 1,000 Cu. Yds
	\$81.95	Each Additional 1,000 Cu. Yds. Or Fraction Thereof
10,001 - 100,000 Cu. Yds.	\$1,685.80	First 10,000 Cu. Yds
	\$316.10	Each Additional 10,000 Cu. Yds. Or Fraction Thereof
Over 100,000 Cu. Yds.	\$4,638.00	First 100,000 Cu. Yds
	\$136.40	Each Additional 100,000 Cu. Yds. Or Fraction Thereof

SECTION 7. MISCELLANEOUS INSPECTIONS AND FEES

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Inspection Service not Otherwise Listed		
(1) Inspection Service not Otherwise Listed	\$60.55	Per Hour
(2) Special Inspections	\$126.75	Per Hour
(3) Inspections Other than Regular Hours	\$126.75	Per Hour (4-Hour Minimum)
(4) Condo Conversion	\$55.50	Per Unit
(B) Consulting Services		
(1) Plan Check Consulting Fee	\$126.75	Per Hour (1-Hour Minimum)
(2) Certified Access Specialist (CAsp) Consulting Fee	\$152.70	Per Hour (1-Hour Minimum)
(C) Penalties		
(1) Working Without Required Permit	2 Times Standard Fee	
(2) Incorrect Information	\$60.55	Per Trip

Description	Amount	Unit/Time
<ul style="list-style-type: none"> ➤ Incorrect Address ➤ Premature Inspection ➤ Reinspection 		
(3) Restamp and Reapproval of Lost Plans	\$126.75	Per Hour (1 Hour Minimum)
(4) Reissue Inspection Card	\$30.55	Per Card
(D) Miscellaneous Charges and Fees		
(1) Application for Appeal	\$101.80	Per Appeal
(2) Records Report		
(a) Report Administration Fee	\$22.40	Per Report
(b) Copies	\$1.55	Per Page
(3) Copies of Permit Record	\$1.55	Per Page
(4) Plan Archive Fee	\$2.55	Per Sheet
(E) Maintenance Master Electrician and Journeyman Electrician; Maintenance Master Plumbing and Journeyman Plumber		
(1) Certificate for Employers	\$90.10	Each Certified Employee Per Year
(F) Construction and Demolition Debris Deposit		
(1) Construction and Demolition Debris Administrative Fee	\$50.90	Per Application
(2) Construction and Demolition Debris Deposit		
(a) Residential	\$254.50	First ton or fraction thereof
	\$50.90	Each additional ton or fraction thereof; \$1000 Max.
(b) Commercial	\$254.50	First ton or fraction thereof
	\$50.90	Each additional ton or fraction thereof; \$5000 Max.
(c) Roofing	\$254.50	Per Permit

<p style="text-align: center;">ARTICLE IX PARK, RECREATION AND COMMUNITY SERVICES</p>

SECTION 1. DEFINITIONS (As used in this Resolution)

(Added 6/27/95, Resolution 24,510)

(Last Update 6/14/11, Resolution 28,350)

- (A) Charitable Activity - Any activity in which any accruing monetary profit is donated to a valid charity or community service.
- (B) Commercial Activity - Any activity in which there is a related monetary profit motive.
- (C) Department Sponsored Groups - Those groups who receive assistance from the City.
- (D) Educational Activity - Any activity which promotes the opportunity for learning, growth and/or enhancement of skills.
- (E) Political Activity - Any activity which advocates the principles of a political party, organization, or candidate.
- (F) Recreational Activity - An enjoyable activity that expands the mind and body in a positive, healthy way.
- (G) Religious Activity - Any activity which establishes, promotes, or supports the doctrines or creeds of a religious denomination or sect not including incidental recreational activities such as picnics, dinners, sports events and dances.
- (H) Resident - A person or persons who reside in Burbank.
- (I) Resident Group - A group of persons at least seventy percent (70%) of who reside or work in Burbank.
- (J) Non-Resident Group - A person or persons not residing in the City of Burbank.
- (K) Non-Profit Group - City of Burbank based groups/organizations who are identified by a tax-exempt status.
- (L) Burbank Unified School District - A group of persons that is affiliated with a school within the Burbank Unified School District.

SECTION 2. FEES FOR GROUP ACTIVITIES

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Permit Fee (Non-Refundable)		
(1) Resident and Non-Resident Group	\$15.00	Day
(2) Commercial Group	\$195.00	Day
(B) Park Facility Fee Schedule		
(1) Resident Group (1-25)	\$40.00	5-Hour Period
(2) Resident Group (26-50)	\$70.00	5-Hour Period
(3) Resident Group (51-100)	\$100.00	5-Hour Period
(4) Resident Group (101-150)	\$110.00	5-Hour Period
(5) Resident Group (151-199)	\$125.00	5-Hour Period
(6) Resident Group (200-250)	\$145.00	5-Hour Period
(7) Resident Group (251-300)	\$160.00	5-Hour Period
(8) Resident Group (301-400)	\$170.00	5-Hour Period
(9) Resident Group (401-500)	\$195.00	5-Hour Period
(10) Resident Group (501-600)	\$220.00	5-Hour Period
(11) Resident Group (601-800)	\$300.00	5-Hour Period
(12) Resident Group (801-1,000)	\$350.00	5-Hour Period
(13) Resident Group (1,001-4,999)	\$1,700.00	5-Hour Period
(14) Resident Group (5,000+)	\$2,500.00	5-Hour Period
(15) Non-Resident Group (1-25)	\$80.00	5-Hour Period
(16) Non-Resident Group (26-50)	\$115.00	5-Hour Period
(17) Non-Resident Group (51-100)	\$175.00	5-Hour Period
(18) Non-Resident Group (101-150)	\$295.00	5-Hour Period
(19) Non-Resident Group (151-199)	\$325.00	5-Hour Period
(20) Non-Resident Group (200-250)	\$415.00	5-Hour Period
(21) Non-Resident Group (251-300)	\$445.00	5-Hour Period
(22) Non-Resident Group (301-400)	\$515.00	5-Hour Period
(23) Non-Resident Group (401-500)	\$615.00	5-Hour Period
(24) Non-Resident Group (501-600)	\$715.00	5-Hour Period
(25) Non-Resident Group (601-800)	\$975.00	5-Hour Period
(26) Non-Resident Group (801-1,000)	\$1,175.00	5-Hour Period
(27) Non-Resident Group (1,001-4,999)	\$5,880.00	5-Hour Period
(28) Non-Resident Group (5,000+)	\$8,430.00	5-Hour Period
(29) Robert Gross Resident Fee	\$500.00	5-Hour Period
(30) Robert Gross Non-Resident Fee	\$1,000.00	5-Hour Period
(31) Commercial Group (1-25)	\$30.00	2-Hour Period
(32) Commercial Group (26-50)	\$50.00	2-Hour Period
(33) Commercial Group (51-100)	\$60.00	2-Hour Period
(34) Commercial Group (101-200)	\$70.00	2-Hour Period
(35) Commercial Group (201-300)	\$90.00	2-Hour Period
(36) Commercial Group (301-400)	\$130.00	2-Hour Period
(37) Commercial Group (401-500)	\$250.00	2-Hour Period
(C) Additional Hour Charges		
(1) Resident Group (1-25)	\$8.00	1-Hour Period
(2) Resident Group (26-50)	\$14.00	1-Hour Period

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Basic Service Rate		
(1) Customer Service Charge	\$4.96	Meter
(2) Energy Charge		
(a) First 250 kWh/mo.	\$0.0151	
(b) Next 500 kWh/mo.	\$0.0479	
(c) All additional kWh/mo.	\$0.0546	
(3) Energy Cost Adjustment Charge (ECAC) (Sec. 13)		
(a) First 250 kWh/mo.	\$0.1013	
(b) Next 500 kWh/mo.	\$0.1075	
(c) All additional kWh/mo.	\$0.1227	
(4) Composite Energy Rate		
(Comprised of Energy charge and ECAC and may differ from billed rate due to rounding)		
(a) First 250 kWh/mo.	\$0.1164	kWh
(b) Next 500 kWh/mo.	\$0.1554	kWh
(c) All additional kWh/mo.	\$0.1773	kWh
Each of the rates above shall be increased or decreased according to Section 13.		
(5) Minimum Charge	\$4.96	Month
(B) Lifeline Service Rate		
(1) Customer Service Charge	\$0.00	Meter
(2) Energy Charge		
(a) First 400 kWh/mo.	\$0.0150	kWh
(b) Next 350 kWh/mo.	\$0.0312	kWh
(c) All additional kWh/mo.	\$0.0348	kWh
(3) Energy Cost Adjustment Charge (ECAC) (Sec. 13)		
(a) First 400 kWh/mo.	\$0.0427	kWh
(b) Next 350 kWh/mo.	\$0.0893	kWh
(c) All additional kWh/mo.	\$0.0995	kWh
(4) Composite Energy Rate		
(Comprised of Energy charge and ECAC and may differ from billed rate due to rounding)		
(a) First 400 kWh/mo.	\$0.0577	kWh
(b) Next 350 kWh/mo.	\$0.1205	kWh
(c) All additional kWh/mo.	\$0.1343	kWh
Each of the rates above shall be increased or decreased according to Section 13.		

Description	Amount	Unit/Time
(C) Optional TOU Rate for Electric Vehicle Owners		
(1) Customer Service Charge	\$4.96	Meter
(2) Energy Charge (Includes ECAC charge of \$0.1093)		
(a) Summer On-Peak	\$0.2516	kWh
(b) Summer Mid-Peak	\$0.1677	kWh
(c) Summer Off-Peak	\$0.0838	kWh
(d) Winter Mid-Peak	\$0.1677	kWh
(e) Winter Off-Peak	\$0.0838	kWh

Definitions:

On-Peak: Summer, noon to 6 pm; except holidays.

Mid-Peak: Weekdays, 8 am to noon, 6 pm to 11 pm, except holidays.

Off-Peak: All remaining hours.

Winter: November 1 through May 31.

Off-Peak: All remaining hours.

Winter: November 1 through May 31.

Mid-Peak: Weekdays, 8 am to 11pm, except holidays.

Off-Peak: All remaining hours.

Holidays are New Year's Day (January 1), Presidents' Day (third Monday in February), Memorial Day (last Monday in May), Independence Day (July 4), Labor Day (first Monday in September), Veterans Day (November 11), Thanksgiving Day (fourth Thursday in November), and Christmas (December 25).

When any holiday listed above falls on Sunday, the following Monday will be recognized as an off-peak period. No change will be made for holidays falling on Saturday.

- (5) Energy rate shall be increased or decreased according to Sec. 13.

- (6) Minimum Charge \$14,783.60 Month
The minimum charge shall be the sum of the Customer Service Charge plus the Minimum Distribution and Reliability Services Demand Charges.

SECTION 7. SCHEDULE XL-TOU PRIMARY
EXTRA LARGE GENERAL SERVICE PRIMARY OVER 1,000 KVA
(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Basic Service Rate Customers serviced at 2.4 kV and above, and customers with only one level of transformation below 34.5 kV (excepting 12kV/4kV transformations done as part of a voltage conversion effort) qualify for primary service.		
(1) Customer Service Charge	\$112.37	Meter
(2) Distribution Demand Charge		
(a) Minimum	\$7,794.10	Month
(b) All kVA	\$9.74	kVA
(3) Reliability Services Demand Charge		
(a) Minimum	\$5,807.36	Month
(b) All kVA	\$7.25	kVA
(4) Energy Charge (Includes ECAC charge)	\$0.1023	
(a) Summer On-Peak	\$0.1400	kWh
(b) Summer Mid-Peak	\$0.0947	kWh

Description	Amount	Unit/Time
(c) Summer Off-Peak	\$0.0700	kWh
(d) Winter Mid-Peak	\$0.0947	kWh
(e) Winter Off-Peak	\$0.0700	kWh

Definitions:

Summer: June 1 through October 31.

On-Peak: Summer Weekdays, noon to 6 pm, except holidays.

Mid-Peak: Weekdays, 8 am to noon, 6 pm to 11 pm, except holidays.

Off-Peak: All remaining hours.

Winter: November 1 through May 31.

Mid-Peak: Weekdays, 8 am to 11pm, except holidays.

Off-Peak: All remaining hours.

Holidays are New Year's Day (January 1), Presidents' Day (third Monday in February), Memorial Day (last Monday in May), Independence Day (July 4), Labor Day (first Monday in September), Veterans Day (November 11), Thanksgiving Day (fourth Thursday in November), and Christmas (December 25).

When any holiday listed above falls on Sunday, the following Monday will be recognized as an off-peak period. No change will be made for holidays falling on Saturday.

- (5) Energy rate shall be increased or decreased according to Sec. 13.

- (6) Minimum Charge \$13,713.83 Month
The minimum charge shall be the sum of the Customer Service Charge plus the Minimum Distribution and Reliability Services Demand Charges.

SECTION 8. STREET LIGHTING, TRAFFIC SIGNAL, AND FREEWAY LIGHTING SERVICE

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Street Lighting		
This schedule is applicable to service for streetlights owned and installed by the City or customers. The Energy Cost Adjustment Charge shall be added to the charges under this schedule, based on estimated usage.		
(1) High Pressure Sodium		
(a) 70W	\$0.949	Lamp
(b) 100W	\$1.305	Lamp
(c) 150W	\$1.629	Lamp
(d) 200W	\$2.353	Lamp
(e) 250W	\$2.430	Lamp
(f) 360W	\$2.997	Lamp
(g) 400W	\$3.344	Lamp

Description	Amount	Unit/Time
(2) Low Pressure Sodium 55W	\$1.046	Lamp
(3) Flourescent		
(a) 85W	\$1.179	Lamp
(4) Incandescent		
(a) 2500 Lumen	\$3.509	Lamp
(b) 4000 Lumen	\$3.931	Lamp
(c) 100W INC	\$7.350	Lamp
(5) Metal Halide		
(a) 250W	\$2.135	Lamp
(b) 400W	\$3.566	Lamp
(6) LED		
(a) 120W	\$2.353	Lamp
(b) 150W	\$2.825	Lamp
(B) Traffic Signal and Freeway Lighting		
This schedule is applicable to traffic signals, mass transit lighting facilities, freeway lights, and freeway ramp lights. These services may be metered or unmetered.		
(1) Customer Service Charge	\$5.93	Service
(2) Energy Charge	\$0.0622	kWh
(3) Energy Cost Adjustment Charge (ECAC):		
(a) All kWh/mo	\$0.1093	kWh
ECAC rate shall be increased or decreased according to Sec. 13.		

SECTION 9. TEMPORARY SERVICE

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Basic Service Rate		
(1) Customer Service Charge		
(a) 1st calendar month	\$37.84	Service
(b) Each successive month	\$9.46	Service
(2) Energy Charge	\$0.0389	kWh
(3) Energy Cost Adjustment Charge (ECAC):		
(a) All kWh/mo	\$0.1093	kWh
ECAC rate shall be increased or decreased according to Sec. 13.		

For overhead temporary service there shall be an installation charge of five hundred dollars (\$500.00).

Where temporary power is provided by a padmount transformer, Aid-In-Construction charges will apply like permanent service, but after completion of the project, the transformer will be prorated and the remaining money will be refunded to the customer.

Should the temporary service location be relocated during the period of temporary service for the customer's convenience, a relocation charge of two hundred forty dollars (\$240.00) shall be paid by the customer.

SECTION 10. MISCELLANEOUS CHARGES

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) Penalties		
(1) Restoration of service after payment	\$30.00	Reconnect
(2) Collection activity	\$30.00	Call
(3) Disconnect after illegal connection	\$100.00	Violation
(4) Service call	\$50.00	Call
(5) Return Item Charge	\$35.00	Each
(6) Repairs and replacements due to illegal connections	At Cost	Each
(7) Energy diversion	\$500.00	Violation
(8) Late Fee (on past due balances)	1.5%	Month
(9) Collection Agency Fee	24% of Debt Total Due	Each
(10) Collection Agency Court Fee or Secondary Collection Fee	33% of Debt Total Due	
(B) Connections (Aid-In-Construction)		
(1) Relocation of existing overhead or underground lines	100%	Actual Costs
(2) Feasibility Studies	100%	Actual Costs
(3) Engineering	100%	Actual Costs
(4) Installation of new on-site facilities necessary to serve customer	100%	Actual Costs
(5) Special Remote Meter	100%	Actual Costs
(6) "Actual Costs" shall mean all costs to the Burbank Water and Power Department associated with the providing of the described service, as determined by the General Manager and shall include, but need not be limited to, contract labor, meters, transformers, switches, other equipment and materials.		
(7) Installation of new off-site facilities necessary to serve multi-family dwellings or large high-rise industrial developments from underground circuits when improvements are needed in the distribution system in that area.	\$0.480	Gross

Description	Amount	Unit/Time
<p>(8) Installation of new off-site facilities necessary to serve multi-family dwellings or large high-rise industrial developments from underground circuits exclusively for one particular customer.</p> <p>(9) Aid-in Construction (AIC) charges may be waived, recovered over a period of time, or otherwise modified provided that the Department receives a benefit equal to or greater than that from the AIC charges that would normally have applied.</p>	100%	Actual Costs
(C) Deposits		
<p>(1) Each applicant for electric service may be required to guarantee payment of charges for electricity by depositing or otherwise furnishing double the estimated coverage billing for such services, provided that no deposit shall be less than Twenty Dollars (\$20.00).</p> <p>(2) Each applicant for a new service connection shall be required to make a deposit equal to the estimated cost of the installation prior to installation, unless waived by the Department under special conditions.</p> <p>(3) Each applicant for temporary service shall be required to deposit with the General Manager an amount equal to the estimated bill for electric service to be rendered, including installation and removal of service facilities and the costs of any equipment furnished by City. Such amount shall not be less than Fifty Dollars (\$50.00).</p> <p>(4) A deposit of Fifty Dollars (\$50.00) shall be required for consumer requests to test the consumer's meter if such test has been performed on that service in the 12 months immediately preceding. If the meter is inaccurate, the deposit will be refunded and a billing adjustment made. If the meter is accurate, the deposit shall be forfeited.</p>		
(D) Special Services		
<p>(1) A fee of one hundred twenty-five Dollars (\$125.00) shall be charged for each community banner that is hung by the Department.</p>		
<p>(E) Electric Vehicles(EV)-Level 1 and 2 City AC Charging Stations A fee of \$2.00 per hour as long as vehicle is plugged into the City owned charging station.</p>	\$2.00	per hour

SECTION 11. CUSTOMER GENERATION

(Last Update 6/22/10, Resolution 28,138)

Description

- (A) The rate paid by the Burbank Water & Power Department to any "Qualifying Facility" under FERC rules shall be secured on an individual contract basis. Rules specifying terms, conditions, and interconnection requirements as a prerequisite for cogeneration service under this rate schedule, in compliance with FERC Order No. 69, pursuant to PURPA, Section 210, were adopted by the City Council on September 28, 1982.
- (B) Excess Solar Net-Metering Compensation - When Available \$0.09870 kWh
- (1) All kwh delivered to BWP in cxxess of annual usage by the customer.

SECTION 12. INTERRUPTIBLE SERVICE

Description

- (A) Interruptible service may be available, at the discretion of the General Manager, to industrial customers who demonstrate to the satisfaction of the General Manager, that the industrial facility can tolerate unscheduled interruptions without creating an adverse impact on the power system. The interruptible rate shall be negotiable between the customer and the General Manager, and secured on an individual contract basis, and subject to the rules and regulations.

SECTION 13. ENERGY COST ADJUSTMENT CHARGE (ECAC)

(Last Update 6/11/13, Resolution 28,619)

Description

- (A) Computation of the ECAC
- The General Manager shall establish an ECAC each month based on estimated energy sales sufficient to recover the cost of energy with consideration of any over or under collections. The cost of energy shall include:
- (1) The cost of all fuel used for the generation of electricity including expenses in the handling and transportation of fuel up to the point where the fuel enters the boiler or turbine;

- (2) The cost at the point of receipt by the utility of electricity purchased for resale. It shall include, also, net settlements for exchange of electricity or power such as economy energy, off peak energy for on peak energy, spinning reserves capacity, etc;
- (3) The cost payable to others for transmission of the utility's electricity over transmission facilities owned by others;
- (4) The cost payable to others for power system operation and dispatching the utility's electricity;
- (5) The cost of water required for electrical generation;
- (6) Taxes and other fees for transmission of the utility's electricity;
- (7) The costs payable to others for the operation and maintenance for the utility's transmission facilities located outside Burbank;
- (8) The costs of payments made to the City for the ECAC portion of gross sales of electrical energy under Section 33 of the Charter;
- (9) Costs of funding for competitiveness.
- (10) The rates sated in this fee schedule are based on an overall ECAC rate of \$.1093/kWh. Any increase or decrease in the ECAC rate above or below this level shall be applied as a uniform cents/kWh charge to each energy rate block in each rate schedule.

Limitation:

The monthly ECAC shall not increase or decrease by more than ten (10) percent from the prior month's ECAC.

SECTION 14. STANDBY SERVICE (SCHEDULE S)

(Last Update 6/11/13, Resolution 28,619)

Description	Amount	Unit/Time
(A) <u>BACK-UP SERVICE</u>		
<p>Electric capacity and energy supplied by BWP during an unscheduled outage of the customer's source of on-site non-utility generation to replace power ordinarily generated by the on-site non-utility generation facilities. Customers taking Back-Up Service shall notify BWP within 24 hours after the initiation of each outage of the customer's source of on-site non-utility generation.</p>		

OR

MAINTENANCE SERVICE

Electric capacity and energy supplied by BWP during a scheduled outage of the customer's source of on-site non-utility generation to replace power ordinarily generated by the on-site non-utility generation facilities. Maintenance Service will be provided for outages scheduled with BWP pursuant to a power purchase agreement between BWP and the customer, or scheduled with BWP at least 30 days in advance. Maintenance Service will not be permitted during the months of June through October. During other periods, BWP will not unreasonably withhold approval of Maintenance Service.

OR

Both Back-Up Service and Maintenance Service

- | | | |
|---|----------|--------|
| (1) Demand Charge | | |
| (a) Peak kW/kVA | \$16.85 | kW/kVA |
| (2) Energy Cost Adjustment Charge: (Sec. 13) | \$0.1093 | kWh |
| (a) During an Energy Cost Crisis, the ECAC for Back-Up Service or Maintenance Service shall be equal to the average variable cost of the most expensive 10 megawatts of resources actually operated by BWP. In the case of utility-operated resources, this is calculated as the variable fuel cost plus \$0.01/kWh. In the case of purchased power, this is calculated as the purchase rate, plus any required wheeling cost, plus \$0.01/kWh. | | |

Description	Amount	Unit/Time
(b) Energy Cost Crisis Any day when the variable cost of purchased power delivered at SP 15 or Palo Verde as reported by Dow Jones exceeds \$0.10/kWh, or the cost of natural gas delivered in Southern California as reported by Gas Daily exceeds \$10.00 per million BTU. The General Manager or designee will notify all Backup and Maintenance Service customers by email on a day-ahead basis of any day when the day-ahead prices reach these levels, and on a same-day basis when the real-time market prices reach these levels.		
(3) Minimum Charge		
(a) The Minimum Charge shall be the Demand Charge.	\$16.85	kW/kVA

(B) SUPPLEMENTAL SERVICE

Electric capacity and energy supplied by BWP on a regular basis to supplement the customer's power requirement in addition to that ordinarily supplied by the on-site non-utility generation facilities.

- (1) All customers taking Supplemental Service shall be billed at the appropriate rate schedule for their level of connection. Customers connected through transformers with less than 250 kilovolt-amperes (kVA) of capacity will be served under Schedule D. Customers connected through transformers with more than 250 kVA of capacity will be served under Schedule L or XL. Refer to Schedule D, L-TOU, or XL-TOU as appropriate.

- (a) Billing Demand for Supplemental Service \$16.85 kW/kVA
The Billing Demand for Supplemental Service shall be equal to the actual demand by the customer in excess of the Billing Demand for Backup Service and Maintenance Service in any month.

- (b) Pro-ration of Energy Consumption Between Supplemental Service and Back-up Service or Maintenance Service.

For the purpose of calculating the applicable energy charges for a customer using both Supplemental Service and Backup and Maintenance Service in any day, the daily kWh consumption shall be divided between the two categories in proportion to the billing demand for each service for that month.

(C) Customers Exempted from Schedule S

- (1) Customers with less than 20 kW of on-site generation.
- (2) Customers with on-site generation that is used exclusively when service from the utility is not available, plus testing not to exceed 48 hours per year.
- (3) Customers with renewable energy systems (such as solar and wind) of 1000 kW or less, total.

SECTION 15. PUBLIC BENEFITS CHARGE

(Authority: California Public Utilities Code Sec. 385)

(Added 6/20/06, Resolution 27,258)

The Public Benefits Charge is 2.85% of the retail charge to a customer for electric service.

SECTION 16. STREET LIGHTING SURCHARGE

(Authority: Burbank City Charter - Section 33)

(Added 6/20/06, Resolution 27,258)

(Last Update 6/19/07, Resolution 27,486)

The Street Lighting Surcharge is 1.50% of the retail charge to a customer for electric service.

ARTICLE XI WATER RATES AND CHARGES

SECTION 1. SINGLE FAMILY RESIDENTIAL SERVICE

(Last Update 6/11/13, Resolution 28,619)

The total charge shall be the sum of the Water Availability Charge, Quantity Charge, and a Water Cost Adjustment Charge (WCAC) as established in this section.

Description	Amount	Unit/Time
(A) Water Availability Charge Size of Meter: All	\$10.78	Month
(B) Quantity Charge		
First 15 HCF/mo	\$1.114	100 Cubic Feet
Next 15 HCF/mo	\$1.372	100 Cubic Feet
All additional HCF/mo	\$1.727	100 Cubic Feet
(C) Water Cost Adjustment Charge (WCAC)	\$1.642	100 Cubic Feet
(D) Minimum Charge		

The minimum charge per customer shall be the Water Availability Charge.

SECTION 2. MULTI-FAMILY RESIDENTIAL, COMMERCIAL AND INDUSTRIAL SERVICE

(Last Update 6/11/13, Resolution 28,619)

The total charge shall be the sum of the Water Availability Charge, Quantity Charge, and a Water Cost Adjustment Charge (WCAC) as established in this section.

Description	Amount	Unit/Time
(A) Water Availability Charge Size of Meter: All	\$10.78	Month
(B) Quantity Charge		
1. Summer HCF (June 1 - October 31)	\$1.533	100 Cubic Feet
2. Non-summer HCF (November 1 - May 31)	\$0.715	100 Cubic Feet
(C) Water Cost Adjustment Charge (WCAC)	\$1.642	100 Cubic Feet
(D) Minimum Charge		
The minimum charge per customer shall be the Water Availability Charge.		
(E) Water Efficiency Non-Compliance		
1. First year of non-compliance	25% of all water charges	
2. Subsequent years of non-compliance	50% of all water charges	
(F) Unmetered City Landscape Service		
Unmetered City landscape service charge for areas less than 100 square feet shall be the sum of the Water Availability Charge in this Section and the Quantity Charge plus the Water Cost Adjustment Charge of one unit for each location. Cumulative billing for unmetered City landscape service may be approved by the BWP General Manager.		

Description	Period	Amount	Unit/Time
(G) Combination Domestic/Fire Service (F.M. Meter)			
The total charge for a combination domestic/fire service (F.M. meter) shall be the sum of the Water Availability Charge in Section 6, the Quantity Charge, and the Water Cost Adjustment Charge (WCAC).			

SECTION 3. NEW SERVICE INSTALLATIONS

(Last update 6/22/04, Resolution 26,737)

Description	Period	Amount	Unit/Time
(A) Connection Fees for New Installations			
	5/8 inch	\$427.00	
	3/4 inch	\$608.00	
	1 inch	\$960.00	
	1½ inch	\$1,813.00	
	2 inch	\$2,730.00	
	3 inch	\$4,800.00	
	4 inch	\$7,466.00	
	6 inch	\$13,865.00	
	8 inch	\$20,478.00	
	10 inch	\$26,984.00	
	12 inch	\$45,862.00	
(B) Hook Up Fees			
	All	Actual Cost	

SECTION 4. TEMPORARY SERVICE

(Last Update 6/22/10, Resolution 28,138)

The total monthly charge shall be the sum of a Processing Fee, a Service Charge, a Quantity Charge, and a Water Cost Adjustment Charge (WCAC) as established in this section. In addition, if a fire hydrant meter is required for the temporary service, a meter Rental Rate shall be charged.

Description	Period	Amount	Unit/Time
(A) Processing Fee			
(1) Open Account		\$30.00	Each Occurrence
(B) Service Charge			
(1) Metered Service		Same as Section 2	Month
(2) Unmetered Service		\$30.00	Month
(C) Quantity Charge and WCAC			
The Quantity Charge for unmetered water shall be made as follows:			
(1) For concrete curbs - three units per one hundred lineal feet.			
(2) For settling trenches not exceeding two feet in width and five feet in depth - six units per one hundred lineal feet.			

Description	Period	Amount	Unit/Time
(3) For larger trenches a proportional charge shall be made as estimated by the Manager of the Water Division.			
(4) For concrete walks - one and one half units per one hundred square feet.			
(5) For settling graded streets - three quarters of one unit per one hundred square feet.			
(6) For mixing and curing concrete - three quarters of one unit per cubic yard.			
(7) For mixing and curing concrete by a patented process - one third of one unit per cubic yard.			
(8) For settling filled ground a charge will be made for a quantity of water equal to one-third the cubic contents of the fill rates provided in this chapter.			
(9) For miscellaneous uses not herein specified, the quantity shall be estimated by the Water Division.			

One unit of water equals one hundred cubic feet. A quantity charge and WCAC shall be based on the water use estimated above and shall be two (2) times the rate specified in the Multi-Family Residential, commercial, and Industrial Service.

(D) Fire Hydrant Meter Rental

(1) Deposit	\$900.00	Each Occurrence
(2) Rate	\$5.00	Day

(E) Estimated Monthly Billing

A one hundred dollar (\$100.00) charge shall be made to cover the expense of estimating the billing each month for each meter not returned for reading and checking as provided in the Water Rules and Regulations Act 4.36(d).

SECTION 5. PRIVATE FIRE SERVICE

(Last Update 6/19/12, Resolution 28,540)

The total monthly bill shall be the sum of the Water Availability Charge, Quantity Charge, and a Water Cost Adjustment Charge (WCAC) as established in this section.

Description	Period	Amount	Unit/Time
(A) Service Charge			
(1) 2 inch or smaller		\$20.90	Month
4 inch		\$35.53	Month
6 inch		\$64.79	Month
8 inch		\$114.95	Month
10 inch		\$188.10	Month
12 inch		\$274.10	Month

Description	
(B) Quantity Charge	
The Quantity Charge shall be three (3) times the rate specified in Section 2.	
(C) WCAC	
The WCAC shall be three (3) times the rate specified in Section 2.	
(D) Hook-Up Fees	Actual Cost

SECTION 6. WATER COST ADJUSTMENT CHARGE (WCAC)

(Last Update 6/19/12, Resolution 28,540)

Description	
(A) Purpose	
The Quantity Charge is subject to a purchased water cost adjustment charge (WCAC) as specified in this section in order to compensate the City for its varying costs of purchasing or producing water. The WCAC shall be adjusted when the Balancing Account is less than one month or greater than three-months purchased water and shall be calculated to the nearest five mills (\$0.005). The monthly WCAC shall not increase or decrease by more than ten (10) percent from the prior month's WCAC.	
(B) Formula	
For all water rates, except the school rate, the adjustment shall be determined in accordance with the following formula:	
Adjustments (mills per unit)	$= \frac{1000 \times \text{Estimated Water Costs}}{\text{Estimated Units of Water Sales} \times .95}$
(C) Definitions	
(1) "Estimated Water Costs" shall mean the total cost to the City of purchased water delivered to the City from the Metropolitan Water District (MWD) or other independent suppliers, basin replenishment water, related MWD charges, Readiness to Service Charge and Capacity Reservation Charge, chemical costs for treating the water, including granular activated carbon, compliance water testing, ULARA watermaster expense related to the maintenance, protection, and/or development of basin water resources and the total cost to the City for electric power to pump water. All such costs shall be estimated monthly by the General Manager for the next 12-month period. The WCAC Balancing Account will be adjusted by any under or over-collections of water costs exceeding the Balancing Account limits experienced by the City. The City Council will be advised of any change in the WCAC rate.	
(2) "Estimated Units of Water Sales" shall mean: the hundreds of cubic feet of potable water sales for the next 12-month period as estimated by the General Manager.	

SECTION 7. MISCELLANEOUS WATER CHARGES

(Last Update 6/11/13, Resolution 28,619)

The total monthly bill shall be the sum of the Water Availability Charge, Quantity Charge, and a Water Cost Adjustment Charge (WCAC) as established in this section.

Description	Period	Amount	Unit/Time
(A) Penalties			
(1) Restoration of Services after non- payment		\$30.00	Reconnection
(2) Disconnection after illegal connection		\$100.00	Violation
(3) Service Call - non payment		\$50.00	Call
(4) Return Item Charge		\$35.00	Check
(5) Late Fee (on past due balances)		1.5%	Month
(6) Repairs and replacements due to illegal water connections		At Cost	Each Occurrence
(7) Collection Activity		\$30.00	Call
(8) Emergency Turn on/off customer request after hours		\$25.00	Call
(9) Penalty for unauthorized connection to department facilities		\$500.00	Violation
(10) Penalty for unauthorized use of water through a department facility		\$500.00	Violation
(11) Collection Agency Fee	20% of Debt Total Due		Each
(12) Collection Agency Court Fee or Secondary Collection Fee	33% of Debt Total Due		
(B) Water Distribution Main Charge (When applicant or his predecessor in interest has not previously paid such charge.)			
(1) Water Main Charge		\$85.00	Front foot of parcel adjacent to the water main
(C) Water Main Replacement Fee (Water Rules and Regulations Section 4.34)			
(1) 8-inch main		\$85.00	Front foot of parcel adjacent to the water main
(2) 12-inch main		\$125.00	Front foot of parcel adjacent to the water main

Description	Period	Amount	Unit/Time
(D) Miscellaneous Charges			
(1) Special Facilities Charge		100%	Cost
(2) Copies of Rules and Regulations		\$5.00	Copy
(3) Public Fire Hydrant Installations		At Cost	Each Occurrence
(4) Fire Hydrant Flow Test		\$400.00	Each Occurrence
Fire Hydrant Flow Information		\$100.00	Each Occurrence
(5) Inspection Services/Flushing for customer installed domestic/fire service		\$275.00	Each Occurrence
(E) Deposits			
(1) Each applicant for water service may be required to guarantee payment of charges for water by depositing or otherwise furnishing double the estimated average billing for such service, provided no deposit shall be less than twenty dollars (\$20.00)			
(2) Each applicant for a new service connection shall be required to make a deposit equal to the estimated cost of installation prior to installation.			
(3) Each applicant for temporary service shall be required to deposit with the General Manager an amount equal to the estimated bill for water service to be rendered, including installation and removal of service facilities, and the cost of any equipment furnished by the City.			
(4) A deposit of fifty dollars (\$50.00) shall be required for consumer requests to test the consumer's meter if such test has been performed on that service in the 12 months immediately preceding. If the meter is inaccurate, the deposit will be refunded and a billing adjustment made. If the meter is accurate, the deposit shall be forfeited.			
(F) Backflow Prevention			
(1) Applicants for service shall be required to pay a plan check charge to cover costs for evaluating premises for potential cross-connection per Title 17 of the California Administrative Code. Such fee shall be \$50.00 minimum, up to actual costs for large facilities.			
(2) Where backflow prevention device must be maintained and tested, an administrative fee of \$5.50 per month shall be charged.			
(G) Water Testing Fees			
Fees for water tests will be charged at the current laboratory contract rates. No mark-up will be charged.			

SECTION 8. RECYCLED WATER RATES

(Last Update 6/11/13, Resolution 28,619)

Description	Period	Amount	Unit/Time
(A) Recycled Water Service			
The total charge shall be the sum of the Water Availability Charge and the Quantity Charge as established in this section.			
(1) Water Availability Charge	All	\$10.78	Month
(2) Quantity Charge		\$2.460	100 Cubic Feet
(B) Temporary Recycled Water Services Monthly Truck Rate: RT-1			
The total monthly charge shall be the sum of a Processing Fee and a Flat Rate Quantity Charge as established in this section. A refundable deposit for the fire hydrant meter is also required.			
(1) Processing and Deposit Fee			
(a) Open Account		\$100.00	Each Occurrence
(b) Hydrant Meter Deposit		\$900.00	Each Occurrence
(2) Flat Rate Quantity Charge		\$100.00	Truck/Month
Period: July 1, 2008			
(D) New Recycled Water Service			
(1) The Connection Fee for Reclaimed Water Service shall be the same as that for domestic water as established in Section 3.A.			
(2) Hook-Up Fee	All	Actual Cost	

SECTION 9. PHYSICAL SOLUTION WATER COST

(Added 6/22/99, Resolution 25,543)

(Last Update 6/11/13, Resolution 28,619)

The water rights in the Upper Los Angeles River Area were established by the JUDGMENT AFTER TRIAL BY COURT in Superior court Case No. 650079, entitled **The City of Los Angeles, A Municipal Corporation, Plaintiffs vs. City of San Fernando, et al., Defendants**. Under the Judgment, certain parties have rights to Physical Solution Water upon payment of specified charges. Valhalla and Lockheed have the right to 300 acre-feet and 25 acre-feet of water respectively.

From time to time, other property owners, not covered by the Judgment, have a need to produce ground water for temporary and/or long term dewatering activities relating to construction, building foundations, basements or underground facilities, and for property soil and groundwater contamination clean up activities. The water is typically discharged to a storm drain or sewer. The City of Burbank should be compensated for the removal of this water from the groundwater basin. The charge for this water will be the Physical Solution Water Charge plus an Administrative Fee.

(A) Physical Solution Water Charge

The charge for Physical Solution water in Burbank is determined by Section 9.4 of the Judgment.

- (1) For Fiscal Year 2013/2014 the charge to Vahalla and Lockheed for the first 300 acre-feet and 25 acre-feet respectfully will be \$668.00 per acre-foot.
- (2) Vahalla and Lockheed production exceeding that specified in 1 above, and all other production for dewatering or soil/groundwater clean up activities, will be charged \$1383.00 per acre-foot.

(B) Administrative Fee

An Administrative Fee of \$50.00 will be added to each monthly billing.

It is the responsibility of the producer to report the monthly water extraction to the Burbank Water & Power Department, Water Division and the Upper Los Angeles River Area Watermaster. The extraction volume shall be reported prior to the 15th of the following month.

ARTICLE XII FIBER OPTIC RATES AND CHARGES

SECTION 1. GENERAL SERVICE

(Last Update 6/19/12, Resolution 28,540)

Description	Amount	Unit/Time
(A) Dark Fiber Lease Rate (applicable to retail service only)	\$225.00	Per Fiber/Per Mile/Per Month
(B) Minimum Charge The minimum charge shall be one-mile.		
(C) New Service Installations The connection fee for New Installations is an aid-in-construction charge to recover costs incurred in providing fiber optic service. For each project, an estimate will be generated. Billing will be for actual charges unless they exceed the original estimate, in which case billing will be for the estimated amount only. This is a one-time, non-recurring charge.		

SECTION 2. COMMUNICATIONS TRANSPORT SERVICES (CTS) - VIDEO

(Last Update 2/28/06, Resolution 27,184)

(A) Recurring Monthly Charges

Service Type	Month-to-Month Agreement	One-Year Agreement	Three-Year Agreement	Five-Year Agreement
Video transport 0-15 miles*	\$1,100	\$1,000	\$950	\$850
Video transport > 15 miles*	\$1,485	\$1,350	\$1,283	\$1,148
Video transport to "The Switch" hub*	\$1,100	\$1,000	\$950	\$850
Video Net Gig Ethernet	\$3,850	\$3,500	\$3,325	\$2,975

(B) Non-Recurring Monthly Charges (Connection Fees)

Service Type	Month-to-Month Agreement	One-Year Agreement	Three-Year Agreement	Five-Year Agreement
Video transport 0-15 miles*	\$1,100	\$550	n/c	n/c
Video transport > 15 miles*	\$1,485	\$743	n/c	n/c
Video transport to "The Switch" hub*	\$1,100	\$550	n/c	n/c
Video Net Gig Ethernet	\$3,850	\$1,925	n/c	n/c

** Bidirectional Service

NOTICE OF PUBLIC HEARING

ON POTABLE WATER, RECYCLED WATER AND SANITATION SERVICE RATES

Dear Customer,

August 30, 2012

In compliance with Proposition 218, Las Virgenes Municipal Water District (LVMWD) is informing you that a public hearing will be conducted by the Board of Directors at the District Headquarters office, 4232 Las Virgenes Road, Calabasas, CA on Monday, October 22, 2012 at 6 p.m. to hear public comments and to consider proposed potable water, recycled water and sanitation rate increases contained in this notification. The proposed rate structure for sanitation may result in a rate reduction for some customers.

Las Virgenes Municipal Water District is entirely dependent upon potable water supplied by the Metropolitan Water District of Southern California (MWD); there is no local potable water source. Recently, MWD adopted increases in water rates to its member agencies that will become effective January 2013 and January 2014. There is also an undetermined increase expected in January 2015; this notice informs you of LVMWD's intent to "pass through" that increase in conformance with Government Code 53756. The main cause for MWD increasing its rates is the repair and replacement of aging infrastructure. In the next 2 years, 60% of MWD's capital improvement budget will fund maintenance of the State Water Project that conveys water from Northern California to LVMWD and other agencies. In addition to the increased costs from MWD, Las Virgenes Municipal Water District is increasing its rates to cover operation and maintenance expenses which include labor, utilities, supplies, contracted services and administration. Documentation is provided in the FY12/13 Budget and the 2012 LVMWD Utility Rate Study prepared by Raftelis Financial Consultants, Inc. Both documents are available on the District's website for review.

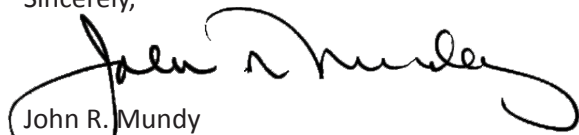

Proceeds from sanitation service charges are used for sewage collection, wastewater treatment and biosolids composting. Under the rate structure proposed to take effect January 2013, single family residential customers will pay for sanitation service based on winter season water use, during typically lower-demand months. Low volume single-family residential water users may see a reduction in their sanitation bill while other customers, including multi-family residential dwellings, will have an increase.

Recycled water revenues are used for the maintenance and operation of the recycled water distribution system. Recycled water is currently priced at about 80% of the potable water rate. To keep in step with rising operation and maintenance costs, an annual consumer price index (CPI) adjustment is proposed.

The LVMWD Board of Directors will evaluate the District's needs annually and if conditions warrant, possibly reduce or forego scheduled rate increases as it did for sanitation in 2007 through 2012. The scheduled rate increases were reduced by 9% over five years.

You will find more detail on the need for rate adjustments under "Frequently Asked Questions". Prior to the public hearing, if you have any questions or comments regarding LVMWD's proposed rate adjustments, please contact the District at generalmanager@lvmwd.com; by telephone at (818) 251-2200 or by mail to General Manager, LVMWD, 4232 Las Virgenes Road, Calabasas, CA 91302.

Sincerely,

John R. Mundy
General Manager

POTABLE WATER

READINESS TO SERVE CHARGE

Cost of meter reading, maintenance, billing and customer service (also known as "fixed meter charge")

Meter Size	Current	Proposed		
		1/1/2013	1/1/2014	1/1/2015
3/4"	\$27.40	\$28.77	\$30.21	\$31.73

ELEVATION CHARGE

Cost of pumping water to higher elevations per hcf¹

Zone	Current	Proposed		
		1/1/2013	1/1/2014	1/1/2015
Zone 1	n/a	n/a	n/a	n/a
Zone 2	\$0.36	\$0.38	\$0.40	\$0.42
Zone 3	\$0.62	\$0.66	\$0.70	\$0.74
Zone 4	\$1.09	\$1.15	\$1.21	\$1.28
Zone 5	\$2.19	\$2.30	\$2.42	\$2.55
Temporary	Elevation charge 1.5 times zone charges above.			

Note:

- The elevation charge is determined by the highest zone the water is pumped to prior to reaching the customer.

RECYCLED WATER

COMMODITY CHARGE

Cost of water per hundred cubic feet (hcf)

Tier	Current ¹		Proposed		
	Las Virgenes Valley	Western System/ Calabasas ²	1/1/2013	1/1/2014	1/1/2015
Tier 1	\$1.04	\$1.27	Increase each year using Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers (CPI-U); Los Angeles, Riverside-Orange Counties, CA; Commodity and Service Group All Items. Use CPI percent change for 12-month period ending in October of the previous year.		
Tier 2	\$1.36	\$1.59			
Tier 3	\$2.16	\$2.39			
Tier 4	\$3.36	\$3.59			
Temporary ³	\$5.04	\$5.39			

Notes:

- "Readiness to serve" charge does not apply to recycled water service.
- These rates include the additional cost for pumping.
- Temporary rates are 1.5 times tier 4 rate.

COMMODITY TIER RANGES FOR POTABLE AND RECYCLED WATER (NO CHANGE)

COMMODITY TIERS

Tiers in hundred cubic feet (hcf)

Tier ¹	Account Type			
	Single Family Residential	Multi-Family Residential ²	Commercial and Irrigation ³	Recycled Water ³
Tier 1	First 16	First 12	First 85	First 85
Tier 2	Next 51	Next 2	Next 270	Next 270
Tier 3	Next 133	Next 10	Next 705	Next 705
Tier 4	Over 200	Over 24	Over 1,060	Over 1,060

Notes:

- To determine the cost of water service, multiply the commodity charge times the water allowance in each tier in this table. For potable water only, add the "readiness to serve" charge.
- For each dwelling unit.
- For 2" meter. Refer to www.LVMWD.com for other meter sizes.

SANITATION

SANITATION SERVICE CHARGE

Cost of sewage collection, wastewater treatment and biosolids composting

For single family residences, the proposed billing method uses the customer's average winter water use from December 1 through March 31. Water use in this period determines the sanitation bill for the full fiscal year that follows. The principle is that there is less outdoor use during those months, which approximates indoor water use that flows as sewage to the treatment plant. This method replaces the existing 10% sanitation rate discount, which applies only when bimonthly usage is 16 hcf or less during a given billing period. Under the proposed plan, customers who use 10 hcf or less bimonthly will see a 24% reduction (refer to example 2 in FAQ). Those who use 11 to 14 hcf will see up to an 18% reduction on a sliding scale. Those who use 15 or 16 hcf will see an increase of 6% and 12%, respectively, due to the elimination of the current 10% discount (refer to example 3 in FAQ). For water usage above 16 hcf, there will be a nominal 1% increase. If the proposed plan is adopted, average winter water use from December 1, 2011 to March 31, 2012 will be used to determine rates scheduled to become effective January 1, 2013.

The 10% sanitation rate discount will be eliminated for all multi-family residences. That discount applied only when usage was 12 hcf or below during a two-month billing period. Those who previously saw this discount will see an increase of up to 12%. However, multi-family residential customers will continue to pay 27% less than the base for single family residential accounts.

No sanitation rate adjustment is proposed for fiscal year (FY) 2013/2014. A 2% increase is scheduled for January 1, 2015, but subject to review by the LVMWD Board of Directors prior to becoming effective.

Current		Proposed			
		Winter Water Use (hcf)	1/1/2013	FY 13/14	FY 14/15
Single-Family	\$108.00 flat rate ¹	10 or less	\$74.31	\$74.31	\$75.80
		11	\$80.02	\$80.02	\$81.63
		12	\$85.73	\$85.73	\$87.45
		13	\$91.44	\$91.44	\$93.27
		14	\$97.15	\$97.15	\$99.10
		15	\$102.86	\$102.86	\$104.92
		16 or more	\$108.56	\$108.56	\$110.74
Multi-Family	\$68.03 flat rate ²	n/a	\$68.59	\$68.59	\$69.97

Notes:

1. A 10% discount applies if potable water usage is 16 hcf or less (\$97.20 bimonthly). There is no discount under the proposed rates.
2. A 10% discount applies if potable water usage is 12 hcf or less (each dwelling unit at \$61.23 bimonthly). There is no discount under the proposed rates.

Charges		Current	Proposed		
			1/1/2013	FY 13/14	FY 14/15
Commercial	Fixed Charges				
	Account Service Charge	\$17.21	\$17.21	\$17.21	\$17.56
	Per ERU ³ Charge	\$90.79	\$91.35	\$91.35	\$93.18
	Variable Charge ⁴				
	Class 1 (in excess of 29.5 hcf)	\$3.08	\$3.10	\$3.10	\$3.16
	Class 2 (in excess of 17.3 hcf)	\$5.25	\$5.29	\$5.29	\$5.39
	Class 3 (in excess of 11.4 hcf)	\$7.96	\$8.02	\$8.02	\$8.18
	Class 4	As determined by the General Manager			
Notes:					
3. ERU is Equivalent Residential Unit or the water use pattern of a typical single family residence.					
4. Sewage class depends on the type of business, please call the District for details.					

All tables present the proposed rate changes for potable water, recycled water and sanitation service based on bimonthly service billing. To see how the proposed rates will affect you, use the on-line calculator at: www.LVMWD.com. You will be asked to enter information found on your most recent bill.

FREQUENTLY ASKED QUESTIONS

Q: What has LVMWD done to control its expenses?

A: Cost cutting measures include a freeze on employee salaries over the last three years, elimination of 10 staffing positions in the last two years, a reduction in pension costs, paying off bonds in 2009 to save \$4M and controlling operating costs. We have also implemented revenue enhancements which include rental income, cell site leases and investments.

Q: With the slow economy, is this the right time to propose rate increases?

A: LVMWD has made every effort to keep the proposed increases to a minimum. Over the last five years, the District has drawn from its cash reserves to keep rates at a lower level. That practice is not sustainable given the upcoming increases in the cost of wholesale water and other supply and material costs.

Q: How does LVMWD's water rate schedule compare to other agencies in the region?

A: LVMWD's rates are the lowest among those of surrounding water agencies and that includes both public and private utilities in Los Angeles and Ventura Counties. If the water rate changes proposed in this notice are adopted as presented, LVMWD's rates will still rank as the lowest. See page 6.

Q: Why is my sanitation bill so high?

A: LVMWD operates the Tapia Water Reclamation Facility where your sewage flow goes. It has very stringent and costly state-mandated operating requirements like avoiding the discharge of treated recycled water to Malibu Creek seven months every year. Neighboring agencies and cities do not have similar requirements. A relatively small number of customers share this cost. However, the newly proposed rate schedule takes into account lower volume water users and some homeowners may see a reduction in their sanitation rates. See page 7.

Q: I used to get a 10% sanitation service discount for bimonthly water use at or below 16 hcf (single family residential) or 12 hcf (multi-family residential per dwelling unit) and I won't under the proposed rate. Why?

A: The new rate structure aligns multi-family with the new single family residential accounts by not providing the discount. The multi-family charge is based on 2.5 people per unit compared to 4 for a single family residence which is the basis for a 27% difference. The proposed rate structure is revenue neutral which means that no extra revenues are generated for the District. The rate change means that all residential

customers pay on the same basis which could amount to a 6% to 12% increase for some.

Q: Do you plan to use funds from these increases to build new facilities?

A: The District's capital improvement program is funded from a reserve account that has been accumulated over time for the purpose of major system improvements. Some of these funds have come from developer's fees, others have been from a portion of water rates intended to pay for maintaining the system. The District's current capital improvement program is adequately funded through 2015. At the end of this proposed rate schedule, some revenue will be needed to rebuild the reserve. The proposed increases are only expected to cover a deficit in operating revenues over operating costs.

Q: Why don't you borrow to fund capital projects? And why build projects now?

A: Borrowing adds unnecessary cost to a project. Instead, the District has a "pay as you go" approach to projects, using funds already in hand. Because of the slower economy, this is a favorable time to build needed facilities. Contractors are eager to get the work and bids have been very competitive.

Q: During the drought, we reduced our water use and now you're proposing higher rates. Aren't we being penalized for being efficient?

A: No. Regardless of the amount of water you use, there are many "fixed" costs in providing water service like water quality testing, backflow prevention, providing customer service, permits, promoting conservation programs, billing and accounting, maintenance of facilities, etc. However, when the wholesale cost of water increases, the District no longer has the ability to absorb the higher costs because water is more than 60% of the total operating budget. As previously explained, LVMWD has implemented cost cutting measures where they make sense.

Q: Would we save money by closing the Compost Facility and trucking the biosolids elsewhere?

A: The portion of your current sanitation bill to operate the composting process is \$2.75 per month. The other processes at the facility, like biosolids digestion and dewatering are necessary whether or not composting continues. Digestion is required by regulations and dewatering reduces the volume of material handled. Without dewatering, there would be an enormous expense to dispose of the biosolids elsewhere. A truck loading facility would need to be built to accommodate the trucking operation. Composting

FREQUENTLY ASKED QUESTIONS *(continued)*

provides a local solution to waste materials generated in our region, with the added feature of creating a product that can be beneficially reused by area residents at no additional cost to them.

Q: Can you negotiate better rates from Metropolitan, LVMWD's wholesale provider?

A: The Metropolitan Water District of Southern California (MWD) is also a public entity and LVMWD is a member agency of that organization, with a seat on its board. MWD sets its rates in order to meet the challenges of providing safe, reliable supplies of water to some 19 million Southern California residents. Like LVMWD, they have reduced staff and made efforts to reduce costs but building, maintaining and securing a sustainable water supply from the State Water Project and the Colorado River have significant costs that cannot be avoided. The aging infrastructure that brings water to our region needs major repairs and in some cases, replacement.

Q: We live near the ocean. Can't we look into desalination as a lower-cost water source?

A: There is a huge capital cost to build and operate a desalination facility. Current cost for desalted water is about \$1,900 per acre-foot (AF) excluding the cost to convey the water to our area. Although the technology is improving, it is still an expensive water supply alternative when compared with the \$794 per AF cost of fully treated water from the Sacramento-San Joaquin Delta supplied by MWD. Beside the considerable financial obstacles, there are concerns with siting, brine disposal, energy use and other environmental issues. Desalted water may eventually become part of MWD's overall supply portfolio but it is not a cost-effective project for small agencies like LVMWD to undertake.

For water conservation information, please visit our website, www.LVMWD.com or www.bewaterwise.com.

Q: How will the proposed rates affect me?

SINGLE FAMILY HOME (average water use)	EXAMPLE 1: District average water use of 55 hcf bimonthly; assume winter use is 44 hcf; ¾" water meter			
	Current	1/1/2013	Difference, %	Difference, \$
Water bill	\$139.73	\$152.88	9% increase	add \$13.15
Sanitation service bill	\$108.00	\$108.56	1% increase	add \$0.56
Total bill	\$247.73	\$261.44	6% increase	add \$13.71
SINGLE FAMILY HOME (low water user)	EXAMPLE 2: Assume winter water use of 10 hcf; ¾" water meter			
Water bill	\$45.20	\$48.57	7% increase	add \$3.37
Sanitation service bill	\$97.20 ¹	\$74.31	24% decrease ²	less \$22.89
Total bill	\$142.40	\$122.88	14% decrease	less \$19.52
SINGLE FAMILY HOME (affected by elimination of 10% sanitation discount)	EXAMPLE 3: Assume winter water use is 16 hcf; ¾" meter			
Water bill	\$55.88	\$60.45	8% increase	add \$4.57
Sanitation service bill	\$97.20 ¹	\$108.56	12% increase	add \$11.36
Total bill	\$153.08	\$169.01	10% increase	add \$15.93
SINGLE FAMILY HOME (high water use)	EXAMPLE 4: Assume winter water use is 200 hcf; ¾" meter			
Water bill	\$567.19	\$618.89	9% increase	add \$51.70
Sanitation service bill	\$108.00	\$108.56	1% increase	add \$0.56
Total bill	\$675.19	\$727.45	8% increase	add \$52.26
MULTI-FAMILY DWELLING AND COMMERCIAL	Due to account differences, the on-line calculator is available at www.LVMWD.com for multi-family accounts. Commercial accounts should call (818) 251-2200 for assistance.			
Note:				
1. 10% discount applies for usage of 16 hcf or below.				
2. 31% decrease if water usage at other times was greater than 16 hcf; i.e. sanitation bill = \$108.00.				

Many factors affect the cost of providing potable water, recycled water and sanitation service. Costs vary among providers because many conditions differ from one area to another. Providers may be private entities operated for profit and regulated by the CPUC or public agencies required to establish rates based on the cost of service. The following tables only provide the cost of service to the customer, not the special conditions that they operate under. In water, some agencies have access to multiple sources of water like groundwater or the Eastern Sierras in the case of the City of Los Angeles, or

proximity to their water supplier. LVMWD relies solely on imported water from MWD and has no alternate source. In sanitation, the cost depends upon the level of treatment required for wastewater, the number of customers sharing the expense and conditions required by operating permits. Unlike other agencies, LVMWD has a unique permit condition that prohibits discharge of fully (tertiary) treated recycled water from the Tapia Water Reclamation Facility to Malibu Creek for seven months every year. The comparison surveys were completed on July 19, 2012 and do not reflect proposed rate increases by other agencies.

<i>City of Oxnard</i>	\$111.36	\$277.26	\$435.26	\$988.26
	125%	145%	135%	116%
<i>City of Camarillo</i>	\$84.76	\$221.40	\$435.40	\$1,184.40
	95%	116%	135%	139%
<i>Ventura Co. Waterworks Dist. #1</i> <i>Summer (Moorpark)</i>	\$87.13	\$233.58	\$484.64	\$1,399.96
	98%	122%	150%	164%
<i>Ventura Co. Waterworks Dist. #1</i> <i>Winter (Moorpark)</i>	\$87.35	\$304.42	\$565.94	\$1,481.26
	98%	159%	175%	174%

Notes:

1. hcf = hundred cubic feet = 748 gallons.

2. Water cost includes both "readiness to serve" (or fixed meter charge) and quantity (or commodity) charges.

3. % = (water agency rate/LVMWD proposed rate) x 100.

SANITATION RATES COMPARISON

SINGLE FAMILY RESIDENTIAL

AGENCY	Rate Type	Bimonthly Water Use, hcf ¹	Bimonthly cost	%, (Agency/LVMWD) ²
Las Virgenes MWD	Flat (current)	n/a	\$108.00	
Las Virgenes MWD	Water use-based (proposed, 10% discount replaced)	10 hcf and less 16 hcf and more	\$74.31 min. \$108.56 max.	
<i>City of Los Angeles</i>	Water use-based	Lowest winter water use	water use x \$3.42/hcf ³	
<i>City of Ventura</i>	Water use-based + fixed charge	Average winter water use	\$18.00 min. \$97.75 max.	
<i>City of Oxnard</i>	Water use-based + fixed charge	Actual water use	\$35.54 min. water use x tiered rate	
<i>Triunfo Sanitation District</i>	Flat	n/a	\$83.60	77%
<i>City of Thousand Oaks</i>	Flat	n/a	\$50.90	47%
<i>Camrosa Water District (City of Thousand Oaks)</i>	Flat	n/a	\$78.80	73%
<i>Camrosa Water District (southern Ventura County)</i>	Flat	n/a	\$54.70	50%
<i>City of Camarillo</i>	Flat	n/a	\$67.84	62%
<i>City of Simi Valley</i>	Flat	n/a	\$52.16	48%
<i>City of Fillmore</i>	Flat	n/a	\$168.92	156%

Notes:

1. hcf = hundred cubic feet = 748 gallons.
2. Compared to LVMWD proposed max. = \$108.56.
3. Low income subsidy additional, sub-metering allowed at customer's expense.

MULTI-FAMILY RESIDENTIAL

AGENCY	Rate Type	Bimonthly Water Use, hcf ¹	Bimonthly cost	%, (Agency/LVMWD) ²
Las Virgenes MWD	Flat (current)	n/a	\$68.03	
Las Virgenes MWD	Flat (proposed, 10% discount eliminated)	n/a	\$68.59	
<i>City of Los Angeles</i>	Water use-based	93% of actual water use	water use x \$3.42/hcf ³	
<i>City of Ventura</i>	Water use-based + fixed charge	Average winter water use	\$13.32 min. \$77.14 max.	
<i>City of Oxnard</i>	Water use-based + fixed charge	Actual water use	\$12.96 min. water use x tiered rate	
<i>Triunfo Sanitation District</i>	Flat	n/a	\$83.60	122%
<i>City of Thousand Oaks</i>	Flat	n/a	\$50.90	74%

NON-RESIDENTIAL METERED SERVICE

Page 2 of 2

SPECIAL CONDITION

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Pursuant to Decision 13-05-011, a surcharge of \$0.156 per Ccf will be applied to all metered customer's bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
3. As authorized by the California Public Utilities Commission, an amount of \$0.190 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1512-W, which is March 29, 2013. This surcharge will recover the under-collection in the WRAM/MCBA Balancing Accounts through December 31, 2012.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.015 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1526-W, which is August 28, 2013. This surcharge will recover the under-collection recorded in the City of Torrance Balancing Account.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.264 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1542-W, which is October 18, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
6. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (D)
7. Beginning July 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.04092/kWh, an increase in purchased water of \$0.15457/Ccf, an increase in Pump Tax of \$0.05510/Ccf and a decrease in Leased Water of (\$0.01692)/Ccf, relative to the Purchased Power, Purchased Water, Pump Tax and Lease Water cost adopted by Decision No. 13-05-011, and an associated revenue increase of 2.64%, are being tracked in a reserve account. SPECIAL CONDITION

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Pursuant to Decision 13-05-011, a surcharge of \$0.156 per Ccf will be applied to all metered customer's bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
3. As authorized by the California Public Utilities Commission, an amount of \$0.190 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1512-W, which is March 29, 2013. This surcharge will recover the under-collection in the WRAM/MCBA Balancing Accounts through December 31, 2012.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.015 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1526-W, which is August 28, 2013. This surcharge will recover the under-collection recorded in the City of Torrance Balancing Account.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.264 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1542-W, which is October 18, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
6. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (D)
7. Beginning July 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.04092/kWh, an increase in purchased water of \$0.15457/Ccf, an increase in Pump Tax of \$0.05510/Ccf and a decrease in Leased Water of (\$0.01692)/Ccf, relative to the Purchased Power, Purchased Water, Pump Tax and Lease Water cost adopted by Decision No. 13-05-011, and an associated revenue increase of 2.64%, are being tracked in a reserve account. The commodity charge is measured in increments of cubic feet. One cubic foot is 7.48 gallons of water. Each unit of water is billed as 100 cubic feet or 748 gallons. One hundred cubic feet is commonly referred to as CCF.

Service Size	Units	Rate (per CCF)
(a) 5/8" - 1" meter	0-12 ccf	\$ 1.007
	Over 12 ccf	\$ 1.953
(b) 1 1/2" - 2" meter	0-100 ccf	\$ 1.007
	Over 100 ccf	\$ 1.953
(c) 3" - 4" meter	0-600 ccf	\$ 1.007
	Over 600 ccf	\$ 1.953
(d) 6" - 12" meter	0-10,000 ccf	\$ 1.007
	Over 10,000 ccf	\$ 1.953
Golf Course		\$ 1.413

Emergency Commodity Rate Schedule

From time to time the water utility may be required to encourage its customers to conserve water. Conservation activities can significantly reduce the water utility's revenue, and in order to meet the water utility's revenue requirements an emergency commodity rate schedule shall be used. If the water utility declares a Phase III water shortage in compliance with Rule 21, the following Emergency Commodity Rate Schedule shall be effective and shall continue in effect until the Phase III water shortage has ended:

Service Size	Units	Rate (per CCF)
(a) 5/8" - 1" meter	0-12 ccf	\$ 1.007
	13-36 ccf	\$ 2.129
	> 36 ccf	\$ 3.031
(b) 1 1/2" - 2" meter	0-100 ccf	\$ 1.007
	101-200 ccf	\$ 2.129
	> 200 ccf	\$ 3.031
(c) 3" - 4" meter	0-600 ccf	\$ 1.007
	601-1200 ccf	\$ 2.129
	> 1200 ccf	\$ 3.031
(d) 6" - 12" meter	0-10,000 ccf	\$ 1.007
	10,001-20,000 ccf	\$ 2.129
	> 20,000 ccf	\$ 3.031
Golf Course		\$ 1.571

Monthly Charges

The basic monthly meter service charge for water supplied to domestic, commercial, industrial, irrigation, agricultural, and municipal customers is as follows:

Service Size	Charge
5/8" Meter	\$17.03
3/4" Meter	\$17.03
1" Meter	\$24.26
1 1/2" Meter	\$42.18
2" Meter	\$63.76
3" Meter	\$132.18
4" Meter	\$222.08
6" Meter	\$455.95
8" Meter	\$653.78
10" Meter	\$1,049.53
12" Meter	\$1,553.10

¹The consumption rates set forth in this table are based upon the City's current costs to purchase adequate water supplies from the Covina Irrigating Company and its other usual suppliers. However, the consumption rates are subject to automatic increase if necessary for the City to purchase water from outside suppliers, such as the Metropolitan Water District. The increase in consumption rates shall be a direct pass-through of the City's costs to purchase water from said outside suppliers.

4. As authorized by the California Public Utilities Commission, an amount of \$0.285 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1513-W, which is March 29, 2013. This surcharge will recover the undercollection in the WRAM/MCBA Balancing Accounts through December 31, 2012. The surcharge will not apply to customers in Morongo Valley and Wrightwood.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1543-W, which is October 24, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
6. As authorized by the California Public Utilities Commission, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1561-W, which is March 31, 2014. This surcharge will recover the under collection in the WRAM&MCBA Balancing Accounts through December 31, 2013.
7. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA, which is July 1, 2014. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account.
8. Beginning June 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.0329/kWh, an increase in purchased water of \$0.0714/Ccf, and an increase in Pump Tax of \$0.02989/Ccf, relative to the Purchased Power, Purchased Water, and Pump Tax costs adopted by Decision No. 13-05-011, and an associated revenue increase of 2.24%, are being tracked in a reserve account.

A Message to Our Valued Customers

Notice of Rate Increase Effective January 1, 2014

The Walnut Valley Water District is committed to providing a reliable, high quality, and affordable water supply. In keeping with this commitment, the District strives to set fair water rates, encourage the efficient use of water, ensure continued financial stability, and maintain water system reliability.

Imported Water Cost

Unlike many water agencies throughout the state which have available local water supplies, *our District is 100% dependent upon imported water to meet our customers' potable water needs.* These imported supplies, purchased from the Metropolitan Water District of Southern California (MWD), are transported over extraordinary distances: 444 miles from northern California and 242 miles from the Colorado River. The District's most significant cost is the purchase of this imported water, which comprises 60% of the District's operating budget. From 2005 through 2014, MWD's imported water rates will have more than doubled and are very likely to continue increasing. Needless to say, the MWD increases have a substantial impact on the costs of providing water to the homes and businesses in our service area.

Keeping Rates as Low as Possible

To meet these on-going imported water cost increases, in February 2010, the District's Board of Directors approved a 5-year rate plan to primarily cover the projected MWD rate increases. In keeping with our commitment to maintain an affordable water rate for our customers, the District has been successful in achieving significant budgetary cost savings to mitigate impacts of the MWD increases on our customers. As a result of these cost saving measures, the actual rate increases have been below those projected in the 5-year rate plan.

Planning for the Future

In addition to our cost saving efforts, the District has also been dedicated to the pursuit of obtaining local water supplies, thereby reducing our reliance on costly imported water. Securing these additional sources will offer the District greater flexibility and independence in providing a reliable water supply. These endeavors require extensive planning and financial investment in the short-term, however, will ultimately result in substantial cost savings and greater water supply reliability for generations to come.

What does this mean for our customers? Effective January 1, 2014, although the District's water rates will increase, the increase will be less than the amount projected in the approved 5-year rate plan. This increase will cover both the costs of the MWD rate increase and allow the District to continue to develop projects to secure greater local water supply reliability (see the reverse side for further details on exact amounts of the increase).

On behalf of the Board of Directors, please be assured that the District will always remain fully committed to its mission of "providing a reliable, high quality water supply in a fiscally efficient and environmentally responsible manner while remaining committed to providing superior service to our customers."

New Rates

These increases will go into effect January 1, 2014 and will be reflected on your February 2014 water bill

Base (or Meter) Charge: This charge varies with the size of your meter; revenues are used to cover expenses associated with billing, collection, service calls, meter reading, and maintenance. Costs are allocated based on meter size and capacity.

Commodity Charge: This charge covers the cost of purchased water and District delivery costs. The term "tiered" refers to a 'block-type' rate structure where the unit price of water changes with each of several preset consumption blocks for each billing period. As your usage increases, the unit price or rate for the block increases.

One unit = approximately 748 gallons of water

Pump Zone Charge: This charge is 'revenue neutral' to the District and funds collected cover the additional costs of infrastructure and power to pump water to higher elevations.

Your zone is listed on your water bill.

Private Fire Protection—Base (or Meter) Charge: This charge varies with the size of the fire service connection, or private hydrant. Revenues are used to cover the expenses associated with reading of the bypass meters, service calls, and related District maintenance for private hydrants.

Base (or meter) charge	Current Rates (per month)	New Rates (per month)
5/8-inch or 3/4-inch	\$ 16.33	\$17.08
1-inch	\$ 20.75	\$21.60
1 1/2-inch	\$ 44.64	\$46.18
2-inch	\$ 68.51	\$70.73
3-inch	\$ 125.12	\$128.92
4-inch	\$ 205.80	\$211.86
6-inch	\$ 402.72	\$414.54
8-inch	\$ 639.61	\$658.34

Commodity (or water charge)		
Single-Family Residential	Current Rates	New Rates
Tier-I (1-12 Units)	\$ 2.16 per unit	\$2.46 per unit
Tier-II (13-39 Units)	\$ 2.70 per unit	\$3.08 per unit
Tier-III (40+ Units)	\$ 2.70 per unit	\$3.08 per unit
Multi-Family	\$ 2.56 per unit	\$2.77 per unit
Commercial/Industrial/ Government	\$ 2.61 per unit	\$2.81 per unit
Recycled	\$ 1.49 per unit	\$1.49 per unit

Pump Zone Charges	Current Rates	New Rates
Zone 1	No charge	No charge
Zone 2	\$ 0.18	\$0.19
Zone 3	\$ 0.34	\$0.35

Private Fire Protection Base (or meter) charge	Current Rates (per month)	New Rates (per month)
1-inch	\$ 16.48	\$16.76
1 1/2-inch	\$ 16.89	\$17.18
2-inch	\$ 17.30	\$17.59
4-inch	\$ 20.09	\$20.44
6-inch	\$ 22.99	\$23.38
8-inch	\$ 26.60	\$27.06
10-inch	\$ 30.21	\$30.73
Private Fire Hydrant	\$22.99	\$23.38

MEASURED IRRIGATION SERVICE

SPECIAL CONDITIONS (continued):

10. To better manage peak demands, there will be time and day of use restrictions on all measured irrigation services. Customers will be split into two groups who will irrigate on alternate days and only during cooler evening and morning hours. Customers with even numbered addresses will be allowed to irrigate only on even numbered days of the month and customers with odd numbered addresses will be allowed to irrigate only on odd numbered days of the month. (N)

- a. Limits on water hours: Water or irrigating of lawn, landscape or other vegetated area with water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day. (T)

- b. Fines and Flow Restrictors: (N)

- 1) During 2012 California American Water will only issue warnings to customers who violate of the day and time of use restrictions.
- 2) Beginning in 2013, California American Water may impose penalties on customers who violate the day and time of use restrictions if peak use in 2012 continued to necessitate supplementation of the system with potable water.
- 3) Penalties for violation of the day and time of use restrictions will become effective upon California American Water filing a Tier 1 Advice Letter (N)
- 4) If the Utility determines that a customer is in violation, the customer will be subject to the following fine structure.

First Offense: Written warning, including explanation of penalty for subsequent offense.
Second Offense: Written warning, including explanation of penalty for subsequent offense and a \$100 fine.
Third Offense: Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

- 5) Flow Restrictor Removal Charge: The charge for the removal of a flow restrictor shall be:

Schedule No. LA-4 (Continued)
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

4. The minimum diameter will be 1 inch, and the maximum diameter will be the diameter of the main to which the service is connected.
 - a. The minimum diameter of connections for private fire hydrants will be six inches.
5. If distribution main of adequate size to serve a private fire protection system in addition to all other normal services does not exist in the street or alley adjacent to the premises to be served, then a main from the nearest existing main of adequate capacity shall be installed by the Utility, or under the Utility's direction, and the cost paid by the applicant. Such payment shall not be subject to refund.
6. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention device and a standard detector type meter approved by the Insurance Services Office for protection against theft, leakage or waste of water.
7. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities.
8. Subject to the approval of the Utility, any change in the location or construction of fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change.
9. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore at the regular established rate for general metered service, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.
10. All bills are subject to the reimbursement fee set forth on Schedule No. UF.

D. P. STEPHENSON

NAME

DECISION NO.

DIRECTOR - Rates & Regulatory

TITLE

(TO BE INSERTED BY C.P.U.C.)
DATE FILED APR 30 2013
EFFECTIVE OCT 21 2013
RESOLUTION

Schedule No. EL-1-NR
East Los Angeles Tariff Area
NONRESIDENTIAL METERED SERVICE

This tariff has been filed with the California Public Utilities Commission and is effective 4/15/14, subject to refund, until final commission approval

APPLICABILITY

Applicable to all metered water service except that provided to single-family residential customers.

TERRITORY

East Los Angeles, Commerce and vicinity, Los Angeles County.

RATES

Quantity Rates:

For meter sizes up to 6 inches, per 100 cubic feet	\$3.3580
For meter sizes 8 inches and above, per 100 cubic feet.....	3.3758

Service Charge:	Per Meter Per Month
For 5/8 x 3/4 - inch meter	\$13.96
For 3/4 - inch meter	20.94
For 1 - inch meter	34.89
For 1-1/2 - inch meter	69.79
For 2 - inch meter	102.16
For 3 - inch meter	193.82
For 4 - inch meter	281.72
For 6 - inch meter	467.03
For 8 - inch meter	705.37
For 10 - inch meter	1,564.94
For 12 - inch meter	2,302.94
For 14 - inch meter	3,140.37

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fees set forth on Schedule UF.
2. All bills are subject to any applicable surcharges/surcredits on Schedules RSF, LIRA-SC and AS.
3. Qualifying non-profit group living facilities, agricultural employee housing facilities, and migrant farm worker housing centers are eligible for credits as shown on Schedule LIRA.
4. A capital infrastructure surcharge of \$0.0153 per 100 Cu. Ft. of water used is to be applied to the quantity rates, beginning November 15, 2010, the effective date of Advice Letter 2008-A, as authorized in Decision 08-07-008.
5. A WRAM-MCBA true-up surcharge of \$0.1707 per 100 cu. ft. of water used is to be applied to the quantity rates for 12 months beginning March 15, 2013, the effective date of Advice Letter 2097.
6. A WRAM-MCBA true-up surcharge of \$0.1984 per 100 cu. ft. of water used is to be applied to the quantity rates for 12 months beginning April 15, 2014, the effective date of Advice Letter 2118. (N)

Schedule No. R3-1-NR
Region 3 Customer Service Areas
NON-RESIDENTIAL METERED SERVICE

Page 2 of 2

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF. (L)
2. Pursuant to Decision 13-05-011, a surcharge of \$0.082 per Ccf will be applied to all metered customer bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account. (L)
3. As authorized by the California Public Utilities Commission, an amount of \$0.250 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1513-W, which is March 29, 2013. This surcharge will recover the undercollection in the WRAM/MCBA Balancing Accounts through December 31, 2012. The surcharge will not apply to customers in Morongo Valley and Wrightwood.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1543-W, which is October 24, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
5. As authorized by the California Public Utilities Commission, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1561-W, which is March 31, 2014. This surcharge will recover the under collection in the WRAM&MCBA Balancing Accounts through December 31, 2013. (D)
7. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA, which is July 1, 2014. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (T)
8. Beginning June 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.0329/kWh, an increase in purchased water of \$0.0714/Ccf, and an increase in Pump Tax of \$0.02989/Ccf, relative to the Purchased Power, Purchased Water, and Pump Tax costs adopted by Decision No. 13-05-011, and an associated revenue increase of 2.24%, are being tracked in a reserve account. May 21, 2014

Dear Water Customer,

This letter serves to notify you that the rates associated with delivering you potable water will increase several times between July 1st, 2014 and January 1st, 2015 due to the timeline and pass-through pricing structure of the agencies involved in delivering water to El Segundo customers. The scheduled increases will occur as follows:

1. **West Basin Municipal Water District (WBMWD) Water Service Charge AND Metropolitan Water District Non-interruptible Water Supply Increases: July 1, 2014:** The City of El Segundo's potable water consumption rate will increase 1.21% over current rates due to the Water Service Charge and Water Supply rate increases passed through by the West Basin Municipal Water District (El Segundo's water supplier) and the Metropolitan Water District.
2. **El Segundo Capacity Charge Rate Increase: October 1, 2014:** The annual *Monthly Capacity Charge* increase will take effect. The new rate is based on the Water Rate Schedule adopted by City Council in 2009. Monthly Capacity Charges are adjusted annually in October and are not tied to increased rates charged by the Metropolitan Water District (WMD) or WBMWD.
3. **Metropolitan Water District (MWD) Non-interruptible Water Supply Increase: January 1, 2015:** The City of El Segundo's potable water consumption rate will increase an additional 2.82% over the July 1, 2014 rate due to the adopted rate increase that will be passed through by the Metropolitan Water District to its member agencies.

Tables highlighting the existing and new rates and their effective dates are provided on the next page. They are authorized under Ordinance No. 1435, which was adopted by City Council on November 3, 2009. The new potable water consumption rates will appear on your water bill following July 1, 2014. If you have any questions about these rate increases or your water bill, please call Water Billing at (310) 524-2319.

Sincerely,

Deborah Cullen
Director of Finance

Resolution No. _____

Water Rates (as of 7/1/2013) – Crescenta Valley Water District

Service Charge:

The monthly service charge is a "fixed" charge and does not provide for any minimum water consumption allowance. This service charge is based upon the size of your water meter as follows:

Meter Size:	Bi-Monthly Charge Within District:	Bi-Monthly Charge Outside District:
5/8-inch	\$34.20	\$34.60
3/4-inch	\$34.20	\$34.60
1-inch	\$42.00	\$42.40
1-1/2-inch	\$61.34	\$61.74
2-inch	\$77.58	\$77.98
3-inch	\$84.58	\$84.98
4-inch	\$217.32	\$217.72

Quantity Rate:

Quantity Rates are applicable to all water consumption in addition to the monthly service charge above. Usage charges may be billed at a tiered rate if the connection is for a single family home. Local Cost is associated with non-imported water. FMWD Cost is for imported water pass through charges.

The rate charged by the District to all residential and commercial customers for each Billing Unit (1000 gallons) of water is currently:

Single Family	Water Use Range:	Local Cost:	FMWD Cost:	Total Unit Cost:
Tier 1	0 - 10 units	\$2.22/unit	\$1.90/unit	\$4.12/unit
Tier 2	11-33 units	\$3.43/unit	\$1.90/unit	\$5.33/unit
Tier 3	34-50 units	\$5.70/unit	\$1.90/unit	\$7.60/unit
Tier 4	50 + Units	\$8.29/unit	\$1.90/unit	\$10.19/unit

Multi Family / Commerical	Water Use Range:	Local Cost:	FMWD Cost:	Total Unit Cost:
	> 0 Units	\$3.43/unit	\$1.90/unit	\$5.33/unit

Private Fire Protection Charge:

The monthly service charge for fire protection services by line size is as follows:

Fire Service Size:	Monthly Charge Within District:	Monthly Charge Outside District:
1-inch	\$7.16	\$7.36
2-inch	\$10.54	\$10.74
3-inch	\$15.73	\$15.93
4-inch	\$21.33	\$21.53
6-inch	\$36.66	\$36.86
8-inch	\$55.78	\$55.98
10-inch	\$77.89	\$78.09

Water Service Installation Charge:

The water service installation charge includes the cost of labor, materials, and equipment to install the following components to individual applicants for water service:

Component:	Fee:
3/4-inch water meter	By Estimate Only
1-inch water meter	By Estimate Only
1-inch service lateral	By Estimate Only
Meter & Service > 1-inch	By Estimate Only

* A 1-inch service lateral is required for all 3/4-inch and 1-inch water meters.

Glendale Utility Tax Administration Fee:

\$0.20/billing cycle (Effective 1/1/12)

Irrigation Usage Charge:

	Water Use Range:	Local Cost:	FMWD Cost:	Total Unit Cost:
Tier 1	0 - 70 units	\$3.43/unit	\$1.90/unit	\$5.33/unit
Tier 2	71 + units	\$8.29/unit	\$1.90/unit	\$10.19/unit

Minimum Monthly Service Charge for Temporary Services \$35.00

One Time Service Charge for Temporary Services \$25.00

The commodity charge is measured in increments of cubic feet. One cubic foot is 7.48 gallons of water. Each unit of water is billed as 100 cubic feet or 748 gallons. One hundred cubic feet is commonly referred to as CCF.

Service Size	Units	Rate (per CCF)
(a) 5/8" - 1" meter	0-12 ccf	\$ 1.007
	Over 12 ccf	\$ 1.953
(b) 1 1/2" - 2" meter	0-100 ccf	\$ 1.007
	Over 100 ccf	\$ 1.953
(c) 3" - 4" meter	0-600 ccf	\$ 1.007
	Over 600 ccf	\$ 1.953
(d) 6" - 12" meter	0-10,000 ccf	\$ 1.007
	Over 10,000 ccf	\$ 1.953
Golf Course		\$ 1.413

Emergency Commodity Rate Schedule

From time to time the water utility may be required to encourage its customers to conserve water. Conservation activities can significantly reduce the water utility's revenue, and in order to meet the water utility's revenue requirements an emergency commodity rate schedule shall be used. If the water utility declares a Phase III water shortage in compliance with Rule 21, the following Emergency Commodity Rate Schedule shall be effective and shall continue in effect until the Phase III water shortage has ended:

Service Size	Units	Rate (per CCF)
(a) 5/8" - 1" meter	0-12 ccf	\$ 1.007
	13-36 ccf	\$ 2.129
	> 36 ccf	\$ 3.031
(b) 1 1/2" - 2" meter	0-100 ccf	\$ 1.007
	101-200 ccf	\$ 2.129
	> 200 ccf	\$ 3.031
(c) 3" - 4" meter	0-600 ccf	\$ 1.007
	601-1200 ccf	\$ 2.129
	> 1200 ccf	\$ 3.031
(d) 6" - 12" meter	0-10,000 ccf	\$ 1.007
	10,001-20,000 ccf	\$ 2.129
	> 20,000 ccf	\$ 3.031
Golf Course		\$ 1.571

Monthly Charges

The basic monthly meter service charge for water supplied to domestic, commercial, industrial, irrigation, agricultural, and municipal customers is as follows:

Service Size	Charge
5/8" Meter	\$17.03
3/4" Meter	\$17.03
1" Meter	\$24.26
1 1/2" Meter	\$42.18
2" Meter	\$63.76
3" Meter	\$132.18
4" Meter	\$222.08
6" Meter	\$455.95
8" Meter	\$653.78
10" Meter	\$1,049.53
12" Meter	\$1,553.10

Schedule No. ME-1-NR
Metropolitan District
NON-RESIDENTIAL METERED SERVICE

Page 1 of 2

APPLICABILITY

Applicable to all metered water service except those covered under ME-1-R.

TERRITORY

Portions of the Cities of Artesia, Bell, Bell Gardens, Carson, Cerritos, Compton, Cudahy, Culver City, Downey, El Segundo, Gardena, Hawaiian Gardens, Hawthorne, Huntington Park, Inglewood, Lakewood, La Mirada, Lawndale, Long Beach, Norwalk, Paramount, Santa Fe Springs, South Gate, and the communities of Athens, Lennox, and Moneta and vicinity, Los Angeles County, and portions of the City of Los Alamitos, Orange County.

SPECIAL CONDITION

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Pursuant to Decision 13-05-011, a surcharge of \$0.156 per Ccf will be applied to all metered customer's bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
3. As authorized by the California Public Utilities Commission, an amount of \$0.190 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1512-W, which is March 29, 2013. This surcharge will recover the under-collection in the WRAM/MCBA Balancing Accounts through December 31, 2012.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.015 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1526-W, which is August 28, 2013. This surcharge will recover the under-collection recorded in the City of Torrance Balancing Account.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.264 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1542-W, which is October 18, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
6. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (D)
7. Beginning July 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.04092/kWh, an increase in purchased water of \$0.15457/Ccf, an increase in Pump Tax of \$0.05510/Ccf and a decrease in Leased Water of (\$0.01692)/Ccf, relative to the Purchased Power, Purchased Water, Pump Tax and Lease Water cost adopted by Decision No. 13-05-011, and an associated revenue increase of 2.64%, are being tracked in a reserve account. Decision No. _____

President

Resolution No. _____

Sprinkler precipitation rates – the key to controlling irrigation runoff

Spray nozzles have a high precipitation rate that frequently results in irrigation runoff. The precipitation rate will vary with pressure and spacing. At 30 psi and spaced in a square pattern the precipitation rate is 1.58" per hour. The triangular pattern has slightly higher precipitation rates due to the tighter row spacing of 13 ft. at 1.83"

15 Series MPR					
30° Trajectory					
Nozzle	Pressure psi	Radius ft.	Flow GPM	Precip In/h	Precip In/h
15F	15	11	2.60	2.07	2.39
	20	12	3.00	2.01	2.32
	25	14	3.30	1.62	1.87
	30	15	3.70	1.58	1.83
15H	15	11	1.30	2.07	2.39
	20	12	1.50	2.01	2.32
	25	14	1.65	1.62	1.87
	30	15	1.85	1.58	1.83

Verify the working water pressure at the spray nozzle to be a minimum of 30 psi. In the case of the 15 Series nozzle, any pressure less than 30 psi requires a closer spacing than 15 ft. If the sprinklers are operating at 20 - 25 psi and spaced at 15 ft there will be serious coverage (uniformity) problems. Measure water pressure as the circuit operates at the first and last sprinkler on the circuit. Verify spacing to be no greater than the radius. Sprinklers should be spaced in a square or triangular pattern with consistent spacing between heads.

Test working water pressure at the first and last sprinkler with a pressure tee and gauge.

Verify spacing between heads with a tape measure. At 30 psi spray heads should be spaced at no greater than their series, i.e 15 series at 15 ft, 12 series at 12 ft, etc.

Rotor sprinklers rotate a single or multiple streams to achieve coverage. In general, the end of the stream from one sprinkler should hit right at the base of the adjacent sprinkler. The pressure requirement at the nozzle is dependent on the spacing and the nozzle installed in the sprinkler. Performance charts indicate a radius(spacing interval) that can be achieved with a particular nozzle at varying pressures. Generally, these sprinklers have a higher pressure requirement than spray nozzles. As a consequence low nozzle pressure is a common problem. Pressure, along with spacing must be verified in the field. Precipitation rate data may only be relied upon when pressure, nozzle, and spacing agree with nozzle performance data. These sprinklers have lower precipitation rates than sprays and therefore can be run for longer periods before runoff occurs.

PGP Red Standard Nozzle Performance Data					
Nozzle	Pressure PSI	Radius ft.	Flow GPM	Precip in/hr ■ ▲	
1	30	28'	0.5	0.12	0.14
	40	29'	0.6	0.14	0.16
	50	29'	0.7	0.16	0.19
	60	30'	0.8	0.17	0.20
2	30	29'	0.7	0.16	0.19
	40	30'	0.8	0.17	0.20
	50	30'	0.9	0.19	0.22
	60	31'	1.0	0.20	0.23
3	30	30'	0.9	0.19	0.22
	40	31'	1.0	0.20	0.23
	50	31'	1.2	0.24	0.28
	60	32'	1.3	0.24	0.28
4	30	32'	1.2	0.23	0.26
	40	33'	1.4	0.25	0.29
	50	34'	1.6	0.27	0.31
	60	34'	1.8	0.30	0.35
5	30	34'	1.6	0.27	0.31
	40	36'	1.8	0.27	0.31
	50	38'	2.0	0.27	0.31
	60	38'	2.2	0.29	0.34
6	30	34'	2.0	0.33	0.38
	40	36'	2.4	0.36	0.41
	50	38'	2.7	0.36	0.42
	60	38'	2.9	0.39	0.45

These charts represent precipitation rates at half circle or 180 degree setting. For full circle operation divide the chart values by 2!

38 ft. square spacing

#5 noz. - 2.0 gpm @ 50 psi at 360 deg
precipitation rate = 0.135" / hr

#5 noz - 2.0 gpm @50 psi at 180 deg (half circle)
precipitation rate = 0.27" / hr.

The pitot tube and pressure gauge are used to measure nozzle pressure which is evaluated against nozzle performance charts

**Suggested maximum run times on clay soil before runoff occurs
(on flat surfaces)**

infiltration rate - 0.10" / hr

spray	spray	spray	rotors	rotors	rotors	rotors	rotor
1.6" / hr	1.8" / hr	2" / hr	0.25"/hr	0.35" / hr	0.45"/hr	0.55"/hr	0.65"/hr
4 min	4 min	4 min	24 min	17 min	13 min	11 min	9 min

**Suggested maximum run times on clay loam soil before runoff occurs
(on flat surfaces)**

infiltration rate - 0.16" / hr

spray	spray	spray	rotors	rotors	rotors	rotors	rotor
1.6" / hr	1.8" / hr	2" / hr	0.25"/hr	0.35" / hr	0.45"/hr	0.55"/hr	0.65"/hr
6 min	5 min	4 min	38 min	27 min	21 min	17 min	14 min

Low head drainage occurs in lateral sprinkler piping after the irrigation valve has shut down. When heavy clay soils are being irrigated, multiple cycles (usually 6-8) must occur every day that irrigation takes place. This necessary cycling process introduces the problem of low head drainage. This problem may be resolved with addition of check valves which may be retrofitted into the base of spray head bodies.

It is not unusual to find irrigation valves with spray and rotor type sprinklers plumbed together. This is never acceptable and should be corrected because of the different precipitation rates of the two types!

While low pressure at spray nozzles is frequently encountered, it is not unusual to find spray systems with excessive pressure. When pressure exceeds 45 psi, the sprinkler body should have a pressure regulating feature. This feature, like the anti-drain check valve, may be retrofitted into an existing spray body without digging up the sprinkler. When sprinkler inlet pressures exceed 75 psi a regulator must be installed at the valve or backflow prevention device location.

Spray heads operating at 90 psi. This problem was corrected with the addition of a regulator feature on the valve.

Internal pressure regulating device is designed for inlet pressures between 45 and 75 psi

Same circuit operating at 30 psi!

Managing the Irrigation Controller in a Drought

The amount of irrigation water applied to the landscape varies with the type of plant material and the precipitation rate of the sprinklers. The environmental factors that drive plant water use are temperature, wind, solar radiation, humidity, and ground temperature and collectively they generate a number known as Evapotranspiration (ET). These factors are nearly impossible for the landscape manager to evaluate in the field. The State of California manages a network of computerized weather stations linked to a free website in a program known as CIMIS (California Irrigation Management Information System). There are nearly 200 of these stations throughout the state. They provide the landscape manager with a number that represents the inches of water plants generally need in a month, week, or day. The number available from the local weather station is known as ET_0 or reference ET. There are many regions of the state that lack a local weather station. In these instances tables are available providing monthly averages in the Water Efficient Landscape Ordinance (WELO) which is also available on line.

Average ET_0 Values by Station

Stn Id	Stn Name	CIMIS Region	Jan (in)	Feb (in)	Mar (in)	Apr (in)	May (in)	Jun (in)	Jul (in)	Aug (in)	Sep (in)	Oct (in)	Nov (in)	Dec (in)
159	Monrovia	LAB	2.10	2.41	3.72	4.31	5.24	5.74	6.61	6.26	4.86	3.39	2.39	1.93

<http://wwwcimis.water.ca.gov/>

<http://ucanr.edu/sites/WUCOLS/>

Water Efficient Landscape Ordinance (WELO)

<http://www.water.ca.gov/wateruseefficiency/landscapeordinance/>

Every plant has a different water requirement relative to ET_0 based upon the landscape coefficient or K_L . The primary factor that drives that landscape coefficient is the species factor. Our biggest concern in the drought is the water requirement for turfgrass as it consumes the bulk of the landscape water. The plant water requirement ET_L is obtained for any period by multiplying the $ET_0 \times K_L$. In a traditional year cool season turfgrass such as fescue, Kentucky Bluegrass, or rye have a species factor of 70 percent or 0.70. In a drought we reduce this species factor and in turn the landscape coefficient (K_L) to 60 percent or 0.60. This follows guidelines developed by turfgrass experts at the University of California at Davis and Riverside.

July ET_L in a traditional year – ET_0 (6.61") $\times K_L$ (0.70 for cs turf) = 4.63" / month

July ET_L in a drought year – ET_0 (6.61") $\times K_L$ (0.60 for cs turf) = 3.97" / month

The water savings associated with this recommendation will save 0.65" in the peak month of July which is a 14% reduction in water use!

The development of an irrigation schedule is based on the average daily ET_L . In the month of July we have a ET_L of 3.97". The objective is to establish an average daily ET_L which in this case is 0.128" per day (3.97" / 31 = 0.128"). The replacement for every 3rd day watering for turf in a typical July is 0.38 inches (3 \times 0.128). If we were watering on a flat clay surface the infiltration rate or maximum intake rate of the soil is 0.08 inches per hour. It would be necessary to have 5 cycles or start times (5 \times 0.08 = 0.40). Since most programs have only 4 start times, it will be necessary to utilize two programs to have an adequate number of start times on clay soils.

Daily ET_L	Sun	Mon	Tue	Wed	Thur	Fri	Sat
	0.128"	0.128"	0.128"	0.128"	0.128"	0.128"	0.128"
			Water Tue a.m. replace 0.38"		Water Thur a.m. replace 0.26"		Water Sat a.m. replace 0.26"

On Tuesday the turf water requirement is 0.38". Regardless of the type of sprinkler, the soil infiltration or intake rate of 0.08" for clay (in this case) dictates the maximum amount of water applied to be 0.08" before runoff. Some sprinklers such as rotors and drip apply water more slowly and can have longer run times. Spray type sprinklers have a much higher precipitation rate so their run times to reach runoff are shorter. The sprinkler does not dictate the number of repeats rather it is the soil type! So the number of cycles required is 5 (0.38 / 0.08 = 4.75) We may have to use 2 programs here because of the limitations of start times available per program on most controllers.

WATERING SCHEDULE FORM EXAMPLE

		PROGRAM A							PROGRAM B							PROGRAM C						
DAY OF THE WEEK		M	T	W	T	F	S	S	M	T	W	T	F	S	S	M	T	W	T	F	S	S
ODD/ EVEN or INTERVAL																						
PROGRAM START TIMES	1	12:30 am							11:00 pm													
	2	2:00 am																				
	3	3:30 am																				
	4	5:00 am																				
STATION	LOCATION	STATION RUN TIME							STATION RUN TIME							STATION RUN TIME						
1																						
2																						

The next step in scheduling is to determine the run time in minutes required for Tuesday. We use a simple run time formula $RT = ET_L (\text{turf water requirement}) / PR (\text{precipitation rate}) \times 60 (\text{constant})$. In this example the sprinkler is a 15 ft spray spaced square at 30 psi with a precipitation rate of 1.58" / hr. Recall the Tuesday ET_L so the run time is as follows $ET_L (0.3842) / PR (1.58) \times 60 = 15$ minutes. The number is divisible by 5. On Program A we'll water 3 minutes per cycle x 4 starts = 12 minutes. If we water 3 minutes on program B we would be watering 15 minutes.

$$RT = \frac{ET_L}{PR} \times 60$$

(plant water requirement) (constant)
(precipitation rate)

STATION	LOCATION	STATION RUN TIME							STATION RUN TIME							STATION RUN TIME						
1		3 min.							3 min.													
		(3 min. x 4 starts = 12 min.) (3 min. x 1 start = 3 min.) 12 min. + 3 min. = 15 min.																				

We've completed the schedule for station 1 for the spray heads on the turf for Tuesday. The irrigation water that we had to apply (0.3842") requires 5 repeats and utilized the capabilities of both the A and B programs. The water requirement for Tuesday morning replaces 3 days of turf water use or 0.3842 inches of water). On the majority of controllers in the field there are only three programs. We'll use the final program, program C, for station 1 on Thursday and Saturday. The amount of water required on Thursday and Saturday replaces two days of turf water use or 0.26 (0.256). The run time for program C (Thursday and Saturday) is $RT = ET_L / PR \times 60$ ($0.26 / 1.58 \times 60$) = 10 min. The 10 min run time cannot be split. Two five minute cycle would produce 10 minutes total but with runoff. There is also a problem with 11 minutes so the only option is 12 minutes or four 3 minute cycles. This is the problem dealing with high precipitation rate spray type sprinklers. We would prefer to water 10 minutes total but the controller can only do 9 minutes or 12 minutes.

WATERING SCHEDULE FORM EXAMPLE

		PROGRAM A							PROGRAM B							PROGRAM C						
DAY OF THE WEEK		M	T	W	T	F	S	S	M	T	W	T	F	S	S	M	T	W	T	F	S	S
ODD/ EVEN or INTERVAL																						
PROGRAM START TIMES	1	12:30 am							11:00 pm							12:30 am						
	2	2:00 am														2:00 am						
	3	3:30 am														3:30 am						
	4	5:00 am														5:00 am						
STATION	LOCATION	STATION RUN TIME							STATION RUN TIME							STATION RUN TIME						
1		3 min.							3 min.							3 min.						
		(3 min. x 4 starts = 12 min.) (3 min. x 1 start = 3 min.) 12 min. + 3 min. = 15 min.																				
		(3 min. x 4 starts = 12 min.)																				

One important feature of more modern controllers is the percentage or seasonal adjust key or +/- key. It allows adjustment of an entire program by percentages. Heavy clay soils and spray heads render this a meaningless feature. Imagine that there is a 3 minute run time that needs a 10% reduction. The controller times in 1 minute increments so the % key only works for 33% changes (3 minutes reduced to 2 minutes is a 33% change). The only options we have with these short run times is to eliminate a start time or decrease a run time. This is exactly why rotors, with their lower precipitation rates, and longer run times are a better option than sprays. If the rotor station was set for four 10 minute cycles a 90% adjust would reduce the run time to 9 minutes!

Ultimately we need to be very creative in dealing with drought conditions where reduced watering days may be imposed by cities or water agencies. There are many limitations to controller programming when this occurs and they are acutely felt during a drought. Another serious limitation in the more arid regions of the state is the limitation of the water meter to apply water in two days that would normally be applied in 3 to 7 days per week!

Following these maximum spacing guidelines, emitter flow selection can be increased if desired by the designer. 0.9 GPH flow rate available for areas requiring higher infiltration rates, such as coarse sandy soils.												
Note: 0.4, 0.6 and 0.9 GPH are nominal flow rates. Actual flow rates used in the calculations are 0.42, 0.61 and 0.92 GPH.												

Measuring irregularly shaped drip zone canopy

When the geometry of an area is complex, the area can be measured by treating it as a circle. The formula for the area of a circle is $\text{Pi (3.14)} \times \text{radius (squared)} = A$. We can determine the average radius of any shape by measuring the distance from near the center to the perimeter 16 times using a 100 foot tape. We then total these measurements and divide by 16 to obtain the average.

In the field use a fabricated 2 x 2 plywood sheet with a hole in the center for a screwdriver and place this sheet near the approximate center of the area to be measured. Create 16 permanent radii from the center at 22.5 degree increments on the plywood sheet. Use these as a guide and measure to the perimeter.

Figure 1- Measuring an irregularly shaped landscape area

For simplicity of calculation inches are converted to a decimal equivalent. A conversion chart for inches to decimal equivalent may be found on the right side of the table on the reverse side of this page.

This shape has a total of 524.55 feet. The average radius is therefore 32.78 (524.5/16). Find the average radius on the reverse table. We have to interpolate to determine that the area is 3,346 sq. ft

Conversion Chart - Average Radius to Square Feet (16 radii minimum)

c. 2009 Ewing Irrigation Products

Once the canopy area of a specific drip irrigation zone has been measured, the flow to the zone must be obtained by operating the zone from the irrigation controller. Proceed to the water meter and observe the flow to the zone as the station is running. Allow a couple of minutes for the tubing to fill and come to full pressure before reading flow at the meter. Proceed to the precipitation rate chart and derive the precipitation rate by matching area in square feet to meter flow in cubic feet per minute (CFM)

Also insure that there is adequate pressure to the last (and or highest) elevation emitter in the zone. Minimum psi for pressure compensating emitters is 10 psi and for drip line 15 psi.

Spray Circuit - Audit Run Time (4 minutes)

The diagram illustrates a 3x3 grid of catch points. On the left, there are three input fields labeled **psi**, **gpm**, and **cfm**. On the right, there are three output fields labeled **psi**, **Total Avg.**, and **(total divided by 6)**. Below the grid, there are three more input fields labeled **DU_{LQ}**, **dry 6**, and **avg of 24**. At the bottom, there are three more input fields labeled **PR**, **= 3.66 x V_{avg}**, and **t_r x 16.5**. The grid itself is composed of solid lines forming the outer boundary and dashed lines forming the inner divisions. The catch points are represented by small circles at the intersections of the lines.

The Water Meter – A Drought Management Tool

The water meter is an important management tool during the drought. As a landscape professional you can provide a very important service for your customers by monitoring their water use. If you are performing landscape maintenance at a site, then you are visiting it on a weekly basis and it will take just a few minutes to provide this service. Your primary objective in this regard is to look for leaks. Open the valve meter box when you arrive for maintenance and watch the meter for a few moments. There is a low flow indicator on the meter. If the meter is not dedicated to the landscape there may be a flow of potable to the residence or building. Try to check for leaks when no one is present in the building. If the irrigation system is off and no one is home the low flow indicator should not be moving. Observe it for a few seconds to see if it is turning. It may not be turning, but there still may be a leak. Note the position of the needle and the reading on the total flow which looks like a car's odometer. Check this before you leave the site to see if there has been any flow during your maintenance period. Calculate the flow of the leak per hour and multiply by 8,760 (hours per year to determine the amount of water loss per year.

At each maintenance visit check the low flow indicator and the position of the needle and total flow to determine if there is a slow leak. Take a digital image with your phone camera to document any leaks as well as the meter number. This is a great low cost service that you can provide to your customers during the drought!

The water meter is usually located between the curb and the backflow prevention device. Most commercial sites have dedicated landscape meters but this is not always the case. Meters record water volume in gallons or cubic feet, but most water agencies provide meters that record in cubic feet. A cubic foot of water is 7.48 gallons and is a 12"x12"x12" cube. Customers are billed in what is known as ccf's or hundred cubic foot units of 748 gallons.

Each full revolution of the dial on commercial meters (1 1/2" and larger) represents a flow of ten cubic feet or 74.8 gallons

Each full revolution of the dial on a residential meter (5/8", 3/4" and 1") represents a flow of one cubic foot or 7.48 gallons

The water meter limits the amount of water that can be delivered to the site. Most irrigation systems were designed with the expectation that they would apply water anywhere from three to seven days per week. Take the system that in non-drought years was able to water six days per week and nine hours per day in the month of July. This is a total watering time of 3,240 minutes (6 x 9 x 60). Let's assume this is a 2" meter providing 50 gallons per minute. Under these conditions the meter could provide up to 162,000 gallons per week. (This 50 gpm flow is an average as some stations such as drip have far less flow and others such as large turf rotors have more)

Now, transition to a drought where watering is allowed two days per week for a maximum of thirty hours per week. The amount of water that could be delivered to the site would be 90,000 gallons (1,800 minutes x 50 = 90,000. Given this shortfall it is likely the site manager will have to set priorities on landscape watering and it is possible that some areas of the landscape may not survive. Invest the landscape water in large trees and shrubs which have the greatest value in the landscape!

Sprinkler precipitation rates – the key to controlling irrigation runoff

Spray nozzles have a high precipitation rate that frequently results in irrigation runoff. The precipitation rate will vary with pressure and spacing. At 30 psi and spaced in a square pattern the precipitation rate is 1.58" per hour. The triangular pattern has slightly higher precipitation rates due to the tighter row spacing of 13 ft. at 1.83"

15 Series MPR					
30° Trajectory					
Nozzle	Pressure psi	Radius ft.	Flow GPM	Precip In/h	Precip In/h
15F 	15	11	2.60	2.07	2.39
	20	12	3.00	2.01	2.32
	25	14	3.30	1.62	1.87
	30	15	3.70	1.58	1.83
15H 	15	11	1.30	2.07	2.39
	20	12	1.50	2.01	2.32
	25	14	1.65	1.62	1.87
	30	15	1.85	1.58	1.83

Verify the working water pressure at the spray nozzle to be a minimum of 30 psi. In the case of the 15 Series nozzle, any pressure less than 30 psi requires a closer spacing than 15 ft. If the sprinklers are operating at 20 - 25 psi and spaced at 15 ft there will be serious coverage (uniformity) problems. Measure water pressure as the circuit operates at the first and last sprinkler on the circuit. Verify spacing to be no greater than the radius. Sprinklers should be spaced in a square or triangular pattern with consistent spacing between heads.

Test working water pressure at the first and last sprinkler with a pressure tee and gauge.

Verify spacing between heads with a tape measure. At 30 psi spray heads should be spaced at no greater than their series, i.e 15 series at 15 ft, 12 series at 12 ft, etc.

Rotor sprinklers rotate a single or multiple streams to achieve coverage. In general, the end of the stream from one sprinkler should hit right at the base of the adjacent sprinkler. The pressure requirement at the nozzle is dependent on the spacing and the nozzle installed in the sprinkler. Performance charts indicate a radius(spacing interval) that can be achieved with a particular nozzle at varying pressures. Generally, these sprinklers have a higher pressure requirement than spray nozzles. As a consequence low nozzle pressure is a common problem. Pressure, along with spacing must be verified in the field. Precipitation rate data may only be relied upon when pressure, nozzle, and spacing agree with nozzle performance data. These sprinklers have lower precipitation rates than sprays and therefore can be run for longer periods before runoff occurs.

PGP Red Standard Nozzle Performance Data					
Nozzle	Pressure PSI	Radius ft.	Flow GPM	Precip in/hr ■ ▲	
1	30	28'	0.5	0.12	0.14

6 min	5 min	4 min	38 min	27 min	21 min	17 min	14 min

Low head drainage occurs in lateral sprinkler piping after the irrigation valve has shut down. When heavy clay soils are being irrigated, multiple cycles (usually 6-8) must occur every day that irrigation takes place. This necessary cycling process introduces the problem of low head drainage. This problem may be resolved with addition of check valves which may be retrofitted into the base of spray head bodies.

It is not unusual to find irrigation valves with spray and rotor type sprinklers plumbed together. This is never acceptable and should be corrected because of the different precipitation rates of the two types!

While low pressure at spray nozzles is frequently encountered, it is not unusual to find spray systems with excessive pressure. When pressure exceeds 45 psi, the sprinkler body should have a pressure regulating feature. This feature, like the anti-drain check valve, may be retrofitted into an existing spray body without digging up the sprinkler. When sprinkler inlet pressures exceed 75 psi a regulator must be installed at the valve or backflow prevention device location.

Spray heads operating at 90 psi. This problem was corrected with the addition of a regulator feature on the valve.

Internal pressure regulating device is designed for inlet pressures between 45 and 75 psi

Same circuit operating at 30 psi!

Managing the Irrigation Controller in a Drought

The amount of irrigation water applied to the landscape varies with the type of plant material and the precipitation rate of the sprinklers. The environmental factors that drive plant water use are temperature, wind, solar radiation, humidity, and ground temperature and collectively they generate a number known as Evapotranspiration (ET). These factors are nearly impossible for the landscape manager to evaluate in the field. The State of California manages a network of computerized weather stations linked to a free website in a program known as CIMIS (California Irrigation Management Information System). There are nearly 200 of these stations throughout the state. They provide the landscape manager with a number that represents the inches of water plants generally need in a month, week, or day. The number available from the local weather station is known as ET_o or reference ET. There are many regions of the state that lack a local weather station. In these instances tables are available providing monthly averages in the Water Efficient Landscape Ordinance (WELO) which is also available on line.

Average ET_o Values by Station

Stn Id	Stn Name	CIMIS Region	Jan (in)	Feb (in)	Mar (in)	Apr (in)	May (in)	Jun (in)	Jul (in)	Aug (in)	Sep (in)	Oct (in)	Nov (in)	Dec (in)
75	Irvine	SCV	2.35	2.55	3.73	4.74	5.13	5.73	6.36	6.16	4.73	3.58	2.51	2.12

<http://wwwcimis.water.ca.gov/>

<http://ucanr.edu/sites/WUCOLS/>

Water Efficient Landscape Ordinance (WELO)
<http://www.water.ca.gov/wateruseefficiency/landscapeordinance/>

Every plant has a different water requirement relative to ET_0 based upon the landscape coefficient or K_L . The primary factor that drives that landscape coefficient is the species factor. Our biggest concern in the drought is the water requirement for turfgrass as it consumes the bulk of the landscape water. The plant water requirement ET_L is obtained for any period by multiplying the $ET_0 \times K_L$. In a traditional year cool season turfgrass such as fescue, Kentucky Bluegrass, or rye have a species factor of 70 percent or 0.70. In a drought we reduce this species factor and in turn the landscape coefficient (K_L) to 60 percent or 0.60. This follows guidelines developed by turfgrass experts at the University of California at Davis and Riverside.

July ET_L in a traditional year – ET_0 (6.36") $\times K_L$ (0.70 for cs turf) = 4.45" / month

July ET_L in a drought year – ET_0 (6.36") $\times K_L$ (0.60 for cs turf) = 3.82" / month

The water savings associated with this recommendation will save 0.63" in the peak month of July which is a 14% reduction in water use!

The development of an irrigation schedule is based on the average daily ET_L . In the month of July we have a ET_L of 3.82". The objective is to establish an average daily ET_L which in this case is 0.123" per day ($3.82" / 31 = 0.123"$). The replacement for every 3rd day watering for turf in a typical July is 0.37 inches (3×0.123). If we were watering on a flat clay surface the infiltration rate or maximum intake rate of the soil is 0.08 inches per hour. It would be necessary to have 5 cycles or start times ($5 \times 0.08 = 0.40$). Since most programs have only 4 start times, it will be necessary to utilize two programs to have an adequate number of start times on clay soils.

Daily ET_L	Sun	Mon	Tue	Wed	Thur	Fri	Sat
	0.123"	0.123"	0.123"	0.123"	0.123"	0.123"	0.123"
			Water Tue a.m. replace 0.37"		Water Thur a.m. replace 0.25"		Water Sat a.m. replace 0.25"

On Tuesday the turf water requirement is 0.37". Regardless of the type of sprinkler, the soil infiltration or intake rate of 0.08" for clay (in this case) dictates the maximum amount of water applied to be 0.08" before runoff. Some sprinklers such as rotors and drip apply water more slowly and can have longer run times. Spray type sprinklers have a much higher precipitation rate so their run times to reach runoff are shorter. The sprinkler does not dictate the number of repeats rather it is the soil type! So the number of cycles required is 5 (0.37 / 0.08 = 4.625) We may have to use 2 programs here because of the limitations of start times available per program on most controllers.

WATERING SCHEDULE FORM EXAMPLE

		PROGRAM A							PROGRAM B							PROGRAM C						
DAY OF THE WEEK		M	T	W	T	F	S	S	M	T	W	T	F	S	S	M	T	W	T	F	S	S
ODD/ EVEN or INTERVAL																						
PROGRAM START TIMES	1	12:30 am							11:00 pm													
	2	2:00 am																				
	3	3:30 am																				
	4	5:00 am																				
STATION	LOCATION	STATION RUN TIME							STATION RUN TIME							STATION RUN TIME						
1																						
2																						

The next step in scheduling is to determine the run time in minutes required for Tuesday. We use a simple run time formula $RT = ET_L (\text{turf water requirement}) / PR (\text{precipitation rate}) \times 60 (\text{constant})$. In this example the sprinkler is a 15 ft spray spaced square at 30 psi with a precipitation rate of 1.58" / hr. Recall the Tuesday ET_L so the run time is as follows $ET_L (0.37) / PR (1.58) \times 60 = 14$ minutes. The problem is that the number is not divisible by 5, but we can have different run times to make this work. On Program A we'll water 3 minutes per cycle x 4 starts = 12 minutes. If we water 2 minutes on program B we would be watering 14 minutes total.

(plant water requirement)

$$RT = \frac{ET_L}{PR} \times 60$$

(constant)

(precipitation rate)

WATERING SCHEDULE FORM EXAMPLE

		PROGRAM A							PROGRAM B							PROGRAM C						
DAY OF THE WEEK		M	T	W	T	F	S	S	M	T	W	T	F	S	S	M	T	W	T	F	S	S
ODD/ EVEN or INTERVAL																						
PROGRAM START TIMES	1	12:30 am							11:00 pm													
	2	2:00 am																				
	3	3:30 am																				
	4	5:00 am																				
STATION	LOCATION	STATION RUN TIME							STATION RUN TIME							STATION RUN TIME						
1		3 min.							2 min.													
		(3 min. x 4 starts = 12 min.) (2 min. x 1 start = 2 min.) 12 min. + 2 min. = 14 min.																				

We've completed the schedule for station 1 for the spray heads on the turf for Tuesday. The irrigation water that we had to apply (0.37") requires 5 repeats and utilized the capabilities of both the A and B programs. The water requirement for Tuesday morning replaces 3 days of turf water use or 0.37 inches of water). On the majority of controllers in the field there are only three programs. We'll use the final program, program C, for station 1 on Thursday and Saturday. The amount of water required on Thursday and Saturday replaces two days of turf water use or 0.25. The run time for program C (Thursday and Saturday) is $RT = ET_L / PR \times 60$ ($0.25 / 1.58 \times 60$) = 9 min. The 9 min run time can be reduced to 3 cycles of 3 minutes each to achieve a total run of 9 minutes.

WATERING SCHEDULE FORM EXAMPLE

		PROGRAM A							PROGRAM B							PROGRAM C						
DAY OF THE WEEK		M	T	W	T	F	S	S	M	T	W	T	F	S	S	M	T	W	T	F	S	S
ODD/ EVEN or INTERVAL																						
PROGRAM START TIMES	1	12:30 am							11:00 pm							2:00 am						
	2	2:00 am														3:30 am						
	3	3:30 am														5:00 am						
	4	5:00 am																				
STATION	LOCATION	STATION RUN TIME							STATION RUN TIME							STATION RUN TIME						
1		3 min.							2 min.							3 min.						
		(3 min. x 4 starts = 12 min.) (2 min. x 1 start = 2 min.) 12 min. + 2 min. = 14 min.														(3 min. x 3 starts = 9 min.)						

One important feature of more modern controllers is the percentage or seasonal adjust key or +/- key. It allows adjustment of an entire program by percentages. Heavy clay soils and spray heads render this a meaningless feature. Imagine that there is a 3 minute run time that needs a 10% reduction. The controller times in 1 minute increments so the % key only works for 33% changes (3 minutes reduces to 2 minutes is a 33% change). The only options we have with these short run times is to eliminate a start time or decrease a run time. This is exactly why rotors, with their lower precipitation rates, and longer run times are a better option than sprays. If the rotor station was set for four 10 minute cycles a 90% adjust would reduce the run time to 9 minutes!

Ultimately we need to be very creative in dealing with drought conditions where reduced watering days may be imposed by cities or water agencies. There are many limitations to controller programming when this occurs and they are acutely felt during a drought. Another serious limitation in the more arid regions of the state is the limitation of the water meter to apply water in two days that would normally be applied in 3 to 7 days per week!

* Obtain flow to the area by reading water meter. Calculate canopy area using Ewing's "16 point" measuring system for irregularly shaped areas.

In-Line Drip Tubing Flow Precipitation Rates (Netafim)

GENERAL GUIDELINES	TURF						SHRUB & GROUND COVER					
	CLAY SOIL	LOAM SOIL	SANDY SOIL	COARSE SOIL			CLAY SOIL	LOAM SOIL	SANDY SOIL	COARSE SOIL		
	0.26 GPH	0.4 GPH	0.6 GPH	0.9 GPH	0.26 GPH	0.4 GPH	0.26 GPH	0.4 GPH	0.6 GPH	0.9 GPH	0.26 GPH	0.4 GPH
EMITTER FLOW	18"	20"	22"	18"	20"	22"	12"	14"	16"	12"	18"	20"
EMITTER SPACING	18"	20"	22"	18"	20"	22"	12"	14"	16"	12"	18"	20"
LATERAL (ROW) SPACING	18"	20"	22"	18"	20"	22"	12"	14"	16"	12"	18"	20"
BURIAL DEPTH	Bury evenly throughout the zone from 4" to 6"						On-surface or bury evenly throughout the zone to a maximum of 6"					
APPLICATION RATE (INCHES/HOUR)	0.19	0.17	0.15	0.45	0.41	0.37	0.96	0.83	0.72	1.44	1.24	1.08
TIME TO APPLY 1/4" OF WATER (MINUTES)	81	90	99	33	37	41	16	18	21	10	12	14
Following these maximum spacing guidelines, emitter flow selection can be increased if desired by the designer. 0.9 GPH flow rate available for areas requiring higher infiltration rates, such as coarse sandy soils.												
Note: 0.4, 0.6 and 0.9 GPH are nominal flow rates. Actual flow rates used in the calculations are 0.42, 0.61 and 0.92 GPH.												

Measuring irregularly shaped drip zone canopy

When the geometry of an area is complex, the area can be measured by treating it as a circle. The formula for the area of a circle is $\text{Pi (3.14)} \times \text{radius (squared)} = A$. We can determine the average radius of any shape by measuring the distance from near the center to the perimeter 16 times using a 100 foot tape. We then total these measurements and divide by 16 to obtain the average.

In the field use a fabricated 2 x 2 plywood sheet with a hole in the center for a screwdriver and place this sheet near the approximate center of the area to be measured. Create 16 permanent radii from the center at 22.5 degree increments on the plywood sheet. Use these as a guide and measure to the perimeter.

Figure 1- Measuring an irregularly shaped landscape area

For simplicity of calculation inches are converted to a decimal equivalent. A conversion chart for inches to decimal equivalent may be found on the right side of the table on the reverse side of this page.

This shape has a total of 524.55 feet. The average radius is therefore 32.78 (524.5/16). Find the average radius on the reverse table. We have to interpolate to determine that the area is 3,346 sq. ft

Conversion Chart - Average Radius to Square Feet (16 radii minimum)

c. 2009 Ewing Irrigation Products

Once the canopy area of a specific drip irrigation zone has been measured, the flow to the zone must be obtained by operating the zone from the irrigation controller. Proceed to the water meter and observe the flow to the zone as the station is running. Allow a couple of minutes for the tubing to fill and come to full pressure before reading flow at the meter. Proceed to the precipitation rate chart and derive the precipitation rate by matching area in square feet to meter flow in cubic feet per minute (CFM)

Also insure that there is adequate pressure to the last (and or highest) elevation emitter in the zone. Minimum psi for pressure compensating emitters is 10 psi and for drip line 15 psi.

The water meter is an important management tool during the drought. As a landscape professional you can provide a very important service for your customers by monitoring their water use. If you are performing landscape maintenance at a site, then you are visiting it on a weekly basis and it will take just a few minutes to provide this service. Your primary objective in this regard is to look for leaks. Open the valve meter box when you arrive for maintenance and watch the meter for a few moments. There is a low flow indicator on the meter. If the meter is not dedicated to the landscape there may be a flow of potable to the residence or building. Try to check for leaks when no one is present in the building. If the irrigation system is off and no one is home the low flow indicator should not be moving. Observe it for a few seconds to see if it is turning. It may not be turning, but there still may be a leak. Note the position of the needle and the reading on the total flow which looks like a car's odometer. Check this before you leave the site to see if there has been any flow during your maintenance period. Calculate the flow of the leak per hour and multiply by 8,760 (hours per year to determine the amount of water loss per year.

At each maintenance visit check the low flow indicator and the position of the needle and total flow to determine if there is a slow leak. Take a digital image with your phone camera to document any leaks as well as the meter number. This is a great low cost service that you can provide to your customers during the drought!

The water meter is usually located between the curb and the backflow prevention device. Most commercial sites have dedicated landscape meters but this is not always the case. Meters record water volume in gallons or cubic feet, but most water agencies provide meters that record in cubic feet. A cubic foot of water is 7.48 gallons and is a 12"x12"x12" cube. Customers are billed in what is known as ccf's or hundred cubic foot units of 748 gallons.

Each full revolution of the dial on commercial meters (1 ½" and larger) represents a flow of ten cubic feet or 74.8 gallons

Each full revolution of the dial on a residential meter (5/8", 3/4" and 1") represents a flow of one cubic foot or 7.48 gallons

The water meter limits the amount of water that can be delivered to the site. Most irrigation systems were designed with the expectation that they would apply water anywhere from three to seven days per week. Take the system that in non-drought years was able to water six days per week and nine hours per day in the month of July. This is a total watering time of 3,240 minutes (6 x 9 x 60). Let's assume this is a 2" meter providing 50 gallons per minute. Under these conditions the meter could provide up to 162,000 gallons per week. (This 50 gpm flow is an average as some stations such as drip have far less flow and others such as large turf rotors have more)

Now, transition to a drought where watering is allowed two days per week for a maximum of thirty hours per week. The amount of water that could be delivered to the site would be 90,000 gallons (1,800 minutes x 50 = 90,000. Given this shortfall it is likely the site manager will have to set priorities on landscape watering and it is possible that some areas of the landscape may not survive. Invest the landscape water in large trees and shrubs which have the greatest value in the landscape!

Schedule No. ME-1-NR
Metropolitan District
NON-RESIDENTIAL METERED SERVICE

Page 1 of 2

APPLICABILITY

Applicable to all metered water service except those covered under ME-1-R.

TERRITORY

Portions of the Cities of Artesia, Bell, Bell Gardens, Carson, Cerritos, Compton, Cudahy, Culver City, Downey, El Segundo, Gardena, Hawaiian Gardens, Hawthorne, Huntington Park, Inglewood, Lakewood, La Mirada, Lawndale, Long Beach, Norwalk, Paramount, Santa Fe Springs, South Gate, and the communities of Athens, Lennox, and Moneta and vicinity, Los Angeles County, and portions of the City of Los Alamitos, Orange County.

RATES

Quantity Rates:

For all water delivered, per 100 cu. ft.....	\$ 3.860	(I)
--	----------	-----

Service Charge:

	Per Meter	Per Month
For 5/8 x 3/4-inch meter.....	\$ 22.65	
For 3/4-inch meter.....	33.97	
For 1-inch meter.....	56.57	
For 1-1/2 inch meter.....	113.24	
For 2-inch meter.....	181.39	
For 3-inch meter.....	339.78	
For 4-inch meter.....	566.22	
For 6-inch meter.....	1,131.45	
For 8-inch meter.....	1,810.92	
For 10-inch meter.....	2,602.63	

The service charge is a readiness-to-serve charge applicable to all metered service and to which is added the charge for water used computed at the Quantity Rates.

Any service to a residential customer, not exceeding two units, on a lot size of 10,000 square feet or less, who requires a one-inch meter only because of fire flow requirements to a fire sprinkler system will be billed at the above 5/8 x 3/4-inch meter service charge, which equals \$9.02 per month.

NOTICE OF PUBLIC HEARING

ON POTABLE WATER, RECYCLED WATER AND SANITATION SERVICE RATES

Dear Customer,

August 30, 2012

In compliance with Proposition 218, Las Virgenes Municipal Water District (LVMWD) is informing you that a public hearing will be conducted by the Board of Directors at the District Headquarters office, 4232 Las Virgenes Road, Calabasas, CA on Monday, October 22, 2012 at 6 p.m. to hear public comments and to consider proposed potable water, recycled water and sanitation rate increases contained in this notification. The proposed rate structure for sanitation may result in a rate reduction for some customers.

Las Virgenes Municipal Water District is entirely dependent upon potable water supplied by the Metropolitan Water District of Southern California (MWD); there is no local potable water source. Recently, MWD adopted increases in water rates to its member agencies that will become effective January 2013 and January 2014. There is also an undetermined increase expected in January 2015; this notice informs you of LVMWD's intent to "pass through" that increase in conformance with Government Code 53756. The main cause for MWD increasing its rates is the repair and replacement of aging infrastructure. In the next 2 years, 60% of MWD's capital improvement budget will fund maintenance of the State Water Project that conveys water from Northern California to LVMWD and other agencies. In addition to the increased costs from MWD, Las Virgenes Municipal Water District is increasing its rates to cover operation and maintenance expenses which include labor, utilities, supplies, contracted services and administration. Documentation is provided in the FY12/13 Budget and the 2012 LVMWD Utility Rate Study prepared by Raftelis Financial Consultants, Inc. Both documents are available on the District's website for review.

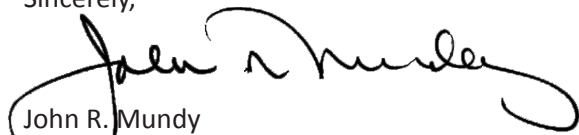

Proceeds from sanitation service charges are used for sewage collection, wastewater treatment and biosolids composting. Under the rate structure proposed to take effect January 2013, single family residential customers will pay for sanitation service based on winter season water use, during typically lower-demand months. Low volume single-family residential water users may see a reduction in their sanitation bill while other customers, including multi-family residential dwellings, will have an increase.

Recycled water revenues are used for the maintenance and operation of the recycled water distribution system. Recycled water is currently priced at about 80% of the potable water rate. To keep in step with rising operation and maintenance costs, an annual consumer price index (CPI) adjustment is proposed.

The LVMWD Board of Directors will evaluate the District's needs annually and if conditions warrant, possibly reduce or forego scheduled rate increases as it did for sanitation in 2007 through 2012. The scheduled rate increases were reduced by 9% over five years.

You will find more detail on the need for rate adjustments under "Frequently Asked Questions". Prior to the public hearing, if you have any questions or comments regarding LVMWD's proposed rate adjustments, please contact the District at generalmanager@lvmwd.com; by telephone at (818) 251-2200 or by mail to General Manager, LVMWD, 4232 Las Virgenes Road, Calabasas, CA 91302.

Sincerely,

John R. Mundy
General Manager

POTABLE WATER

READINESS TO SERVE CHARGE

Cost of meter reading, maintenance, billing and customer service (also known as "fixed meter charge")

Meter Size	Current	Proposed		
		1/1/2013	1/1/2014	1/1/2015
3/4"	\$27.40	\$28.77	\$30.21	\$31.73

ELEVATION CHARGE

Cost of pumping water to higher elevations per hcf¹

Zone	Current	Proposed		
		1/1/2013	1/1/2014	1/1/2015
Zone 1	n/a	n/a	n/a	n/a
Zone 2	\$0.36	\$0.38	\$0.40	\$0.42
Zone 3	\$0.62	\$0.66	\$0.70	\$0.74
Zone 4	\$1.09	\$1.15	\$1.21	\$1.28
Zone 5	\$2.19	\$2.30	\$2.42	\$2.55
Temporary	Elevation charge 1.5 times zone charges above.			

Note:

- The elevation charge is determined by the highest zone the water is pumped to prior to reaching the customer.

RECYCLED WATER

COMMODITY CHARGE

Cost of water per hundred cubic feet (hcf)

Tier	Current ¹		Proposed		
	Las Virgenes Valley	Western System/ Calabasas ²	1/1/2013	1/1/2014	1/1/2015
Tier 1	\$1.04	\$1.27	Increase each year using Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers (CPI-U); Los Angeles, Riverside-Orange Counties, CA; Commodity and Service Group All Items. Use CPI percent change for 12-month period ending in October of the previous year.		
Tier 2	\$1.36	\$1.59			
Tier 3	\$2.16	\$2.39			
Tier 4	\$3.36	\$3.59			
Temporary ³	\$5.04	\$5.39			

Notes:

- "Readiness to serve" charge does not apply to recycled water service.
- These rates include the additional cost for pumping.
- Temporary rates are 1.5 times tier 4 rate.

COMMODITY TIER RANGES FOR

POTABLE AND RECYCLED WATER (NO CHANGE)

COMMODITY TIERS

Tiers in hundred cubic feet (hcf)

Tier ¹	Account Type			
	Single Family Residential	Multi-Family Residential ²	Commercial and Irrigation ³	Recycled Water ³
Tier 1	First 16	First 12	First 85	First 85
Tier 2	Next 51	Next 2	Next 270	Next 270
Tier 3	Next 133	Next 10	Next 705	Next 705
Tier 4	Over 200	Over 24	Over 1,060	Over 1,060

Notes:

- To determine the cost of water service, multiply the commodity charge times the water allowance in each tier in this table. For potable water only, add the "readiness to serve" charge.
- For each dwelling unit.
- For 2" meter. Refer to www.LVMWD.com for other meter sizes.

SANITATION

SANITATION SERVICE CHARGE

Cost of sewage collection, wastewater treatment and biosolids composting

For single family residences, the proposed billing method uses the customer's average winter water use from December 1 through March 31. Water use in this period determines the sanitation bill for the full fiscal year that follows. The principle is that there is less outdoor use during those months, which approximates indoor water use that flows as sewage to the treatment plant. This method replaces the existing 10% sanitation rate discount, which applies only when bimonthly usage is 16 hcf or less during a given billing period. Under the proposed plan, customers who use 10 hcf or less bimonthly will see a 24% reduction (refer to example 2 in FAQ). Those who use 11 to 14 hcf will see up to an 18% reduction on a sliding scale. Those who use 15 or 16 hcf will see an increase of 6% and 12%, respectively, due to the elimination of the current 10% discount (refer to example 3 in FAQ). For water usage above 16 hcf, there will be a nominal 1% increase. If the proposed plan is adopted, average winter water use from December 1, 2011 to March 31, 2012 will be used to determine rates scheduled to become effective January 1, 2013.

The 10% sanitation rate discount will be eliminated for all multi-family residences. That discount applied only when usage was 12 hcf or below during a two-month billing period. Those who previously saw this discount will see an increase of up to 12%. However, multi-family residential customers will continue to pay 27% less than the base for single family residential accounts.

No sanitation rate adjustment is proposed for fiscal year (FY) 2013/2014. A 2% increase is scheduled for January 1, 2015, but subject to review by the LVMWD Board of Directors prior to becoming effective.

Current		Proposed			
		Winter Water Use (hcf)	1/1/2013	FY 13/14	FY 14/15
Single-Family	\$108.00 flat rate ¹	10 or less	\$74.31	\$74.31	\$75.80
		11	\$80.02	\$80.02	\$81.63
		12	\$85.73	\$85.73	\$87.45
		13	\$91.44	\$91.44	\$93.27
		14	\$97.15	\$97.15	\$99.10
		15	\$102.86	\$102.86	\$104.92
		16 or more	\$108.56	\$108.56	\$110.74
Multi-Family	\$68.03 flat rate ²	n/a	\$68.59	\$68.59	\$69.97

Notes:

1. A 10% discount applies if potable water usage is 16 hcf or less (\$97.20 bimonthly). There is no discount under the proposed rates.
2. A 10% discount applies if potable water usage is 12 hcf or less (each dwelling unit at \$61.23 bimonthly). There is no discount under the proposed rates.

Charges		Current	Proposed		
			1/1/2013	FY 13/14	FY 14/15
Commercial	Fixed Charges				
	Account Service Charge	\$17.21	\$17.21	\$17.21	\$17.56
	Per ERU ³ Charge	\$90.79	\$91.35	\$91.35	\$93.18
	Variable Charge ⁴				
	Class 1 (in excess of 29.5 hcf)	\$3.08	\$3.10	\$3.10	\$3.16
	Class 2 (in excess of 17.3 hcf)	\$5.25	\$5.29	\$5.29	\$5.39
	Class 3 (in excess of 11.4 hcf)	\$7.96	\$8.02	\$8.02	\$8.18
	Class 4	As determined by the General Manager			
Notes:					
3. ERU is Equivalent Residential Unit or the water use pattern of a typical single family residence.					
4. Sewage class depends on the type of business, please call the District for details.					

All tables present the proposed rate changes for potable water, recycled water and sanitation service based on bimonthly service billing. To see how the proposed rates will affect you, use the on-line calculator at: www.LVMWD.com. You will be asked to enter information found on your most recent bill.

FREQUENTLY ASKED QUESTIONS

Q: What has LVMWD done to control its expenses?

A: Cost cutting measures include a freeze on employee salaries over the last three years, elimination of 10 staffing positions in the last two years, a reduction in pension costs, paying off bonds in 2009 to save \$4M and controlling operating costs. We have also implemented revenue enhancements which include rental income, cell site leases and investments.

Q: With the slow economy, is this the right time to propose rate increases?

A: LVMWD has made every effort to keep the proposed increases to a minimum. Over the last five years, the District has drawn from its cash reserves to keep rates at a lower level. That practice is not sustainable given the upcoming increases in the cost of wholesale water and other supply and material costs.

Q: How does LVMWD's water rate schedule compare to other agencies in the region?

A: LVMWD's rates are the lowest among those of surrounding water agencies and that includes both public and private utilities in Los Angeles and Ventura Counties. If the water rate changes proposed in this notice are adopted as presented, LVMWD's rates will still rank as the lowest. See page 6.

Q: Why is my sanitation bill so high?

A: LVMWD operates the Tapia Water Reclamation Facility where your sewage flow goes. It has very stringent and costly state-mandated operating requirements like avoiding the discharge of treated recycled water to Malibu Creek seven months every year. Neighboring agencies and cities do not have similar requirements. A relatively small number of customers share this cost. However, the newly proposed rate schedule takes into account lower volume water users and some homeowners may see a reduction in their sanitation rates. See page 7.

Q: I used to get a 10% sanitation service discount for bimonthly water use at or below 16 hcf (single family residential) or 12 hcf (multi-family residential per dwelling unit) and I won't under the proposed rate. Why?

A: The new rate structure aligns multi-family with the new single family residential accounts by not providing the discount. The multi-family charge is based on 2.5 people per unit compared to 4 for a single family residence which is the basis for a 27% difference. The proposed rate structure is revenue neutral which means that no extra revenues are generated for the District. The rate change means that all residential

customers pay on the same basis which could amount to a 6% to 12% increase for some.

Q: Do you plan to use funds from these increases to build new facilities?

A: The District's capital improvement program is funded from a reserve account that has been accumulated over time for the purpose of major system improvements. Some of these funds have come from developer's fees, others have been from a portion of water rates intended to pay for maintaining the system. The District's current capital improvement program is adequately funded through 2015. At the end of this proposed rate schedule, some revenue will be needed to rebuild the reserve. The proposed increases are only expected to cover a deficit in operating revenues over operating costs.

Q: Why don't you borrow to fund capital projects? And why build projects now?

A: Borrowing adds unnecessary cost to a project. Instead, the District has a "pay as you go" approach to projects, using funds already in hand. Because of the slower economy, this is a favorable time to build needed facilities. Contractors are eager to get the work and bids have been very competitive.

Q: During the drought, we reduced our water use and now you're proposing higher rates. Aren't we being penalized for being efficient?

A: No. Regardless of the amount of water you use, there are many "fixed" costs in providing water service like water quality testing, backflow prevention, providing customer service, permits, promoting conservation programs, billing and accounting, maintenance of facilities, etc. However, when the wholesale cost of water increases, the District no longer has the ability to absorb the higher costs because water is more than 60% of the total operating budget. As previously explained, LVMWD has implemented cost cutting measures where they make sense.

Q: Would we save money by closing the Compost Facility and trucking the biosolids elsewhere?

A: The portion of your current sanitation bill to operate the composting process is \$2.75 per month. The other processes at the facility, like biosolids digestion and dewatering are necessary whether or not composting continues. Digestion is required by regulations and dewatering reduces the volume of material handled. Without dewatering, there would be an enormous expense to dispose of the biosolids elsewhere. A truck loading facility would need to be built to accommodate the trucking operation. Composting

FREQUENTLY ASKED QUESTIONS *(continued)*

provides a local solution to waste materials generated in our region, with the added feature of creating a product that can be beneficially reused by area residents at no additional cost to them.

Q: Can you negotiate better rates from Metropolitan, LVMWD's wholesale provider?

A: The Metropolitan Water District of Southern California (MWD) is also a public entity and LVMWD is a member agency of that organization, with a seat on its board. MWD sets its rates in order to meet the challenges of providing safe, reliable supplies of water to some 19 million Southern California residents. Like LVMWD, they have reduced staff and made efforts to reduce costs but building, maintaining and securing a sustainable water supply from the State Water Project and the Colorado River have significant costs that cannot be avoided. The aging infrastructure that brings water to our region needs major repairs and in some cases, replacement.

Q: We live near the ocean. Can't we look into desalination as a lower-cost water source?

A: There is a huge capital cost to build and operate a desalination facility. Current cost for desalted water is about \$1,900 per acre-foot (AF) excluding the cost to convey the water to our area. Although the technology is improving, it is still an expensive water supply alternative when compared with the \$794 per AF cost of fully treated water from the Sacramento-San Joaquin Delta supplied by MWD. Beside the considerable financial obstacles, there are concerns with siting, brine disposal, energy use and other environmental issues. Desalted water may eventually become part of MWD's overall supply portfolio but it is not a cost-effective project for small agencies like LVMWD to undertake.

For water conservation information, please visit our website, www.LVMWD.com or www.bewaterwise.com.

Q: How will the proposed rates affect me?

SINGLE FAMILY HOME (average water use)	EXAMPLE 1: District average water use of 55 hcf bimonthly; assume winter use is 44 hcf; ¾" water meter			
	Current	1/1/2013	Difference, %	Difference, \$
Water bill	\$139.73	\$152.88	9% increase	add \$13.15
Sanitation service bill	\$108.00	\$108.56	1% increase	add \$0.56
Total bill	\$247.73	\$261.44	6% increase	add \$13.71
SINGLE FAMILY HOME (low water user)	EXAMPLE 2: Assume winter water use of 10 hcf; ¾" water meter			
Water bill	\$45.20	\$48.57	7% increase	add \$3.37
Sanitation service bill	\$97.20 ¹	\$74.31	24% decrease ²	less \$22.89
Total bill	\$142.40	\$122.88	14% decrease	less \$19.52
SINGLE FAMILY HOME (affected by elimination of 10% sanitation discount)	EXAMPLE 3: Assume winter water use is 16 hcf; ¾" meter			
Water bill	\$55.88	\$60.45	8% increase	add \$4.57
Sanitation service bill	\$97.20 ¹	\$108.56	12% increase	add \$11.36
Total bill	\$153.08	\$169.01	10% increase	add \$15.93
SINGLE FAMILY HOME (high water use)	EXAMPLE 4: Assume winter water use is 200 hcf; ¾" meter			
Water bill	\$567.19	\$618.89	9% increase	add \$51.70
Sanitation service bill	\$108.00	\$108.56	1% increase	add \$0.56
Total bill	\$675.19	\$727.45	8% increase	add \$52.26
MULTI-FAMILY DWELLING AND COMMERCIAL	Due to account differences, the on-line calculator is available at www.LVMWD.com for multi-family accounts. Commercial accounts should call (818) 251-2200 for assistance.			
Note:				
1. 10% discount applies for usage of 16 hcf or below.				
2. 31% decrease if water usage at other times was greater than 16 hcf; i.e. sanitation bill = \$108.00.				

Many factors affect the cost of providing potable water, recycled water and sanitation service. Costs vary among providers because many conditions differ from one area to another. Providers may be private entities operated for profit and regulated by the CPUC or public agencies required to establish rates based on the cost of service. The following tables only provide the cost of service to the customer, not the special conditions that they operate under. In water, some agencies have access to multiple sources of water like groundwater or the Eastern Sierras in the case of the City of Los Angeles, or

proximity to their water supplier. LVMWD relies solely on imported water from MWD and has no alternate source. In sanitation, the cost depends upon the level of treatment required for wastewater, the number of customers sharing the expense and conditions required by operating permits. Unlike other agencies, LVMWD has a unique permit condition that prohibits discharge of fully (tertiary) treated recycled water from the Tapia Water Reclamation Facility to Malibu Creek for seven months every year. The comparison surveys were completed on July 19, 2012 and do not reflect proposed rate increases by other agencies.

WATER RATES COMPARISON

WATER AGENCY	Units of water (hcf ¹) per bimonthly billing			
	28	70	110	250

RESIDENTIAL METERED SERVICE

Page 1 of 2

APPLICABILITY

Applicable to all residential metered water services provided to single-family residential customers.

TERRITORY

Portions of the Cities of Artesia, Bell, Bell Gardens, Carson, Cerritos, Compton, Cudahy, Culver City, Downey, El Segundo, Gardena, Hawaiian Gardens, Hawthorne, Huntington Park, Inglewood, Lakewood, La Mirada, Lawndale, Long Beach, Norwalk, Paramount, Santa Fe Springs, South Gate, and the communities of Athens, Lennox, and Moneta and vicinity, Los Angeles County, and portions of the City of Los Alamitos, Orange County.

RATES**Quantity Rates:**

First 1,100 cu. ft., per 100 cu. ft.....	\$3.859	(I)
Next 400 cu. ft., per 100 cu. ft.....	\$4.439	(I)
Over 1,500 cu. ft., per 100 cu. ft.....	\$5.106	(I)

Service Charge:

	Per Meter Per Month
For 5/8 x 3/4-inch meter.....	\$ 17.74
For 3/4-inch meter.....	26.61
For 1-inch meter.....	44.35
For 1-1/2 inch meter.....	88.74
For 2-inch meter.....	142.31
 Fire Sprinkler 1-inch to 5/8x 3/4-inch	 \$18.64
Fire Sprinkler 1-inch to 3/4-inch	\$26.86
Fire Sprinkler 1 1/2-inch to 3/4-inch	\$30.87
Fire Sprinkler 2-inch to 3/4-inch	\$32.47
Fire Sprinkler 1 1/2-inch to 1-inch	\$48.35
Fire Sprinkler 2-inch to 1-inch	\$49.66

The service charge is a readiness-to-serve charge applicable to all metered service and to which is added the charge for water used computed at the Quantity Rates.

President

Date Filed: July 15, 2014Effective Date: June 1, 2014

Resolution No. _____

Schedule No. ME-1-R
Metropolitan District
RESIDENTIAL METERED SERVICE

Page 2 of 2

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Residential customers are defined as all single family customers with one dwelling unit that are individually metered.
3. Pursuant to Decision 13-05-011, a surcharge of \$0.156 per Ccf will be applied to all metered customers bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
4. As authorized by the California Public Utilities Commission, an amount of \$0.223 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1512-W, which is March 29, 2013. This surcharge will recover the undercollection in the WRAM/MCBA Balancing Accounts through December 31, 2012.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.015 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1526-W, which is August 28, 2013. This surcharge will recover the under-collection recorded in the City of Torrance Balancing Account.
6. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.264 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1542-W, which is October 18, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
7. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA, which is July 1, 2014. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (T)
8. Beginning July 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.04092/kWh, an increase in purchased water of \$0.15457/Ccf, an increase in Pump Tax of \$0.05510/Ccf and a decrease in Leased Water of (\$0.01692)/Ccf, relative to the Purchased Power, Purchased Water, Pump Tax and Lease Water cost adopted by Decision No. 13-05-011, and an associated revenue increase of 2.64%, are being tracked in a reserve account. 1 DEFINITION OF TERMS

Whenever the following terms or pronouns are used herein, the intent and meaning shall be interpreted as follows:

- a) **District:** La Puente Valley County Water District
- b) **County:** County of Los Angeles
- c) **Board:** Board of Directors of La Puente Valley County Water District
- d) **Customer:** Any person, firm, corporation, association or agency who uses or is entitled to use water from the District System.
- e) **Customer Class:** Water services with similar characteristics such as demand patterns and type of use. (E.g. single family residential, commercial, industrial, irrigation & multi-family)
- f) **Manager:** General Manager of La Puente Valley County Water District or the person who has been authorized by the Manager or by the Board of Directors of the District to act for the General Manager.
- g) **His, Him:** Any person, corporation, association or agency
- h) **Water System:** Those pipelines, booster stations, wells, reservoirs and appurtenances, constructed by or for the District or acquired by the District, for the purpose of providing water service.

2 GENERAL POLICIES

2.1 APPLICATION FOR SERVICE

The application is a request for water service from the District. Each prospective Customer must apply for the desired service and provide sufficient information to establish credit for the payment of the account with the District and pay the non-refundable application fee set forth in section 2.3, below.

The District requires proper identification of all applicants for new water service. The applicant has the option of completing the application form in person at the District office or submitting the required information by mail prior to the establishment of water service.

The information required to identify the applicant must be provided on the service application form specified by the District. The District requests this information to ensure the proper billing and collection of the account. Information the District requires includes, but is not limited to the following:

- a) Applicant's name and address: (if a corporation, the state of incorporation and the names and addresses of its President and Secretary; if a partnership, the names

and addresses of the general partners; if a sole proprietorship, the name and address of the owner; if a limited liability company, the names and addresses of the managing members).

- b) The applicant's relationship to the property - i.e., whether the applicant is the owner, co-owner, or agent of the owner of the property to be served, or is a tenant or has some other relationship to the property.
- c) The address for billing purposes.
- d) The address for which service is requested, and the type of service and use, (residential, commercial, industrial, fire protection).
- e) The date the applicant wishes service to be commenced.
- f) If a new service, or modification of an existing service, the size of water service connection desired, or other change requested.
- g) Such other information as the Manager deems necessary to install or transfer service, including appropriate information to establish the applicant's credit with the District.

The signing and filing of the application shall constitute an agreement by the applicant to accept responsibility for all charges related in any way to water service to the property, and to be bound by the ordinances and the rules and regulations of the District. Any application submitted by a Customer who is not the owner of the property to be served must be counter-signed by an owner of the property, who will then be considered as the applicant and become the primary account holder.

2.2 WATER FURNISHED IN THE NAME OF THE TENANT OF RENTAL PROPERTY

All new accounts for service to rental property are required to be in the name of the property owner as account holder. If the property owner desires to have an account for a rental property established with the tenant as the primary account holder, the property owner must execute an "Application and Agreement to Have Water Service Furnished in the Name of the Tenant of Rental Property" (Tenant-Owner Agreement) acknowledging that the property owner will be a co-account holder and responsible for any unpaid charges for water service. Applicants for water service who are not the owner of the property will not be provided service until the property owner has completed, signed and submitted this form to the District.

2.3 APPLICATION FEE

Every applicant for a water service account at a retail connection shall complete and submit an application for water service on a form provided by the District and shall

pay a nonrefundable application fee of \$20.00.

Every applicant for a construction water service or temporary service from a fire hydrant shall complete and submit an application for such service and pay a non-refundable application fee of \$15.00.

2.4 SERVICE AGREEMENT

Every applicant for new water service requiring an extension of the District's Water System or establishment of a new water service to property which has not been previously received water service from the District, shall be required to enter into an Agreement for the installation or upgrading of Water System and Service of Water ("Service Agreement") in a form provided by the District. The Service Agreement shall provide for the applicant to pay all engineering and administrative costs incurred by the District for the preparation of plans and specifications and for construction, supervision, and testing of the water facilities.

The Service Agreement shall provide that the applicant must deposit, in advance, an amount of money based upon the total estimated cost of engineering services, construction and administrative costs prior to commencement of the design and award of the construction contract, respectively. The Service Agreement shall provide that the applicant shall dedicate to the District, such fee parcels, easements, and other interests in land as may be necessary for the water facilities to serve the property. The Service Agreement shall also provide for the payment of the Meter Installation Fee and the charge for Water System Connection as set forth herein.

2.5 OWNERSHIP OF WATER SYSTEM FACILITIES

All pipes, fittings, meters, meter boxes and other materials, equipment and Water System facilities installed by or for the District to establish a service connection shall at all times be the property of and remain vested in the District. The applicant shall have no ownership interest or title thereto. No service connection will be installed at any place on the Water System for or on behalf of any applicant who has any outstanding or delinquent debt owed to the District for any previous water service until all such unpaid indebtedness has first been fully paid and discharged.

2.6 TEMPORARY / CONSTRUCTION SERVICE

Any applicant desiring a temporary service from a fire hydrant shall specify in the application the location of the hydrant or hydrants from which service is desired. The District will, when such an application has been accepted, provide the meter to the applicant. The applicant shall pay the refundable deposit then in effect for each

temporary service requested. The amount of the required deposit and/or water rate may be adjusted by Board action from time to time.

Upon discontinuance of service, provided the meter has been recovered by the District in acceptable condition, the deposit will be applied to any unpaid charges due on the account and the balance, if any, will be refunded to the applicant, without interest. If the meter is damaged or missing, the deposit shall be applied first to the cost of repairing or replacing the meter, and second to any unpaid charges. The customer will be responsible for any shortfall between the amount due and the deposit. Any balance of the deposit remaining after deduction of costs and unpaid charges will be refunded to the customer without interest.

Water delivered through a temporary water service shall be charged at the construction rate which is equivalent to the tier 2 potable rate for Zone 1 residential customers. A non-refundable \$15.00 application fee will be charged in addition to the deposit.

2.7 ESTABLISHMENT OF CREDIT

At the time the service application form is submitted, the District will evaluate the applicant's credit-worthiness and the Manager shall determine if the District will require a deposit from the applicant to secure the payment of future charges on the account. An applicant's credit will be considered impaired in the following circumstances and a refundable deposit will be charged in addition to the non-refundable application fee:

- (a) The applicant and/or co-applicant has no prior credit history or, in the reasonable opinion of the Manager, a poor credit history in any of the three major credit reporting agency databases (TRW, TRANS UNION and EQUIFAX);
- (b) The District has received information from the CUE (California Utilities Exchange) database that the applicant has an unpaid final bill with another utility company or the applicant has an unpaid final bill with the District at a prior service address;
- (c) The applicant refuses to furnish information necessary to identify the applicant and verify his credit-worthiness;
- (d) The District is not able to positively identify the applicant from the information submitted on the service application.

In the event that credit-worthiness is established at the time the service application is submitted, no deposit will be required to establish service. However, the District may require a deposit as a condition of continuing water service to an existing Customer if the Customer becomes delinquent in payment of District charges as set forth below. The Customer will be notified if and when a deposit is required to maintain service with the District. Any of the following circumstances constitutes a delinquency requiring a deposit in order to continue service at the Customer's property:

(1) Any Customer who has incurred any of the following charges for delinquent payment:

- (a) One 48-hour service termination notice (door hanger);
- (b) Two (2) delinquent late charges in any one calendar year;
- (c) Three (3) delinquent late charges since the inception of the customer's account.

(2) The Customer's service has been shut off at any time for the non-payment.

(3) The Customer has issued the District a check, which has been returned unpaid.

Any Customer, who has opened multiple accounts in his name, may be required to make a deposit for each account or service address, if the payment history in any of the accounts reflects a delinquency as defined above.

2.8 DEPOSITS

Where an applicant or Customer is required to make a refundable deposit to secure the payment of future charges or for the re-establishment of service, the amount shall be determined as follows:

2.8.1 NEW SERVICE APPLICANTS:

The *standard deposit amount* will be calculated by the District and adjusted annually, based on the average total bill for Customers who have the same size meter and who are also in the same customer class multiplied by Two Hundred Fifty Per Cent (250%). Every new service applicant shall pay a non-refundable application fee of \$20.00. Any new service applicant unable to provide proper photo identification will be charged the *standard deposit amount* which will be held by the District until such time as proper identification is presented to the District, or until such account is closed. In each instance, this deposit will be refunded to the Customer or applicant, without interest, after deduction of any unpaid charges on the account. Acceptable forms of photo identification include, but not limited to, an identification card issued by the Department of Motor Vehicles, a Driver's License, Passport, or Lawful Permanent Residency Card ("Green Card").

2.8.2 EXISTING CUSTOMERS:

The deposit amount will be calculated based on the average total bill of that particular Customer for at least one (1) billing period multiplied by Two Hundred Per Cent (200%). If this information is not available, the deposit calculation for new service applicants will be used. Any Customer whose credit status has changed with the District will be properly notified and charged for the deposit amount.

In the event that a Customer who has already paid a deposit as a new service applicant becomes delinquent as defined in Paragraph 3.6., above, the Manager will re-evaluate the amount of the deposit necessary to secure the account. If the deposit amount determined based upon the customer's average total billing for water charges is greater, the amount of the deposit will be adjusted accordingly. As a condition of continued water service, the customer will be required to increase the amount of the deposit, as well as paying all delinquent charges and other fees.

In the event a Customer's account is terminated for non-payment, the District may apply any deposit held for that Customer to any outstanding charges and penalties for that Customer at the time service is terminated. If the Customer closes an account, the District shall apply the Customer's deposit to the final billing and refund any balance remaining, without interest, to the Customer.

District will monitor the payment history of each Customer for which a security deposit is being held. If the Customer's account is free of any late payment penalties, termination notices or returned checks for a period of twenty-four (24) consecutive months, the District shall refund the deposit to the Customer, without interest, by applying the deposit to the Customer's account.

2.9 CHANGE IN SERVICE

- (a) Any Customer desiring a larger service connection shall apply to the District for the meter size desired in the manner heretofore described for a new service. The Customer shall, however, be credited for the amount of the salvage value of any materials removed. In computing the salvage value, no depreciation shall be charged with respect to the existing meter.
- (b) Service will be discontinued upon request of the applicant. Payment of all charges in full to the date of discontinuance will be due upon termination of service.

2.10 SEPARATE SERVICES

No service connection will be made for the purpose of supplying two or more parcels through a common service even though the premises may be in the same ownership.

When a parcel is divided into two or more lots, separate service connections must be established for each lot to which service is provided. Each house, building, condominium or town house, and each commercial or industrial business or operation conducted in a separate unit in a single building shall be supplied through a separate water service connection.

Existing service to more than one residential unit on a single parcel will be classified as "Single Family Residential Service" and billed at the District's established rates for such service. Violation of the rule prohibiting service to more than one parcel through a single service connection shall be cause for discontinuance of service through the service connection upon 30 days written notice to the Customer to correct the violation. An existing apartment building (under single ownership with a single water service connection), if converted to a condominium or other form of separate ownership of parts of the structure, may continue to receive water service through a single water service connection, so long as the responsibility for payment and charges is assumed by a single entity representing the owners. Exceptions to the foregoing rules in section 3.9 may be made by the Board of Directors, upon recommendation of the Manager, and in accordance with an applicant's written request to the Board. If the Board grants an exception, it may do so subject to special conditions.

3 WATER RATES AND SERVICE CHARGES

3.1 CHARGE FOR WATER (COMMODITY RATES)

There is a commodity rate charged for each unit of water (one hundred cubic feet “hcf”) supplied by the District. The commodity rate includes a charge for pumping costs which vary according to the elevation zones within the District.

3.1.1 SINGLE FAMILY RESIDENTIAL INCLINING BLOCK RATES

The commodity rates for the single family residential class of service shall vary according to the amount of water delivered in a billing period with the initial quantity of water charged at a lower rate, (inclining block rate) to encourage conservation and discourage waste of water.

	Effective 1st Billing Period following September 15, 2011		Effective 1st Billing Period following September 15, 2012		Effective 1st Billing Period following September 15, 2013		Effective 1st Billing Period following September 15, 2014		Effective 1st Billing Period following September 15, 2015	
	0-25 HCF	>25 HCF	0-25 HCF	>25 HCF	0-25 HCF	>25 HCF	0-25 HCF	>25 HCF	0-25 HCF	>25 HCF
Zone 1	\$1.32	\$1.65	\$1.39	\$1.77	\$1.46	\$1.93	\$1.53	\$2.18	\$1.61	\$2.32
Zone 2	\$1.52	\$1.85	\$1.59	\$1.97	\$1.66	\$2.13	\$1.73	\$2.38	\$1.81	\$2.52
Zone 3	\$1.69	\$2.02	\$1.76	\$2.14	\$1.83	\$2.30	\$1.90	\$2.55	\$1.98	\$2.69
Zone 4	\$1.57	\$1.90	\$1.64	\$2.02	\$1.71	\$2.18	\$1.78	\$2.43	\$1.86	\$2.57
Zone 5	\$1.83	\$2.16	\$1.90	\$2.28	\$1.97	\$2.44	\$2.04	\$2.55	\$2.12	\$2.83

3.1.2 COMMERCIAL AND MULTI-FAMILY RATES

There shall be a uniform charge per hcf, plus a pumping charge covering the energy cost to pump water to each elevation zone above Zone 1.

Pressure Zone Usage in HCF (HCF = 100 cubic feet = 748 gallons)

	Beginning 1st billing period following September 15, 2011	Beginning 1st billing period following September 15, 2012	Beginning 1st billing period following September 15, 2013	Beginning 1st billing period following September 15, 2014	Beginning 1st billing period following September 15, 2015
Zone 1	\$1.52	\$1.63	\$1.74	\$1.85	\$1.95

Zone 2	\$1.72	\$1.83	\$1.94	\$2.05	\$2.15
Zone 3	\$1.65	\$1.80	\$1.95	\$2.22	\$2.32
Zone 4	\$1.77	\$1.88	\$1.99	\$2.10	\$2.20

3.2 BI-MONTHLY METER SERVICE CHARGE

In addition to the commodity rate, there is a bi-monthly service charge for each retail water meter, which is based upon the size of the meter. This is a fixed amount which yields revenues to provide for the general overhead and other fixed costs of the District's operations.

Meter Size	Beginning 1st billing period following September 15, 2011	Beginning 1st billing period following September 15, 2012	Beginning 1st billing period following September 15, 2013	Beginning 1st billing period following September 15, 2014	Beginning 1st billing period following September 15, 2015
5/8"	\$28.58	\$29.19	\$29.80	\$30.41	\$31.02
3/4"	\$29.81	\$31.65	\$33.49	\$35.33	\$37.19
1"	\$45.13	\$46.23	\$47.33	\$48.43	\$49.54
1.5"	\$97.56	\$98.29	\$99.02	\$99.75	\$100.50

6"	\$630.32	\$643.39	\$656.46	\$669.53	\$682.60
8"	\$830.02	\$874.22	\$918.42	\$962.62	\$1,006.84

3.3 FIRE SERVICE CONNECTION – SERVICE CHARGE

There is a bi-monthly service charge, based upon the size of the connection, for each connection supplying water to a fire hydrant system or other fire suppression facility. The fire service charge is fixed to yield sufficient revenues to defray the cost of serving and maintaining such lines, meters, hydrants and facilities to provide the flow capacity for the connection.

Size of Connection (inch)	Effective first billing period following 9/15/2011	Effective first billing period following 9/15/2012	Effective first billing period following 9/15/2013	Effective first billing period following 9/15/2014	Effective first billing period following 9/15/2015
.75	13.26	14.25	15.24	16.23	17.23
1	14.78	15.87	16.97	18.07	19.19

12	278.03	293.06	308.09	323.12	338.15

3.3.1 IMPROPER USE OF FIRE CONNECTION SERVICE

The following special charge shall be applicable to Customers having connections for fire protection purposes:

If a detector meter attached to and as part of the facilities for fire protection purposes registers the use of water through such facilities, the Customer shall be advised of this fact and shall forthwith make a full report of the facts and circumstances of such use to the Manager. The Manager then shall determine whether such use was an improper use. If such use is determined not to be for proper purposes for which the fire protection connections were installed, the Customer shall pay an additional sum of \$50.00 for the water so used regardless of the quantity (this is in addition to the charge for water applicable for commercial Customers within the zone of service).

Any determination by the Manager that the use of water through such facilities was improper shall be made in writing, and such determination shall be mailed to the Customer along with the statement for the additional charge. The determination of the Manager shall be final, unless the Customer appeals the determination to the Board in accordance with Section 16. If the Board sustains the determination of the Manager, the charge shall be paid within 5 days thereafter.

3.4 TEMPORARY / CONSTRUCTION SERVICE – RATES AND CHARGES

- (a) The commodity rate for water delivered through a temporary water service shall be charged at the construction rate which is equivalent to the tier two potable rate for Zone 1 residential customers.
- (b) In addition to the commodity rate for construction service, there is a \$4.00 per day service charge for temporary meters attached to fire hydrants to supply water for construction purposes and other temporary uses to defray the additional overhead costs of the District for monitoring water use, its effect on the Water System and for reading and maintaining such meter.

3.5 FIRE FLOW AVAILABILITY TESTING RATES

Fire Flow Tests are performed by District personnel to measure the volume of water available at a specified fire hydrant. There is a charge of \$115.00 to perform a fire flow availability test.

3.6 WATER SYSTEM CONNECTION FEE

When potable water service is requested for property or premises not previously provided water service by the District, a one-time water system connection fee will be charged. In the event use of the property changes, increasing the demand for water, a connection fee will be assessed at the current rate, less the amount previously paid. The connection fee is assessed for property (or premises) newly served by the District to bear its proportionate share of the cost of the Water System facilities in relation to the benefit that the property receives. The fee is computed based on the hydraulic capacity of the service being requested.

The calculation of this fee is based on the net book value of the District's capital assets and the proportionality of the size of service being requested, taking the current net book value of the District's funded capital assets and dividing it by the total number of existing equivalent meter sizes in the District's entire system. The fee calculation shall be performed upon processing of each new service installation request. The current calculation formula is as follows for meter sizes 5/8" to 8":

(Net book value / total equivalent meters) x meter equivalent size of service requested.

Example: 5/8" meter connection calculation ($\$11,954,401/4,449$) X 1 = \$2,686.99

Meter Size	Hydraulic Equivalent Meter	Water System Connection Fee
5/8"	1	\$ 2,686.99
3/4"	1.5	\$ 4,030.48
1"	2.5	\$ 6,717.47
1.5"	5	\$ 13,434.93

2"	8	\$	21,495.89
3"	16	\$	42,991.78
4"	25	\$	67,174.65
6"	50	\$	134,349.30
8"	80	\$	214,958.89

3.7 METER AND METER BOX INSTALLATION CHARGES

Applicants for new water service connections, or for Customer-requested sizing changes to existing meters, will be required to pay (in addition to a Water System connection fee, if applicable) a Meter & Installation Charge for the cost of materials and labor to construct the service connection lateral from the water main. The Meter & Installation Charge is adjusted from time to time to reflect changes in the cost of meters, other materials and labor. The charge will also vary depending upon the size of the meter installed.

Upon request, the District will provide a schedule showing the current Meter & Installation Charge in effect at the time of the application. The Meter & Installation Charge shall include the cost of the meter, meter tail or flange, meter gasket, cement meter box, meter box cover, hours of labor and hours of equipment use. Some meters require additional materials which will be included in the charge. Turbo meters are required for services having a constant high flow, such as irrigation meters. District staff will determine what type of meter is required based upon information provided by the applicant.

3.8 INSTALLATION COSTS FOR FIRE SERVICE CONNECTION OR SPECIAL CONNECTIONS

If fire protection service or other special connections are requested, the applicant for installation of such facilities shall submit his request to the Manager together with plans and specifications for the proposed installation. The cost of the facilities and their installation shall be estimated by the Manager, and the sum so estimated shall be deposited by the applicant with the District before installation work begins. Any excess over the actual cost of installation shall be refunded to applicant upon the completion of installation, without interest. The amount of any deficiency shall be billed to the applicant, and shall be due and paid within 10 days after the date of the bill. The new connection will not be activated until all installation costs are paid and the required backflow prevention devices have been installed and testing verified.

4 PAYMENT FOR SERVICE

4.1 PAYMENT OPTIONS

Charges for water service, penalties and late charges may be paid by cash, check, money order or direct debit authorized from the Customer's bank account. In addition,

the District shall accept payment by credit card or debit card for water charges, service charges, penalties and late charges and other rates, fees and charges for water or other services provided by the District.

4.2 METER READING PERIODS

Subject to change of days on account of weather conditions, holidays, weekends and other matters beyond control of the District, water meters shall be read bi-monthly. Special meter readings may be taken by the District at any time upon termination of an account, change of ownership, change in tenancy, or for any other reason, either upon application by the Customer or upon order of the Manager.

The Manager shall have the right to change billing dates, re-route meter readers and to pro-rate the charges for bills covering more or less than the normal billing period. If a Customer has questions regarding a bill or a dispute with respect to the amount charged, the Customer must submit a complaint or request for investigation to the District office in writing within ten (10) days of the receipt of the disputed bill. If the designated District Appeals Officer determines an investigation is warranted, service will not be terminated until an investigation has been completed and the Customer has been notified of the District's decision by mail. If the validity of the bill is upheld by the District Appeals Officer, the Customer will then be given an opportunity to pay the bill to avoid service termination.

4.3 LATE PAYMENT/DELINQUENCIES

All accounts for water service are due and payable immediately upon billing, and shall be delinquent if not paid by the due date provided on the water bill, which shall be no sooner than 27 days and no greater 31 days after the date of billing. A "late payment" fee of \$6.00 will be applied to each account if payment is received in the District office, by mail or in person, after the due date. A "PAST DUE" bill may, but need not be sent to any Customer whose bill is not paid prior to the due date. If the account is not paid by the due date shown on the past due bill, a \$7.00 termination notice fee will be charged to the account and a service disconnection notice will be issued. The service disconnection notice shall be delivered to the Customer in person or by telephone at least 48 hours before termination of service.

Unless a delinquent bill is paid by the date and time provided on the service disconnection notice, service may be discontinued by the District any time thereafter and shall not be reconnected until all delinquent amounts, late payment fees, termination notice fees, reconnection fees, returned check fees and deposits have been paid in full. If an account is not paid in full by the date and time specified on the service disconnection notice, the Customer will be charged a \$25.00 disconnection processing fee to re-establish/reconnect water service. If reconnection is requested on a day that the District is closed, including weekends, holidays and alternate Fridays, or after 5:00 p.m. on the District's regular business days, an additional reconnection fee of \$25.00 will be charged to the account. Notwithstanding any provision of these Rules and Regulations to the contrary, the District will not terminate water service in

any of the following situations:

- (a) during the pendency of an investigation by the District of a customer dispute or complaint;
- (b) if the Customer has been granted an extension of the period for payment of a bill;
- (c) for an indebtedness owed by the Customer to any other public agency, or where the account that is delinquent was incurred with a public agency other than the District;
- (d) if the delinquent account relates to another property owned, managed or operated by the Customer; or
- (e) if a public health or building officer certifies that termination of service would result in a significant threat to the health or safety of individuals or the public generally.

Unpaid closing bills may be given to a Credit Reporting Agency.

4.4 LIEN FOR UNPAID CHARGES

The District is legally empowered to create appropriate liens on real and/or personal property to secure the ultimate payment of delinquent and unpaid charges for water or other services. Upon failure of a Customer to pay for water and/or others services as set forth in these Rules and Regulations a written notice shall be provided to the owner of the land and to the tenant of the land who was the original applicant for service, which shall specify the nature and extent of the unpaid charges. If the charges remain unpaid for sixty(60) days, the District mat file a Certificate in the Office of the County Recorder specifying the amount of the charges and the name and address of the person liable, thereby creating a lien. In cases where a lien is necessary to recover unpaid charges a \$30.00 charge to process the lien shall be added to the balance of unpaid charges.

4.5 DISHONORED PAYMENTS

A dishonored payment fee of \$20.00 will be charged for checks or any other payments returned to the District by the bank unpaid. Payment to maintain service after a dishonored payment must be made by cash or money order, and a deposit may be required.

4.6 TAMPERING

All unauthorized opening and closing of valves will result in a tampering penalty as specified below. All pipes, mains, valves and other facilities on the street side or District water main side, up to and including each meter through which water is delivered to a Customer, are the property of the District and only authorized District personnel are permitted to operate service connection valves or meters. Unauthorized operation or tampering with District valves, meters or other facilities will result in a tampering penalty of \$70.00 imposed on the Customer, in addition to the cost to repair any damage and other charges for estimated water use.

4.7 TERMINATION OF SERVICE TO TENANTS-OCCUPANTS

4.7.1 NOTICE TO RESIDENTIAL TENANTS-OCCUPANTS IN AN INDIVIDUALLY METERED RESIDENCE

The District will provide written notice to residential occupants when the customer's account is delinquent and that service will be terminated for nonpayment by the owner. If the residential tenant-occupant meets the requirements as set forth in Section 2 of the District's Rules and Regulations, the District may make service available in the tenant's name. In these cases the requirements for the Application for Water Service to be counter-signed by the owner and/or the Tenant-Owner Agreement requirement may be waived by the Manager.

4.7.2 NOTICE TO TENANTS-OCCUPANTS IN A MULTI-UNIT RESIDENTIAL STRUCTURE WITH SERVICE THROUGH A MASTER METER

The District will provide written notice, posted on the door of each residential unit or in each accessible common area and at each point of access to the structure or structures, that service will be terminated for non-payment by the owner on a date specified in the notice, unless the account is paid in full. The notice will also specify:

- (1) what the Residential Occupants are required to do in order to prevent the termination or to reestablish service;
- (2) the estimated monthly cost of service; and
- (3) the title, address and telephone number of a representative of the District who can assist the Residential Occupants in continuing service.

4.8 NONPAYMENT BY TENANT

Whenever existing water service is furnished in the name of a tenant and service is terminated by the District for non-payment of water charges, or the tenant vacates the premises leaving an unpaid balance on the service account, the property owner will be obligated to cure the default. Water service to the premises will only be re-established with a subsequent tenant as primary account holder, after the property owner has made payment in full of all delinquent charges. If such charges are not paid in full, future service must be established in the name of the property owner alone.

5 EXTENSION OF MAINS

It is the policy of the District that water mains and appurtenant facilities to be constructed in streets and rights of way will be paid for by the persons desiring such installations, whether they are subdividers, owners, or residents. Payment for such mains and facilities may be by lump sum payment or such other means acceptable to the Board. The Board may, in its discretion, pay from District funds a portion of the cost of major transmission lines where such lines are larger than would be required to serve the property benefiting from the installation.

6 METER TESTING

6.1 AT THE CUSTOMER'S REQUEST

Any Customer, who believes that a meter is not registering correctly, may request that the meter be examined and tested by the District to determine if it is registering correctly. Such request shall be made on a form to be furnished by the District for such purpose. Upon filing of any such request, a deposit of \$60.00 will be collected or charged to the Customer's account, to be applied toward the final total cost of the meter test. Any balance remaining will be charged to the Customer or refunded, without interest.

If upon such examination and test, the meter is found to register over 2.5% more water than actually passes through it, at any rate of flow, the meter will be repaired or another meter shall be substituted without charge to the Customer and the meter test deposit will be credited to the Customer's account. The Customer's water charges for the preceding two billing periods shall be adjusted by the percentage error determined in the meter test and the Customer will receive a credit for overpayment on the Customer's next water bill or will receive a refund of the overpayment without interest, at the discretion of the Manager. If any such meter, upon such examination and test registers not to exceed 2.5% more water than actually passes through it, the meter shall be deemed accurate. In this case the deposit will be retained by the District and applied toward the cost of the meter test.

6.2 AT THE INSTIGATION OF THE DISTRICT

The District may remove and replace any meter for testing or repairs at its discretion. If a meter ceases to register or does not register within 2.5% due to tampering, the Customer shall be charged for service during the time such meter does not so register, an amount, which shall be determined by the Manager, on a case by case basis, subject to the right of the Customer to appeal to the Board

7 TEMPORARY INTERRUPTION OF SERVICE

7.1 FOR REPAIRS OR IMPROVEMENTS

The District reserves the right at any time, with or without notice, to shut off the water in all or any of its mains or services for the purpose of making installations, improvements, repairs, removals or extensions, or for the purpose of performing any other work or act reasonably necessary or advisable in connection with the operation of said system, or to meet any emergency on any part of the system, or in any part of the District.

8 TAMPERING WITH DISTRICT PROPERTY

No unauthorized person shall tap into any water main or lateral, operate any valve or fire hydrant or otherwise tamper or interfere with any part of the Water System. Any person tampering with, or making unauthorized use of the Water System that results in a financial cost to the District will be charged for such costs in addition to fines and penalties provided herein. Where tampering or unauthorized use affects a particular property, the property-

owner will be presumed to have been the perpetrator of the offense. In addition, at the discretion of the Manager or his authorized representative, criminal charges may be filed.

9 FIRE HYDRANTS

9.1 USE

Fire hydrants are provided only through contractual agreement and are primarily for the purpose of extinguishing fires and shall be used only by Fire Department and authorized personnel of the District or such persons as may be granted a temporary permit by the Manager to take water therefrom.

9.2 UNAUTHORIZED USE

Fire hydrants connected to the water mains of the District are provided for the sole purpose of furnishing water to fight fires, except in special instances, and shall be opened and used only by persons authorized by the District. The Los Angeles County Fire Department is so authorized. Any authorization for use of water from a fire hydrant by any person other than an authorized employee of the County Fire Department shall be in writing. Any unauthorized use of water from a fire hydrant shall subject the user to a charge in an amount to equivalent to the temporary water service rate for an amount of water estimated by the Manager, payable immediately upon rendition of a statement therefore.

10 PROTECTION OF PUBLIC HEALTH

10.1 TREATMENT OF WATER

The District reserves the right to properly and efficiently treat any and all water served through its system with such chemicals, at such times and in such amounts as good public health protection may indicate, in order to guard its Customers and inhabitants against disease and contamination. The District shall not, nor shall any of the officers, agents, servants or employees of the District, be liable for, on account, or by reason of any such treatment; nor shall they or any of them be liable for the death of, or injury or damage to plants, animals, fish, frogs, or other aquatic life, which may result from any such treatment. All service will be rendered and must be accepted accordingly.

10.2 CUSTOMER'S EQUIPMENT

No connection shall be made or maintained which draws water directly from the District's main transmission lines into any stationary boiler, hydraulic elevator, power pump or similar apparatus. No Customer shall operate any quick closing valves or other devices which cause momentary pressure changes in the Water System. No connection shall be permitted between any Customer's lines and any other source of water which might cause or allow contaminated water to enter the District's system.

10.3 BACKFLOW PREVENTION – CROSS-CONNECTION CONTROL

The purpose of this cross-connection control program is to protect the public water supply system from contamination due to potential and actual cross connections as required by State regulations.

10.3.1 RESPONSIBILITY

The Manager shall be responsible for implementing and enforcing the cross-connection control program. An appropriate backflow prevention assembly shall be installed by and at the expense of the Customer at each connection where required to prevent backflow from the Customer's premises to the domestic water system. It shall be the Customer's responsibility to comply with the District's requirements and the Customer shall be responsible for any costs incurred by the District in connection with the administration or enforcement of the cross-connection control program, and for any other fees determined by the District's Manager to owe in connection therewith. The District may prorate any such fees on a Customer's monthly or bi-monthly, as applicable, water bill.

10.3.2 CROSS-CONNECTION PROTECTION REQUIREMENTS

The type of protection that shall be provided to prevent backflow into the Water System shall be commensurate with the degree of hazard, actual or potential, that exists on the Customer's premises. Unprotected cross-connections with the District's water supply are prohibited. The type of backflow prevention assembly that may be required (listed in decreasing level of protection) includes: Air-gap separation, Reduced Pressure Principle Backflow Prevention Assembly and a Double Check Valve Assembly. The Customer may choose a higher level of protection than required by the District. The minimum types of backflow protection required to protect the approved water supply at the Customer's water connection to premises with varying degree of hazard are listed in Table 1, Section 7604, Title 17, CCR. Situations which are not covered in Table 1 shall be evaluated on a case-by-case basis and the appropriated back-flow protection shall be determined by the District or health agency.

10.3.3 BACKFLOW PREVENTION ASSEMBLIES

Only backflow prevention assemblies which have been approved by the District shall be acceptable for installation by a Customer. A list of approved backflow prevention assemblies will be provided upon request to any affected Customer. Backflow prevention assemblies shall be installed in a manner prescribed in Section 7603, Title 17, CCR. Location of the assemblies shall be as close as practical to the Customer's connection.

The District shall have the final authority in determining the required location of a backflow prevention assembly. Testing of backflow assemblies shall be conducted only by qualified testers and testing will be the responsibility of the Customer. Backflow prevention assemblies must be tested at least annually and immediately after installation, relocation, or

repair. More frequent testing may be required if deemed necessary by the District. No assembly shall be placed back in service unless it is functioning as required. These assemblies shall be serviced, overhauled, or replaced whenever they are found to be defective and all costs of testing, repair, and maintenance shall be borne by the Customer. Approval must be obtained from the District prior to removing, relocating or replacing a backflow prevention assembly.

10.3.4 ADMINISTRATION

The cross-connection control program shall be administered by the Manager. The District shall conduct necessary surveys of Customer premises to evaluate the degree of potential health hazards. Once a backflow prevention assembly is installed and every year thereafter, it must be tested by a certified backflow prevention device tester. All necessary repairs shall be made to achieve a successful test. Upon completion of a test showing the assembly is working correctly, the tester will complete a “Backflow Prevention Assembly Test Report” and return it to the District office by the required date. Failure to return the Backflow Prevention Assembly Test Report by the required date will result in a \$15.00 termination notice fee applied to the Customer’s account and a service disconnection notice issued, which shall be delivered to the Customer in person or by telephone at least 48 hours before termination of service.

Unless the Backflow Prevention Assembly Test Report is received by the District by the date shown on the service disconnection notice, service may be discontinued by the District and shall not be reconnected until such time as a certified backflow prevention assembly tester can be on site to perform the required test. If service is terminated by the District due to non-compliance with the testing requirements, the Customer will be charged a \$30.00 reconnection fee and service will only be re-established during the District’s regular business hours and at such time as a certified backflow prevention assembly tester can be on site to perform the required test.

10.3.5 WATER SERVICE TERMINATION

When the District encounters water uses that represent a clear and immediate hazard to the District’s water supply that cannot be immediately abated, the procedure for terminating water service shall be instituted. Conditions or water uses that create a basis for water service termination shall include, but are not limited to, the following:

1. Refusal to install or to test, a backflow prevention assembly, or to repair or replace a faulty backflow prevention assembly.
2. Direct or indirect connection between the Water System and a sewer line.
3. Unprotected direct or indirect connection between the Water System and a system or equipment containing contaminants.

4. Unprotected direct or indirect connection between the Water System and an auxiliary water system.

For condition 1 noted above, the District will terminate service to a Customer's premises after proper notification has been sent. If no corrective action is taken within the time specified in the notice, water service shall be terminated.

For conditions 2, 3, or 4, the District shall take the following steps:

1. Make reasonable effort to advise the Customer of the District's intent to terminate water service;
2. Terminate water service and lock service valve. The water service shall remain inactive until correction of violations has been approved by District, and all applicable fees and charges have been paid.

11 WATER LINES AND PRESSURE CONDITIONS

The District is responsible for what is called "the street side" of the water meter, including all water mains in the street and continuing through the Water System. The property owner is responsible for maintenance of water lines on the "Customer side" of the water meter. This includes the water line from the meter to the house, all interior plumbing and outside irrigation systems.

The District assumes no responsibility for loss or damage due to lack or excess of water or pressure, and merely agrees to furnish such quantities and pressures as are available in its general distribution system. The service is subject to shutdowns and variations required by the operation of the Water System, and the District does not guarantee any specific quantities pressures or flows with respect to any water service connection.

The Board does not accept any responsibility for the maintenance of pressure and it reserves the right to discontinue service while making emergency repairs and shutdowns required in the operation of the water system, without notice.

12 INSPECTION

The Manager or his authorized representative shall have the right to enter upon the Customer's premises during any reasonable hours for the purpose of inspecting the Customer's water system and to insure compliance with these Regulations.

13 WASTE OF WATER

Customers who use water in a careless or negligent manner, or who waste water, or who allow water to escape into the streets within the boundaries of the District or adjoining

property either willfully, carelessly, or on account of defective or inadequate privately-owned water lines, mains or other facilities, or on account of inadequate preparation of the land or improvements thereon for the use of water, may be refused further service until the conditions are remedied.

14 CUSTOMER'S RESPONSIBILITY

Each and every Customer receiving water service from the District shall be responsible for payment of all water passing through the service or meter connecting his or her premises with the Water System. Each and every customer shall further be responsible to see that each and all of these Rules and Regulations are observed in connection with the installation, maintenance and use of the service to his or her premises.

15 COMPLAINT/APPEALS PROCEDURE

All rulings of the Manager shall be final unless appealed in writing to the Board within five (5) days after this ruling is made. When appealed, the Board's ruling shall be final and conclusive.

All complaints to the Board must be made in writing and filed with the Secretary, to be considered at the next meeting of the Board of Directors that complies with the Brown Act time limitations. The Manager shall have the power and discretion to adjust complaints and grant rebates to complainants from the charges specified. If the matter is not satisfactorily adjusted with the Customer by the Manager, the Customer must present the matter to the Board of Directors at the next meeting of the Board as indicated above, and the determination of the Board of Directors shall be final and conclusive.

A Message to Our Valued Customers

Notice of Rate Increase Effective January 1, 2014

The Walnut Valley Water District is committed to providing a reliable, high quality, and affordable water supply. In keeping with this commitment, the District strives to set fair water rates, encourage the efficient use of water, ensure continued financial stability, and maintain water system reliability.

Imported Water Cost

Unlike many water agencies throughout the state which have available local water supplies, *our District is 100% dependent upon imported water to meet our customers' potable water needs.* These imported supplies, purchased from the Metropolitan Water District of Southern California (MWD), are transported over extraordinary distances: 444 miles from northern California and 242 miles from the Colorado River. The District's most significant cost is the purchase of this imported water, which comprises 60% of the District's operating budget. From 2005 through 2014, MWD's imported water rates will have more than doubled and are very likely to continue increasing. Needless to say, the MWD increases have a substantial impact on the costs of providing water to the homes and businesses in our service area.

Keeping Rates as Low as Possible

To meet these on-going imported water cost increases, in February 2010, the District's Board of Directors approved a 5-year rate plan to primarily cover the projected MWD rate increases. In keeping with our commitment to maintain an affordable water rate for our customers, the District has been successful in achieving significant budgetary cost savings to mitigate impacts of the MWD increases on our customers. As a result of these cost saving measures, the actual rate increases have been below those projected in the 5-year rate plan.

Planning for the Future

In addition to our cost saving efforts, the District has also been dedicated to the pursuit of obtaining local water supplies, thereby reducing our reliance on costly imported water. Securing these additional sources will offer the District greater flexibility and independence in providing a reliable water supply. These endeavors require extensive planning and financial investment in the short-term, however, will ultimately result in substantial cost savings and greater water supply reliability for generations to come.

What does this mean for our customers? Effective January 1, 2014, although the District's water rates will increase, the increase will be less than the amount projected in the approved 5-year rate plan. This increase will cover both the costs of the MWD rate increase and allow the District to continue to develop projects to secure greater local water supply reliability (see the reverse side for further details on exact amounts of the increase).

On behalf of the Board of Directors, please be assured that the District will always remain fully committed to its mission of "providing a reliable, high quality water supply in a fiscally efficient and environmentally responsible manner while remaining committed to providing superior service to our customers."

www.wvwd.com

New Rates

These increases will go into effect January 1, 2014 and will be reflected on your February 2014 water bill

Base (or Meter) Charge: This charge varies with the size of your meter; revenues are used to cover expenses associated with billing, collection, service calls, meter reading, and maintenance. Costs are allocated based on meter size and capacity.

Commodity Charge: This charge covers the cost of purchased water and District delivery costs. The term "tiered" refers to a 'block-type' rate structure where the unit price of water changes with each of several preset consumption blocks for each billing period. As your usage increases, the unit price or rate for the block increases.

One unit = approximately 748 gallons of water

Pump Zone Charge: This charge is 'revenue neutral' to the District and funds collected cover the additional costs of infrastructure and power to pump water to higher elevations.

Your zone is listed on your water bill.

Private Fire Protection—Base (or Meter) Charge: This charge varies with the size of the fire service connection, or private hydrant. Revenues are used to cover the expenses associated with reading of the bypass meters, service calls, and related District maintenance for private hydrants.

Base (or meter) charge	Current Rates (per month)	New Rates (per month)
5/8-inch or 3/4-inch	\$ 16.33	\$17.08
1-inch	\$ 20.75	\$21.60
1 1/2-inch	\$ 44.64	\$46.18
2-inch	\$ 68.51	\$70.73
3-inch	\$ 125.12	\$128.92
4-inch	\$ 205.80	\$211.86
6-inch	\$ 402.72	\$414.54
8-inch	\$ 639.61	\$658.34

Commodity (or water charge)		
Single-Family Residential	Current Rates	New Rates
Tier-I (1-12 Units)	\$ 2.16 per unit	\$2.46 per unit
Tier-II (13-39 Units)	\$ 2.70 per unit	\$3.08 per unit

SPECIAL CONDITION

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Pursuant to Decision 13-05-011, a surcharge of \$0.156 per Ccf will be applied to all metered customer's bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
3. As authorized by the California Public Utilities Commission, an amount of \$0.190 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1512-W, which is March 29, 2013. This surcharge will recover the under-collection in the WRAM/MCBA Balancing Accounts through December 31, 2012.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.015 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1526-W, which is August 28, 2013. This surcharge will recover the under-collection recorded in the City of Torrance Balancing Account.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.264 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1542-W, which is October 18, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
6. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (D)
7. Beginning July 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.04092/kWh, an increase in purchased water of \$0.15457/Ccf, an increase in Pump Tax of \$0.05510/Ccf and a decrease in Leased Water of (\$0.01692)/Ccf, relative to the Purchased Power, Purchased Water, Pump Tax and Lease Water cost adopted by Decision No. 13-05-011, and an associated revenue increase of 2.64%, are being tracked in a reserve account. (Continued)

The commodity charge is measured in increments of cubic feet. One cubic foot is 7.48 gallons of water. Each unit of water is billed as 100 cubic feet or 748 gallons. One hundred cubic feet is commonly referred to as CCF.

Service Size	Units	Rate (per CCF)
(a) 5/8" - 1" meter	0-12 ccf	\$ 1.007
	Over 12 ccf	\$ 1.953
(b) 1 1/2" - 2" meter	0-100 ccf	\$ 1.007
	Over 100 ccf	\$ 1.953
(c) 3" - 4" meter	0-600 ccf	\$ 1.007
	Over 600 ccf	\$ 1.953
(d) 6" - 12" meter	0-10,000 ccf	\$ 1.007
	Over 10,000 ccf	\$ 1.953
Golf Course		\$ 1.413

Emergency Commodity Rate Schedule

From time to time the water utility may be required to encourage its customers to conserve water. Conservation activities can significantly reduce the water utility's revenue, and in order to meet the water utility's revenue requirements an emergency commodity rate schedule shall be used. If the water utility declares a Phase III water shortage in compliance with Rule 21, the following Emergency Commodity Rate Schedule shall be effective and shall continue in effect until the Phase III water shortage has ended:

Service Size	Units	Rate (per CCF)
(a) 5/8" - 1" meter	0-12 ccf	\$ 1.007
	13-36 ccf	\$ 2.129
	> 36 ccf	\$ 3.031
(b) 1 1/2" - 2" meter	0-100 ccf	\$ 1.007
	101-200 ccf	\$ 2.129
	> 200 ccf	\$ 3.031
(c) 3" - 4" meter	0-600 ccf	\$ 1.007
	601-1200 ccf	\$ 2.129
	> 1200 ccf	\$ 3.031
(d) 6" - 12" meter	0-10,000 ccf	\$ 1.007
	10,001-20,000 ccf	\$ 2.129
	> 20,000 ccf	\$ 3.031
Golf Course		\$ 1.571

Monthly Charges

The basic monthly meter service charge for water supplied to domestic, commercial, industrial, irrigation, agricultural, and municipal customers is as follows:

Service Size	Charge
5/8" Meter	\$17.03
3/4" Meter	\$17.03
1" Meter	\$24.26
1 1/2" Meter	\$42.18
2" Meter	\$63.76
3" Meter	\$132.18
4" Meter	\$222.08
6" Meter	\$455.95
8" Meter	\$653.78
10" Meter	\$1,049.53
12" Meter	\$1,553.10

Schedule No. LA-1
Los Angeles County District Tariff Area
GENERAL METERED SERVICE

APPLICABILITY

Applicable to all metered water service.

SPECIAL CONDITIONS:

11. Per Advice Letter 996, the under-collected balance in the Los Angeles County District General Expense Balancing Account will be recovered through a quantity based surcharge, as shown in the below table, over 36 months effective May 9, 2013. The total amount will be recovered from all classes of customers.

Service Area	General Expense Balancing Account Surcharge per ccf	General Expense Balance Account Surcharge per 100 gallon
Baldwin Hills	\$0.2025	\$0.0271
Duarte	\$0.2175	\$0.0291
San Marino	\$0.2561	\$0.0342

(N)

(N)

12. Per Advice Letter 1001, General Office Audit Costs and intervenor compensation paid to Consumer Federation of California and TURN will be recovered through a meter surcharge for one billing cycle effective May 15, 2013. The total amount of \$202,975 will be recovered from all classes of customers.

Meter Size	Meter Surcharge
5/8 x 3/4	\$0.78
3/4	\$1.17
1	\$1.95
1 1/2	\$3.91
2	\$6.25
3	\$11.73
4	\$19.54
6	\$39.08
8	\$62.53
10	\$89.89
12	\$128.98

13. Per Advice Letter 1014, a surcharge is applied to each bill to offset increases in purchased water costs effective July 3, 2013. This offset results in a needed revenue increase of \$482,294 or 1.67%. The surcharge listed below is added to the quantity rate beginning July 3, 2013.

Service Area	Purchase Water Surcharge per ccf	Purchase Water Surcharge per 100 gallon

Schedule No. LA-3M (Continued)
Los Angeles County District Tariff Area
MEASURED IRRIGATION SERVICE

SPECIAL CONDITIONS (continued):

10. To better manage peak demands, there will be time and day of use restrictions on all measured irrigation services. Customers will be split into two groups who will irrigate on alternate days and only during cooler evening and morning hours. Customers with even numbered addresses will be allowed to irrigate only on even numbered days of the month and customers with odd numbered addresses will be allowed to irrigate only on odd numbered days of the month. (N)

- a. Limits on water hours: Water or irrigating of lawn, landscape or other vegetated area with water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day. (T)

- b. Fines and Flow Restrictors: (N)

- 1) During 2012 California American Water will only issue warnings to customers who violate of the day and time of use restrictions.
- 2) Beginning in 2013, California American Water may impose penalties on customers who violate the day and time of use restrictions if peak use in 2012 continued to necessitate supplementation of the system with potable water.
- 3) Penalties for violation of the day and time of use restrictions will become effective upon California American Water filing a Tier 1 Advice Letter (N)
- 4) If the Utility determines that a customer is in violation, the customer will be subject to the following fine structure.

First Offense: Written warning, including explanation of penalty for subsequent offense.
Second Offense: Written warning, including explanation of penalty for subsequent offense and a \$100 fine.
Third Offense: Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

- 5) Flow Restrictor Removal Charge: The charge for the removal of a flow restrictor shall be:

<u>Connection Sizes</u>	<u>Removal Charges</u>
5/8" to 1"	\$150.00
1 1/2" to 2"	\$200.00

PRIVATE FIRE PROTECTION SERVICE

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

Baldwin Hills Service Area consisting of Baldwin Hills, Windsor Hills, View Park, Ladera Heights, and vicinity, Duarte Service Area consisting of Bradbury, Duarte, portions of Irwindale, Monrovia, and vicinity, and San Marino Service Area consisting of San Marino, Rosemead, portions of San Gabriel, Temple City and vicinity, Los Angeles County.

RATE

	<u>Per Month</u>	
For each 4-inch connection or smaller.....	\$43.66	(l)
For each 6-inch connection.....	\$65.49	(l)
For each 8-inch connection.....	\$87.32	(l)
For each 10-inch connection.....	\$109.15	(l)
For each 12-inch connection.....	\$130.98	(l)

SPECIAL CONDITIONS:

1. The fire protection service and connection shall be installed by the Utility or under the Utility's direction. Cost of the entire fire protection installation shall be paid for by the applicant. Such payment shall not be subject to refund.
2. The installation housing, the detector type check valve and meter and appurtenances, thereto, shall be in a location mutually agreeable to the applicant and the Utility. Normally such installation shall be located on the premises of applicant, adjacent to the property line. The expense of maintaining all facilities which are the sole property of the applicant (including the vault, meter detector type check valves, backflow device and appurtenances) shall be paid for by the applicant.
3. All facilities paid for by the applicant, excluding the connection at the main and any service pipe located in a public right-of-way, shall be the sole property of the applicant. The utility and its duly authorized agents shall have the right to ingress to and egress from the premises for all purposes relating to said facilities.

Schedule No. LA-4 (Continued)
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

4. The minimum diameter will be 1 inch, and the maximum diameter will be the diameter of the main to which the service is connected.
 - a. The minimum diameter of connections for private fire hydrants will be six inches.
5. If distribution main of adequate size to serve a private fire protection system in addition to all other normal services does not exist in the street or alley adjacent to the premises to be served, then a main from the nearest existing main of adequate capacity shall be installed by the Utility, or under the Utility's direction, and the cost paid by the applicant. Such payment shall not be subject to refund.
6. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention device and a standard detector type meter approved by the Insurance Services Office for protection against theft, leakage or waste of water.
7. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities.
8. Subject to the approval of the Utility, any change in the location or construction of fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change.
9. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore at the regular established rate for general metered service, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.
10. All bills are subject to the reimbursement fee set forth on Schedule No. UF.

Water Rates (as of 7/1/2013) – Crescenta Valley Water District

Service Charge:

The monthly service charge is a "fixed" charge and does not provide for any minimum water consumption allowance. This service charge is based upon the size of your water meter as follows:

Meter Size:	Bi-Monthly Charge Within District:	Bi-Monthly Charge Outside District:
5/8-inch	\$34.20	\$34.60
3/4-inch	\$34.20	\$34.60
1-inch	\$42.00	\$42.40
1-1/2-inch	\$61.34	\$61.74
2-inch	\$77.58	\$77.98
3-inch	\$84.58	\$84.98
4-inch	\$217.32	\$217.72

Quantity Rate:

Quantity Rates are applicable to all water consumption in addition to the monthly service charge above. Usage charges may be billed at a tiered rate if the connection is for a single family home. Local Cost is associated with non-imported water. FMWD Cost is for imported water pass through charges.

The rate charged by the District to all residential and commercial customers for each Billing Unit (1000 gallons) of water is currently:

Single Family	Water Use Range:	Local Cost:	FMWD Cost:	Total Unit Cost:
Tier 1	0 - 10 units	\$2.22/unit	\$1.90/unit	\$4.12/unit
Tier 2	11-33 units	\$3.43/unit	\$1.90/unit	\$5.33/unit
Tier 3	34-50 units	\$5.70/unit	\$1.90/unit	\$7.60/unit
Tier 4	50 + Units	\$8.29/unit	\$1.90/unit	\$10.19/unit

Multi Family / Commerical	Water Use Range:	Local Cost:	FMWD Cost:	Total Unit Cost:
	> 0 Units	\$3.43/unit	\$1.90/unit	\$5.33/unit

Private Fire Protection Charge:

The monthly service charge for fire protection services by line size is as follows:

Fire Service Size:	Monthly Charge Within District:	Monthly Charge Outside District:
1-inch	\$7.16	\$7.36
2-inch	\$10.54	\$10.74
3-inch	\$15.73	\$15.93
4-inch	\$21.33	\$21.53
6-inch	\$36.66	\$36.86
8-inch	\$55.78	\$55.98
10-inch	\$77.89	\$78.09

Water Service Installation Charge:

The water service installation charge includes the cost of labor, materials, and equipment to install the following components to individual applicants for water service:

Component:	Fee:
3/4-inch water meter	By Estimate Only
1-inch water meter	By Estimate Only
1-inch service lateral	By Estimate Only
Meter & Service > 1-inch	By Estimate Only

* A 1-inch service lateral is required for all 3/4-inch and 1-inch water meters.

Glendale Utility Tax Administration Fee:

\$0.20/billing cycle (Effective 1/1/12)

Irrigation Usage Charge:

	Water Use Range:	Local Cost:	FMWD Cost:	Total Unit Cost:
Tier 1	0 - 70 units	\$3.43/unit	\$1.90/unit	\$5.33/unit
Tier 2	71 + units	\$8.29/unit	\$1.90/unit	\$10.19/unit

Minimum Monthly Service Charge for Temporary Services \$35.00

One Time Service Charge for Temporary Services \$25.00

NON-RESIDENTIAL METERED SERVICE

Page 2 of 2

SPECIAL CONDITION

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Pursuant to Decision 13-05-011, a surcharge of \$0.156 per Ccf will be applied to all metered customer's bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
3. As authorized by the California Public Utilities Commission, an amount of \$0.190 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1512-W, which is March 29, 2013. This surcharge will recover the under-collection in the WRAM/MCBA Balancing Accounts through December 31, 2012.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.015 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1526-W, which is August 28, 2013. This surcharge will recover the under-collection recorded in the City of Torrance Balancing Account.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.264 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1542-W, which is October 18, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
6. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (D)
7. Beginning July 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.04092/kWh, an increase in purchased water of \$0.15457/Ccf, an increase in Pump Tax of \$0.05510/Ccf and a decrease in Leased Water of (\$0.01692)/Ccf, relative to the Purchased Power, Purchased Water, Pump Tax and Lease Water cost adopted by Decision No. 13-05-011, and an associated revenue increase of 2.64%, are being tracked in a reserve account. 1 DEFINITION OF TERMS

Whenever the following terms or pronouns are used herein, the intent and meaning shall be interpreted as follows:

- a) **District:** La Puente Valley County Water District
- b) **County:** County of Los Angeles
- c) **Board:** Board of Directors of La Puente Valley County Water District
- d) **Customer:** Any person, firm, corporation, association or agency who uses or is entitled to use water from the District System.
- e) **Customer Class:** Water services with similar characteristics such as demand patterns and type of use. (E.g. single family residential, commercial, industrial, irrigation & multi-family)
- f) **Manager:** General Manager of La Puente Valley County Water District or the person who has been authorized by the Manager or by the Board of Directors of the District to act for the General Manager.
- g) **His, Him:** Any person, corporation, association or agency
- h) **Water System:** Those pipelines, booster stations, wells, reservoirs and appurtenances, constructed by or for the District or acquired by the District, for the purpose of providing water service.

2 GENERAL POLICIES

2.1 APPLICATION FOR SERVICE

The application is a request for water service from the District. Each prospective Customer must apply for the desired service and provide sufficient information to establish credit for the payment of the account with the District and pay the non-refundable application fee set forth in section 2.3, below.

The District requires proper identification of all applicants for new water service. The applicant has the option of completing the application form in person at the District office or submitting the required information by mail prior to the establishment of water service.

The information required to identify the applicant must be provided on the service application form specified by the District. The District requests this information to ensure the proper billing and collection of the account. Information the District requires includes, but is not limited to the following:

- a) Applicant's name and address: (if a corporation, the state of incorporation and the names and addresses of its President and Secretary; if a partnership, the names

and addresses of the general partners; if a sole proprietorship, the name and address of the owner; if a limited liability company, the names and addresses of the managing members).

- b) The applicant's relationship to the property - i.e., whether the applicant is the owner, co-owner, or agent of the owner of the property to be served, or is a tenant or has some other relationship to the property.
- c) The address for billing purposes.
- d) The address for which service is requested, and the type of service and use, (residential, commercial, industrial, fire protection).
- e) The date the applicant wishes service to be commenced.
- f) If a new service, or modification of an existing service, the size of water service connection desired, or other change requested.
- g) Such other information as the Manager deems necessary to install or transfer service, including appropriate information to establish the applicant's credit with the District.

The signing and filing of the application shall constitute an agreement by the applicant to accept responsibility for all charges related in any way to water service to the property, and to be bound by the ordinances and the rules and regulations of the District. Any application submitted by a Customer who is not the owner of the property to be served must be counter-signed by an owner of the property, who will then be considered as the applicant and become the primary account holder.

2.2 WATER FURNISHED IN THE NAME OF THE TENANT OF RENTAL PROPERTY

All new accounts for service to rental property are required to be in the name of the property owner as account holder. If the property owner desires to have an account for a rental property established with the tenant as the primary account holder, the property owner must execute an "Application and Agreement to Have Water Service Furnished in the Name of the Tenant of Rental Property" (Tenant-Owner Agreement) acknowledging that the property owner will be a co-account holder and responsible for any unpaid charges for water service. Applicants for water service who are not the owner of the property will not be provided service until the property owner has completed, signed and submitted this form to the District.

2.3 APPLICATION FEE

Every applicant for a water service account at a retail connection shall complete and submit an application for water service on a form provided by the District and shall

pay a nonrefundable application fee of \$20.00.

Every applicant for a construction water service or temporary service from a fire hydrant shall complete and submit an application for such service and pay a non-refundable application fee of \$15.00.

2.4 SERVICE AGREEMENT

Every applicant for new water service requiring an extension of the District's Water System or establishment of a new water service to property which has not been previously received water service from the District, shall be required to enter into an Agreement for the installation or upgrading of Water System and Service of Water ("Service Agreement") in a form provided by the District. The Service Agreement shall provide for the applicant to pay all engineering and administrative costs incurred by the District for the preparation of plans and specifications and for construction, supervision, and testing of the water facilities.

The Service Agreement shall provide that the applicant must deposit, in advance, an amount of money based upon the total estimated cost of engineering services, construction and administrative costs prior to commencement of the design and award of the construction contract, respectively. The Service Agreement shall provide that the applicant shall dedicate to the District, such fee parcels, easements, and other interests in land as may be necessary for the water facilities to serve the property. The Service Agreement shall also provide for the payment of the Meter Installation Fee and the charge for Water System Connection as set forth herein.

2.5 OWNERSHIP OF WATER SYSTEM FACILITIES

All pipes, fittings, meters, meter boxes and other materials, equipment and Water System facilities installed by or for the District to establish a service connection shall at all times be the property of and remain vested in the District. The applicant shall have no ownership interest or title thereto. No service connection will be installed at any place on the Water System for or on behalf of any applicant who has any outstanding or delinquent debt owed to the District for any previous water service until all such unpaid indebtedness has first been fully paid and discharged.

2.6 TEMPORARY / CONSTRUCTION SERVICE

Any applicant desiring a temporary service from a fire hydrant shall specify in the application the location of the hydrant or hydrants from which service is desired. The District will, when such an application has been accepted, provide the meter to the applicant. The applicant shall pay the refundable deposit then in effect for each

temporary service requested. The amount of the required deposit and/or water rate may be adjusted by Board action from time to time.

Upon discontinuance of service, provided the meter has been recovered by the District in acceptable condition, the deposit will be applied to any unpaid charges due on the account and the balance, if any, will be refunded to the applicant, without interest. If the meter is damaged or missing, the deposit shall be applied first to the cost of repairing or replacing the meter, and second to any unpaid charges. The customer will be responsible for any shortfall between the amount due and the deposit. Any balance of the deposit remaining after deduction of costs and unpaid charges will be refunded to the customer without interest.

Water delivered through a temporary water service shall be charged at the construction rate which is equivalent to the tier 2 potable rate for Zone 1 residential customers. A non-refundable \$15.00 application fee will be charged in addition to the deposit.

2.7 ESTABLISHMENT OF CREDIT

At the time the service application form is submitted, the District will evaluate the applicant's credit-worthiness and the Manager shall determine if the District will require a deposit from the applicant to secure the payment of future charges on the account. An applicant's credit will be considered impaired in the following circumstances and a refundable deposit will be charged in addition to the non-refundable application fee:

- (a) The applicant and/or co-applicant has no prior credit history or, in the reasonable opinion of the Manager, a poor credit history in any of the three major credit reporting agency databases (TRW, TRANS UNION and EQUIFAX);
- (b) The District has received information from the CUE (California Utilities Exchange) database that the applicant has an unpaid final bill with another utility company or the applicant has an unpaid final bill with the District at a prior service address;
- (c) The applicant refuses to furnish information necessary to identify the applicant and verify his credit-worthiness;
- (d) The District is not able to positively identify the applicant from the information submitted on the service application.

In the event that credit-worthiness is established at the time the service application is submitted, no deposit will be required to establish service. However, the District may require a deposit as a condition of continuing water service to an existing Customer if the Customer becomes delinquent in payment of District charges as set forth below. The Customer will be notified if and when a deposit is required to maintain service with the District. Any of the following circumstances constitutes a delinquency requiring a deposit in order to continue service at the Customer's property:

(1) Any Customer who has incurred any of the following charges for delinquent payment:

- (a) One 48-hour service termination notice (door hanger);
- (b) Two (2) delinquent late charges in any one calendar year;
- (c) Three (3) delinquent late charges since the inception of the customer's account.

(2) The Customer's service has been shut off at any time for the non-payment.

(3) The Customer has issued the District a check, which has been returned unpaid.

Any Customer, who has opened multiple accounts in his name, may be required to make a deposit for each account or service address, if the payment history in any of the accounts reflects a delinquency as defined above.

2.8 DEPOSITS

Where an applicant or Customer is required to make a refundable deposit to secure the payment of future charges or for the re-establishment of service, the amount shall be determined as follows:

2.8.1 NEW SERVICE APPLICANTS:

The *standard deposit amount* will be calculated by the District and adjusted annually, based on the average total bill for Customers who have the same size meter and who are also in the same customer class multiplied by Two Hundred Fifty Per Cent (250%). Every new service applicant shall pay a non-refundable application fee of \$20.00. Any new service applicant unable to provide proper photo identification will be charged the *standard deposit amount* which will be held by the District until such time as proper identification is presented to the District, or until such account is closed. In each instance, this deposit will be refunded to the Customer or applicant, without interest, after deduction of any unpaid charges on the account. Acceptable forms of photo identification include, but not limited to, an identification card issued by the Department of Motor Vehicles, a Driver's License, Passport, or Lawful Permanent Residency Card ("Green Card").

2.8.2 EXISTING CUSTOMERS:

The deposit amount will be calculated based on the average total bill of that particular Customer for at least one (1) billing period multiplied by Two Hundred Per Cent (200%). If this information is not available, the deposit calculation for new service applicants will be used. Any Customer whose credit status has changed with the District will be properly notified and charged for the deposit amount.

In the event that a Customer who has already paid a deposit as a new service applicant becomes delinquent as defined in Paragraph 3.6., above, the Manager will re-evaluate the amount of the deposit necessary to secure the account. If the deposit amount determined based upon the customer's average total billing for water charges is greater, the amount of the deposit will be adjusted accordingly. As a condition of continued water service, the customer will be required to increase the amount of the deposit, as well as paying all delinquent charges and other fees.

In the event a Customer's account is terminated for non-payment, the District may apply any deposit held for that Customer to any outstanding charges and penalties for that Customer at the time service is terminated. If the Customer closes an account, the District shall apply the Customer's deposit to the final billing and refund any balance remaining, without interest, to the Customer.

District will monitor the payment history of each Customer for which a security deposit is being held. If the Customer's account is free of any late payment penalties, termination notices or returned checks for a period of twenty-four (24) consecutive months, the District shall refund the deposit to the Customer, without interest, by applying the deposit to the Customer's account.

2.9 CHANGE IN SERVICE

- (a) Any Customer desiring a larger service connection shall apply to the District for the meter size desired in the manner heretofore described for a new service. The Customer shall, however, be credited for the amount of the salvage value of any materials removed. In computing the salvage value, no depreciation shall be charged with respect to the existing meter.
- (b) Service will be discontinued upon request of the applicant. Payment of all charges in full to the date of discontinuance will be due upon termination of service.

2.10 SEPARATE SERVICES

No service connection will be made for the purpose of supplying two or more parcels through a common service even though the premises may be in the same ownership.

When a parcel is divided into two or more lots, separate service connections must be established for each lot to which service is provided. Each house, building, condominium or town house, and each commercial or industrial business or operation conducted in a separate unit in a single building shall be supplied through a separate water service connection.

Existing service to more than one residential unit on a single parcel will be classified as "Single Family Residential Service" and billed at the District's established rates for such service. Violation of the rule prohibiting service to more than one parcel through a single service connection shall be cause for discontinuance of service through the service connection upon 30 days written notice to the Customer to correct the violation. An existing apartment building (under single ownership with a single water service connection), if converted to a condominium or other form of separate ownership of parts of the structure, may continue to receive water service through a single water service connection, so long as the responsibility for payment and charges is assumed by a single entity representing the owners. Exceptions to the foregoing rules in section 3.9 may be made by the Board of Directors, upon recommendation of the Manager, and in accordance with an applicant's written request to the Board. If the Board grants an exception, it may do so subject to special conditions.

3 WATER RATES AND SERVICE CHARGES

3.1 CHARGE FOR WATER (COMMODITY RATES)

There is a commodity rate charged for each unit of water (one hundred cubic feet “hcf”) supplied by the District. The commodity rate includes a charge for pumping costs which vary according to the elevation zones within the District.

3.1.1 SINGLE FAMILY RESIDENTIAL INCLINING BLOCK RATES

The commodity rates for the single family residential class of service shall vary according to the amount of water delivered in a billing period with the initial quantity of water charged at a lower rate, (inclining block rate) to encourage conservation and discourage waste of water.

	Effective 1st Billing Period following September 15, 2011		Effective 1st Billing Period following September 15, 2012		Effective 1st Billing Period following September 15, 2013		Effective 1st Billing Period following September 15, 2014		Effective 1st Billing Period following September 15, 2015	
	0-25 HCF	>25 HCF	0-25 HCF	>25 HCF	0-25 HCF	>25 HCF	0-25 HCF	>25 HCF	0-25 HCF	>25 HCF
Zone 1	\$1.32	\$1.65	\$1.39	\$1.77	\$1.46	\$1.93	\$1.53	\$2.18	\$1.61	\$2.32
Zone 2	\$1.52	\$1.85	\$1.59	\$1.97	\$1.66	\$2.13	\$1.73	\$2.38	\$1.81	\$2.52
Zone 3	\$1.69	\$2.02	\$1.76	\$2.14	\$1.83	\$2.30	\$1.90	\$2.55	\$1.98	\$2.69
Zone 4	\$1.57	\$1.90	\$1.64	\$2.02	\$1.71	\$2.18	\$1.78	\$2.43	\$1.86	\$2.57
Zone 5	\$1.83	\$2.16	\$1.90	\$2.28	\$1.97	\$2.44	\$2.04	\$2.55	\$2.12	\$2.83

3.1.2 COMMERCIAL AND MULTI-FAMILY RATES

There shall be a uniform charge per hcf, plus a pumping charge covering the energy cost to pump water to each elevation zone above Zone 1.

Pressure Zone Usage in HCF (HCF = 100 cubic feet = 748 gallons)

	Beginning 1st billing period following September 15, 2011	Beginning 1st billing period following September 15, 2012	Beginning 1st billing period following September 15, 2013	Beginning 1st billing period following September 15, 2014	Beginning 1st billing period following September 15, 2015
Zone 1	\$1.52	\$1.63	\$1.74	\$1.85	\$1.95

Zone 2	\$1.72	\$1.83	\$1.94	\$2.05	\$2.15
Zone 3	\$1.65	\$1.80	\$1.95	\$2.22	\$2.32
Zone 4	\$1.77	\$1.88	\$1.99	\$2.10	\$2.20

3.2 BI-MONTHLY METER SERVICE CHARGE

In addition to the commodity rate, there is a bi-monthly service charge for each retail water meter, which is based upon the size of the meter. This is a fixed amount which yields revenues to provide for the general overhead and other fixed costs of the District's operations.

Meter Size	Beginning 1st billing period following September 15, 2011	Beginning 1st billing period following September 15, 2012	Beginning 1st billing period following September 15, 2013	Beginning 1st billing period following September 15, 2014	Beginning 1st billing period following September 15, 2015
5/8"	\$28.58	\$29.19	\$29.80	\$30.41	\$31.02
3/4"	\$29.81	\$31.65	\$33.49	\$35.33	\$37.19
1"	\$45.13	\$46.23	\$47.33	\$48.43	\$49.54
1.5"	\$97.56	\$98.29	\$99.02	\$99.75	\$100.50
2"	\$115.18	\$118.22	\$121.26	\$124.30	\$127.36
3"	\$236.86	\$239.13	\$241.40	\$243.67	\$245.94
4"	\$332.81	\$339.19	\$345.57	\$351.95	\$358.35
6"	\$630.32	\$643.39	\$656.46	\$669.53	\$682.60
8"	\$830.02	\$874.22	\$918.42	\$962.62	\$1,006.84

3.3 FIRE SERVICE CONNECTION – SERVICE CHARGE

There is a bi-monthly service charge, based upon the size of the connection, for each connection supplying water to a fire hydrant system or other fire suppression facility. The fire service charge is fixed to yield sufficient revenues to defray the cost of serving and maintaining such lines, meters, hydrants and facilities to provide the flow capacity for the connection.

Size of Connection (inch)	Effective first billing period following 9/15/2011	Effective first billing period following 9/15/2012	Effective first billing period following 9/15/2013	Effective first billing period following 9/15/2014	Effective first billing period following 9/15/2015
.75	13.26	14.25	15.24	16.23	17.23
1	14.78	15.87	16.97	18.07	19.19
1.5	19.42	20.59	21.76	22.93	24.10
2	24.17	25.63	27.08	28.53	29.99
3	36.83	39.04	41.26	43.47	45.69
4	51.07	54.14	57.21	60.28	63.35
6	94.48	98.97	103.45	107.94	112.42
8	167.86	168.72	169.59	170.45	171.31
10	214.40	220.80	227.21	233.61	240.01
12	278.03	293.06	308.09	323.12	338.15

3.3.1 IMPROPER USE OF FIRE CONNECTION SERVICE

The following special charge shall be applicable to Customers having connections for fire protection purposes:

If a detector meter attached to and as part of the facilities for fire protection purposes registers the use of water through such facilities, the Customer shall be advised of this fact and shall forthwith make a full report of the facts and circumstances of such use to the Manager. The Manager then shall determine whether such use was an improper use. If such use is determined not to be for proper purposes for which the fire protection connections were installed, the Customer shall pay an additional sum of \$50.00 for the water so used regardless of the quantity (this is in addition to the charge for water applicable for commercial Customers within the zone of service).

Any determination by the Manager that the use of water through such facilities was improper shall be made in writing, and such determination shall be mailed to the Customer along with the statement for the additional charge. The determination of the Manager shall be final, unless the Customer appeals the determination to the Board in accordance with Section 16. If the Board sustains the determination of the Manager, the charge shall be paid within 5 days thereafter.

3.4 TEMPORARY / CONSTRUCTION SERVICE – RATES AND CHARGES

- (a) The commodity rate for water delivered through a temporary water service shall be charged at the construction rate which is equivalent to the tier two potable rate for Zone 1 residential customers.
- (b) In addition to the commodity rate for construction service, there is a \$4.00 per day service charge for temporary meters attached to fire hydrants to supply water for construction purposes and other temporary uses to defray the additional overhead costs of the District for monitoring water use, its effect on the Water System and for reading and maintaining such meter.

3.5 FIRE FLOW AVAILABILITY TESTING RATES

Fire Flow Tests are performed by District personnel to measure the volume of water available at a specified fire hydrant. There is a charge of \$115.00 to perform a fire flow availability test.

3.6 WATER SYSTEM CONNECTION FEE

When potable water service is requested for property or premises not previously provided water service by the District, a one-time water system connection fee will be charged. In the event use of the property changes, increasing the demand for water, a connection fee will be assessed at the current rate, less the amount previously paid. The connection fee is assessed for property (or premises) newly served by the District to bear its proportionate share of the cost of the Water System facilities in relation to the benefit that the property receives. The fee is computed based on the hydraulic capacity of the service being requested.

The calculation of this fee is based on the net book value of the District's capital assets and the proportionality of the size of service being requested, taking the current net book value of the District's funded capital assets and dividing it by the total number of existing equivalent meter sizes in the District's entire system. The fee calculation shall be performed upon processing of each new service installation request. The current calculation formula is as follows for meter sizes 5/8" to 8":

(Net book value / total equivalent meters) x meter equivalent size of service requested.

Example: 5/8" meter connection calculation (\$11,954,401/4,449) X 1 = \$2,686.99

Meter Size	Hydraulic Equivalent Meter	Water System Connection Fee
5/8"	1	\$ 2,686.99
3/4"	1.5	\$ 4,030.48
1"	2.5	\$ 6,717.47
1.5"	5	\$ 13,434.93

2"	8	\$	21,495.89
3"	16	\$	42,991.78
4"	25	\$	67,174.65
6"	50	\$	134,349.30
8"	80	\$	214,958.89

3.7 METER AND METER BOX INSTALLATION CHARGES

Applicants for new water service connections, or for Customer-requested sizing changes to existing meters, will be required to pay (in addition to a Water System connection fee, if applicable) a Meter & Installation Charge for the cost of materials and labor to construct the service connection lateral from the water main. The Meter & Installation Charge is adjusted from time to time to reflect changes in the cost of meters, other materials and labor. The charge will also vary depending upon the size of the meter installed.

Upon request, the District will provide a schedule showing the current Meter & Installation Charge in effect at the time of the application. The Meter & Installation Charge shall include the cost of the meter, meter tail or flange, meter gasket, cement meter box, meter box cover, hours of labor and hours of equipment use. Some meters require additional materials which will be included in the charge. Turbo meters are required for services having a constant high flow, such as irrigation meters. District staff will determine what type of meter is required based upon information provided by the applicant.

3.8 INSTALLATION COSTS FOR FIRE SERVICE CONNECTION OR SPECIAL CONNECTIONS

If fire protection service or other special connections are requested, the applicant for installation of such facilities shall submit his request to the Manager together with plans and specifications for the proposed installation. The cost of the facilities and their installation shall be estimated by the Manager, and the sum so estimated shall be deposited by the applicant with the District before installation work begins. Any excess over the actual cost of installation shall be refunded to applicant upon the completion of installation, without interest. The amount of any deficiency shall be billed to the applicant, and shall be due and paid within 10 days after the date of the bill. The new connection will not be activated until all installation costs are paid and the required backflow prevention devices have been installed and testing verified.

4 PAYMENT FOR SERVICE

4.1 PAYMENT OPTIONS

Charges for water service, penalties and late charges may be paid by cash, check, money order or direct debit authorized from the Customer's bank account. In addition,

the District shall accept payment by credit card or debit card for water charges, service charges, penalties and late charges and other rates, fees and charges for water or other services provided by the District.

4.2 METER READING PERIODS

Subject to change of days on account of weather conditions, holidays, weekends and other matters beyond control of the District, water meters shall be read bi-monthly. Special meter readings may be taken by the District at any time upon termination of an account, change of ownership, change in tenancy, or for any other reason, either upon application by the Customer or upon order of the Manager.

The Manager shall have the right to change billing dates, re-route meter readers and to pro-rate the charges for bills covering more or less than the normal billing period. If a Customer has questions regarding a bill or a dispute with respect to the amount charged, the Customer must submit a complaint or request for investigation to the District office in writing within ten (10) days of the receipt of the disputed bill. If the designated District Appeals Officer determines an investigation is warranted, service will not be terminated until an investigation has been completed and the Customer has been notified of the District's decision by mail. If the validity of the bill is upheld by the District Appeals Officer, the Customer will then be given an opportunity to pay the bill to avoid service termination.

4.3 LATE PAYMENT/DELINQUENCIES

All accounts for water service are due and payable immediately upon billing, and shall be delinquent if not paid by the due date provided on the water bill, which shall be no sooner than 27 days and no greater 31 days after the date of billing. A "late payment" fee of \$6.00 will be applied to each account if payment is received in the District office, by mail or in person, after the due date. A "PAST DUE" bill may, but need not be sent to any Customer whose bill is not paid prior to the due date. If the account is not paid by the due date shown on the past due bill, a \$7.00 termination notice fee will be charged to the account and a service disconnection notice will be issued. The service disconnection notice shall be delivered to the Customer in person or by telephone at least 48 hours before termination of service.

Unless a delinquent bill is paid by the date and time provided on the service disconnection notice, service may be discontinued by the District any time thereafter and shall not be reconnected until all delinquent amounts, late payment fees, termination notice fees, reconnection fees, returned check fees and deposits have been paid in full. If an account is not paid in full by the date and time specified on the service disconnection notice, the Customer will be charged a \$25.00 disconnection processing fee to re-establish/reconnect water service. If reconnection is requested on a day that the District is closed, including weekends, holidays and alternate Fridays, or after 5:00 p.m. on the District's regular business days, an additional reconnection fee of \$25.00 will be charged to the account. Notwithstanding any provision of these Rules and Regulations to the contrary, the District will not terminate water service in

any of the following situations:

- (a) during the pendency of an investigation by the District of a customer dispute or complaint;
- (b) if the Customer has been granted an extension of the period for payment of a bill;
- (c) for an indebtedness owed by the Customer to any other public agency, or where the account that is delinquent was incurred with a public agency other than the District;
- (d) if the delinquent account relates to another property owned, managed or operated by the Customer; or
- (e) if a public health or building officer certifies that termination of service would result in a significant threat to the health or safety of individuals or the public generally.

Unpaid closing bills may be given to a Credit Reporting Agency.

4.4 LIEN FOR UNPAID CHARGES

The District is legally empowered to create appropriate liens on real and/or personal property to secure the ultimate payment of delinquent and unpaid charges for water or other services. Upon failure of a Customer to pay for water and/or others services as set forth in these Rules and Regulations a written notice shall be provided to the owner of the land and to the tenant of the land who was the original applicant for service, which shall specify the nature and extent of the unpaid charges. If the charges remain unpaid for sixty(60) days, the District mat file a Certificate in the Office of the County Recorder specifying the amount of the charges and the name and address of the person liable, thereby creating a lien. In cases where a lien is necessary to recover unpaid charges a \$30.00 charge to process the lien shall be added to the balance of unpaid charges.

4.5 DISHONORED PAYMENTS

A dishonored payment fee of \$20.00 will be charged for checks or any other payments returned to the District by the bank unpaid. Payment to maintain service after a dishonored payment must be made by cash or money order, and a deposit may be required.

4.6 TAMPERING

All unauthorized opening and closing of valves will result in a tampering penalty as specified below. All pipes, mains, valves and other facilities on the street side or District water main side, up to and including each meter through which water is delivered to a Customer, are the property of the District and only authorized District personnel are permitted to operate service connection valves or meters. Unauthorized operation or tampering with District valves, meters or other facilities will result in a tampering penalty of \$70.00 imposed on the Customer, in addition to the cost to repair any damage and other charges for estimated water use.

4.7 TERMINATION OF SERVICE TO TENANTS-OCCUPANTS

4.7.1 NOTICE TO RESIDENTIAL TENANTS-OCCUPANTS IN AN INDIVIDUALLY METERED RESIDENCE

The District will provide written notice to residential occupants when the customer's account is delinquent and that service will be terminated for nonpayment by the owner. If the residential tenant-occupant meets the requirements as set forth in Section 2 of the District's Rules and Regulations, the District may make service available in the tenant's name. In these cases the requirements for the Application for Water Service to be counter-signed by the owner and/or the Tenant-Owner Agreement requirement may be waived by the Manager.

4.7.2 NOTICE TO TENANTS-OCCUPANTS IN A MULTI-UNIT RESIDENTIAL STRUCTURE WITH SERVICE THROUGH A MASTER METER

The District will provide written notice, posted on the door of each residential unit or in each accessible common area and at each point of access to the structure or structures, that service will be terminated for non-payment by the owner on a date specified in the notice, unless the account is paid in full. The notice will also specify:

- (1) what the Residential Occupants are required to do in order to prevent the termination or to reestablish service;
- (2) the estimated monthly cost of service; and
- (3) the title, address and telephone number of a representative of the District who can assist the Residential Occupants in continuing service.

4.8 NONPAYMENT BY TENANT

Whenever existing water service is furnished in the name of a tenant and service is terminated by the District for non-payment of water charges, or the tenant vacates the premises leaving an unpaid balance on the service account, the property owner will be obligated to cure the default. Water service to the premises will only be re-established with a subsequent tenant as primary account holder, after the property owner has made payment in full of all delinquent charges. If such charges are not paid in full, future service must be established in the name of the property owner alone.

5 EXTENSION OF MAINS

It is the policy of the District that water mains and appurtenant facilities to be constructed in streets and rights of way will be paid for by the persons desiring such installations, whether they are subdividers, owners, or residents. Payment for such mains and facilities may be by lump sum payment or such other means acceptable to the Board. The Board may, in its discretion, pay from District funds a portion of the cost of major transmission lines where such lines are larger than would be required to serve the property benefiting from the installation.

6 METER TESTING

6.1 AT THE CUSTOMER'S REQUEST

Any Customer, who believes that a meter is not registering correctly, may request that the meter be examined and tested by the District to determine if it is registering correctly. Such request shall be made on a form to be furnished by the District for such purpose. Upon filing of any such request, a deposit of \$60.00 will be collected or charged to the Customer's account, to be applied toward the final total cost of the meter test. Any balance remaining will be charged to the Customer or refunded, without interest.

If upon such examination and test, the meter is found to register over 2.5% more water than actually passes through it, at any rate of flow, the meter will be repaired or another meter shall be substituted without charge to the Customer and the meter test deposit will be credited to the Customer's account. The Customer's water charges for the preceding two billing periods shall be adjusted by the percentage error determined in the meter test and the Customer will receive a credit for overpayment on the Customer's next water bill or will receive a refund of the overpayment without interest, at the discretion of the Manager. If any such meter, upon such examination and test registers not to exceed 2.5% more water than actually passes through it, the meter shall be deemed accurate. In this case the deposit will be retained by the District and applied toward the cost of the meter test.

6.2 AT THE INSTIGATION OF THE DISTRICT

The District may remove and replace any meter for testing or repairs at its discretion. If a meter ceases to register or does not register within 2.5% due to tampering, the Customer shall be charged for service during the time such meter does not so register, an amount, which shall be determined by the Manager, on a case by case basis, subject to the right of the Customer to appeal to the Board

7 TEMPORARY INTERRUPTION OF SERVICE

7.1 FOR REPAIRS OR IMPROVEMENTS

The District reserves the right at any time, with or without notice, to shut off the water in all or any of its mains or services for the purpose of making installations, improvements, repairs, removals or extensions, or for the purpose of performing any other work or act reasonably necessary or advisable in connection with the operation of said system, or to meet any emergency on any part of the system, or in any part of the District.

8 TAMPERING WITH DISTRICT PROPERTY

No unauthorized person shall tap into any water main or lateral, operate any valve or fire hydrant or otherwise tamper or interfere with any part of the Water System. Any person tampering with, or making unauthorized use of the Water System that results in a financial cost to the District will be charged for such costs in addition to fines and penalties provided herein. Where tampering or unauthorized use affects a particular property, the property-

owner will be presumed to have been the perpetrator of the offense. In addition, at the discretion of the Manager or his authorized representative, criminal charges may be filed.

9 FIRE HYDRANTS

9.1 USE

Fire hydrants are provided only through contractual agreement and are primarily for the purpose of extinguishing fires and shall be used only by Fire Department and authorized personnel of the District or such persons as may be granted a temporary permit by the Manager to take water therefrom.

9.2 UNAUTHORIZED USE

Fire hydrants connected to the water mains of the District are provided for the sole purpose of furnishing water to fight fires, except in special instances, and shall be opened and used only by persons authorized by the District. The Los Angeles County Fire Department is so authorized. Any authorization for use of water from a fire hydrant by any person other than an authorized employee of the County Fire Department shall be in writing. Any unauthorized use of water from a fire hydrant shall subject the user to a charge in an amount to equivalent to the temporary water service rate for an amount of water estimated by the Manager, payable immediately upon rendition of a statement therefore.

10 PROTECTION OF PUBLIC HEALTH

10.1 TREATMENT OF WATER

The District reserves the right to properly and efficiently treat any and all water served through its system with such chemicals, at such times and in such amounts as good public health protection may indicate, in order to guard its Customers and inhabitants against disease and contamination. The District shall not, nor shall any of the officers, agents, servants or employees of the District, be liable for, on account, or by reason of any such treatment; nor shall they or any of them be liable for the death of, or injury or damage to plants, animals, fish, frogs, or other aquatic life, which may result from any such treatment. All service will be rendered and must be accepted accordingly.

10.2 CUSTOMER'S EQUIPMENT

No connection shall be made or maintained which draws water directly from the District's main transmission lines into any stationary boiler, hydraulic elevator, power pump or similar apparatus. No Customer shall operate any quick closing valves or other devices which cause momentary pressure changes in the Water System. No connection shall be permitted between any Customer's lines and any other source of water which might cause or allow contaminated water to enter the District's system.

10.3 BACKFLOW PREVENTION – CROSS-CONNECTION CONTROL

The purpose of this cross-connection control program is to protect the public water supply system from contamination due to potential and actual cross connections as required by State regulations.

10.3.1 RESPONSIBILITY

The Manager shall be responsible for implementing and enforcing the cross-connection control program. An appropriate backflow prevention assembly shall be installed by and at the expense of the Customer at each connection where required to prevent backflow from the Customer's premises to the domestic water system. It shall be the Customer's responsibility to comply with the District's requirements and the Customer shall be responsible for any costs incurred by the District in connection with the administration or enforcement of the cross-connection control program, and for any other fees determined by the District's Manager to owe in connection therewith. The District may prorate any such fees on a Customer's monthly or bi-monthly, as applicable, water bill.

10.3.2 CROSS-CONNECTION PROTECTION REQUIREMENTS

The type of protection that shall be provided to prevent backflow into the Water System shall be commensurate with the degree of hazard, actual or potential, that exists on the Customer's premises. Unprotected cross-connections with the District's water supply are prohibited. The type of backflow prevention assembly that may be required (listed in decreasing level of protection) includes: Air-gap separation, Reduced Pressure Principle Backflow Prevention Assembly and a Double Check Valve Assembly. The Customer may choose a higher level of protection than required by the District. The minimum types of backflow protection required to protect the approved water supply at the Customer's water connection to premises with varying degree of hazard are listed in Table 1, Section 7604, Title 17, CCR. Situations which are not covered in Table 1 shall be evaluated on a case-by-case basis and the appropriated back-flow protection shall be determined by the District or health agency.

10.3.3 BACKFLOW PREVENTION ASSEMBLIES

Only backflow prevention assemblies which have been approved by the District shall be acceptable for installation by a Customer. A list of approved backflow prevention assemblies will be provided upon request to any affected Customer. Backflow prevention assemblies shall be installed in a manner prescribed in Section 7603, Title 17, CCR. Location of the assemblies shall be as close as practical to the Customer's connection.

The District shall have the final authority in determining the required location of a backflow prevention assembly. Testing of backflow assemblies shall be conducted only by qualified testers and testing will be the responsibility of the Customer. Backflow prevention assemblies must be tested at least annually and immediately after installation, relocation, or

repair. More frequent testing may be required if deemed necessary by the District. No assembly shall be placed back in service unless it is functioning as required. These assemblies shall be serviced, overhauled, or replaced whenever they are found to be defective and all costs of testing, repair, and maintenance shall be borne by the Customer. Approval must be obtained from the District prior to removing, relocating or replacing a backflow prevention assembly.

10.3.4 ADMINISTRATION

The cross-connection control program shall be administered by the Manager. The District shall conduct necessary surveys of Customer premises to evaluate the degree of potential health hazards. Once a backflow prevention assembly is installed and every year thereafter, it must be tested by a certified backflow prevention device tester. All necessary repairs shall be made to achieve a successful test. Upon completion of a test showing the assembly is working correctly, the tester will complete a “Backflow Prevention Assembly Test Report” and return it to the District office by the required date. Failure to return the Backflow Prevention Assembly Test Report by the required date will result in a \$15.00 termination notice fee applied to the Customer’s account and a service disconnection notice issued, which shall be delivered to the Customer in person or by telephone at least 48 hours before termination of service.

Unless the Backflow Prevention Assembly Test Report is received by the District by the date shown on the service disconnection notice, service may be discontinued by the District and shall not be reconnected until such time as a certified backflow prevention assembly tester can be on site to perform the required test. If service is terminated by the District due to non-compliance with the testing requirements, the Customer will be charged a \$30.00 reconnection fee and service will only be re-established during the District’s regular business hours and at such time as a certified backflow prevention assembly tester can be on site to perform the required test.

10.3.5 WATER SERVICE TERMINATION

When the District encounters water uses that represent a clear and immediate hazard to the District’s water supply that cannot be immediately abated, the procedure for terminating water service shall be instituted. Conditions or water uses that create a basis for water service termination shall include, but are not limited to, the following:

1. Refusal to install or to test, a backflow prevention assembly, or to repair or replace a faulty backflow prevention assembly.
2. Direct or indirect connection between the Water System and a sewer line.
3. Unprotected direct or indirect connection between the Water System and a system or equipment containing contaminants.

4. Unprotected direct or indirect connection between the Water System and an auxiliary water system.

For condition 1 noted above, the District will terminate service to a Customer's premises after proper notification has been sent. If no corrective action is taken within the time specified in the notice, water service shall be terminated.

For conditions 2, 3, or 4, the District shall take the following steps:

1. Make reasonable effort to advise the Customer of the District's intent to terminate water service;
2. Terminate water service and lock service valve. The water service shall remain inactive until correction of violations has been approved by District, and all applicable fees and charges have been paid.

11 WATER LINES AND PRESSURE CONDITIONS

The District is responsible for what is called "the street side" of the water meter, including all water mains in the street and continuing through the Water System. The property owner is responsible for maintenance of water lines on the "Customer side" of the water meter. This includes the water line from the meter to the house, all interior plumbing and outside irrigation systems.

The District assumes no responsibility for loss or damage due to lack or excess of water or pressure, and merely agrees to furnish such quantities and pressures as are available in its general distribution system. The service is subject to shutdowns and variations required by the operation of the Water System, and the District does not guarantee any specific quantities pressures or flows with respect to any water service connection.

The Board does not accept any responsibility for the maintenance of pressure and it reserves the right to discontinue service while making emergency repairs and shutdowns required in the operation of the water system, without notice.

12 INSPECTION

The Manager or his authorized representative shall have the right to enter upon the Customer's premises during any reasonable hours for the purpose of inspecting the Customer's water system and to insure compliance with these Regulations.

13 WASTE OF WATER

Customers who use water in a careless or negligent manner, or who waste water, or who allow water to escape into the streets within the boundaries of the District or adjoining

property either willfully, carelessly, or on account of defective or inadequate privately-owned water lines, mains or other facilities, or on account of inadequate preparation of the land or improvements thereon for the use of water, may be refused further service until the conditions are remedied.

14 CUSTOMER'S RESPONSIBILITY

Each and every Customer receiving water service from the District shall be responsible for payment of all water passing through the service or meter connecting his or her premises with the Water System. Each and every customer shall further be responsible to see that each and all of these Rules and Regulations are observed in connection with the installation, maintenance and use of the service to his or her premises.

15 COMPLAINT/APPEALS PROCEDURE

All rulings of the Manager shall be final unless appealed in writing to the Board within five (5) days after this ruling is made. When appealed, the Board's ruling shall be final and conclusive.

All complaints to the Board must be made in writing and filed with the Secretary, to be considered at the next meeting of the Board of Directors that complies with the Brown Act time limitations. The Manager shall have the power and discretion to adjust complaints and grant rebates to complainants from the charges specified. If the matter is not satisfactorily adjusted with the Customer by the Manager, the Customer must present the matter to the Board of Directors at the next meeting of the Board as indicated above, and the determination of the Board of Directors shall be final and conclusive.

TITLE

RESOLUTION

Schedule No. LA-1 (Continued)
Los Angeles County District Tariff Area
GENERAL METERED SERVICE

SPECIAL CONDITIONS (continued):

(D)

6. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes will be allowed to have their monthly service charge modified in accordance with the monthly costs for Residential Fire Sprinkler System service charges as shown in the attached RFSS tariff. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

GENERAL METERED SERVICE

SPECIAL CONDITIONS (continued):

8. Per Advice Letter 905, a volumetric surcharge will be applied to each customer's bill to collect \$1,146,054 to fund the undercollected balance in the Water Litigation Memorandum Account for the Los Angeles County District. This surcharge is applicable to all customers in the Los Angeles County District and will remain in effect 12 months from the effective date of Advice Letter 905.

Service Area	Purchase Water Surcharge per ccf
Baldwin Hills	\$0.1156
Duarte	\$0.1156
San Marino	\$0.1156

9. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes will be allowed to have their monthly service charge modified in accordance with the monthly costs for Residential Fire Sprinkler System service charges as shown in the attached RFSS tariff. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

10. Per Advice Letter 960, the balance of \$2,081,865 in the Temporary Interest Rate Balancing Account (TIRBA) will be recovered through a meter surcharge for a 12-month period effective July 17, 2012.

MEASURED IRRIGATION SERVICE

SPECIAL CONDITIONS (continued):

10. To better manage peak demands, there will be time and day of use restrictions on all measured irrigation services. Customers will be split into two groups who will irrigate on alternate days and only during cooler evening and morning hours. Customers with even numbered addresses will be allowed to irrigate only on even numbered days of the month and customers with odd numbered addresses will be allowed to irrigate only on odd numbered days of the month. (N)

- a. Limits on water hours: Water or irrigating of lawn, landscape or other vegetated area with water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day. (T)

- b. Fines and Flow Restrictors: (N)

- 1) During 2012 California American Water will only issue warnings to customers who violate of the day and time of use restrictions.
- 2) Beginning in 2013, California American Water may impose penalties on customers who violate the day and time of use restrictions if peak use in 2012 continued to necessitate supplementation of the system with potable water.
- 3) Penalties for violation of the day and time of use restrictions will become effective upon California American Water filing a Tier 1 Advice Letter (N)
- 4) If the Utility determines that a customer is in violation, the customer will be subject to the following fine structure.

First Offense: Written warning, including explanation of penalty for subsequent offense.
Second Offense: Written warning, including explanation of penalty for subsequent offense and a \$100 fine.
Third Offense: Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

- 5) Flow Restrictor Removal Charge: The charge for the removal of a flow restrictor shall be:

<u>Connection Sizes</u>	<u>Removal Charges</u>

Schedule No. LA-4
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

Baldwin Hills Service Area consisting of Baldwin Hills, Windsor Hills, View Park, Ladera Heights, and vicinity, Duarte Service Area consisting of Bradbury, Duarte, portions of Irwindale, Monrovia, and vicinity, and San Marino Service Area consisting of San Marino, Rosemead, portions of San Gabriel, Temple City and vicinity, Los Angeles County.

RATE

	<u>Per Month</u>	
For each 4-inch connection or smaller.....	\$43.66	(l)
For each 6-inch connection.....	\$65.49	(l)
For each 8-inch connection.....	\$87.32	(l)
For each 10-inch connection.....	\$109.15	(l)
For each 12-inch connection.....	\$130.98	(l)

SPECIAL CONDITIONS:

1. The fire protection service and connection shall be installed by the Utility or under the Utility's direction. Cost of the entire fire protection installation shall be paid for by the applicant. Such payment shall not be subject to refund.
2. The installation housing, the detector type check valve and meter and appurtenances, thereto, shall be in a location mutually agreeable to the applicant and the Utility. Normally such installation shall be located on the premises of applicant, adjacent to the property line. The expense of maintaining all facilities which are the sole property of the applicant (including the vault, meter detector type check valves, backflow device and appurtenances) shall be paid for by the applicant.
3. All facilities paid for by the applicant, excluding the connection at the main and any service pipe located in a public right-of-way, shall be the sole property of the applicant. The utility and its duly authorized agents shall have the right to ingress to and egress from the premises for all purposes relating to said facilities.

Schedule No. LA-4 (Continued)
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

4. The minimum diameter will be 1 inch, and the maximum diameter will be the diameter of the main to which the service is connected.
 - a. The minimum diameter of connections for private fire hydrants will be six inches.
5. If distribution main of adequate size to serve a private fire protection system in addition to all other normal services does not exist in the street or alley adjacent to the premises to be served, then a main from the nearest existing main of adequate capacity shall be installed by the Utility, or under the Utility's direction, and the cost paid by the applicant. Such payment shall not be subject to refund.
6. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention device and a standard detector type meter approved by the Insurance Services Office for protection against theft, leakage or waste of water.
7. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities.
8. Subject to the approval of the Utility, any change in the location or construction of fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change.
9. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore at the regular established rate for general metered service, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.
10. All bills are subject to the reimbursement fee set forth on Schedule No. UF.

Resolution No. _____

Schedule No. ME-1-NR
Metropolitan District
NON-RESIDENTIAL METERED SERVICE

Page 2 of 2

SPECIAL CONDITION

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Pursuant to Decision 13-05-011, a surcharge of \$0.156 per Ccf will be applied to all metered customer's bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
3. As authorized by the California Public Utilities Commission, an amount of \$0.190 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1512-W, which is March 29, 2013. This surcharge will recover the under-collection in the WRAM/MCBA Balancing Accounts through December 31, 2012.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.015 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1526-W, which is August 28, 2013. This surcharge will recover the under-collection recorded in the City of Torrance Balancing Account.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.264 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1542-W, which is October 18, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
6. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (D)
7. Beginning July 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.04092/kWh, an increase in purchased water of \$0.15457/Ccf, an increase in Pump Tax of \$0.05510/Ccf and a decrease in Leased Water of (\$0.01692)/Ccf, relative to the Purchased Power, Purchased Water, Pump Tax and Lease Water cost adopted by Decision No. 13-05-011, and an associated revenue increase of 2.64%, are being tracked in a reserve account. CERTIFIED COPY

RESOLUTION NO. 5859(13)

**A Resolution of the Council of the City of Lompoc,
County of Santa Barbara, State of California,
Establishing Increased Water Rates and Charges**

WHEREAS, in accordance with California Government Code Section 54344, the City Council has the authority to establish fees and charges for the City's Water System;

WHEREAS, in 2012, the City entered into an agreement with Willdan Financial (Willdan), who worked with City staff and met with the Lompoc Utility Commission to prepare rate studies for the Utilities, which the Commission then reviewed and recommended a five-year plan for the water rates;

WHEREAS, after review of relevant financial data, the Management Services Director and his staff have determined existing Water System rates and charges presently generate insufficient revenue for prudent operation of the System for the treatment and distribution of water;

WHEREAS, staff has proposed certain changes to the City's current Water System rates and charges and has given notice of the proposed new rates as required by law;

WHEREAS, Willdan's study supports the rate increases set forth in this Resolution;

WHEREAS, a notice of the public hearing of the proposed changes to the Water System rates and charges was mailed to each rate payer not less than 45 days prior to the public hearing, in compliance with Section 6 of Article XIII-D of the Constitution of the State of California;

WHEREAS, a duly noticed public hearing on the proposed rate increases was held before the City Council on August 6, 2013;

WHEREAS, on August 6, 2013, the City Clerk advised the Council 1538 written protests of the proposal were received prior to the hearing;

WHEREAS, on August 6, 2013, the City Council received 26 written rate increase protests that were submitted at the time of the public hearing;

WHEREAS, the number of written protests timely received is insufficient to constitute a majority protest of the proposed rates and charges; and

WHEREAS, after hearing public testimony and staff's report and recommendations, the City Council has determined certain rates and charges for the City's Water System should be revised and amended.

**NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF LOMPOC, CALIFORNIA,
DOES HEREBY RESOLVE AS FOLLOWS:**

SECTION 1. FINDINGS. After hearing testimony, considering the evidence offered, and duly deliberating the matters presented, the Council of the City of Lompoc finds and determines:

- A. Pursuant to the authority of the Revenue Bond Law of 1941 (Government Code Sections 54300-54700) and of Lompoc Municipal Code Chapters 13.04 and 13.08, the City of Lompoc operates and maintains systems and facilities for the treatment and distribution of water;
- B. The City Council is empowered to prescribe, revise, and collect charges for the services and facilities furnished by the City's Water System;
- C. The proceedings related to the proposed increases in water rates and charges have been duly noticed in compliance with the Constitution of the State of California, Government Code Section 54354.5, and other applicable laws;
- D. The rates and charges set forth below are not discriminatory;
- E. The rates and charges set forth below are not excessive, inasmuch as revenues from said rates and charges will not exceed the costs of providing water services;
- F. The revenue generated by the rates and charges set forth below will be sufficient to pay the current expenses of maintenance and operation of the Water System, to honor other City obligations dependent upon Water System revenues, and to allow the City to comply with Government Code Section 54515 and other applicable laws and regulations; and
- G. The rates and charges set forth below, and the manner of their adoption, comply with the provisions of the Revenue Bond Act of 1941, and the applicable provisions of other laws and relevant authority.

SECTION 2. WATER SERVICE RATES AND CHARGES. Based upon the foregoing findings and all written and oral reports, data and testimony provided to the City Council, the City Council hereby approves the monthly rates and charges set forth below:

- A. The monthly water service charge for each metered premise is dependent on the size of the meter, as follows:

Meter Size	Effective 9/5/2013	Effective 7/1/2014	Effective 7/1/2015	Effective 7/1/2016	Effective 7/1/2017
5/8"	\$23.71	\$27.27	\$31.36	\$36.06	\$41.47
3/4"	31.00	35.65	41.00	47.15	54.22
1"	45.57	52.41	60.27	69.31	79.71
1.5"	82.01	94.31	108.45	124.72	143.43
2"	125.73	144.59	166.28	191.22	219.90
3"	227.75	261.91	301.19	346.37	398.33
4"	373.48	429.51	493.93	568.02	653.22
6"	737.83	848.50	975.78	1,122.15	1,290.46
8"	1,175.04	1,351.30	1,553.99	1,787.09	2,055.15
10"	1,685.13	1,937.89	2,228.57	2,562.87	2,947.29

- B. In addition to the monthly water service charge, each customer shall pay a water use charge based on the amount of metered water used per hundred cubic feet (HCF), or portion thereof, as follows:

	Effective 9/5/2013	Effective 7/1/2014	Effective 7/1/2015	Effective 7/1/2016	Effective 7/1/2017
Single Family Residential Uniform					
Tier I (0-10 HCF)	\$3.49	\$4.02	\$4.63	\$5.33	\$6.13
Tier II (10.1-20 HCF)	3.73	4.30	4.95	5.70	6.56
Tier III (20.1 HCF +)	4.46	5.14	5.92	6.82	7.85
Multi-Family Residential Uniform	9/5/2013 \$3.50	7/1/2014 \$4.02	7/1/2015 \$4.63	7/1/2016 \$5.32	7/1/2017 \$6.12
Commercial Uniform	9/5/2013 \$3.60	7/1/2014 \$4.14	7/1/2015 \$4.76	7/1/2016 \$5.47	7/1/2017 \$6.29
Institutional / Landscape Uniform	9/5/2013 \$3.88	7/1/2014 \$4.46	7/1/2015 \$5.13	7/1/2016 \$5.90	7/1/2017 \$6.78
Industrial Uniform	9/5/2013 \$3.50	7/1/2014 \$4.02	7/1/2015 \$4.63	7/1/2016 \$5.32	7/1/2017 \$6.12

SECTION 3. FIRE LINE CHARGES. The charges imposed by this Section are for fire line service only. Water actually used shall be charged for as provided elsewhere in this Resolution.

The minimum annual fire line charges are as follows:

Rate Per Year

Meter Size

1.5"	\$ 141.46
2.0"	161.85
3.0"	230.66
4.0"	299.48
6.0"	732.77
8.0"	1,130.38
10.0"	1,674.54
12.0"	2,507.99

SECTION 4. NEW SERVICE INSTALLATION CHARGES.

- A. A service connection charge shall be collected on each new water service connection based on the actual connection costs incurred, regardless of the size of the meter.
- B. A new service meter charge is payable and shall be collected upon application for each new water meter service connection and shall remain unchanged as follows:

Meter Size

3/4"	\$370.00
1.0"	\$447.00

- C. For services related to meter sizes larger than 1.0", the charge shall be the actual cost of material and labor.

SECTION 5. OTHER CHARGES. Fire Hydrant Meter Installation and Relocation charges shall remain the same, in accordance with Resolution No. 5488(08), effective September 19, 2008, which provides as follows:

- A. Fire Hydrant Meter Installation and Relocation charges shall be \$88.00 for each installation or relocation of a Fire Hydrant Meter.

- B. A refundable fee in the amount of \$650.00 will be collected to cover replacement costs, should the meter become damaged or lost. This fee shall be paid when the Fire Hydrant Meter is requested.
- C. The monthly Water Service and Water Usage charges for water services will apply to all Fire Hydrant Meters, in accordance with current schedule for water services based on the size of the Fire Hydrant Meter installed and water consumption.
- D. The Utility Director or designee may approve the use of water from hydrant meters to customers outside of City limits. The rates of compensation charged and collected by the City of Lompoc for furnishing this water to customers outside of City limits shall be 1.5 times the charges collected for hydrant meters, the monthly water service charge, and the water use charge.

SECTION 6. REGULATIONS.

- A. The rates of compensation charged and collected by the City of Lompoc for furnishing water to inhabitants outside the City, and the service connection charges levied and collected on each water service connection hereafter made outside the City, shall be 1.5 times the minimum rates established by this Resolution. Political subdivisions outside the City limits receiving water service from the City are not subject to the provisions of this Section and rates for those subdivisions are based on the applicable contract for services.
- B. Charges shall be made for any water furnished in accordance with the provisions of this Resolution. No water shall be furnished by the City free of charge.
- C. The owner, operator, and manager of any building, including, but not limited to, apartment houses and commercial buildings, shall be held responsible for any metered water consumption during periods for which the City has no record of occupancy of any part of any such building.
- D. All water charges are due and payable upon City's presentation of the statement therefore, and shall become delinquent 15 days thereafter.
- E. All water charges shall be collected by the City Treasurer, and the City's Finance Officer shall keep and maintain true and correct books of account of all receipts and disbursements of the Water Division of the City of Lompoc.

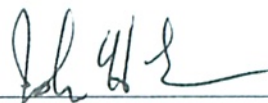

SECTION 7. EFFECTIVE DATE. This Resolution is effective upon its adoption. Except as amended herein, all rates and charges related to the City's Water System as contained in Resolution Nos. 5488(08), 5362(06), 5103(03) and 5220(04), and previously in existence, shall remain in full force and effect.

The foregoing Resolution was proposed by Council Member Holmdahl, seconded by Mayor John Linn, and duly passed and adopted by the Council of the City of Lompoc at its regular meeting on August 6, 2013, by the following electronic vote:

AYES: Council Member(s): DeWayne Holmdahl, Ashley Costa, Bob Lingl, and Mayor John Linn.

Resolution No. _____

Schedule No. ME-1-NR
Metropolitan District
NON-RESIDENTIAL METERED SERVICE

Page 2 of 2

SPECIAL CONDITION

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Pursuant to Decision 13-05-011, a surcharge of \$0.156 per Ccf will be applied to all metered customer's bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
3. As authorized by the California Public Utilities Commission, an amount of \$0.190 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1512-W, which is March 29, 2013. This surcharge will recover the under-collection in the WRAM/MCBA Balancing Accounts through December 31, 2012.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.015 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1526-W, which is August 28, 2013. This surcharge will recover the under-collection recorded in the City of Torrance Balancing Account.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.264 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1542-W, which is October 18, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
6. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (D)
7. Beginning July 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.04092/kWh, an increase in purchased water of \$0.15457/Ccf, an increase in Pump Tax of \$0.05510/Ccf and a decrease in Leased Water of (\$0.01692)/Ccf, relative to the Purchased Power, Purchased Water, Pump Tax and Lease Water cost adopted by Decision No. 13-05-011, and an associated revenue increase of 2.64%, are being tracked in a reserve account. Advice Letter No. 1572-WA

Decision No. _____

ISSUED BY

R. J. SPROWLS

President

Date Filed: July 15, 2014Effective Date: June 1, 2014

Resolution No. _____

Schedule No. ME-1-R
Metropolitan District
RESIDENTIAL METERED SERVICE

Page 2 of 2

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Residential customers are defined as all single family customers with one dwelling unit that are individually metered.
3. Pursuant to Decision 13-05-011, a surcharge of \$0.156 per Ccf will be applied to all metered customers bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
4. As authorized by the California Public Utilities Commission, an amount of \$0.223 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1512-W, which is March 29, 2013. This surcharge will recover the undercollection in the WRAM/MCBA Balancing Accounts through December 31, 2012.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.015 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1526-W, which is August 28, 2013. This surcharge will recover the under-collection recorded in the City of Torrance Balancing Account.
6. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.264 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1542-W, which is October 18, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
7. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA, which is July 1, 2014. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (T)
8. Beginning July 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.04092/kWh, an increase in purchased water of \$0.15457/Ccf, an increase in Pump Tax of \$0.05510/Ccf and a decrease in Leased Water of (\$0.01692)/Ccf, relative to the Purchased Power, Purchased Water, Pump Tax and Lease Water cost adopted by Decision No. 13-05-011, and an associated revenue increase of 2.64%, are being tracked in a reserve account. ORDINANCE NO. 170435
as amended by Ordinance No. 171639, Ordinance No. 173017,
Ordinance No. 175964, Ordinance No. 177968, and Ordinance No. 179802

AN ORDINANCE APPROVING THE RATES FIXED BY THE DEPARTMENT OF WATER AND POWER OF THE CITY OF LOS ANGELES AND TO BE CHARGED FOR WATER AND WATER SERVICE SUPPLIED BY SAID DEPARTMENT TO ITS CUSTOMERS WITHIN THE LOS ANGELES METROPOLITAN AREA, AND APPROVING THE TIME AND MANNER OF PAYMENT OF THE SAME, AS PRESCRIBED BY SAID DEPARTMENT.

The People of the City of Los Angeles do ordain as follows:

Section 1

That the rates to be charged and collected and the terms, provisions and conditions to be effective respecting such rates for water and water service supplied by the Department of Water and Power (hereinafter referred to as the "Department") of the City of Los Angeles (hereinafter referred to as the "City") to its customers for use within the Los Angeles Metropolitan Area, heretofore fixed by resolution adopted by the Board of Water and Power Commissioners on November 15, 1994, are hereby approved. Such rates and conditions so fixed are as set forth in the following sections:

Section 2

That such service supplied to customers shall be in accordance with rate schedules prescribed as follows:

A. SCHEDULE A - SINGLE-DWELLING UNIT RESIDENTIAL CUSTOMERS

1. APPLICABILITY

Applicable to Single-Dwelling Unit Residential Customers.

2. TERRITORY

City of Los Angeles.

3. COMMODITY CHARGES

b. Second Tier Usage

Usage above the first tier usage block as prescribed in Section 2.A.3.a above shall be billed as follows:

Low Season

November 1 through May 31

\$2.690 and
General Provision H,
I, K, and L adjustments

High Season

June 1 through October 31

\$ 3.523 and
General Provision H,
I, K, and L adjustments

4. BILLING

The bill shall be the sum of the charges for first tier usage, adjustments to first tier usage pursuant to General Provisions F, G, H, I, K, and L and charges for any second tier usage, less applicable subsidies as described in General Provisions O and P, but the bill shall not be less than zero.

5. SPECIAL CONDITIONS

a. Service Inside the City of Los Angeles

Charges for water service to premises of which ninety percent (90%) or more of the area is inside the City shall be the amount computed at the rates set forth above.

b. Service Outside the City of Los Angeles

Charges for water service to premises of which less than 90% of the area is inside the City shall include a surcharge equal to the differential cost of treated Tier II water delivered to the City purchased from the Metropolitan Water District and the average cost of water delivered to the City through the Los Angeles Aqueducts for the previous five years. However, at no time shall the rates be less than those charged for service inside the City..

c. Applicability of Rules and Regulations

Application of this schedule shall be subject to rules and regulations adopted by the Board of Water and Power Commissioners.

B. SCHEDULE B - MULTI-DWELLING UNIT RESIDENTIAL CUSTOMERS

1. APPLICABILITY

Applicable to Multi-Dwelling Unit Residential Customers.

2. TERRITORY

City of Los Angeles.

3. COMMODITY CHARGES

Rate Per
Hundred Cubic Feet

a. First Tier Usage Block

\$1.169 and
General Provision F, G, H,
I, K, and L adjustments

Effective July 1, 2008

\$1.247 and
General Provision F, G, H,
I, K, and L adjustments

Effective July 1, 2009

\$1.331 and
General Provision F, G, H,
I, K, and L adjustments

First tier usage block shall be 125 percent (125%) of the average consumption for the preceding December through March except that the minimum shall be not less than twenty-eight (28) hundred cubic feet per month.

b. Second Tier Usage

Usage above the first tier usage block as prescribed in Section 2.B.3.a above shall be billed as follows:

Low Season

November 1 through May 31

\$1.331 and
General Provision F, G, H,
I, K, and L adjustments

High Season

June 1 through October 31

\$ 3.523 and
General Provision H, I, K,
and L adjustments

In the event a customer has not established a first tier usage block, the customer's first tier usage shall be the customer's individual monthly consumption until the customer's first tier usage block is established pursuant to the preceding paragraph.

4. BILLING

The bill shall be the sum of the charges for first tier usage, adjustments to first tier usage pursuant to General Provisions F, G, H, I, K, and L and any charges for billing units above the first tier usage block per month, less applicable subsidies as described in General Provisions O and P, but the bill shall not be less than zero.

5. SPECIAL CONDITIONS

a. Service Inside the City of Los Angeles

Charges for water service to premises of which ninety percent (90%) or more of the area is inside the City shall be the amount computed at the rates set forth above.

b. Service Outside the City of Los Angeles

Charges for water service to premises of which less than 90% of the area is inside the City shall include a surcharge equal to the differential cost of treated Tier II water delivered to the City purchased from the Metropolitan Water District and the average cost of water delivered to the City through the Los Angeles Aqueducts for the previous five years. However, at no time shall the rates be less than those charged for service inside the City.

c. Applicability of Rules and Regulations

Application of this schedule shall be subject to rules and regulations adopted by the Board of Water and Power Commissioners.

C. **SCHEDULE C – COMMERCIAL, INDUSTRIAL, AND GOVERNMENTAL CUSTOMERS AND TEMPORARY CONSTRUCTION**

1. **APPLICABILITY**

Applicable to Commercial, Industrial, Governmental, Temporary Construction and any other water service for which no rate Schedule is specified.

2. **TERRITORY**

City of Los Angeles.

3. **COMMODITY CHARGES**

Rate Per
Hundred Cubic Feet

a. First Tier Usage Block

Effective upon publication of
this Ordinance

\$1.247 and
General Provision F, G, H,
I, K, and L adjustments

Effective July 1, 2008

\$1.331 and
General Provision F, G, H,
I, K, and L adjustments

Effective July 1, 2009

\$1.421 and
General Provision F, G, H,
I, K, and L adjustments

First tier usage block shall be 125 percent (125%) of the average consumption for the preceding December through March.

b. Second Tier Usage

Usage above the first tier usage block as prescribed in Section 2.C.3.a. above shall be billed as follows:

Low Season

November 1 through May 31

\$1.421 and
General Provision F, G, H,
I, K, and L adjustments

High Season

June 1 through October 31

\$3.523 and
General Provision H, I, K,
and L adjustments

In the event a customer has not established a first tier usage block, the customer's first tier usage shall be the customer's individual monthly consumption until the customer's first tier usage block is established pursuant to the preceding paragraph.

4. BILLING

The bill shall be the sum of the charges for first tier usage, adjustments to first tier usage pursuant to General Provisions F, G, H, I, K, and L and any charges for billing units above the first tier usage block per month.

5. SPECIAL CONDITIONS

a. Service Inside the City of Los Angeles

Charges for water service to premises of which ninety percent (90%) or more of the area is inside the City shall be the amount computed at the rates set forth above.

b. Service Outside the City of Los Angeles

Charges for water service to premises of which less than 90% of the area is inside the City shall include a surcharge equal to the differential cost of treated Tier II water delivered to the City purchased from the Metropolitan Water District and the average cost of water delivered to the City through the Los Angeles Aqueducts for the previous five years. However, at no time shall the rates be less than those charged for service inside the City.

c. Two-Inch and Larger Meters

The commodity charges during low season months specified in Section 2.C.3.a and Section 2.C.3.b above, without General Provision F, G, H, I, K, and L adjustments, as applied to bills for consumption for customers that have two-inch or larger meters shall be reduced by the following percentage amounts:

Low Season 2006	22 percent
Effective November 1, 2007	13 percent
Effective November 1, 2008	7 percent
Effective November 1, 2009	0 percent

d. Applicability of Rules and Regulations

Application of this schedule shall be subject to rules and regulations adopted by the Board of Water and Power Commissioners.

D. SCHEDULE D - RECLAIMED WATER SERVICE

1. APPLICABILITY

Applicable to all retail reclaimed water service and to wholesale reclaimed water service when specifically authorized by the Board of Water and Power Commissioners.

2. TERRITORY

City of Los Angeles.

3. COMMODITY CHARGES

Commodity Charges for Reclaimed Water Service shall be set by contract approved by the Board of Water and Power Commissioners.

The Board of Water and Power Commissioners has entered into contracts for delivery of reclaimed water wherein the commodity charge for reclaimed water was set at a rate equal to 80 percent of the commodity charge of the general applicable in-city potable water rate. (Schedule G in Ordinance No. 167554.) For purposes of the commodity charge for reclaimed water in existing contracts for the sale of reclaimed water, the commodity charge in Schedule A.3.a. shall be the general applicable in-city potable water rate.

4. ADJUSTMENTS AND SUBSIDIES

Adjustments provided in General Provisions F, G, H, I, K, and L, and subsidies as set forth in the General Provisions O and P shall not apply to this schedule.

5. BILLING

The bill shall be the sum of the Commodity Charges and the Treatment Surcharge.

6. SPECIAL CONDITIONS

a. Service Inside the City of Los Angeles

Charges for water service to premises of which ninety percent (90%) or more of the area is inside the City shall be set by separate contract approved by the Board of Water and Power Commissioners.

b. Service Outside the City of Los Angeles

Charges for water service to premises of which less than ninety percent (90%) of the area is inside the City shall be set by separate contract approved by the Board of Water and Power Commissioners.

c. Treatment Surcharge

The cost of treatment of reclaimed water prior to delivery beyond that required to discharge the wastewater to the ocean or a stream may be determined by the Department and added to the Commodity Charge as a Treatment Surcharge. However, the sum of such Surcharge and the Commodity Charge shall not exceed the Commodity Charge in effect under Schedule A.3.a, excluding adjustments pursuant to the General Provisions F, G, H, I, K, and L.

d. Obligation to Supply Reclaimed Water

The Department will provide reclaimed water service under this schedule only when and where such water is available and can be supplied at a reasonable cost. In determining reasonable cost, the Department may consider all relevant factors, including but not limited to, the present and projected costs of supplying potable domestic water to affected greenbelt areas and the present and projected costs of supplying reclaimed water. Grants or subsidies may be used to reduce total development costs.

e. Continuity of Service and Water Quality

There is no implication of continuous service nor uniform quality of reclaimed water; therefore, the customer must have a separate service connection for potable water.

f. Wholesale Reclaimed Water Service

Wholesale Service may be provided to other water agencies consistent with the City Charter, but only under this schedule, or a separate contract, when approved by the Board of Water and Power Commissioners.

g. Special Uses

The Board of Water and Power Commissioners may establish special charges by contract under particular conditions for temporary, demonstrative, recreational or research uses.

h. Applicability of Rules and Regulations

Application of this schedule shall be subject to rules and regulations adopted by the Board of Water and Power Commissioners.

E. SCHEDULE E - PRIVATE FIRE SERVICE

1. APPLICABILITY

Applicable to water service solely for private fire suppression purposes.

2. TERRITORY

City of Los Angeles.

3. MONTHLY CHARGES

a. Service Availability Charge

<u>Size of Service</u>		<u>Charge Per Service</u>		
		<u>2007</u>	Effective July 1, <u>2008</u>	<u>2009</u>
1-inch and smaller	\$ 2.87	\$ 2.98	\$ 3.10
1-1/2 inch	10.17	10.58	11.00
2-inch	14.45	15.03	15.63
3-inch	35.59	37.01	38.49
4-inch	56.72	58.99	61.35
6-inch	100.30	104.31	108.48
8-inch	196.37	204.22	212.39
10-inch	236.49	245.95	255.79
12-inch	304.06	316.22	328.87
14-inch	472.98	491.90	511.58
16-inch	565.89	588.53	612.07
20-inch	759.09	789.45	821.03

b. <u>Commodity Charge</u>	Rate Per <u>Hundred Cubic Feet</u>
Usage Effective upon publication of this Ordinance	\$1.247 and General Provision F, G, H, I, K, and L adjustments
Effective July 1, 2008	\$1.331 and General Provision F, G, H, I, K, and L adjustments
Effective July 1, 2009	\$1.421 and General Provision F, G, H, I, K, and L adjustments
c. <u>Minimum Charge</u>	
Service Availability Charge	

4. **BILLING**

The bill shall be the sum of the Service Availability Charge, the Commodity Charge, and adjustments pursuant to General Provisions F, G, H, I, K, and L.

5. **SPECIAL CONDITIONS**

a. Partial Metering

Service under this schedule shall not be fully metered, but shall be equipped with a meter in a bypass and weighted valve mechanism for diverting small flows through the bypass meter.

b. Termination and Restoration of Service

Service under this schedule shall be terminated by the Department if water supplied under this schedule is used for any purpose other than fire extinguishing and for filling or refilling the customers' fire-related facilities which have been drained during tests and repairs. Service shall thereafter be restored only after a meter has been installed, after which service shall be supplied at applicable metered rates.

c. Service Availability Charges for Fire Services

For the purpose of computing service availability charges, the size of service shall be determined by the Department.

d. Applicability of Rules and Regulations

Application of this schedule shall be subject to rules and regulations adopted by the Board of Water and Power Commissioners.

F. **SCHEDULE F - PUBLICLY-SPONSORED IRRIGATION; RECREATIONAL; AGRICULTURAL, HORTICULTURAL, AND FLORICULTURAL USES; COMMUNITY GARDENS AND YOUTH SPORTS**

1. **APPLICABILITY**

Applicable to water service provided exclusively for the following uses:

a. Group A Uses

- (1) Agricultural, horticultural, and floricultural uses on property that is dedicated for public use, operated on a nonprofit basis and open to the general public.
- (2) Landscaping on grounds contiguous to buildings that are dedicated exclusively for public use and are operated on a nonprofit basis.
- (3) Irrigation on grounds used exclusively by nonprofit educational institutions that are open to the general public.

To qualify, all Group A uses must be on areas that are not less than three (3) acres in size, exclusive of streets, sidewalks, alleys, and lands occupied by buildings.

b. Group B Uses

- (1) Irrigating parcels of land used exclusively for commercial production of agricultural, horticultural or floricultural products in conformance with recognized practices of husbandry.
- (2) Irrigating playing fields used for youth sports, including any sport recognized by the Amateur Athletic Union that requires a playing field, that are operated by nonprofit organizations solely for the purpose of providing youth sports for children in grades K through 12 who are residents of the City of Los Angeles, and participation in the sport is open to the general public.

To qualify, all Group B uses must be on areas that are not less than five (5) acres in size.

c. Group C Uses

Irrigating parcels of land used exclusively for community gardens growing agricultural products for human consumption, operated by community garden organizations that solely serve

residents of the City of Los Angeles, on publicly-owned land or land donated for public use, in accordance with rules and regulations adopted by the Board of Water and Power Commissioners.

d. Group D Uses

Uses in parks, playgrounds, golf courses and lakes that are dedicated exclusively for public recreational uses, open to the general public, and operated on a nonprofit basis.

e. Group E Uses

Irrigation in medians in public streets that have complied with best management practices for medians as approved by the Board of Water and Power Commissioners.

2. **TERRITORY**

City of Los Angeles.

3. **COMMODITY CHARGES**

	<u>Rate Per Hundred Cubic Feet</u>
a. First Tier Usage Block	
Effective upon publication of this Ordinance	\$0.989 and General Provisions K and L
Effective July 1, 2008	\$1.028 and General Provisions K and L
Effective July 1, 2009	\$1.069 and General Provisions K and L

Monthly first tier usage blocks shall be established by the Department for domestic water use, landscape and large area irrigation after an audit has been completed, considering site conditions and based upon best management practices approved by the Board of Water and Power Commissioners, and shall be subject to periodic review and revision by the Department.

c. Second Tier Usage

Rate Per
Hundred Cubic Feet

Usage above the first tier usage block as prescribed in 2.F.3.a. above shall be billed as follows:

Low Season

November 1 through May 31

\$2.49 and
General Provisions K and L

Effective July 1, 2008

\$2.590 and
General Provision K and L

Effective July 1, 2009

\$2.690 and
General Provision K and L

High Season

June 1 through October 31

\$3.08 and
General Provisions K and L

Effective July 1, 2008

\$3.18 and
General Provision K and L

Effective July 1, 2009

\$3.28 and
General Provision K and L

4. ADJUSTMENTS AND SUBSIDIES

Adjustments provided for in General Provisions F, G, H, and I, and subsidies as set forth in General Provisions O and P shall not apply to this schedule. General Provisions K and L shall apply to first and second tier rates.

5. BILLING

a. Service Inside the City of Los Angeles

Charges for water service to premises of which 90 percent or more of the area is inside the City, shall be the amount computed at the rates set forth above.

b. Service Outside the City of Los Angeles

Charges for water service to premises of which less than 90% of the area is inside the City shall include a surcharge equal to the differential cost of treated Tier II water delivered to the City purchased from the Metropolitan Water District and the average cost of water delivered to the City through the Los Angeles Aqueducts for the previous five years. However, at no time shall the rates be less than those charged for service inside the City.

6. SPECIAL CONDITIONS

a. Application

A written application shall be required for each location at which water is delivered under this schedule.

b. Separate Service for Buildings

Service under this schedule shall be provided for irrigation and landscaping purposes; however, service to buildings shall be provided separately at rates specified in Schedule C, except Group D uses provided in Section 2.F.1.d above.

c. Reclaimed Water

Customers receiving service under Schedule F shall be required to utilize reclaimed water, when available. If the reclaimed water is available to a customer but not utilized, such customers shall be billed under Schedule C.

d. Applicability of Rules and Regulations

- (1) Application of this schedule shall be subject to rules and regulations adopted by the Board of Water and Power Commissioners.
- (2) A community garden organization applying for Group C use must satisfy the Department that it is capable of paying the charges for its water service, that it is an organization primarily formed to operate a community garden solely serving residents of the City, and that it has appropriate permission to use public land or land donated for public use.
- (3) Customers applying for Group B(1) use must satisfy the Department that they are a bona fide business as defined by the Internal Revenue Code, and that the area served is used exclusively for commercial production of agricultural, floricultural or horticultural products. This schedule is not applicable to "hobby" businesses.
- (4) Customers applying for Group D uses that include domestic water service must comply with best management practices for water using appliances and fixtures approved by the Board of Water and Power Commissioners.

Section 3

GENERAL PROVISIONS

That the general provisions relating to water and water service supplied under schedules prescribed herein are as follows:

A. RATE APPLICABILITY AND RULES

The application, interpretation and administration of the provisions herein shall be subject to such rules as may from time to time be promulgated by the Board of Water and Power Commissioners pursuant to its power and duty to administer the affairs of the Department of Water and Power, and the application, interpretation and administration of said provisions and rules by said Board shall be final. Such rules as prescribed for application within the City of Los Angeles shall be considered applicable for service outside the City, except as may otherwise be provided by specific rules herein or hereafter prescribed by the Board.

B. SURPLUS WATER - PARAMOUNT RIGHT OF THE CITY OF LOS ANGELES

Only surplus water, owned or controlled by the City of Los Angeles and not required for use of customers served by the City within its limits, may be supplied or distributed outside the City. The supplying or distribution of such surplus water shall, in all cases, be subject to the paramount right of the City to discontinue it, in whole or in part, and to hold or distribute such surplus water for the use of the City and its inhabitants.

C. METERING

For the purpose of computing charges, each meter serving the customer's premises shall be considered separately, and readings of two or more meters will not be combined as equivalent to a measurement through one meter except when such combination is for the convenience of the Department.

D. MINIMUM CHARGE

For the purpose of customer accounting, meter reading and billing expense, a minimum charge of \$5.00 per month shall be applied per service to accounts which have no recorded consumption for a period of more than two months.

E. TIME AND MANNER OF PAYMENT OF BILLS

All bills for water service hereunder are due and payable upon presentation; bills shall become delinquent nineteen (19) days after date of presentation. If bills become delinquent, the Department may impose a Late Payment Charge and terminate the water service in accordance with applicable law or Department rules. Payment shall be made in person or by mail at offices of the Department, or at the option of the Department, to its authorized collectors.

F. WATER PROCUREMENT ADJUSTMENT

1. A Water Procurement Adjustment (WPA) shall be added to the first tier rate as set forth in Schedules A, B, C, and E, and shall be included in bills under each service schedule and any contract, where it is so specified. The WPA recovers purchased water, demand side management and reclaimed water expenditures through application of the Water Procurement Adjustment Factor.

2. The Water Procurement Adjustment Factor (WPAF) shall be calculated four times each year and shall take effect January 1, April 1, July 1, and October 1, respectively. The formula is:

$$\text{WPAF} = \frac{(a) + (b) + (c) + (d) + (e) + (f)}{(g)}$$

(expressed to the nearest \$0.001 per hundred cubic feet)

- (a) The estimated purchased water expense for 12 months commencing with the effective date of the WPAF. This expense shall include the total cost to the Department of all water delivered to the Department's system including but not limited to the cost of other services provided by water supply agencies, including the Metropolitan Water District, replenishment districts, and other independent water suppliers; the cost for operation and maintenance for in-City groundwater and booster pumping, and the cost for operation and maintenance of water transfer facilities, including but not limited to pumping stations, necessary to convey purchased water into the Los Angeles Aqueduct.
- (b) The estimated demand side management expenditures for 12 months commencing with the effective date of the WPAF. Demand side management expenditures are those incurred for customer technical assistance, customer financial incentives and the acquisition and installation of devices and systems, including low-flush toilets and low-flow shower heads, which are part of those programs or projects designed to reduce the use of water and which expenditures have been approved in advance by the Board of Water and Power Commissioners to be included in the demand side management component of the WPAF.

- (c) The estimated reclaimed water expenditures for 12 months commencing with the effective date of the WPAF. Reclaimed water expenditures are those expenditures incurred for construction, operation, maintenance, equipment, supplies and debt service for facilities and systems, including pipelines, pumping and treatment stations, which are part of those Water Reclamation Projects and Programs designed to reduce the use of potable water, and which expenditures have been approved in advance by the Board of Water and Power Commissioners to be included in the reclaimed water component of the WPAF.
- (d) An amount equal to five percent of (a), (b), and (c) immediately above.
- (e) Purchased Water Adjustment Account ending balance.
- (f) Demand Side Management and Reclaimed Water Adjustment Account ending balance.
- (g) The total estimated water sales for 12 months commencing with the effective date of the WPAF, excluding Schedules D and F sales.

3. Cost Adjustment Accounts

3.1. A Purchased Water Adjustment Account shall be maintained by the Department. Entries to this account at the end of each month shall include:

- (a) An amount equal to the purchased water expense and 50 percent of the Department's operation and maintenance expenditures for in-City groundwater and booster pumping for the 2003-2004 and 2004-2005 fiscal years, effective July 1, 2003, and 100 percent of the Department's operation and maintenance expenditures for in-City groundwater and booster pumping effective July 1, 2005, as recorded during the month.
- (b) Less: An amount equal to refunds received by the Department from its suppliers of purchased water.
- (c) An amount equal to five percent of (a) and (b) immediately above.
- (d) Less: An amount equal to revenue billed during the month at the first and second tier rates that is attributable to the WPAF.

3.2. A Demand Side Management and Reclaimed Water Cost Adjustment Account shall be maintained by the Department. Entries to this account at the end of each month shall include:

- (a) An amount equal to the demand side management expenditures as recorded during the month.
- (b) An amount equal to the reclaimed water expenditures as recorded during the month.
- (c) An amount equal to five percent of (a) and (b) above.
- (d) Less: An amount equal to revenue billed during the month at the first and second tier rates that is attributable to the demand side management and reclaimed water components of the WPAF.

4. Special Conditions

The demand side management and reclaimed water component of the WPAF shall be calculated four times each year as provided in Section 3.F.2 and this adjustment shall not exceed the prior period adjustment by more than \$0.06 per billing unit.

G. WATER QUALITY IMPROVEMENT ADJUSTMENT

1. A Water Quality Improvement Adjustment (WQIA) shall be added to the first tier rate as set forth in Schedules A, B, C, and E, and shall be included in bills under each service schedule and contract where it is specified. The WQIA recovers water quality related expenditures in order to equalize water quality throughout the City and for facilities approved in order to meet State and Federal water quality standards through application of the Water Quality Improvement Adjustment Factor.
2. The Water Quality Improvement Adjustment Factor (WQIAF) shall be calculated four times each year and shall take effect January 1, April 1, July 1, and October 1, respectively.

The formula is:

$$WQIAF = \frac{(a) + (b) + (c)}{(d)}$$

(expressed to the nearest \$0.001 per hundred cubic feet)

- (a) The estimated water quality related expenditures for 12 months commencing with the effective date of the WQIAF. Water quality related expenditures are those incurred for construction, operation, maintenance, equipment, supplies and debt service incurred for facilities and systems, including filtration and water treatment, cement lining, disinfection, reservoir improvements, monitoring equipment, pipelines and conduits, which are part of those programs and projects designed to equalize the quality of water throughout the City or to meet State and Federal mandated water quality standards, which expenditures have been approved in advance by the Board of Water and Power Commissioners to be included in the WQIAF.
- (b) An amount equal to five percent of (a) immediately above.
- (c) Water Quality Improvement Adjustment Account ending balance.
- (d) The total estimated water sales for 12 months commencing with the effective date of the WQIAF, excluding Schedules D and F sales.

3. A Water Quality Improvement Adjustment Account shall be maintained by the Department. Entries to this account at the end of each month shall include:
 - (a) An amount equal to water quality expenditures as recorded during the month less the qualified Water Quality operation and maintenance expenses included under the Owens Valley Regulatory Adjustment Factor as directed by the Chief Financial Officer (Section 3.K.3.b).
 - (b) An amount equal to five percent of (a) immediately above.
 - (c) Less: An amount equal to revenue billed during the month at the first and second tier rates that is attributable to the WQIAF.
4. Special Conditions

The estimated expenditures for water quality improvements under Section 3.G.2. shall be included in the WQIAF upon the effective date of the ordinance; provided, however, that this inclusion shall not exceed the limitation set forth in Section 3.J. below.

H. WATER REVENUE ADJUSTMENT

1. A Water Revenue Adjustment (WRA) recovers any shortage in revenue due to variation in water sales through application of the Water Revenue Adjustment Factor.
2. The Water Revenue Adjustment Factor (WRAF) shall be calculated annually on January 1 of each year. The formula is:

$$\text{WRAF} = \frac{(a)}{(b)}$$

(expressed to the nearest \$0.001 per hundred cubic feet)

 - (a) Water Revenue Adjustment Account ending balance.
 - (b) The total estimated water sales for 12 months commencing with the effective date of the WRAF, excluding Schedules D and F sales.
3. A Water Revenue Adjustment Account shall be maintained by the Department. Entries to this account shall include:
 - (a) Following the end of each fiscal year, the revenue target set for the prior fiscal year ended June 30, pursuant to the minimum revenue target determination set forth in Subsection 4 below minus the base rate revenue recorded in the general ledger for water consumed by the Department's retail customers for the prior fiscal year ended June 30. The resulting amount in no event shall be less than zero.

- (b) Less: At the end of each month, an amount equal to the revenue collected that is attributable to the WRAF.
4. An annual minimum revenue target of \$294 million is hereby established for each fiscal year since June 30, 2002 and shall be adjusted effective July 1 of each year thereafter to include any yearly increases in interest expense and shall not exceed \$325 million per fiscal year; provided, however, the annual revenue target limit of \$325 million shall be increased in proportion to any increases in the commodity charge under Section 2.A.3.a excluding General Provision adjustments.
5. Special conditions
- (a) The WRAF shall not exceed \$0.18 per billing unit. However, this amount may exceed the limit of \$0.18 per billing unit when the Board of Water and Power Commissioners adopts a resolution finding that an increased factor is financially required, and the City Council, by resolution, approves the change. These increases shall become operative on the date of the Council's approval.
- (b) In the event that the revenue from the water sales falls under the minimum revenue target, the Chief Financial Officer has the authority to direct that the factor be invoked if deemed necessary.
- (c) Whenever the WRAF is determined by the Board of Water and Power Commissioners, as provided in Subsection 2 above, the determination shall become final at the expiration of the next five meeting days of the City Council during which the Council has convened in regular session unless the City Council acts within that time by a two-thirds vote to bring the Board's determination before it for consideration. If the Council asserts jurisdiction over the WRAF determination, it may act to accept or reject the determination before the expiration of the next 21 calendar days from the Council vote to bring the Board's determination before it, or the action of the Board in setting the WRAF shall be final.
- (d) The WRAF as provided above shall be added to all first tier and second tier rates set forth in this ordinance, excluding Schedules D and F, notwithstanding any language in any prior ordinance to the contrary.

I. WATER SECURITY ADJUSTMENT

1. The Water Security Adjustment (WSA) recovers expenditures to secure and protect the water supply, storage, and conveyance infrastructure and related facilities through application of the Water Security Adjustment Factor.
2. The Water Security Adjustment Factor (WSAF) shall be calculated four times each year and shall take effect January 1, April 1, July 1, and October 1, respectively.

The formula is:

$$\text{WSAF} = \frac{(a) + (b) + (c)}{(d)}$$

(expressed to the nearest \$0.001 per hundred cubic feet)

- (a) The estimated expenditures for Water Security for 12 months commencing with the effective date of the WSAF. Water security related expenditures are those incurred for construction, operation, maintenance, equipment, supplies and debt service to secure and protect the water supply, storage, and conveyance infrastructure and related facilities, which expenditures have been approved in advance by the Board of Water and Power Commissioners to be included in the WSAF.
 - (b) An amount equal to five percent of (a) immediately above.
 - (c) Water Security Adjustment Account ending balance.
 - (d) The total estimated water sales for 12 months commencing with the effective date of the WSAF, excluding Schedules D and F sales.
3. A Water Security Adjustment Account shall be maintained by the Department. Entries to this account at the end of each month shall include:
 - (a) An amount equal to water security expenditures as recorded during the month.
 - (b) An amount equal to five percent of (a) immediately above.
 - (c) Less: An amount equal to revenue billed during the month at the first and second tier rates that is attributable to the WSAF.
4. Special Condition
 - (a) The WSAF as provided above shall be added to all first and second tier rates set forth in this ordinance, excluding Schedules D and F, notwithstanding any language in any prior ordinance to the contrary.
 - (b) The estimated expenditures for water security under Section 3.I.2 shall be included in the WSAF upon the effective date of the ordinance; provided, however, that this inclusion shall not exceed the limitation set forth in Section 3.J below.

J. ADJUSTMENT FACTOR LIMITATIONS

The sum of the Water Quality Improvement Adjustment Factor, the Water Security Adjustment Factor, and the lesser of \$0.088 per billing unit or the components of the Water Procurement Adjustment Factor for Demand Side Management and Reclaimed Water determined by the calculations provided in Sections 3.F, 3.G and 3.I, excluding Sections 3.F.2.d, 3.F.3.1.c, 3.F.3.2.c, 3.G.2.b, 3.G.3.b, 3.I.2.b, and 3.I.3.b, shall not jointly exceed \$0.85 per billing unit.

However, the limit of \$0.85 per billing unit may be exceeded when the Board of Water and Power Commissioners adopts a resolution finding that a factor exceeding this limit is financially required, and the City Council, by resolution, approves the change. Any such increase shall become operative on the date of the City Council's approval. Substituting only the increased level of limitation, the Department may recalculate the existing Water Quality Improvement Adjustment Factor, Water Security Adjustment Factor, and Water Procurement Adjustment Factor to take effect on the date of the City Council's approval even if that results in any of these factors being calculated and taking effect more than four times in a year.

Upon the effective date of any ordinance approving a change to the level of limitation described in this provision, substituting only the increased level of limitation, the Department may recalculate the existing Water Quality Improvement Adjustment Factor, Water Security Adjustment Factor, and Water Procurement Adjustment Factor to take effect on the effective date of said ordinance even if that results in any of these factors being calculated and taking effect more than four times in a year.

K. OWENS VALLEY REGULATORY ADJUSTMENT

1. The Owens Valley Regulatory Adjustment (OVRA) recovers expenditures to operate and maintain infrastructure and related facilities for the Owens Lake Dust Mitigation Project and the Lower Owens River Project through application of the Owens Valley Regulatory Adjustment Factor.
2. The Owens Valley Regulatory Adjustment Factor (OVRAF) shall be calculated four times each year and shall take effect January 1, April 1, July 1, and October 1, respectively.

The formula is:

$$\text{OVRAF} = \frac{(a)+(b)+(c)+(d)}{(e)}$$

(expressed to the nearest \$0.001 per hundred cubic feet)

(a) The estimated Owens Valley Regulatory related operation and maintenance (O&M) expenditures for 12 months commencing with the effective date of the OVRAF.

(b) An amount equal to five percent of (a) immediately above.

- (c) Owens Valley Regulatory Adjustment Account ending balance.
 - (d) Rate stabilization account target.
 - (e) The total estimated water sales for 12 months commencing with the effective date of the OVRAF, excluding Schedule D sales.
3. An OVRA Account shall be maintained by the Department. Entries to this account at the end of each month shall include:
- (a) An amount equal to the actual O&M for Owens Lake Dust Mitigation Project and the Lower Owens River Project as recorded during the month.
 - (b) At the end of each fiscal year, an amount of qualified Water Quality Improvement O&M expenses as described in Section 3.G.3.a., as directed by the Chief Financial Officer. Such amount shall not exceed the fiscal year to date total of Water Quality O&M expense as recorded and 95% of the Department liability to the customers as of June 30 of the prior fiscal year ended.
 - (c) An amount equal to five percent of (a) and (b) immediately above.
 - (d) Less: An amount equal to revenue billed during the month at the first and second tier rates that is attributable to the OVRAF.
 - (e) Less: At the end of each fiscal year, an amount equal to the sale of kinetic energy (falling water) to the Power System for the effective period of the fiscal year ended less \$10 million. The resulting amount shall in no event be less than zero.
4. Special Condition
- (a) Effective October 1, 2006, the OVRAF as provided above shall be added to all first and second tier rates set forth in this ordinance, excluding Schedule D, notwithstanding any language in any prior ordinance to the contrary.
 - (b) The rate stabilization account target referenced in K.2.c. shall be established by the Board of Water and Power Commissioners.
 - (c) The change in the quarterly OVRAF may not exceed \$0.015 per billing unit.

L. LOW-INCOME SUBSIDY ADJUSTMENT

- 1. The Low-Income Subsidy Adjustment (LISA) recovers the cost of credits provided to lifeline and low-income customers as provided in General Provisions O and P through application of the Low-Income Subsidy Adjustment Factor.
- 2. The Low Income Subsidy Adjustment Factor (LISAF) shall be calculated four times each year and shall take effect January 1, April 1, July 1, and October 1, respectively.

The formula is:

$$\text{LISAF} = \frac{(a) + (b) + (c) + (d)}{(e)}$$

(expressed to the nearest \$0.001 per hundred cubic feet)

- (a) The estimated cost of lifeline and low-income credit as provided in General Provisions O and P for 12 months commencing with the effective date of the LISAF. The estimated cost shall include 60.5 percent of the estimated lifeline and low-income credits for the months remaining in fiscal year 2006-2007 and 100 percent of the expenditures in fiscal year 2007-2008 and thereafter.
 - (b) The estimated administrative cost related to water Low-Income and Lifeline programs for twelve (12) months commencing with the effective date of the LISAF.
 - (c) An amount equal to five percent of (a) and (b) immediately above.
 - (d) LISA Account ending balance.
 - (e) The total estimated water sales for 12 months commencing with the effective date of the LISAF, excluding sales from Schedule D and lifeline and low-income customers.
3. A LISA Account shall be maintained by the Department. Entries to this account at the end of each month shall include:
- (a) An amount equal to the cost of credits for low-income and lifeline customers provided in General Provisions O and P as recorded during the month.
 - (b) An amount equal to the administrative cost for the lifeline and low income program as recorded during the month.
 - (c) An amount equal to five percent of (a) and (b) immediately above.
 - (d) Less: An amount equal to revenue billed during the month at the first and second tier rates that is attributable to the LISAF.
4. Special Condition
- (a) The LISAF as provided above shall be added to all first and second tier rates set forth in this ordinance, excluding Schedule D and customers qualified for lifeline and low-income subsidy credits, notwithstanding any language in any prior ordinance to the contrary.
 - (b) The change in the quarterly LISAF may not exceed \$0.015 per billing unit.

M. LARGE IRRIGATED TURF

Those customers with 3 acres or more of turf on a single premises that are served from services providing water exclusively for landscape, except those customers receiving water under Schedule A or Schedule F, shall be entitled to receive 95 percent (95%) of their water usage at their first tier rate provided they have first completed an audit of their water use in their premises in accordance with a Department approved manual on large turf water audits and have implemented the "Best Management Practices for Turf Irrigation" as approved by the Board of Water and Power Commissioners to the satisfaction of the Department.

N. SEASONAL VARIATION ADJUSTMENTS

Customers other than Schedule A residential customers that have 26 or more billing units of consumption above their first tier usage block and who also have a consumption above 200 percent (200%) of their average consumption for the months of December through March for each of two consecutive billing periods during the high season shall upon a showing by a customer that the customer has achieved the maximum practical reduction in water consumption by installation and use of generally acceptable water conserving devices and methods and in the customer's use of water be entitled to have their first tier usage block increased to a level that causes 5 percent (5%) of the customer's consumption to be considered above their first tier usage block for that year's high season.

O. LIFELINE CUSTOMER SUBSIDY

Applicable to Schedule A residential water customers who are eligible for exemption from the City Utility User's Tax under provisions of Section 21.1.12 (a) of the Los Angeles Municipal Code.

Eligible customers shall receive a fixed \$10.00 per month subsidy credit, except that such credit shall not exceed the customer's bill for water service.

P. LOW-INCOME SUBSIDY

Applicable to Schedule A residential water customers and residential customers submetered in accordance with General Provision Q whose total household income does not exceed the limits established by the Board of Water and Power Commissioners. The customer must not be listed as a dependent on another person's income tax return and must use this service in the customer's primary residence only.

A qualified customer shall receive a base subsidy credit of \$5.00 per month which shall be increased by \$1.00 per month for each occupant of the dwelling unit in excess of 3 occupants. The credit shall not exceed a maximum of \$10.00 per month, and shall not exceed the customer's bill for water service.

A person who is a residential customer of record of the Power System or receives Schedule R-3 submetered residential electric service, but who is not a Schedule A residential customer of the Water System, is eligible for the Low-

Income Subsidy if such customer's income does not exceed the income limits established by the Board of Water and Power Commissioners for eligibility for such subsidy. The amount of the Low-Income Subsidy credit shall be as set forth above, and shall be applied against the customer's electric bill after first applying any credit adjustments or subsidy pursuant to the electric rate ordinance; provided, however, the Low-Income Credit shall not exceed the amount of the customer's bill for electric service.

To make the Power Revenue Fund whole, the Board shall cause transfers of funds from the Water Revenue Fund to the Power Revenue Fund equal in amounts to the Low-Income Subsidy credits that have been allowed to customers on their electric service bills according to the terms of this provision. The Board of Water and Power Commissioners shall make such transfers at such times as it deems financially prudent so as to make the Power Revenue Fund whole.

Q. HOUSEHOLD SIZE

The first tier usage blocks for Schedule A residential customers only shall be increased in accordance with the quantity shown in the table below as follows:

1. Upon approval by the Department of a customer's verified application setting forth the customer's household size; or,
2. Those customers residing in the 24 ZIP codes identified below from 1990 census tract data as having a resident population of 10% or greater who meet the criteria for the household size rate adjustment shall be initially and conditionally classified by the Department as 8-person households; provided, that the Department shall take all reasonable steps to reclassify said customers in order to assure that only those customers entitled to the household size rate adjustment are so classified. The steps to be taken shall include, but are not limited to verification of customer status upon any customer contact involving the customer's bill or classification; upon any change of or request for service; by customer verification; by individual contact with each customer in the identified ZIP codes at such time as the customer's consumption first enters any of the household size usage blocks set forth below. Those customers whom the Department determines do not qualify shall be re-classified by the Department.

Application of this schedule shall be subject to rules and regulations adopted by the Board of Water and Power Commissioners.

R. SHORTAGE YEAR RATES

When the Board of Water and Power Commissioners, by resolution, finds and determines that the water supply available to the City of Los Angeles is insufficient to meet the City's normal water demand, it shall determine the degree of shortage and apply the corresponding commodity charges stated below, instead of the otherwise applicable commodity charges.

Certified copies of such resolution shall be transmitted to the offices of the Mayor, City Clerk, and the Council. At any time within such period as may be specified by resolution, which shall not be less than fifteen days after delivery of such certified copies to said offices, the Mayor, in writing, or the Council, by majority vote, may disapprove such resolution. If neither the Mayor nor the Council disapprove on said resolution within the period so specified, the same shall take effect upon the expiration of said period and shall be applicable to charges commencing on the first day of the billing cycle after the expiration of the period prescribed in the resolution. If the Mayor shall disapprove said resolution within said period, he shall forthwith advise the Council and the Board, in writing, of such disapproval. The Council shall thereupon consider such disapproval in the same manner as upon the reconsideration of an ordinance notwithstanding the veto of the Mayor, and if upon such consideration the Council shall, by the votes of two-thirds of the whole Council, determine that the Mayor's disapproval should be overruled, such disapproval by the Mayor shall be of no effect, and the said resolution of the Board shall forthwith take effect and shall be applicable to charges commencing on the first day of the billing cycle after the action by the Council overruling the Mayor's disapproval and the expiration of the period prescribed in the resolution.

The following commodity rates shall be substituted into the appropriate corresponding schedule and shall continue during the time that a water shortage determined by the Board of Water and Power Commissioners remains in effect.

1. Schedule A - Single-Dwelling Unit Residential Customers
 - a. The first tier usage block shall be reduced by the degree of the shortage and shall be billed at the rate specified in Section 2.A.3.a.
 - b. Second Tier Usage

Usage above the first tier usage block as prescribed in
Section 3.R.1.a above shall be billed as follows:

Commodity Charge	Rate Per <u>Hundred Cubic Feet</u>
------------------	---------------------------------------

10% Shortage

Low Season - November 1 through May 31

1.201 times the High Season rate specified in
Section 2.A.3.b, rounded to the nearest penny

High Season - June 1 through October 31

1.201 times the High Season rate specified in
Section 2.A.3.b, rounded to the nearest penny

15% Shortage

Low Season - November 1 through May 31

1.442 times the High Season rate specified in
Section 2.A.3.b, rounded to the nearest penny

High Season - June 1 through October 31

1.442 times the High Season rate specified in
Section 2.A.3.b, rounded to the nearest penny

20% Shortage

Low Season - November 1 through May 31

1.682 times the High Season rate specified in
Section 2.A.3.b, rounded to the nearest penny

High Season - June 1 through October 31

1.682 times the High Season rate specified in
Section 2.A.3.b, rounded to the nearest penny

25% Shortage

Low Season - November 1 through May 31

1.964 times the High Season rate specified in
Section 2.A.3.b, rounded to the nearest penny

High Season - June 1 through May 31

1.964 times the High Season rate specified in
Section 2.A.3.b, rounded to the nearest penny

2. Schedule B - Multi-Dwelling Unit Residential Customers

Commodity Charge	Rate Per <u>Hundred Cubic Feet</u>
------------------	---------------------------------------

10% Shortage

- a. Up to 115% of Adjusted First Tier Usage Block shall be billed at the rate specified in Section 2.B.3.a.
- b. Usage above 115% of Adjusted First Tier Usage Block shall be billed at 1.201 times the High Season rate specified in Section 2.B.3.b, rounded to the nearest penny.

15% Shortage

- c. Up to 115% of Adjusted First Tier Usage Block shall be billed at the rate specified in Section 2.B.3.a.
- d. Usage above 115% of First Tier Usage Block shall be billed at 1.442 times the High Season rate specified in Section 2.B.3.b, rounded to the nearest penny.

20% Shortage

- e. Up to 110% of Adjusted First Tier Usage Block shall be billed at the rate specified in Section 2.B.3.a.
- f. Usage above 110% of Adjusted First Tier Usage Block shall be billed at 1.682 times the High Season rate specified in Section 2.B.3.b, rounded to the nearest penny.

25% Shortage

- g. Up to 110% of Adjusted First Tier Usage Block shall be billed at the rate specified in Section 2.B.3.a.
- h. Usage above 110% of Adjusted First Tier Usage Block shall be billed at 1.964 times the High Season rate specified in Section 2.B.3.b, rounded to the nearest penny.

3. Schedule C – Commercial and Industrial Customers

Commodity Charge	Rate Per <u>Hundred Cubic Feet</u>
------------------	---------------------------------------

10% Shortage

- a. Up to 115% of Adjusted First Tier Usage Block shall be billed at the rate specified in Section 2.C.3.a.
- b. Usage above 115% of Adjusted First Tier Usage Block shall be billed at 1.201 times the High Season rate specified in Section 2.C.3.b, rounded to the nearest penny.

15% Shortage

- c. Up to 115% of Adjusted First Tier Usage Block shall be billed at the rate specified Section 2.C.3.a.
- d. Usage above 115% of Adjusted First Tier Usage Block shall be billed at 1.442 times the High Season rate specified in Section 2.C.3.b, rounded to the nearest penny.

20% Shortage

- e. Up to 110% of Adjusted First Tier Usage Block shall be billed at the rate specified Section 2.C.3.a.
- f. Usage above 110% of Adjusted First Tier Usage Block shall be billed at 1.682 times the High Season rate specified in Section 2.C.3.b, rounded to the nearest penny.

25% Shortage

- g. Up to 110% of Adjusted First Tier Usage Block shall be billed at the rate specified Section 2.C.3.a.

- h. Usage above 110% of Adjusted First Tier Usage Block shall be billed at 1.964 times the High Season rate specified in Section 2.C.3.b, rounded to the nearest penny.
- 4. Schedule F - Publicly-Sponsored Irrigation; Recreational; Agricultural, Horticultural, and Floricultural Uses; Community Gardens and Youth Sports

<u>Commodity Charges</u>	<u>Rate Per Hundred Cubic Feet</u>
<u>10% Shortage</u>	

- a. First Tier Usage Block shall be billed at the rate specified in Section 2.F.3.a.

Monthly first tier usage blocks shall be established by the Department for domestic water use, landscape and large area irrigation after an audit has been completed, considering site conditions and based upon best management practices approved by the Board of Water and Power Commissioners, and shall be subject to periodic review and revision by the Department.

- b. Second Tier Usage

Usage above the first tier usage block as prescribed in Section 3.R.4.a above shall be billed at 1.201 times the High Season rate specified in Section 2.F.3.c, rounded to the nearest penny.

15% Shortage

- c. First Tier Usage Block shall be billed at the rate specified in Section 2.F.3.a.

Monthly first tier usage blocks shall be established by the Department for domestic water use, landscape and large area irrigation after an audit has been completed, considering site conditions and based upon best management practices approved by the Board of Water and Power Commissioners, and shall be subject to periodic review and revision by the Department.

d. Second Tier Usage

Usage above the first tier usage block as prescribed in Section 3.R.4.c above shall be billed at 1.442 times the High Season rate specified in Section 2.F.3.c, rounded to the nearest penny.

20% Shortage

e. First Tier Usage Block shall be billed at the rate specified in Section 2.F.3.a.

Monthly first tier usage blocks shall be established by the Department for domestic water use, landscape and large area irrigation after an audit has been completed, considering site conditions and based upon best management practices approved by the Board of Water and Power Commissioners, and shall be subject to periodic review and revision by the Department.

f. Second Tier Usage

Usage above the first tier usage block as prescribed in Section 3.R.4.e above shall be billed at 1.682 times the High Season rate specified in Section 2.F.3.c, rounded to the nearest penny.

25% Shortage

g. First Tier Usage Block shall be billed at the rate specified in Section 2.F.3.a.

Monthly first tier usage blocks shall be established by the Department for domestic water use, landscape and large area irrigation after an audit has been completed, considering site conditions and based upon best management practices approved by the Board of Water and Power Commissioners, and shall be subject to periodic review and revision by the Department.

h. Second Tier Usage

Usage above the first tier usage block as prescribed in Section 3.R.4.g above shall be billed at 1.964 times the High Season rate specified in Section 2.F.3.c, rounded to the nearest penny.

5. Adjustments and credits pursuant to General Provisions F, G, H, I, K, L, O and P shall be applied to the commodity charges set forth in this General Provision R in the same manner that they apply to the commodity charge set forth in Rate Schedules A, B, C, D, E, and F, inclusive.
6. The Adjusted First Tier Usage Block shall be each customer's maximum December through March average consumption for the three winter periods preceding the declared water shortage event reduced by the degree of water shortage, except that the minimum adjusted first tier usage for Schedule B customers only shall be twenty-eight (28) hundred cubic feet per month reduced by the degree of water shortage and the minimum adjusted first tier usage for Schedule C customers shall be one one-hundred cubic feet per month.

Each customer's December through March average consumption that is applied at the beginning of each declared water shortage event shall continue to be applied during the time that a water shortage determined by the Board of Water and Power Commissioners remains in effect.

7. Those Schedules B and C customers that are found to not have established an Adjusted First Tier Usage Block based on prior usage may have an adjusted first tier usage block computation made by the Department that is based on the customer's water use characteristics, site conditions, and all applicable best management practices for conservation approved by the Board of Water and Power Commissioners.
8. Application of this General Provision R shall be subject to rules and regulations adopted by the Board of Water and Power Commissioners.
9. When the Board of Water and Power Commissioners determines that the water supply available to the City of Los Angeles is either sufficient, or if not sufficient, is better able to meet the City's normal water supply, it shall, by resolution, either terminate the implementation of these shortage year rates or determine the lesser degree of shortage and apply the applicable commodity charges stated above instead of the commodity charges theretofore implemented pursuant to this Provision R. Such determination shall become effective upon publication of the resolution.

S. RESALE OF WATER AND SUBMETERED CUSTOMERS

1. The resale of water by Department customers is prohibited. Any resale of water will be cause for termination of service.
2. Notwithstanding the foregoing prohibition, master-metered residential facilities and mobile home parks where individual single dwelling units are submetered, and commercial facilities where individual commercial units are submetered, may pass through their costs for water service subject to the following billing conditions:
 - (a) The rates charged the individual submetered units shall not be more than those prescribed under Schedule B for Multi-Dwelling Unit Residential Customers, including any applicable credits under General Provisions K and L, and in the case of commercial facilities shall not be more than those prescribed under Schedule C.
 - (b) The owner shall post in a conspicuous place the prevailing water rate schedule published by the Department that is used to bill the facility.
 - (c) The owner shall provide a separate written water bill for each submetered unit. The bill shall include the amount of water metered for the period, open and closing meter readings, and the amount of the bill. End users may not be required to pay more than if the Department provided the water directly to the end user.
3. In the event the water is not submetered and a cost/use allocation methodology is employed by the Department's customer to divide the cost among users of the water, the method used must fairly and equitably allocate to each end user of water the amount actually used by each end user and determine costs based on the actual use, all subject to the following requirements:
 - (a) The end users pay no more than if the Department provided the water directly.
 - (b) No additional costs, fees, services charges or expenses of any nature are added to the end users' bills by the Department's customer or the customer's agents, directly or indirectly, related to the allocation methodology including but not limited to charges for establishing new accounts, meter reading charges, equipment charges, account charges or any charge related to maintaining or operating the allocation system.

- (c) The Department's customer shall provide the Department and all end users the cost allocation methodology and results of that methodology as applied to each end user. In no event can the Department's customer use a calculation or methodology that results in the end user being charged for an amount greater than the actual consumption at the Department's actual rates charged to the Department's customer.
- (d) The Board of Water and Power Commissioners may adopt rules consistent with the foregoing provisions.

T. DEFINITIONS

For purposes of each service schedule in this section, the following definitions shall apply:

Billing Unit - One hundred cubic feet of water, equal to 748 gallons.

Commercial - Activities devoted primarily to business, property management or professional purposes.

Commodity Charge - A charge based upon the amount of water used by the customer.

Customer - Any person, public or private association or corporation, partnership, unincorporated association, or governmental agency supplied or entitled to be supplied by the Department.

Date of Presentation - The date on which a bill or notice is mailed or delivered by the Department to the customer.

First Tier Rates - Rates for usage within the first tier usage blocks as specified in Rate Schedules A, B, C, and F and in General Provision R, and for usage specified in Rate Schedule E, plus General Provision F, G, H, I, K, and L adjustments where applicable.

Governmental - The United States or any of its agencies, the state or any of its agencies, the Regents of the University of California, a county, a city, a district, a public authority, or any other political subdivision.

High Season - June 1 through October 31.

Industrial - Activities devoted primarily to manufacturing or processing.

Lifeline Customer Subsidy - Credit provided for qualified residential customers who are eligible for exemption from the City Utility User's Tax under provisions of the Los Angeles Municipal Code or the Revenue and Taxation Code of the State of California.

Low-Income Subsidy - Credit provided for qualified customers whose total household income does not exceed limits established by the Board of Water and Power Commissioners.

Low Income Subsidy Adjustment – Recovers the cost of credits given to lifeline and low-income customers as provided in General Provisions O and P.

Low Season - November 1 through May 31.

Minimum Charge - An amount charged to accounts with no recorded consumption for more than two months except Schedule E where it is the service availability charge.

Multi-Dwelling Units - Two or more family dwelling units served by one meter.

Owens Valley Regulatory Adjustment – Recovers expenditures to operate and maintain infrastructure and related facilities for the Owens Lake Dust Mitigation Project, Lower Owens River Project, and conditionally a portion of the water quality O&M as defined in 3.K.3.b.

Premises - An integrated land area, including improvements on the land, undivided by public thoroughfares or water distribution mains and where all parts of the area are operated under the same management for the same purpose.

Rate - An amount fixed by the Board of Water and Power Commissioners by resolution and approved by the City Council by ordinance to be charged for water service supplied by the Department to its customers.

Reclaimed Water – Treated wastewater that is suitable for use by industrial or other users rather than being discharged to the ocean or a stream.

Residential - Activities devoted primarily to residential or household purposes in single-dwelling units and multi-dwelling units.

Second Tier Rates - Rates for usage above first tier usage blocks specified in Rate Schedules A, B, C, and F, and in General Provision R, which include General Provision F and G adjustments where applicable, plus General Provision H, I, K, and L adjustments where applicable.

Service Availability Charge - A fixed charge per month for fire service based upon service connection size.

Service Connection - The pipe or tubing, fittings, and valves necessary to conduct water from the distribution main through the meter or shutoff valve on an unmetered service connection.

Shortage Year - A period in which the Board of Water and Power Commissioners determines that the available water supply is insufficient to meet the City's normal water demand.

Submeter - A meter internal to the customer's distribution line, used to monitor water consumption, but not for Department billing purposes.

Temperature Zones - Three geographical groupings of areas as set forth in the table below based on generally common average temperatures.

ZIP CODE		TEMPERATURE ZONE		ZIP CODE		TEMPERATURE ZONE	
90001 - 90044		Medium		90401 - 90405	Low		
90045	Low			90501 - 90506		Medium	
90046 - 90048		Medium		90510	Low		
90049	Low			90710 - 90717		Medium	
90056-90065		Medium		90731 - 90732	Low		
90066	Low			90744		Medium	
90067 - 90071		Medium		90810 - 90844		Medium	
90073 - 90077	Low			91040 - 91367			High
90089		Medium		91393			High
90094	Low			91401		Medium	
90210 - 90232		Medium		91402			High
90245	Low			91403		Medium	
90247 - 90250		Medium		91405 - 91411			High
90254	Low			91423		Medium	
90260 - 90261		Medium		91436			High
90266 - 90277	Low			91502		Medium	
90278		Medium		91504 - 91505		Medium	
90291 - 90293	Low			91600 - 91607		Medium	
90301 - 90305		Medium					

Water Procurement Adjustment - An adjustment of the amount of the bill reflecting variation in the costs of purchased water, in-City pumping, demand side management, and reclaimed water.

Water Quality Improvement Adjustment - Recovers expenditures to upgrade water quality in order to equalize it throughout the City and expenditures for facilities approved in order to meet State and Federal water quality standards.

Water Revenue Adjustment - Recovers shortage in revenue due to variation in water sales.

Water Security Adjustment - Recovers expenditures to secure and protect the water supply, storage, and conveyance infrastructure and related facilities.

Water Service - Includes availability of water to a premises through Department facilities and any water supplied through the facilities.

Section 4

This Ordinance shall become effective on **June 1, 1995**, or upon expiration of thirty (30) days from the publication of this Ordinance, whichever is later.

Section 5

Upon the effective date of this Ordinance, the rate schedules and all other terms and conditions of this ordinance shall become operative and the rate schedules and all other terms and conditions established by Ordinance No. 168437 and 169771 shall be suspended; provided that the rate schedules, conditions, and provisions which were approved by said ordinances pertaining to service in the City of Los Angeles and contiguous areas shall remain in effect until the rate schedules, conditions, and provisions as provided for herein shall become effective.

Provided, further however, in the event that the imposition of the rates provided for in this ordinance is enjoined, temporarily or permanently, by a court of competent jurisdiction which order materially affects the implementation of this ordinance then upon such determination by the Board of Water and Power Commissioners, the rate schedules, conditions, and provisions provided in Ordinance No. 168437 and 169771 shall be in full force and effect from the effective date of such injunction until said injunction is dissolved or a new rate ordinance is approved by this Council.

Section 6

The City Council finds that the foregoing amendment of water rates and those rates previously fixed by the Department of Water and Power are for those purposes consistent with the authority established by the Charter and other applicable law.

The approval of said water rates by this Council is exempt from the requirements of the California Environmental Quality Act under the provisions of the Public Resources Code, Section 21080 (b)(8), and this Council makes this claim of exemption pursuant to said section and authorizes claim of exemption to be filed with the appropriate agencies.

Section 7

That if any section, subsection, sentence, clause, or phrase in this ordinance or the application thereof to any person or circumstance is for any reason held invalid, the validity of the remainder of the ordinance or the application of such provision to other persons or circumstances shall not be affected thereby. The City Council hereby declares that it would have passed this ordinance and each section, subsection, sentence, clause, or phrase thereof, irrespective of the fact that one or more sections, subsections, sentences, clauses, or phrases or the application thereof to any person or circumstance be held invalid.

Section 8

That the City Clerk shall certify to the passage of this ordinance and cause the same to be published in some daily newspaper printed and published in the City of Los Angeles.

I hereby certify that the foregoing ordinance was introduced at the meeting of the Council of the City of Los Angeles March 8, 1995, and was passed at the meeting of March 15, 1995.

ELIAS MARTINEZ, City Clerk

Approved March 22, 1995

RICHARD RIORDAN, Mayor

Approved as to Form and Legality

Schedule No. LA-1 (Continued)
Los Angeles County District Tariff Area
GENERAL METERED SERVICE

SPECIAL CONDITIONS:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF
2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: City of San Marino 1.143%; City of San Gabriel 2.0%; City of Rosemead 1.183%; County of Los Angeles 2.417%; City of Duarte 1.966%; and City of Bradbury 1.959%. Franchise taxes in the Baldwin Hills District is 2.00% per customer on a monthly basis.
3. Per Advice Letter 962, a surcharge of \$0.0224 per ccf or \$0.0030 per hundred gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. (N)
4. Per Decision 10-06-038, a Distribution System Infrastructure Charge (DSIC) surcharge is included on each bill to recover cost associated with infrastructure replacement and improvements. Please refer to Schedule No. LA-DSIC for more information.

GENERAL METERED SERVICE

SPECIAL CONDITIONS (continued):

(D)

6. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes will be allowed to have their monthly service charge modified in accordance with the monthly costs for Residential Fire Sprinkler System service charges as shown in the attached RFSS tariff. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

MEASURED IRRIGATION SERVICE

SPECIAL CONDITIONS (continued):

10. To better manage peak demands, there will be time and day of use restrictions on all measured irrigation services. Customers will be split into two groups who will irrigate on alternate days and only during cooler evening and morning hours. Customers with even numbered addresses will be allowed to irrigate only on even numbered days of the month and customers with odd numbered addresses will be allowed to irrigate only on odd numbered days of the month. (N)

- a. Limits on water hours: Water or irrigating of lawn, landscape or other vegetated area with water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day. (T)

- b. Fines and Flow Restrictors: (N)

- 1) During 2012 California American Water will only issue warnings to customers who violate of the day and time of use restrictions.
- 2) Beginning in 2013, California American Water may impose penalties on customers who violate the day and time of use restrictions if peak use in 2012 continued to necessitate supplementation of the system with potable water.
- 3) Penalties for violation of the day and time of use restrictions will become effective upon California American Water filing a Tier 1 Advice Letter (N)
- 4) If the Utility determines that a customer is in violation, the customer will be subject to the following fine structure.

First Offense: Written warning, including explanation of penalty for subsequent offense.
Second Offense: Written warning, including explanation of penalty for subsequent offense and a \$100 fine.
Third Offense: Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

- 5) Flow Restrictor Removal Charge: The charge for the removal of a flow restrictor shall be:

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

Baldwin Hills Service Area consisting of Baldwin Hills, Windsor Hills, View Park, Ladera Heights, and vicinity, Duarte Service Area consisting of Bradbury, Duarte, portions of Irwindale, Monrovia, and vicinity, and San Marino Service Area consisting of San Marino, Rosemead, portions of San Gabriel, Temple City and vicinity, Los Angeles County.

RATE

	<u>Per Month</u>	
For each 4-inch connection or smaller.....	\$43.66	(l)
For each 6-inch connection.....	\$65.49	(l)
For each 8-inch connection.....	\$87.32	(l)
For each 10-inch connection.....	\$109.15	(l)
For each 12-inch connection.....	\$130.98	(l)

SPECIAL CONDITIONS:

1. The fire protection service and connection shall be installed by the Utility or under the Utility's direction. Cost of the entire fire protection installation shall be paid for by the applicant. Such payment shall not be subject to refund.
2. The installation housing, the detector type check valve and meter and appurtenances, thereto, shall be in a location mutually agreeable to the applicant and the Utility. Normally such installation shall be located on the premises of applicant, adjacent to the property line. The expense of maintaining all facilities which are the sole property of the applicant (including the vault, meter detector type check valves, backflow device and appurtenances) shall be paid for by the applicant.
3. All facilities paid for by the applicant, excluding the connection at the main and any service pipe located in a public right-of-way, shall be the sole property of the applicant. The utility and its duly authorized agents shall have the right to ingress to and egress from the premises for all purposes relating to said facilities.

TITLE

RESOLUTION

Schedule No. LA-4 (Continued)
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

4. The minimum diameter will be 1 inch, and the maximum diameter will be the diameter of the main to which the service is connected.
 - a. The minimum diameter of connections for private fire hydrants will be six inches.
5. If distribution main of adequate size to serve a private fire protection system in addition to all other normal services does not exist in the street or alley adjacent to the premises to be served, then a main from the nearest existing main of adequate capacity shall be installed by the Utility, or under the Utility's direction, and the cost paid by the applicant. Such payment shall not be subject to refund.
6. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention device and a standard detector type meter approved by the Insurance Services Office for protection against theft, leakage or waste of water.
7. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities.
8. Subject to the approval of the Utility, any change in the location or construction of fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change.
9. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore at the regular established rate for general metered service, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.
10. All bills are subject to the reimbursement fee set forth on Schedule No. UF.

DECISION NO. D. 12-06-016DIRECTOR - Rates & Regulatory

TITLE

✓

Schedule No. LA-4 (Continued)
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

11. Per Decision 10-06-038, a Distribution System Infrastructure Charge (DSIC) surcharge is included on each bill to recover cost associated with infrastructure replacement and improvements. Please refer to Schedule No. LA-DSIC for more information

12. Per Advice Letter 962, a surcharge of \$0.0224 per ccf or \$0.0030 per hundred gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. (N)

13. Per Advice Letter 996, the under-collected balance in the Los Angeles County District General Expense Balancing Account will be recovered through a quantity based surcharge, as shown in the below table, over 36 months effective May 9, 2013. The total amount will be recovered from all classes of customers.

Service Area	General Expense Balancing Account Surcharge per ccf	General Expense Balancing Account Surcharge per 100 gal
Baldwin Hills	\$0.2025	\$0.0271
Duarte	\$0.2175	\$0.0291
San Marino	\$0.2561	\$0.0342

(N)

(N)

14. Per Advice Letter 1001, General Office Audit Costs and intervenor compensation paid to Consumer Federation of California and TURN will be recovered through a meter surcharge for one billing cycle effective May 15, 2013. The total amount of \$202,975 will be recovered from all classes of customers.

Meter Size	Surcharge
1-1/2 inch	\$ -
4	\$ 0.04
6	\$ 0.05
8	\$ 0.07
10	\$ 0.09
Hydrants	\$ -

15. Per Advice Letter 1014, a surcharge is applied to each bill to offset increases in purchased water costs effective July 3, 2013. This offset results in a needed revenue increase of \$482,294 or 1.67%. The surcharge listed below is added to the quantity rate beginning the effective date of July 3, 2013.

Service Area	Purchase Water Surcharge per ccf	Purchase Water Surcharge per 100 gal
Baldwin Hills	\$0.3407	\$0.0455

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Residential customers are defined as all single family customers with one dwelling unit that are individually metered.
3. Pursuant to Decision 13-05-011, a surcharge of \$0.082 per Ccf will be applied to all metered Customers bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
4. As authorized by the California Public Utilities Commission, an amount of \$0.285 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1513-W, which is March 29, 2013. This surcharge will recover the undercollection in the WRAM/MCBA Balancing Accounts through December 31, 2012. The surcharge will not apply to customers in Morongo Valley and Wrightwood.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1543-W, which is October 24, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
6. As authorized by the California Public Utilities Commission, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1561-W, which is March 31, 2014. This surcharge will recover the under collection in the WRAM&MCBA Balancing Accounts through December 31, 2013.
7. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA, which is July 1, 2014. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account.
8. Beginning June 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.0329/kWh, an increase in purchased water of \$0.0714/Ccf, and an increase in Pump Tax of \$0.02989/Ccf, relative to the Purchased Power, Purchased Water, and Pump Tax costs adopted by Decision No. 13-05-011, and an associated revenue increase of 2.24%, are being tracked in a reserve account.

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF. (L)
2. Pursuant to Decision 13-05-011, a surcharge of \$0.082 per Ccf will be applied to all metered customer bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account. (L)
3. As authorized by the California Public Utilities Commission, an amount of \$0.250 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1513-W, which is March 29, 2013. This surcharge will recover the undercollection in the WRAM/MCBA Balancing Accounts through December 31, 2012. The surcharge will not apply to customers in Morongo Valley and Wrightwood.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.175 per Ccf Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1543-W, which is October 24, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
5. As authorized by the California Public Utilities Commission, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1561-W, which is March 31, 2014. This surcharge will recover the under collection in the WRAM&MCBA Balancing Accounts through December 31, 2013. (D)
7. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA, which is July 1, 2014. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (T)
8. Beginning June 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.0329/kWh, an increase in purchased water of \$0.0714/Ccf, and an increase in Pump Tax of \$0.02989/Ccf, relative to the Purchased Power, Purchased Water, and Pump Tax costs adopted by Decision No. 13-05-011, and an associated revenue increase of 2.24%, are being tracked in a reserve account. Water Rates (as of 7/1/2013) – Crescenta Valley Water District

Service Charge:

The monthly service charge is a "fixed" charge and does not provide for any minimum water consumption allowance. This service charge is based upon the size of your water meter as follows:

Meter Size:	Bi-Monthly Charge Within District:	Bi-Monthly Charge Outside District:
5/8-inch	\$34.20	\$34.60
3/4-inch	\$34.20	\$34.60
1-inch	\$42.00	\$42.40
1-1/2-inch	\$61.34	\$61.74
2-inch	\$77.58	\$77.98
3-inch	\$84.58	\$84.98
4-inch	\$217.32	\$217.72

Quantity Rate:

Quantity Rates are applicable to all water consumption in addition to the monthly service charge above. Usage charges may be billed at a tiered rate if the connection is for a single family home. Local Cost is associated with non-imported water. FMWD Cost is for imported water pass through charges.

The rate charged by the District to all residential and commercial customers for each Billing Unit (1000 gallons) of water is currently:

Single Family	Water Use Range:	Local Cost:	FMWD Cost:	Total Unit Cost:
Tier 1	0 - 10 units	\$2.22/unit	\$1.90/unit	\$4.12/unit
Tier 2	11-33 units	\$3.43/unit	\$1.90/unit	\$5.33/unit
Tier 3	34-50 units	\$5.70/unit	\$1.90/unit	\$7.60/unit
Tier 4	50 + Units	\$8.29/unit	\$1.90/unit	\$10.19/unit

Multi Family / Commerical	Water Use Range:	Local Cost:	FMWD Cost:	Total Unit Cost:
	> 0 Units	\$3.43/unit	\$1.90/unit	\$5.33/unit

Private Fire Protection Charge:

The monthly service charge for fire protection services by line size is as follows:

Fire Service Size:	Monthly Charge Within District:	Monthly Charge Outside District:
1-inch	\$7.16	\$7.36
2-inch	\$10.54	\$10.74
3-inch	\$15.73	\$15.93
4-inch	\$21.33	\$21.53
6-inch	\$36.66	\$36.86
8-inch	\$55.78	\$55.98
10-inch	\$77.89	\$78.09

Water Service Installation Charge:

The water service installation charge includes the cost of labor, materials, and equipment to install the following components to individual applicants for water service:

Component:	Fee:
3/4-inch water meter	By Estimate Only
1-inch water meter	By Estimate Only
1-inch service lateral	By Estimate Only
Meter & Service > 1-inch	By Estimate Only

* A 1-inch service lateral is required for all 3/4-inch and 1-inch water meters.

Glendale Utility Tax Administration Fee:

\$0.20/billing cycle (Effective 1/1/12)

Irrigation Usage Charge:

	Water Use Range:	Local Cost:	FMWD Cost:	Total Unit Cost:
Tier 1	0 - 70 units	\$3.43/unit	\$1.90/unit	\$5.33/unit
Tier 2	71 + units	\$8.29/unit	\$1.90/unit	\$10.19/unit

Minimum Monthly Service Charge for Temporary Services \$35.00

One Time Service Charge for Temporary Services \$25.00

Notice of Public Hearing

Consideration of Resolution Amending the Service Charges Schedule Establishing New Water Rates for Fiscal Year 2011-2012

Notice is hereby given that on August 2, 2011 at 7:00 pm at the City Council Chambers of the City of Paramount, 16400 Colorado Avenue, Paramount, California 90723, the City Council of the City of Paramount will hold a public hearing to consider a resolution entitled "A Resolution of the City Council of the City of Paramount Amending the Service Charges Schedule Establishing New Water Rates for Fiscal Year 2011-2012."

This resolution would revise the rate of the City's water charges in response to rising direct costs of water production, ongoing repairs, replacement and upgrade to our capital facilities that are needed to help comply with drinking water regulations and public health standards, and maintaining reliable water supply. The proposed water rates are listed below.

The resolution is available for inspection in the Office of the City Clerk located at 16400 Colorado Avenue, Paramount, California 90723, or online at www.paramountcity.com. The City Council will hear testimony regarding the resolution at the hearing. If you would like to provide written comments, please mail them to the following address:

City Clerk
City of Paramount City Hall
16400 Colorado Avenue
Paramount, CA 90723

All correspondence must be received by 4:00 pm on August 2, 2011. Any person interested, including all water customers of the City, may appear and be heard on any matter relating to the proposed resolution or the charges proposed therein. If you have any questions, feel free to contact us at (562) 220-2018.

Exhibit A - Proposed Water Rates										
The City of Paramount City Council will evaluate water rates and conduct a public hearing on August 2, 2011 to approve a resolution to increase water rates. The water rates, details of which appear below, will take effect in September 2011.										
Description	Meter Charge (every 2 months)				Consumption Charge (per unit, every 2 months)*

Resolution No. _____

Schedule No. ME-1-NR
Metropolitan District
NON-RESIDENTIAL METERED SERVICE

Page 2 of 2

SPECIAL CONDITION

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Pursuant to Decision 13-05-011, a surcharge of \$0.156 per Ccf will be applied to all metered customer's bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
3. As authorized by the California Public Utilities Commission, an amount of \$0.190 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1512-W, which is March 29, 2013. This surcharge will recover the under-collection in the WRAM/MCBA Balancing Accounts through December 31, 2012.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.015 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1526-W, which is August 28, 2013. This surcharge will recover the under-collection recorded in the City of Torrance Balancing Account.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.264 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1542-W, which is October 18, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
6. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account. (D)
7. Beginning July 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.04092/kWh, an increase in purchased water of \$0.15457/Ccf, an increase in Pump Tax of \$0.05510/Ccf and a decrease in Leased Water of (\$0.01692)/Ccf, relative to the Purchased Power, Purchased Water, Pump Tax and Lease Water cost adopted by Decision No. 13-05-011, and an associated revenue increase of 2.64%, are being tracked in a reserve account. Schedule No. R3-1-R
Region 3 Customer Service Areas
RESIDENTIAL METERED SERVICE

Page 2 of 2

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. Residential customers are defined as all single family customers with one dwelling unit that are individually metered.
3. Pursuant to Decision 13-05-011, a surcharge of \$0.082 per Ccf will be applied to all metered Customers bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account.
4. As authorized by the California Public Utilities Commission, an amount of \$0.285 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1513-W, which is March 29, 2013. This surcharge will recover the undercollection in the WRAM/MCBA Balancing Accounts through December 31, 2012. The surcharge will not apply to customers in Morongo Valley and Wrightwood.
5. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1543-W, which is October 24, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
6. As authorized by the California Public Utilities Commission, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1561-W, which is March 31, 2014. This surcharge will recover the under collection in the WRAM&MCBA Balancing Accounts through December 31, 2013.
7. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA, which is July 1, 2014. This surcharge will recover the undercollection recorded in the the Oracle Technical Support Costs Memorandum Account.
8. Beginning June 1, 2014, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.0329/kWh, an increase in purchased water of \$0.0714/Ccf, and an increase in Pump Tax of \$0.02989/Ccf, relative to the Purchased Power, Purchased Water, and Pump Tax costs adopted by Decision No. 13-05-011, and an associated revenue increase of 2.24%, are being tracked in a reserve account.

GENERAL METERED SERVICE

SPECIAL CONDITIONS:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF
2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: City of San Marino 1.143%; City of San Gabriel 2.0%; City of Rosemead 1.183%; County of Los Angeles 2.417%; City of Duarte 1.966%; and City of Bradbury 1.959%. Franchise taxes in the Baldwin Hills District is 2.00% per customer on a monthly basis.
3. Per Advice Letter 962, a surcharge of \$0.0224 per ccf or \$0.0030 per hundred gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. (N)
4. Per Decision 10-06-038, a Distribution System Infrastructure Charge (DSIC) surcharge is included on each bill to recover cost associated with infrastructure replacement and improvements. Please refer to Schedule No. LA-DSIC for more information.

GENERAL METERED SERVICE

SPECIAL CONDITIONS (continued):

(D)

6. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes will be allowed to have their monthly service charge modified in accordance with the monthly costs for Residential Fire Sprinkler System service charges as shown in the attached RFSS tariff. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

MEASURED IRRIGATION SERVICE

SPECIAL CONDITIONS (continued):

10. To better manage peak demands, there will be time and day of use restrictions on all measured irrigation services. Customers will be split into two groups who will irrigate on alternate days and only during cooler evening and morning hours. Customers with even numbered addresses will be allowed to irrigate only on even numbered days of the month and customers with odd numbered addresses will be allowed to irrigate only on odd numbered days of the month. (N)

- a. Limits on water hours: Water or irrigating of lawn, landscape or other vegetated area with water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day. (T)

- b. Fines and Flow Restrictors: (N)

- 1) During 2012 California American Water will only issue warnings to customers who violate of the day and time of use restrictions.
- 2) Beginning in 2013, California American Water may impose penalties on customers who violate the day and time of use restrictions if peak use in 2012 continued to necessitate supplementation of the system with potable water.
- 3) Penalties for violation of the day and time of use restrictions will become effective upon California American Water filing a Tier 1 Advice Letter (N)
- 4) If the Utility determines that a customer is in violation, the customer will be subject to the following fine structure.

First Offense: Written warning, including explanation of penalty for subsequent offense.
Second Offense: Written warning, including explanation of penalty for subsequent offense and a \$100 fine.
Third Offense: Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

- 5) Flow Restrictor Removal Charge: The charge for the removal of a flow restrictor shall be:

 - a. The minimum diameter of connections for private fire hydrants will be six inches.
5. If distribution main of adequate size to serve a private fire protection system in addition to all other normal services does not exist in the street or alley adjacent to the premises to be served, then a main from the nearest existing main of adequate capacity shall be installed by the Utility, or under the Utility's direction, and the cost paid by the applicant. Such payment shall not be subject to refund.
6. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention device and a standard detector type meter approved by the Insurance Services Office for protection against theft, leakage or waste of water.
7. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities.
8. Subject to the approval of the Utility, any change in the location or construction of fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change.
9. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore at the regular established rate for general metered service, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.
10. All bills are subject to the reimbursement fee set forth on Schedule No. UF.

Schedule No. LA-4 (Continued)
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

11. Per Decision 10-06-038, a Distribution System Infrastructure Charge (DSIC) surcharge is included on each bill to recover cost associated with infrastructure replacement and improvements. Please refer to Schedule No. LA-DSIC for more information

12. Per Advice Letter 962, a surcharge of \$0.0224 per ccf or \$0.0030 per hundred gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. (N)

13. Per Advice Letter 996, the under-collected balance in the Los Angeles County District General Expense Balancing Account will be recovered through a quantity based surcharge, as shown in the below table, over 36 months effective May 9, 2013. The total amount will be recovered from all classes of customers.

Service Area	General Expense Balancing Account Surcharge per ccf	General Expense Balancing Account Surcharge per 100 gal
Baldwin Hills	\$0.2025	\$0.0271
Duarte	\$0.2175	\$0.0291
San Marino	\$0.2561	\$0.0342

(N)

(N)

14. Per Advice Letter 1001, General Office Audit Costs and intervenor compensation paid to Consumer Federation of California and TURN will be recovered through a meter surcharge for one billing cycle effective May 15, 2013. The total amount of \$202,975 will be recovered from all classes of customers.

Meter Size	Surcharge
1-1/2 inch	\$ -
4	\$ 0.04
6	\$ 0.05
8	\$ 0.07
10	\$ 0.09
Hydrants	\$ -

15. Per Advice Letter 1014, a surcharge is applied to each bill to offset increases in purchased water costs effective July 3, 2013. This offset results in a needed revenue increase of \$482,294 or 1.67%. The surcharge listed below is added to the quantity rate beginning the effective date of July 3, 2013.

Service Area	Purchase Water Surcharge per ccf	Purchase Water Surcharge per 100 gal
Baldwin Hills	\$0.3407	\$0.0455

A Message to Our Valued Customers

Notice of Rate Increase Effective January 1, 2014

The Walnut Valley Water District is committed to providing a reliable, high quality, and affordable water supply. In keeping with this commitment, the District strives to set fair water rates, encourage the efficient use of water, ensure continued financial stability, and maintain water system reliability.

Imported Water Cost

Unlike many water agencies throughout the state which have available local water supplies, *our District is 100% dependent upon imported water to meet our customers' potable water needs.* These imported supplies, purchased from the Metropolitan Water District of Southern California (MWD), are transported over extraordinary distances: 444 miles from northern California and 242 miles from the Colorado River. The District's most significant cost is the purchase of this imported water, which comprises 60% of the District's operating budget. From 2005 through 2014, MWD's imported water rates will have more than doubled and are very likely to continue increasing. Needless to say, the MWD increases have a substantial impact on the costs of providing water to the homes and businesses in our service area.

Keeping Rates as Low as Possible

To meet these on-going imported water cost increases, in February 2010, the District's Board of Directors approved a 5-year rate plan to primarily cover the projected MWD rate increases. In keeping with our commitment to maintain an affordable water rate for our customers, the District has been successful in achieving significant budgetary cost savings to mitigate impacts of the MWD increases on our customers. As a result of these cost saving measures, the actual rate increases have been below those projected in the 5-year rate plan.

Planning for the Future

In addition to our cost saving efforts, the District has also been dedicated to the pursuit of obtaining local water supplies, thereby reducing our reliance on costly imported water. Securing these additional sources will offer the District greater flexibility and independence in providing a reliable water supply. These endeavors require extensive planning and financial investment in the short-term, however, will ultimately result in substantial cost savings and greater water supply reliability for generations to come.

What does this mean for our customers? Effective January 1, 2014, although the District's water rates will increase, the increase will be less than the amount projected in the approved 5-year rate plan. This increase will cover both the costs of the MWD rate increase and allow the District to continue to develop projects to secure greater local water supply reliability (see the reverse side for further details on exact amounts of the increase).

On behalf of the Board of Directors, please be assured that the District will always remain fully committed to its mission of "providing a reliable, high quality water supply in a fiscally efficient and environmentally responsible manner while remaining committed to providing superior service to our customers."

New Rates

These increases will go into effect January 1, 2014 and will be reflected on your February 2014 water bill

Base (or Meter) Charge: This charge varies with the size of your meter; revenues are used to cover expenses associated with billing, collection, service calls, meter reading, and maintenance. Costs are allocated based on meter size and capacity.

Commodity Charge: This charge covers the cost of purchased water and District delivery costs. The term "tiered" refers to a 'block-type' rate structure where the unit price of water changes with each of several preset consumption blocks for each billing period. As your usage increases, the unit price or rate for the block increases.

One unit = approximately 748 gallons of water

Pump Zone Charge: This charge is 'revenue neutral' to the District and funds collected cover the additional costs of infrastructure and power to pump water to higher elevations.

Your zone is listed on your water bill.

Private Fire Protection—Base (or Meter) Charge: This charge varies with the size of the fire service connection, or private hydrant. Revenues are used to cover the expenses associated with reading of the bypass meters, service calls, and related District maintenance for private hydrants.

Base (or meter) charge	Current Rates (per month)	New Rates (per month)
5/8-inch or 3/4-inch	\$ 16.33	\$17.08
1-inch	\$ 20.75	\$21.60
1 1/2-inch	\$ 44.64	\$46.18

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF. (L)
2. Pursuant to Decision 13-05-011, a surcharge of \$0.082 per Ccf will be applied to all metered customer bills excluding customers that are receiving the CARW credit. This surcharge will offset the CARW credits and CARW administrative program costs recorded in the CARW Balancing Account. (L)
3. As authorized by the California Public Utilities Commission, an amount of \$0.250 per Ccf is to be added to the Quantity Rate for a period of 18 months, beginning on the effective date of Advice Letter 1513-W, which is March 29, 2013. This surcharge will recover the undercollection in the WRAM/MCBA Balancing Accounts through December 31, 2012. The surcharge will not apply to customers in Morongo Valley and Wrightwood.
4. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.175 per Ccf Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1543-W, which is October 24, 2013. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2013 through May 22, 2013.
5. As authorized by the California Public Utilities Commission, an amount of \$0.175 per Ccf is to be added to the Quantity Rate for a period of 12 months, beginning on the effective date of Advice Letter 1561-W, which is March 31, 2014. This surcharge will recover the under collection in the WRAM&MCBA Balancing Accounts through December 31, 2013. (D)
7. As authorized by the California Public Utilities Commission in D. 13-05-011, an amount of \$0.0035 per Ccf is to be added to the Quantity Rates for a period of 12 months, beginning on the effective date of Advice Letter 1555-WA, which is July 1, 2014. GENERAL METERED SERVICE

SPECIAL CONDITIONS:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF
2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: City of San Marino 1.143%; City of San Gabriel 2.0%; City of Rosemead 1.183%; County of Los Angeles 2.417%; City of Duarte 1.966%; and City of Bradbury 1.959%. Franchise taxes in the Baldwin Hills District is 2.00% per customer on a monthly basis.
3. Per Advice Letter 962, a surcharge of \$0.0224 per ccf or \$0.0030 per hundred gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. (N)
4. Per Decision 10-06-038, a Distribution System Infrastructure Charge (DSIC) surcharge is included on each bill to recover cost associated with infrastructure replacement and improvements. Please refer to Schedule No. LA-DSIC for more information.

GENERAL METERED SERVICE

SPECIAL CONDITIONS (continued):

(D)

6. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes will be allowed to have their monthly service charge modified in accordance with the monthly costs for Residential Fire Sprinkler System service charges as shown in the attached RFSS tariff. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

MEASURED IRRIGATION SERVICE

SPECIAL CONDITIONS (continued):

10. To better manage peak demands, there will be time and day of use restrictions on all measured irrigation services. Customers will be split into two groups who will irrigate on alternate days and only during cooler evening and morning hours. Customers with even numbered addresses will be allowed to irrigate only on even numbered days of the month and customers with odd numbered addresses will be allowed to irrigate only on odd numbered days of the month. (N)

- a. Limits on water hours: Water or irrigating of lawn, landscape or other vegetated area with water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day. (T)

- b. Fines and Flow Restrictors: (N)

- 1) During 2012 California American Water will only issue warnings to customers who violate of the day and time of use restrictions.
- 2) Beginning in 2013, California American Water may impose penalties on customers who violate the day and time of use restrictions if peak use in 2012 continued to necessitate supplementation of the system with potable water.
- 3) Penalties for violation of the day and time of use restrictions will become effective upon California American Water filing a Tier 1 Advice Letter (N)
- 4) If the Utility determines that a customer is in violation, the customer will be subject to the following fine structure.

First Offense: Written warning, including explanation of penalty for subsequent offense.
Second Offense: Written warning, including explanation of penalty for subsequent offense and a \$100 fine.
Third Offense: Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

- 5) Flow Restrictor Removal Charge: The charge for the removal of a flow restrictor shall be:

RESOLUTION _____

Schedule No. LA-4
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

Baldwin Hills Service Area consisting of Baldwin Hills, Windsor Hills, View Park, Ladera Heights, and vicinity, Duarte Service Area consisting of Bradbury, Duarte, portions of Irwindale, Monrovia, and vicinity, and San Marino Service Area consisting of San Marino, Rosemead, portions of San Gabriel, Temple City and vicinity, Los Angeles County.

RATE

	<u>Per Month</u>	
For each 4-inch connection or smaller.....	\$43.66	(l)
For each 6-inch connection.....	\$65.49	(l)
For each 8-inch connection.....	\$87.32	(l)
For each 10-inch connection.....	\$109.15	(l)
For each 12-inch connection.....	\$130.98	(l)

SPECIAL CONDITIONS:

1. The fire protection service and connection shall be installed by the Utility or under the Utility's direction. Cost of the entire fire protection installation shall be paid for by the applicant. Such payment shall not be subject to refund.
2. The installation housing, the detector type check valve and meter and appurtenances, thereto, shall be in a location mutually agreeable to the applicant and the Utility. Normally such installation shall be located on the premises of applicant, adjacent to the property line. The expense of maintaining all facilities which are the sole property of the applicant (including the vault, meter detector type check valves, backflow device and appurtenances) shall be paid for by the applicant.
3. All facilities paid for by the applicant, excluding the connection at the main and any service pipe located in a public right-of-way, shall be the sole property of the applicant. The utility and its duly authorized agents shall have the right to ingress to and egress from the premises for all purposes relating to said facilities.

Schedule No. LA-4 (Continued)
Los Angeles County District Tariff Area
PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

4. The minimum diameter will be 1 inch, and the maximum diameter will be the diameter of the main to which the service is connected.
 - a. The minimum diameter of connections for private fire hydrants will be six inches.
5. If distribution main of adequate size to serve a private fire protection system in addition to all other normal services does not exist in the street or alley adjacent to the premises to be served, then a main from the nearest existing main of adequate capacity shall be installed by the Utility, or under the Utility's direction, and the cost paid by the applicant. Such payment shall not be subject to refund.
6. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention device and a standard detector type meter approved by the Insurance Services Office for protection against theft, leakage or waste of water.
7. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities.
8. Subject to the approval of the Utility, any change in the location or construction of fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change.
9. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore at the regular established rate for general metered service, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.
10. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
